

The Charismatic Charlie Wade Chapter 3805

The team leader of the Abbas Army said with a serious face: “What are you talking about? You ran over to rob the freighter we escorted. Instead of killing you, we gave you a lifeboat. You said that I wanted to kill you. You? You don’t want to think, even if you sell these six scums, it’s not worth this lifeboat!” The pirate cried angrily: “Then hello, do it to the end, at least leave an engine so that we can drive back to the base!” The team leader smiled and said, “It’s okay. I see your base is more than a hundred nautical miles away, so you can go back.” “Draw back...” The pirate collapsed and cried and protested: “Even if it is really drawn back, it will take at least a few days! We have no food or water, so why don’t we go back alive...” The team leader asked with a surprised look: “Aren’t you pirates? The pirates are afraid that there is no food or water at sea? There are so many merchant ships in the Gulf of Aden, so you can grab what you lack!” Hearing this, the pirate looked desperate. Their weapons were all confiscated, not even a rope that could climb the freighter was gone, and the lifeboat had no power, it was all holes. In this case, let alone hijack the freighter, even if the freighter passed by and broke open. The surge will also overturn them. At this time, the team leader of the Abbas Army said: “Okay, it’s getting late, and it’s time to hit the road.” With that said, he instructed his subordinates next to him: “Release the lifeboat!” The subordinates immediately started the lift, and the lifeboat began to slowly descend from the ship’s side. The pirates didn’t have the original arrogant posture at this time, all of them crying, as if they were dying. Seeing that the lifeboat had been put down continuously, the leader shouted in horror: “Brother, give us some fresh water...otherwise we really can’t hold on...” The team leader lay on the side fence and said with a smile: “I think it is more realistic for you to pray that God will rain on you.” The man looked at the surrounding sky, and the sky over the entire Gulf of Aden could be said to be clear and cloudless. According to this posture, there may not be rain in a week. At this moment, the squad leader took out a pistol from his waist, and even fired several shots, hitting the rope suspending the lifeboat with great precision. Immediately afterwards, the rope broke, and the entire lifeboat

suddenly fell from the side of the ship several meters high and hit the sea. Accompanied by the crazy screams of six people, the entire lifeboat slammed into the sea, and the bullet holes that had been pierced by the gun before spewed straight water jets because of the pressure. These six people were also thrown into the sea. Some people even fell into the sea. At the same time, when the giant ship moved forward, it pushed up high surges on both sides, rushing them out of the boat with people. Some people fell into the sea and didn't come up again, while the remaining few people on the ship After desperately holding the ship's hull, he began to splash water with his hands, and even some people used both hands and feet to try to block more than 20 bullet holes in the bottom of the ship. At this time, the team leader of Abbas Army remembered something and asked his subordinates around him: "Oh, yes, there is no life jacket in the boat?" The other party replied: "The captain can rest assured, there are life jackets, but they are all punctured in advance, and they can't blow them to death." As he said, the other party said: "In addition, the bottled water in it, we also replaced it with sea water in advance. As for the compressed biscuits, we saved a little for them, but the more they eat, the more thirsty they are. It is probably not as good as none. ." The captain gave a thumbs up and exclaimed sincerely: "Good job!" Sure enough, the few people in the lifeboat saw no hope of plugging the leak, and the leader immediately shouted: "Look for an emergency kit! This kind of lifeboat must have an emergency kit! Maybe there are life jackets, food and water!" A group of people immediately found the emergency kit hidden under the deck from the rear of the lifeboat.
