The Return of the God of War [The Protector]

Chapter 2834 - 2835

Chapter 2834

"Welcome to Doctor Dark!"

Everyone shouted.

When the door opens.

Doctor Dark walked in.

A decent suit, elegant and luxurious on him.

Wearing a ring on a pair of long and narrow hands and a famous watch on the wrist, both show their temperament.

A handsome western side is eye-catching, wearing gold-rimmed glasses.

He exudes the temperament of a noble gentleman, which makes people feel illusory, as if unreal...

The whole person feels like a royal prince!

He is standing with Mr. X.

One is a suit thug, the other is a suit gentleman.

But who can think of such a gentleman as a prince.

He is a veritable butcher! ! !

He has been habitually holding a scalpel in his right hand!

A black scalpel!

A scalpel that can cut anything!

Every day I don't know that when I am dissecting a living thing, I am on the way to anatomy.

In other words.

He kills every day, and he kills many, many, many...

There is never a time to stop.

No one knows how many years he lived.

It would be even more shocking if you knew it!

You must know that Mr. X met Doctor Dark for the first time, he looked like this.

Seeing him 30 years ago still looks like this!

The Dark Doctor seemed to be frozen in this image.

Never changed...

So even Mr. X doesn't know how long Dark Doctor has lived...

The secret of his information is estimated to be controlled only by the main priest.

But what puzzles everyone the most is that Doctor Dark is just an ordinary person.

Really ordinary people!

Why can he freeze his appearance without getting old?

Why can we create projects beyond imagination?

Can't figure it out!

But the more ordinary people are, the more jealous Doctor Dark makes everyone!

Whose ordinary people can go deep into the No. 76 Forbidden Land and grab a few "gods" back?

Whose ordinary people can kill the second-generation blood ancestors of the blood clan alive for anatomy...

There are too many legends about the Dark Doctor in the Lab of the Gods.

His legendary level is incomparable even by the chief priest.

It is the existence that most people admire most in the Lab of Gods!

It is also the one that Mr. X admires most!

The most terrifying thing is that Doctor Dark actually works in a hospital in the Eagle Nation.

No one knows his true identity at all.

"Doctor Dark, you can come. Could it be that Leviathan has the message?"

Mr. X asked.

The others also leaned in.

"Um!"

Doctor Dark nodded.

"How? Where is Leviathan?"

Everyone couldn't bear the excitement and looked at him one after another.

Doctor Dark shook his head: "I don't know where they are... But they are all dead!"

"What??? Dead???"

The language is not surprising and endless.

The words came out.

The audience was horrified.

Everyone's eyes are about to fly out.

Leviathan is dead?

How can it be?

This is absolutely impossible!

"Impossible! If Daxia and the others can really kill all the Leviathans, can they still use a conspiracy? To attract all the Leviathans away and trap them in a mysterious place!"

"Yes! And the exact information we got-Daxia just trapped Leviathan! There is still a deadline, the shortest one month!"

"Not to mention that Leviathan is so powerful, what do they use to destroy it? It is absolutely impossible to die!"

...

Everyone began to argue with the Dark Doctor.

Everyone thinks that Leviathan can't be destroyed!

That's three thousand!

What to kill?

Don't say anything else!

If the Lab of the Gods did not control it, it would take a lot of effort to deal with Leviathan.

The loss is also quite heavy!

How could other people have a way to get rid of it?

This is impossible!

They don't believe it!

I didn't believe it if I was killed!

The Leviathan that others have seen is actually one-sided and incomplete.

But they are different.

Know all about Leviathan!

This made them understand that Leviathan could not be killed!

There is no one in Daxia who has this ability!

Leviathan is invincible!

"Doctor Dark guesses you made a mistake, and now we just can't contact Leviathan! We lost contact, not that they were all killed."

Mr. X thought that Doctor Dark had no idea about Leviathan's disappearance.

Also a special reminder.

Doctor Dark nodded: "Well, I know! But they are indeed all dead!"

"what???" This time, it was everyone's turn to be surprised.

“Doctor Dark, really all the Leviathans are dead?”

Everyone’s eyes are full of incredible.

Doctor Dark nodded: “Yes, wrong! As you know, each of Leviathan has an energy core! It is equivalent to the fusion of key organs such as the human heart and brain!”

“Now I have noticed that the energy cores have stopped working, or have been shattered! So they are all dead!”

“Huh? Really?”

Some people have been scared by Doctor Dark.

Chapter 2835

Face pale!

If Leviathan is dead, it will be a bad news for them!

“It’s still impossible! At most, you can’t sense it! Because Daxia introduced Leviathan into a mysterious area, which is a place isolated from the world.

Can block any signal! Even the most advanced technology can’t be used!

As for you, it must be because of being blocked, you can’t calmly sense it! “

“One more point-this mysterious area is likely to be related to Forbidden Land No. 76, but the group of guys in Forbidden Land No. 76 can’t kill Leviathan at all!

When you designed Leviathan, you specifically targeted Forbidden Area 76... Although their supernatural powers or artifacts can hurt, they can’t hurt the core of Leviathan!

Do not worry! The Leviathan Legion is so powerful! Within seven days, I will definitely get it back! “

What Mr. X said is reasonable and well-founded.

Everyone feels reasonable.

The Dark Doctor didn't speak anymore.

Instead, he asked: "Did those guys in Forbidden Area No. 76 unite with Da Xia?"

"Yes! So far, they will try their best to help Daxia!"

Lucifer nodded.

"Well, I will attack Daxia in seven days! I will take care of the No. 76 Forbidden Land personally!"

Doctor Darkness was cold.

"In addition, the main divine division will take appropriate action when you encounter obstacles!"

"clear!"

Everyone nodded.

The Dark Doctor looked at Mr. X again: "What do you think about the Eagle Nation?"

"Warhawk Nation is actually very powerful, but we all know each other too well! We all want to be the overlord! I think it is unlikely that they will surrender!"

"Now our strategy is to level the world! Cooperation with the war eagle country is of little significance! It is inevitable that we will go to war with the war eagle country!"

Mr. X said several people.

"In that case! Don't let War Eagle Nation and Daxia cooperate! Cut off the communication between each other!"

Great stimulus to all countries.

The Kingdom of God also gives preferential treatment to the Kingdom of Giant Elephants and is directly called the first country under the Kingdom of God!

Given the name of the giant elephant kingdom!

The favorable conditions obtained are simply unimaginable.

The Giant Elephant Nation has even more weapons that have never been seen before.
