The Return of the God of War [The Protector]

Chapter 2932 - 2934

And the three characters of the Dark God never appear, are they fictional?

But there are on the list of gods, and the dark web admits...

There is a lot of discussion.

After all, victory, everyone's face is filled with the joy of victory.

The four chiefs of Yanlongwei couldn't be happy, they looked solemn and worried.

"What's the matter with you, Head Xiao?"

Tiance Shenshuai couldn't help asking.

"Yeah, we have won big battles, why are all of them unhappy. What are you afraid of?"

Everyone asked.

Xiao Liejun shook his head helplessly: "In fact, there is still a crisis..."

"for example?"

Everyone looked at him and asked.

"Remember those three thousand Leviathans?"

Xiao Liejun reminded this.

Everyone just remembered one after another.

Wrong.

Although the three thousand Leviathans were trapped, it was temporary.

Once let them break free.

That would be a disaster!

At that time, if the War Eagle Nation does not care, then Daxia will be difficult to deal with.

So far, there is no direct way to deal with it...

So this is a potential crisis!

If it is not resolved, it is likely to cause harm to everyone.

“That’s right, isn’t it the word side by side king said, don’t you care about this matter?”

“Why are you still struggling with this!”

Tiance Shenshuai couldn’t help but say.

“How can it not be entangled? This is a hidden danger after all, and even though the King of Side by Side says that, he doesn’t even know where the Atlantis plan is? I just heard of it!”

“Three thousand Leviathans are just trapped, not wiped out!”

“Only when it is really eliminated, the hidden danger will be eliminated!”

“Yes! This is our current key problem!”

This time, Lu Xiong was also here.

After all, he proposed the plan.

Tiance superintendent believes what Levi Garrison said.

I don't care about them anymore.

Leave from the crowd.

After Levi Garrison knew about this, he didn't care about it anymore.

Anyway, the crisis is in contact, and nothing happens, so let them toss.

Then everyone began to discuss how to deal with Leviathan.

Regardless of how easy it is to deal with the enhanced version of Leviathan by the strongest of the main gods, it is as difficult as heaven for them.

After returning to Daxia.

Yan Longwei announced several decisions—

First, Levi Garrison is still the king and has the right to mobilize. This battle convinced everyone.

The strategy is invincible!

The second is that the safe island project proposed by Levi Garrison will continue and increase investment.

Not only that, even the national powers that have good relations with Daxia and neighboring countries must join Daxia to carry out the safe island project together!

Originally, Levi Garrison planned to build 100 safe islands with Daxia, but Daxia is now investing heavily and uniting countries.

A total of at least five hundred safe islands must be built.

If this is built, there is no need to be afraid of any crisis.

Then Levi Garrison's worries can be resolved.

He strongly supports this.

Let the biblical organization and all aspects be full support.

So the safe island project started immediately.

Coupled with previous experience, all parties will soon be in place...

The third matter, Yanlongwei, was not announced on the spot.

Instead, it became an internal meeting of Yanlongwei.

Even Levi Garrison and Tiance Superintendent were not able to participate.

The theme of this conference is naturally Leviathan trapped in the Atlantis base.

This is a secret in Daxia Secrets.

Of course others can't know.

The Yanlong Guardian will be on guard.

"Next, everyone will discuss how to deal with Leviathan?"

Xiao Liejun presided over the meeting.

Hong Qingcang said: "Why not, let's see what the status of the Leviathans are before deciding our plan!"

Jiang Ye echoed: "That's wrong! It depends on the degree of their trapping. If they are trapped deeply, we can study it for a long time. If trapped shallowly, we have to think of a solution right away!"

Lu Xiong sighed: "But the base of the Atlantis project is isolated from the world. We don't know what's going on inside! We can't send someone to see it in person, right?"

"This method is feasible! Let me personally lead the team to see the details?"

Xiao Liejun was the first to stand up.

“I am coming too!”

Lu Xiong also stood up.

Chapter 2933

“Several leaders, don’t you have my expertise in this kind of thing? Or I will lead the team myself!”

Cao Zhiguo of the intelligence department finally led the mission and went to the base of the Atlantis plan.

However, he divided the people who went there into five teams to take care of each other.

In the end, even if you encounter danger, you must desperately send a small team to tell the situation.

Soon, everything was ready.

The five teams set off back and forth.

They are familiar with the road if they have a map.

But when I came to a place where the signal was blocked, I found that it was quite different, as if I had encountered something here.

But isn’t it? The Lab of the Gods sent a large number of manpower to explore this place, and almost completely hollowed out this sea area.

But they still go all the way if they have a map.

“Um?”

