

# The Return of the God of War [The Protector]

## Chapter 2731 - 2740

### Chapter 2731

After all, these questions of Underworld God are too sharp.

No one can guarantee...

As decision makers, Xiao Liejun and Hong Qingcang's brains are running fast, weighing the pros and cons!

Don't withdraw, the loss is big.

Withdraw, if something happens, the loss may be even greater.

Even the gate of Daxia was lost, and the whole Daxia fell into disaster...

That is, what Levi Garrison said will happen.

Then they can't bear the responsibility even more.

Feng Xie Shen continued: "Before these problems are clear, if I want to withdraw suddenly, something may really happen!"

This time, Xiao Liejun and the others were even more embarrassed.

"Does everything continue? I can't afford the loss! It's too difficult!"

"Is there any compromise?"

...

Several people are very depressed.

"I have an idea! You don't need to withdraw, everyone will wait and see! Wait a few days!"

"In addition, don't be idle these few days. Hurry up and investigate the origins of these giant creatures. You can contact other countries to investigate together!"

"I believe there should be an answer in a few days! If there is no follow-up danger at that time, you can withdraw everything with peace of mind!"

"You should be able to afford the losses these days!"

Tiance Shenshuai came forward and suggested.

Hearing that, everyone's eyes lit up fiercely.

"This idea is okay! Let's wait and see for a few days, and thoroughly investigate the matter! If you then withdraw, then every aspect has been taken into account!"

"Furthermore, we have been able to bear the losses for more than a month. Can we still bear the losses in the past few days?"

"Okay, thank you Tiance! That's how we come!"

Xiao Liejun and the others agreed.

Soon Yan Longwei continued to evacuate, but left half of his defense.

The rear also left the reserve team.

In this way, even if something happens, it will be the first time.

Second, they dispatched intelligence agencies and began to unite with other countries to investigate the source of these giant creatures.

See if someone is controlling it?

A great war all over the world is over...

Everyone is cheering.

I feel that the times have changed.

Humans have no choice but to see giant creatures appearing in movies and TV series of the past.

But the fact is easy to solve...

Kill as many as you come.

...

the other side.

In the capital base of the Lab of the Gods.

“Did you figure it out?”

Mr. X asked the professional department of the Gods Laboratory.

“Well, 80% of Daxia’s deployment has been figured out! There may be a little error, or some hole cards may not show up! But we can analyze the top of the ten, and they are all under our control! Xia is no longer afraid!”

...

After listening, Mr. X and they all laughed.

The plan was perfect this time!

Kill two birds with one stone.

Even several carvings!

## Chapter 2732

He not only figured out Daxia's deployment, but also hid the real Big Mac, and stimulated the gods in Forbidden Land No. 76...

"Well, in the end Maya Industry and the Bible Organization have come to support!"

Lucifer said.

"It's a pity that Daxia's combat effectiveness is too strong, and it will be over when they arrive!"

"If Daxia is in a stalemate when they support it, maybe they might do it! Attack Daxia directly!"

Clown the Great, they really thought Maya Industry and the Bible Organization were the gods in Forbidden Land No. 76.

I thought it was really fake to support.

Actually want to do something against Daxia.

When Mr. X heard it, he smiled directly: "Hahaha... laughed to death, did Maya Industry and the Bible Organization really come to support it hypocritically?"

"But it's true?"

Mr. X is still more cautious, asked.

Several people nodded: "Of course! The Bible Organization and Maya Industry have taken out their hole cards! All the artifacts and armor are carried... I think they are ready to fight Daxia... But there is no chance to make a move... "

Mr. X nodded: "In fact, their purpose is the same as ours, to figure out Yanlongwei's hole cards and firepower allocation..."

"This is because Daxia won. If these giant creatures could pose a threat to Daxia, Maya Industry and the Bible Organization would have done it early!"

Others also said: "It is estimated that these guys in Forbidden Land No. 76 have already been gearing up in secret!"

“Although they don’t do anything, it is good for them. At least they can figure out the firepower allocation of Daxia. It will be more beneficial to them when they next act!”

“Daxia is going to be over, hahahaha...”

...

The conspiracy succeeded.

Everyone in the Lab of the Gods was laughing.

“I heard that Daxia has started investigating the giant creatures! It will take a few days! However, I have already arranged it! Lead them in other directions!”

“As for you, just continue to prepare! Soon our real plan will begin!”

Mr. X sneered.

