# The Return of the God of War [The Protector]

## Chapter 2842 - 2843

### Chapter 2842

That's not right! Even if Levi Garrison has strong guards by his side! Even to pull out the gods of the sky! With the strength of the four clown emperors, no matter who guards, right? Levi Garrison can still be killed, Retreat all over!"

This is everyone's affirmation of the strength of the four.

They are generally aware of all the strong in Daxia.

It is difficult to kill or trap these four people.

In other words, it is impossible at all.

"It should be that something else has happened. Go and find out what's going on! Go and see if Levi Garrison is dead? Or is there chaos in Daxia?"

Mr. X immediately ordered.

The advanced intelligence system of the Kingdom of God went to investigate immediately.

After a few minutes.

The message came back.

"Huh? What's the situation? Daxia's side is calm, nothing happened. Nothing happened. Nothing happened in their defense line!"

This information comes.

Everyone's complexion changed drastically.

"What? Nothing happened? If Lucifer's four had an accident, it would definitely cause an uproar in Daxia. Now nothing happened?"

unusual!

Not normal at all!

"Levi Garrison is still patrolling around the East Island, as if he didn't meet Lucifer at all!"

Another piece of information came.

Everyone was stunned.

In this case, the four of Lucifer disappeared mysteriously.

There weren't even a chance to show up near Daxia, and even no one went to kill Levi Garrison...

The intelligence department of the Gods Laboratory confirmed again and again.

There are no traces or traces of the four of Lucifer.

Especially when they set off, they used the super powers of the sea monsters to walk under the sea.

No trace can be captured.

...

The series of evidence given now is that they disappeared after they set off.

It has not reached Daxia, and there is no way to kill Levi Garrison.

The only explanation is that they disappeared in the sea.

Seven or eight hours have passed.

There is still no contact.

This is Mr. X's capable man, and he naturally doesn't want to give up like this.

Immediately sent many people to search in the sea.

Even if you die or evaporate, you have to find the cause!

"So what about Levi Garrison?"

Someone asked.

Levi Garrison is still alive now.

## Chapter 2843

After all, the initial purpose was to kill Levi Garrison.

"Yes, if you want to know that Lucifer and their disappearance have nothing to do with Levi Garrison, you have to continue to send people to kill him! Killing him while seeing what happens is killing two birds with one stone!"

Everyone said.

"Okay, Levi Garrison must die! Just to see if this matter has anything to do with him!"

Mr. X said.

"But who should I send?"

Now that the four of Lucifer disappeared, then they could not send anyone casually.

Send someone who is stronger than them, can control the situation, and can send back messages.

Gradually, Mr. X's eyes fell on a person in the corner.

He was wearing a black suit, and his whole person was wrapped in it.

Only a pair of dark eyes were revealed.

But it gives people a feeling of black stars.

It seems that the closer you get to him, the whole person will be sucked away. Dark Devourer!

It should now be called the Darkness Devouring God!

The Laboratories of the Gods now call themselves gods.

The Dark Devourer, from the moment of birth, all creatures close to him will be sucked out of life essence and die.

Even swallowing everything, the surrounding flowers, plants, trees, insects, fish, birds and beasts, as long as they get close, they will all be swallowed.

Over time, he became a great plague god.

Later, I met Doctor Dark and helped him improve, giving him the ability to control swallowing.

Able to control devouring!

In fact, it is similar to Daxia's suction power\*\*.

But he is a natural talent.

The nature is the same.

Strengthen yourself by absorbing (devouring) the strength of other people.

It is precisely because of the existence of the Dark Devourer that he can bear no matter how much he swallows because of the race bloodline problem.

This allowed the Lab of the Gods to transform Chen Kong's physique so that he could bear the side effects (cannot bear too much power!)

It is because of the Dark Devourer that the biggest shortcoming of suction power is improved.

Today's Dark Devourer can be compared to the pinnacle of power absorption.

But definitely much stronger than Chen Kong before.

His strength is also higher than that of the four of Lucifer.

After all, against him, it is likely to be swallowed.

Even people who are stronger than him are not his opponents.

Devouring this talent is terrible.

I can't beat you, but I can swallow you...

Sending him to Mr. X is very relieved.
