# The Return of the God of War [The Protector]

## Chapter 2878 - 2880

### Chapter 2878

Only now did they understand to underestimate the enemy.

Even if the coalition forces put out such a big battle.

The Kingdom of God is still powerful and invincible!

Many weapons and equipment have never been seen before!

You can't be brave!

Go up all dead.

What's the use of being brave?

Just the red beam coming, who can stop it?

Isn't it all going to die?

You think all the coalition forces are strong, but they are even stronger.

Underestimate the enemy!

Still not listening to Levi Garrison's dissuasion!

"You have to cheer up, otherwise what will all the soldiers in the rear think if you see this look of yours?"

“And the enemy is coming right away! As commanders, you must start to command!”

The evil gods who were left here by Levi Garrison began to persuade them.

Soon, the Titan War God reacted immediately.

“Everyone is working hard! A fierce battle is coming! I won’t lie to you! The enemy is very powerful, even stronger than we thought!”

“Many of us will sacrifice! Even the entire army will be wiped out, and no one will be able to go out!”

“But behind us, is the land we guard, where are our family, love, and friends! We must fight this battle! We will win with all our best!”

...

The Titan God of War still has the temperament of a leader and commander.

A few words infected the audience.

All the soldiers walked out of the haze, and started yelling one by one.

Fear that fear is already there.

Only the determination to fight to the death!

“However, we have to change our plan too! We can’t go head-to-head, their weapons are too powerful. We can’t sacrifice in vain! We have to find a way!”

“Fortunately, the military divisions of our think tank have prepared four combat plans in advance! This situation is also predicted!”

“Then all parties began to follow my instructions and act!”

The Titan War God ordered.

In fact, these four sets of plans did not take them seriously at the beginning.

After all, the Titan God of War is known for his toughness, and his battle must be a head-to-head confrontation!

These four methods are equivalent to being abandoned...But now these four abandoned plans have been picked up by him, and they have become life-saving magic weapons.

Not to mention that the implementation of these four plans will win.

But they won't lose so fast, they have time to continue to deploy and find the direction to win.

"Understand! We will execute it immediately!"

Soon, the Titan God of War came up with Levi Garrison's first plan.

Sure enough, he had anticipated what the enemy would do if he had such an indestructible weapon?

What if they use this invincible weapon to crush it all the way?

Isn't this problem exactly the same as the one you just encountered?

Is the kingdom of God now swept and crushed everything with the beam weapons of five giant spaceships?

How can this be done?

The Titan War God and a group of lieutenants couldn't think of any way.

I was scared to pee my pants just now.

Faced with this situation at a loss!

But Levi Garrison's first plan has the answer.

He thought about this issue early on.

Incidentally, if the Lab of the Gods still attacked by a giant like Leviathan, how should we deal with it?

Naturally, it will not be a fight with a real sword.

That way, there are not enough people.

## Chapter 2879

The Titan War God immediately deployed according to Levi Garrison's plan.

In the shortest time, everything will be deployed.

"Now go and bring me Junshi Ye back! Say I need him! Everyone needs him!"

The Titan War God shouted.

In the command room, a group of lieutenants bowed their heads.

In order to force Levi Garrison away, they did nothing to change the commander in command.

They felt that they were about to win if Levi Garrison was forced away.

Where to know.

Now is the moment when he is most needed!

I want to invite him back again!

Everyone looked ashamed and couldn't wait to find a place to get in.

The soldiers are the same.

Before, I felt that Levi Garrison was timid and fearful, even the enemy dared not encounter it head-on.

Only now did I understand his good intentions.

It's like Levi Garrison's own words are wrong.

He wants to reduce casualties!

Win the victory with the least loss!

"Rumble..."

In the waves of tsunami in the mountains.

The army of the Kingdom of God has been suppressed.

The five huge flying ships almost obscured the sky, making the sky dark all of a sudden.

Seeing the giant flying ship not far away from their respective positions, they were all shocked.

I know what kind of existence I am facing...

The eleventh line of defense has a natural advantage, with endless mountains on both sides and the sea in between.

Only two giant flying ships can pass.

If the five huge flying ships go hand in hand, they will not be able to pass.

This is a natural barrier.

At this moment, on the first position ahead, the Titan God of War had deployed everything according to Levi Garrison's first plan.