“Okay, got it!”

...

the other side.

After Lu Xiong received the notice.

He hurried back and joined Xia Liejun and the others.

“What? I’m halfway through the construction of the island, let me stop? I won’t do it!”

“After paying so much, it’s all about the bones! Has this stopped?”

“No! Resolutely not!”

When Lu Xiong heard that he wanted to abandon the safety island project, he firmly refused to agree.

“But you have to respect the facts! Judging from the current situation, there is no such thing as the powerful Big Mac that the king said side by side. We can solve the problems that have emerged right now!”

“In that case, do we still need to waste it? It’s already a big loss!”

Xiao Liejun’s attitude was very hard.

Lu Xiong had a fiery temper, and he firmly believed in Levi Garrison.

Especially the plan is halfway through.

He is even more reluctant to give up.

The two sides quarreled violently.

## Chapter 2733

Jiang Ye hurriedly came out to complete the round: “Old Lu, it’s not for you to stop forever! It’s just a temporary stop! Now I have gone to investigate, and soon the results of the investigation will come out! At that time, I will decide whether the island needs to be built!”

Lu Xiong nodded: “If this is the case, I will accept it! If this is the case, I will definitely stop! I also want to reduce the loss for Daxia! But if it is true as the word side by side king said, you have to give me more strength! “

...

In the end, everyone reached a settlement.

For everyone in Daxia these days, they are all uneasy.

Especially the defensive line and the monitoring station, dare not close their eyes, waiting for the invasion of powerful enemies at all times.

Xiao Liejun’s few talents were not well rested, and they didn’t close their eyes for days and nights.

The results of the investigation came out.

These giant creatures come from the depths of a sea area.

Here is rich in energy materials, especially the anomalous electromagnetic force.

It's easy to breed such a behemoth.

Of course, they are allowed to wander around, but there are behind the scenes who are attacking each country-the Rock Experimental Group from the Warhawk Nation.

They have been studying this kind of creature or other secret weapons.

It is a great threat to the whole world.

After the investigation was clear, the major countries jointly eradicated it.

At this point, the crisis of giant creatures has been completely resolved.

There will be no more articles.

There will be no situation that Levi Garrison said.

After getting the survey results, Xiao Liejun and the others laughed.

"Remove the defensive line immediately..."

This is the fastest and most desired order given by Xiao Liejun and others...

The moment they received the message, they immediately ordered it.

"We must stop the construction of the safety island immediately! Try our best to reduce losses!"

"Let Lu Xiong come over immediately! Hurry up!"

...

Soon, the orders came to the forefront.

The soldiers on the defensive line have been closed for days and nights.

They have been nervous, always waiting for the arrival of the war.

The war did not wait until the end of the retreat order.

“Good! Great! We won!!!”

“Withdraw! Withdraw!”

“Everyone sing!!!”

...

As soon as the results came out, everyone felt relieved.

Singing and quitting.

On the long coastline, the scene of collective retreat is still super spectacular.

This also means that Daxia really won.

The people also began to cheer...

No need to continue to live in panic.

The retreat was too fast.

Within a few hours, the coastal defense line retreated across the board.

Nothing is left.

The speed is so fast that everyone jokingly calls it “Daxia Speed”.

But after they learned about the evil gods and gods of Tiance, they couldn't be happy at all.

Hidden danger!

What a hidden danger!

The withdrawal was too fast...

After all, Levi Garrison said that this thing is very strong, and he has been worried about it.

Levi Garrison's such terrifying strength all said so.

That means there is a real threat.

## Chapter 2734

Now that Daxia suddenly withdrew such a strong line of defense, it was tantamount to widening the country's gates and letting the Big Macs in.

But they are not decision makers after all.

There is no way to stop this.

In the previous words, Xiao Liejun and the others would listen to their opinions and discuss them.

But after the results of this investigation came out, Xiao Liejun and the others didn't even say hello, they just gave orders.

They value the survey results very much.

They would not believe what Levi Garrison or others said before the iron proof.

"what should we do???"

They are also helpless.

“For today’s plan, we can only focus on a little bit of movement everywhere. If there is an abnormality, we will prepare in advance!”

“Secondly, we are waiting for Mr. Ye to come out! I hope there will be no accidents during this time!”

...

In the Yanlongwei base.

Lu Xiong sat with a pale face, and everyone else was smiling.

In the face of this investigation result, Lu Xiong had to suspend the safety island project.