“Why is this passage different from the last time I came here? It seems that someone has fought before? It’s destroyed very much!”

“Yes, not only is it different from the one on the map, it’s even different from the last time I came here, the damage is too serious!”

There are many people in the team who have attracted Leviathan some time ago.

Found that this channel is completely different.

How do they know that the Dark Devourer has chased Levi Garrison here...

However, they came to the base of the Atlantis plan without risk all the way.

It’s too quiet.

Everyone goes deep all the way.

“f*ck? This...”When someone talks about it, it is the “quintessence” of Daxia.

After all, in this shocking situation, blurted out.

“Gosh, what did I see?”

“This, this...”

Cao Zhiguo and the others are crazy.

Because I saw traces of the fall of Leviathan in the base of the Atlantis Project...

Although Leviathan’s body was directly shattered at first, all the traces sank to the bottom of the sea.

The traces of this behemoth are too easy to discern.

Three thousand Leviathans!

Three thousand!

They are all killed!

No one left?

It was shocking!

All this is unimaginable!

The question is coming, who did it on earth?

Who has such great ability?

And looking at the battle scene, there was no damage to the seabed base planned by Atlantis.

Of course except for the door.

An obvious huge fist mark fell into the eyes of everyone!

But this must be left by the people or forces who killed Leviathan.

Maybe he was trapped inside, and he had to come out before he broke it with a punch.

Moreover, Cao Zhiguo knew from the information that the walls and gates around the Atlantis Project base were indestructible.

Therefore, if Leviathan is trapped here, Yan Longwei will be relieved.

It was too exaggerated to smash with one punch.

The main reason is that there are no traces of battle inside.

That means that these Leviathans were all killed instantly!

No ability to fight back!

Don't even struggle a bit.

You know that they are three thousand behemoths, they don't even have traces of struggle!

This is no ordinary spike!

It may kill all Leviathans instantly!

How terrible is this? ? ?

Everyone was in a cold sweat, shaking uncontrollably!

Who did this?

who is it?

I can't think of who...

From the Eagle Nation?

This is your first thought!

After all, the Galactic Guardian Alliance just defeated the Lab of the Gods!

They can all create an enhanced version of Leviathan, and it's definitely not a problem to deal with Leviathan.

But the only thing that doesn't make sense-the war Eagle Nation can't know the plan of Atlantis of Great Xia.

If it weren't for this emergency situation, the leaders of Lu Xiong would not have raised it.

If the Eagle Nation even knew this, it would be terrifying.

But I don't know, this idea can be ruled out.

“Who will it be? When is the Atlantis plan still hidden? This has not stopped! What strong people or secrets are there to protect?”

Cao Zhiguo muttered to himself.

“It’s very possible! In my opinion, half of such a huge project has not been repaired? It’s just stranded? The reason can’t be that simple, right?”

“That’s right! It took so many people to disappear for so long with the expense of financial resources and materials, and the whole base was unfinished? It is unbelievable? I think there must be something in it...”

...

Everyone looked at the magnificent base in front of them. Although it was quiet, it was terrifying to the extreme, as if there was something in the depths.

Of course they suspected that Leviathan was eliminated by whom, they were all wrong.

That’s what Levi Garrison did!

What’s up with other people!

However, their doubts about the midway of the Atlantis plan are justified...

After all, such a magnificent project is half-finished?

Spent so much manpower, material resources and financial resources.

You know, this project was a long time ago.

At that time, it was hard in all aspects, and it was a far cry from the present!

Building this, to be honest, is thousands of times more difficult than it is now!

This plan shouldn’t be abandoned...

But it was so abandoned.

Chapter 2934

Moreover, the location chosen is to isolate everything from the world, even modern technology, the technology of the Gods Laboratory is not good!

These are enough to illustrate the unusualness of this place.

There is definitely a reason for the sudden suspension of the desertion! And this reason must make your scalp numb, and once it comes out, it will shock the whole world!

Everyone looked ahead with solemn expressions.

Cao Zhiguo said silently: "Unfortunately, I only read a little bit of the top-secret files. I heard several leaders say that they didn't mention the reason! I don't know what the reason is!"

"Let's leave as soon as possible! Tell the leaders of this message!"

...

Feel the fear in this place.

Cao Zhiguo immediately evacuated from this place with five teams.

"What? Leviathan was all wiped out? Isn't that impossible?"

When the leaders of Yanlongwei learned about this, their faces were unbelievable.

"Yes....."

After Cao Zhiguo explained everything in detail to everyone.

More and more shocked!

Kill three thousand Leviathans instantly, without any traces?

“Who did it?”

This is everyone’s question.