Just wait for the army of the Kingdom of God to fight to the death.

Seeing the flying giant ship within range, the Titan War God immediately ordered.

"Boom boom boom..."

**Read full novel here** <https://novels.fun/>

Numerous formidable weapons began to launch indiscriminate, covering bombardments on the flying giant ship.

The secret weapons of various countries are used.

Many of them don't even know about the Lab of the Gods...

The number of systems that fire weapons is around 200,000.

That scene is called a shock!!!

It is almost to destroy everything!

"boom!"

"boom!"

"boom!"

...

When hitting a huge flying ship, most of the weapons are simply not useful!

But some secret weapons, or tricky weapons, are still useful for flying giant ships.

Damage to the hull.

If this continues, even the main body of the flying giant will be hurt.

Angry!

Completely angry!

"Destroy them! Destroy everything ahead!"

The Gods Lab immediately fought back.

The weapon launch ports on the five huge flying ships were all exposed, with a total of 100,000 weapon launch ports.

“Boom boom boom...”

Initiate the most violent destruction to the front position for the first time!

The red light beam is directly flooded like a flame...

In the command room, the Titans and the Gods of War cheered: “f\*cked! They are fooled!” The Titan War God and a group of lieutenants shouted.

The command room was boiling.

The rear is also boiling.

Because the Lab of the Gods was fooled!

There is no other reason.

The front positions that are now bombarded by the five giant flying ships of the Gods Lab are simply false positions!

This is the battle plan that Levi Garrison has set in advance!

How to deal with this invincible weapon?

It’s definitely not good to play head-on!

Have to think about it!

## Chapter 2880

The weapons of the Lab of the Gods are powerful, but its ammunition is not unlimited, right?

It will always be used up, right?

**Read full novel here** <https://novels.fun/>

Even new weapons use energy beams, but this kind of resource is even rarer.

Absolutely not unlimited supply!

When it's definitely used up!

Levi Garrison's expectation was wrong.

All weapons are not infinite!

But it will not be used up for the time being.

So this plan of Levi Garrison is how to finish the enemy's weapons?

It is to continuously consume the weapon firepower of the Gods Lab!

In layman's terms, it's a lie!

Similar to the grass boat borrowing arrows!

It is to fool out all the firepower of the Gods Lab!

Therefore, Levi Garrison's plan is to construct a false position!

The layout of the position is fake!

Soldiers, weapons, and various equipment are fake, and many of them are drawn on cardboard to make up the number.

Many large weapons, etc. are also cut out of paper shells and painted with colors.

From a distance, it looks exactly like the real thing.

If you don't look closely, you can't tell it at all.

Of course, in order to prevent the opposite technical scan.

After all, with such a strong high-tech in the Lab of the Gods, a random scan will reveal that the positions are fake and the people are fake.

But for this situation, Levi Garrison was also prepared to let the Titan War God launch a super fierce attack.

In one fell swoop, the Lab of the Gods was angered, no matter what the three seven twenty one, first destroy the opposing position.

I was so angry that I just wanted to destroy everything in front of me.

Therefore, the first round of the attack launched by the Titans is at all costs!

Can beat the lab of the gods to anger!

Sure enough, it worked.

The Lab of the Gods was angered.

Regardless of the three seven twenty one, destroy the front position first!

Let the other party know the cruelty of the Lab of the Gods!

Therefore, the 100,000 weapon launch ports of the flying giant ship have unlimited firepower!

Compared with the previous attack that defeated the Titan War God, the firepower was more than dozens of times stronger.

The terrifying red beam turned directly in front of it into a sea of red light.

Everything in kind was shattered and disappeared immediately.

Even the sea water has evaporated one ton after another.

It really means erasing all traces!

What if you want to erase a civilization and a country?

We must rely on this weapon.

Erase everything instantly!

No trace will be left!

Therefore, within a few tens of seconds, the formed position was completely destroyed.

Nothing!

However, the Lab of the Gods never thought that this turned out to be fake!

Half of it is cut out of cardboard.

However, whether it is true or false, the red light beam disappears instantly.

The result is the same!

However, this time used dozens of times more energy than before!

“Report! Stars 1 to 5 have 60% energy left!”

The captains of the big flying giants report to Mr. X.

“Enough, sixty percent! Enough to flatten this place!”

Mr. X looked confident.

“Keep going!”