After all, he failed the bet with everyone.

Levi Garrison’s prediction was wrong.

None of these safety islands are used anymore.

Why build it with such a big loss?

“Lao Lu, you should be happy at this time. Don’t say that the Great Xia crisis is resolved! We can still reduce the loss! Good thing, this is!”

Everyone said.

Lu Xiong grinned reluctantly: “Of course I am happy that there is something wrong with Daxia! But I have a hunch that something is going to happen!”

“The safety island is half built, but it’s a pity...”

“You and the king of the word side by side as the leader of Daxia, be more sensitive and think long-term is a good thing! But we must also respect the facts! We can solve this disaster, and we have found the source, and dealt with the source. Something happened...”

Xiao Liejun said.

“Well, okay! The Safe Island project is abandoned, I will listen to you all!”

Lu Xiong said.

“Okay, then give the order-the safety island project is stopped! All manpower is recalled! All machinery and other resources are shipped back!”

“As for the materials and resources that are not available, they must be sold out to reduce our losses!”

“Especially the part of the materials we exchanged for precious resources by opening the treasury, we must find a buyer to sell it! Try every means to reduce the loss!”

...

Yanlongwei immediately issued the order to terminate the safe island project.

The people who are working on the safe island project are in an uproar...

Great! This project has finally ended, we can go back!”

“Yeah, don’t continue to work here!”

“I said earlier what is the use of building this thing? It’s not useful at all!”

...

After receiving the retreat order, the construction personnel frantically vented their dissatisfaction.

They wanted to withdraw long ago.

For a long time, almost everyone felt that building this thing was useless.

Just because of what Levi Garrison said, Daxia was so excited.

Send them to build a safe island day and night.

As a result, it cost such a big price.

In the end it was not useful at all!!!

Everything is in vain.

All of them were furious.

The key is that they all know that Levi Garrison ran away at the last moment.

The person is gone.

But let them continue to do this and that...

So now hearing the order to terminate the plan, everyone who is happy will jump up.

Don't forget the last few words of burying injustice Levi Garrison.

"The word side by side king, your prediction is right, but you bet wrong! These giant creatures are not as strong as you think!"

"It may seem to you to be very strong, but your strength is already out of style!"

...

Lu Xiong's people were evacuated.

## Chapter 2735

But there are still some secretly built by the Bible organization.

They were dumbfounded.

To build or not to build?

All the troops ran away.

Keep them?

They immediately contacted their superiors, the evil gods, wind evil gods and the like.

Tell them about this.

“You can’t go! A safe island must be built!”

“Listen to our mistake! The safety island is absolutely necessary!”

...

After the evil gods knew about it, they immediately ran to stop it.

Others don’t know.

Can they not know?

This is what Levi Garrison said!

That must be right!

There will be no problems.

Now that they suddenly withdraw, that’s no good.

But where everyone in Daxia will listen to him?

They all left without looking back.

“Stop all of us, no one is allowed to leave!”

Underworld gods are really anxious.

Hastily stopped people.

“Hey! There is no way! Now in this situation we can only withdraw...”

"I'm sorry, I can't fight side by side with you..."

A voice sounded.

Lu Xiong came to the court helplessly and apologized to everyone.

In his position, he can't tolerate his arrogance, and can only rely on true evidence.

He himself was helpless.

He believed that Levi Garrison was going to retreat.

Now, even if the people of the Bible Organization say that they are breaking the sky, it is useless.

"Hey, all right! Let's build the rest by ourselves!"

Underworld gods are also very helpless.

But there is no way.

This is the case.

"Well, head Lu, give us the materials and resources that have not been used up, and we will continue to come..."

Lu Xiong looked embarrassed: "Huh? This horror doesn't work! You guys are a step late!"

"In order to reduce losses! All remaining materials, even if they have been processed into semi-finished products, must be shipped back to Daxia. The requirement is to reduce losses at all costs! Even the pots and pans must be brought back. !"

"If it weren't for the fact that the island has been built in half, it has already taken shape! It is estimated that it will be destroyed, and the substances in it will be extracted and taken away!"

...

Lu Xiong reluctantly left with everyone and a large amount of resources.

The dark gods and their faces changed drastically.

Leave nothing?

All human and material resources should be removed.

“Then what shall we do now???”

Everyone asked.

“Our pressure is even greater, dozens of times greater!”

“Listen to my orders now! Hurry up and continue! Within the specified time, you can build as much as you want!”