“This time I seem to have heard that the king is playing the legendary Heavenly Master’s Mansion and the Summon Division to frighten the kingdom of God. However, it is said that the Heavenly Master’s Mansion and the Summon Division do not exist! It’s fake!

Is it possible to be true? They do exist! Help us get rid of Leviathan! There is also the use of giant crossbows to shoot and kill the generals of the Kingdom of God...”

Cao Zhiguo analyzed the way.

“Do not rule out this possibility! But for the time being, this matter is kept secret! Never mention the destruction of Leviathan to anyone! Let others be suspicious, so that it can act as a deterrent!”

Under Xiao Liejun’s suggestion, this matter was digested internally.

It has not been passed on.

Classified as confidential.

This makes everyone suspicious-where is Leviathan trapped? What is Leviathan now?

...

Levi Garrison’s rare leisure time over there, reunited with his family.

But he also has doubts.

In addition to Doctor Darkness, there is also why the Galactic Guardian League retreats suddenly, which also makes him feel a headache.

He couldn't figure it out, but he didn't think it was that easy.

It seems that I have to find an opportunity to go to War Eagle Nation to ask Black Hawk agents.

...

Since the kingdom of God was defeated.

The Guardian of the Galaxy Alliance immediately occupied the kingdom of God's future science and technology.

People, kill them.

Things, carve up.

After all, the things of the Kingdom of God are good things!

In the end, this future science and technology city was taken over by the War Eagle Nation, and the Black Hawk agents also brought a large number of agents from the Sky Shield.

The purpose is to check the whereabouts of the dark doctor and the brain of God.

It's just that I rummaged through the entire future science and technology country, and I didn't find the whereabouts of Doctor Dark or the slightest clue.

In the Black Hawk agent's opinion, the Dark Doctor is likely to make a comeback using the equipment of the Kingdom of God's base camp.

It now appears that he has completely abandoned this place.

And at this moment in an office of the Cancer Medical Center of the Xinjincheng General Hospital of the War Eagle Country.

"Payton" was written at the door.

Apparently the owner of the office is Peyton.

This is a trump card of the medical center, with outstanding achievements in cancer treatment.

As for the people sitting in the office, no one thought it was Doctor Dark.

Who can think of it.

He was right under the nose of War Eagle Nation, in the best hospital in New Jincheng of War Eagle Nation, and he was still a first-class expert.

On the surface, he is just a doctor, loved by others...

But who can think of his deep identity?

He is just an ordinary person, commuting to and from get off work normally in the hospital...

Who can think of it.

Doctor Dark is here.

He has just finished the treatment for the patient, and this patient has been treated with him for two years.

Because of this, the Dark Doctor can hide.

No one would lean him against Doctor Dark!

There is no connection at all!

Many patients, and even many people in Xinjincheng, know Dr. Payton.

I have been conscientious and conscientious, where there is no time to do other things.

But no one knows.

This medical center is actually the private domain of Doctor Dark...The most frightening thing is that the entrance to this private realm is in the morgue!

Only through the morgue with heavy corpses can you reach the entrance.

This is something no one thought of!

After all, except for some specialized personnel, who would dare to enter the morgue.

Let alone know the back

And when the new Jincheng General Hospital was built, the private territory below was repaired.

As a result, after so many years, no one knew that the deepest wall of the morgue was actually connected to another place.

He is doing various experiments below and making a shocking scientific research project.

Otherwise, it would be too tired for him.

It is necessary to act as a good doctor, but also to undertake research in the laboratories of the gods.

The so-called big hidden in the city, the dark doctor hides it too well.

After an operation, Doctor Dark went straight to the morgue, opened the secret door and entered.

It's totally different inside.

There are many advanced facilities.

Among them, the brain of God is also there, analyzing something with equipment.

"The Eagle Nation has sent all the forces of the Sky Shield to look for us frantically all over the world. They are so familiar with us!"

"Even if you hide to this extent, it's only a matter of time before I find you!"

Said the brain of God.

This time the laboratory of the gods was destroyed, letting them know how deep and terrifying the water in the War Eagle Nation was.

First, the Eagle Nation is too familiar with them.

Second, there are forces or backers behind the Warhawk Nation.

It's scarier than anyone thought.

Even Doctor Dark showed a solemn expression: "Yes, I am so familiar with us! Even I have more detailed information! This place will be found soon!"

"So what should we do? What should we do?"

God's brain and others looked at the dark doctor one after another.

"Whether it is the World Allied Forces or the Galactic Guardian Alliance! They are the murderers who destroyed the Lab of the Gods! They destroyed everything we worked so hard to manage! Now there is no place for us to hide!"