“They are gone, we can only do our best!”

...

The evil god looked into the distance and sighed: “I hope that the master will not have trouble before he leaves the customs!”

However, we were supposed to deal with the next thing! The master won't be on it!”

“Once there is danger, we have to work hard!”

Feng Xie Shen and several people are ready.

“Hahaha, Daxia has withdrawn the defensive line! Everything has been withdrawn!”

“They thought it was really over! But the facts are in front of them, and it must be over if it doesn't end.”

“I have to say that Mr. X's plan is wonderful!”

The Lab of the Gods got the message for the first time.

# Chapter 2736

Everyone laughed and bloomed.

The situation they expected came.

Now the gate of Daxia is wide open, and there is no defense at all.

And just after the victory of a big battle, everyone is in a very relaxed state.

Many people even went on vacation or celebration.

At this time, the defense was even more slack than before.

Once the war starts again, they will not be able to react...

This is the most terrible.

"Mr. X, shall we act now?"

Everyone can't wait.

Want to act immediately.

Everyone doesn't want to let go of such a good opportunity.

"Don't worry! Even though the gate of Daxia is open now, it is a good opportunity for us to attack! But...it is said that some people still feel that the danger is not eliminated..."

"They will still stare! Especially at this time the Daxia State Gate just opened! It is even more when they are staring! According to general thinking, we will naturally attack at this time!"

Hearing what Mr. X said, everyone nodded.

Although it has little influence on the final result.

But it may be hindered halfway.

If someone is staring, it will be reported to Yan Longwei and Tiance Mansion as soon as possible.

Everyone can see how strong the fighting power of Yan Longwei and Tiance Mansion are before.

The Lab of the Gods also wanted to minimize the losses in all aspects.

Strive to win Daxia with the utmost confidence.

So be cautious and cautious.

Mr. X is always a prudent person.

He smiled and said, "I will give them two more days to observe..."

"If there is no situation, they will be confused, confused, and somewhat slack. That is the best time for us to attack! It's just a month and a half!"

Mr. X has set the time for the offense.

Everyone looked at each other with anticipation.

They have been holding back in the dark, and have long wanted to appear in the light.

It's finally coming.

Two days later.

They will appear in this world, opening their way to dominance.

The moment of supremacy they had always imagined was finally coming.

"Haha, I also want to thank War Eagle Nation! They stretched their hands too long! Energy power plants are spread all over the world, everywhere! This is too conducive to our plan!"

“Especially there are quite a few around Daxia. There are seventeen energy power stations in the Star Country, the East Island countries, and the nearby Warhawk Country... We have the most Leviathan (the evil monster in the Bible! The Gods Lab is the Big Mac). The code name for!) is hidden here! It is for Daxia...”

“Once we plan to open it, Leviathan will be able to reach the coastline of Daxia within an hour at the slowest. If it is faster, half an hour will be enough!”

“This is too critical for our plan. It is enough to catch Da Xia by surprise. The speed of the blitzkrieg gives Da Xia no time to fight back... When the time comes, the group of gods in Forbidden Area No. 76 will make another move. Da Xia will have no chance. Any way out...”

...

Mr. X is too confident about this.

Everyone present laughed.

## Chapter 2737

All are looking forward to two days from now.

The right time and place and...

It seems that everything is on the side of the Gods Laboratory.

Daxia is bound to lose...

Two days later, a real disaster is coming.

But Daxia withdrew everything.

The safety island project has also stopped...

But no one knew what was going to happen next.

The Black Hawk agent under house arrest tried to break free, but Mr. X did not give him a chance.

Especially at this juncture.

Mr. X came specifically to the place where the Black Hawk agents were under house arrest.

“Mr. Black Hawk wants to thank you, our plan will finally begin!”

“Just two days later, you will see the destruction of a super country!”

Mr. X made an explosive gesture.

Agent Black Hawk’s body trembled slightly.

Sure enough, it’s about to start...

The Lab of the Gods is terrible.

The key is that Levi Garrison is in retreat, and has no idea what the Gods Lab planned in advance.

But what does it have to do with him?

It’s good for the two sides to fight!

It’s best to lose both!

But the situation in Daxia is not good now, showing a one-sided state of affairs.

In this case, Daxia will not cause much loss to the Lab of the Gods.

This is not so good...

Agent Black Hawk thought that the result was a situation where Daxia and the Lab of the Gods were both defeated...

This is what is most beneficial to War Eagle Nation...

But now, Da Xia Ming was about to be violently abused by the Gods Lab, and even swallowed it in one bite.

Although for the Eagle Nation, there is one less enemy.

But the greater threat is still there...

And according to this situation, there will be almost no loss in the laboratory of the gods...

At most, all Leviathans have been wiped out.

But this actually doesn't hurt the foundation of the Gods Lab...

It doesn't even constitute harm!

It is equivalent to a complete laboratory of the gods!

## Chapter 2738

This can't work!

On the surface, although the Eagle Nation and the Lab of the Gods are partners.

But secretly, each other is the enemy.

Agent Black Hawk didn't want this situation to happen.

He is struggling.

Tell Levi Garrison this message.

Levi Garrison is so powerful, if he prepares to deploy in advance, he will surely inflict heavy damage on the Lab of the Gods.

Both sides lose out, this is a great situation.

When the time comes, the Eagle Nation will reap the benefits of the fisherman...

therefore.

Now I have to find ways to spread the message, let Levi Garrison know.

Even if you don't let Levi Garrison know, others will do.

correct.

Hasn't Levi Garrison been putting people around him all the time?

I should have found out this time?

wrong!

Let the pit!

Levi Garrison was just a warning, and there was no manpower arranged by them at all.

This is over.

The message can't get out at all.

Before Levi Garrison's retreat.

Said to him-let him have something to contact the god of evil of the Bible organization.

But he can't get out now.

Wan Wanzhen thought that the Lab of the Gods would put him under house arrest...

Difficult!

This is really difficult!

The Black Hawk agent's brain is running fast, trying to send the message out.

Is there any way to notify the evil god.

“Mr. Black Hawk is afraid that we will deal with the War Eagle Nation? Impossible! We must concentrate our efforts to deal with Daxia! The Leviathans hiding in various energy power stations must gather at the fastest speed to attack Daxia. There are Time takes care of others!”

Mr. X smiled and said: “So you don’t even think about sending the message to the Sky Shield Bureau and the War Eagle Nation! What a bad influence!”

## Chapter 2739

He thought that Agent Black Hawk looked thoughtful and wanted to send a message to the Sky Shield.

“Huh? I don’t have any...”

Agent Black Hawk was taken aback.

Explained hurriedly.

Mr. X smiled and left.

However, he ordered his subordinates to strengthen the guards and was determined not to let the Black Hawk agent send out any messages.

If necessary, you can kill it directly.

This is of course a last resort.

Now the Black Hawk agent is still famous.

When the time comes, he can quietly activate the energy power station with his authority.

In this way, all giant creatures like Leviathan can be shipped out.

If you kill him, it will be a little troublesome at that time, and it may be exposed...

This is a last resort!

Agent Black Hawk sweated coldly.

Thought for a long time.

I really can't think of other ways.

He also understands that Mr. X's defense is really impossible now.

He simply gave up.

I can only pray that Levi Garrison will go out early, and when he finds that he can't get in touch with him, he will understand the anomaly.

So he can prepare in advance.

I can only pray.

...

Mr. X, who left the place of house arrest, sneered.

"Sure enough it is him!"

It turns out that the Gods Laboratory has found safe islands and other items.

## Chapter 2740

Although the safe island was carried out in secret.

But the Lab of the Gods has too many eyeliners in Daxia.

It is normal to know this message.

Now that the safety island has been built.

This shows that Daxia has responded in advance.

Then why do they want to build a safety island?

I must have received some of the information before I started to respond.

Who revealed the information?

Agent Black Hawk!

The motivation is also very simple!

I want to see the Lab of the Gods and Da Xia fight each other, and there will be a situation where both sides will suffer.

therefore.

Mr. X will put the Black Hawk agent under house arrest.

Let him not send out any messages.

It can't be given to the Sky Shield Bureau and the Eagle Kingdom, let alone Da Xia...

From the moment he decided on his own plan, his performance can illustrate this point even more.

therefore.

The Lab of the Gods was right, but not completely right.

Ignore the character on Daxia's side-Levi Garrison.

...

Although Daxia has already withdrawn.

However, the Bible organizes the evil gods and the others, according to Levi Garrison's orders.

Build a safety island.

Observing is still observing.

Levi Garrison confessed to them, paying particular attention to the major energy power plants of the War Eagle Nation.

When the time comes, the Lab of the Gods will hide all the Big Macs here.
