The Return of the God of War [The Protector]

Chapter 2943 - 2944

Ever since Levilia was exposed, he might be practicing Qi training, and Da Xia has frequently appeared in the appearance of Summon Division and Tianshi Mansion...

This makes this mysterious and ancient organization salivate.

I caught sight of it all at once.

If it weren't for the existence of Doctor Dark, I'm afraid they would be the first to find Levilia.

"But this task has to be completed after finding the Dark Doctor! Although this task is very urgent, there is no first one!"

"You must first go all out to complete the first task!"

After listening to the second task.

Everyone nodded.

At the same time, there is more expectation.

For some people who specialize in Qi training, studying Levilia is more valuable than studying Dark Doctor.

...

"Snee!"

The dark doctor who was far away in the New Golden City of the Eagle Nation sneezed.

"Payton, look at a lot of people who are looking at you!"

The brain of God said from the side.

“Originally, I thought that the Sky Shield was looking for you with craziness all over the world! I didn’t expect that in the past two or three days, so many forces were looking for you.”

Said the brain of God.

He now controls all the information and intelligence.

He knew even those people were looking for Doctor Dark.

He knew even what kind of way.

Of course, the real and effective search method of the Sky Shield was carried out in secret, and he could not know.

Doctor Dark nodded: “Yes, I didn’t expect so much! My value would be so great!”

But then he smiled grimly: “It’s a pity, no one wants to get any benefits! No one wants to dig out secrets from me!”

“Of course! Even if we all die, it is impossible to leave them anything! Of course, once our revenge starts, everyone in the world will be crazy!”

God’s brain is also full of madness.

The Dark Doctor stared at him and asked, “By the way, how many days can it be done?”

It turns out that the brain of God is studying what to make.

It is necessary in Doctor Dark’s Revenge World Plan...

“According to the current speed! The fastest is ten days, and the slowest is fifteen days!”

There was a trace of worry in the mind of God.

“You don’t need to speed up, just keep this speed!”

The Dark Doctor seemed to see the future.

He sneered: “As long as we find the spirit vein, we can retaliate!”

“Ha ha ha ha.....”

The two looked at each other and smiled, all in the ultimate madness. If Cao Zhiguo and the four leaders heard the conversation between the two.

I’m afraid I will be scared.

Because the revenge mentioned by Doctor Dark has something to do with Lingmai!

This is totally earth-shattering big news!

Is it the same as the spiritual vein they found in Atlantis?

If this spirit vein takes revenge, it’s over!

And the things made by God’s brain seem to be for finding spiritual veins.

It’s just that now everyone doesn’t understand what “Lingmai” is all about.

It may not even be known to War Eagle Nation.

They are just familiar with the laboratories of the gods.

But the secrets detected by the Lab of the Gods are not necessarily known.

After laughing, Doctor Dark’s expression returned to seriousness.

“But we have to complete it within half a month. Now the whole world is looking for it. Don’t doubt their speed! Especially the speed of the Sky Shield will be very fast!”

Doctor Dark understands that sooner or later he will be found.

The brain of God also echoed: "There are still some ancient forces that have been staring at the Lab of the Gods for a long time! The Lab of the Gods has destroyed many forces in the past! There must be many enemies, and there are many staring forces! They are not necessarily slow! Even faster!"

"I'll stare at them, you make it with all your heart!"

...

After Levi Garrison came to War Eagle Nation.

I found Agent Black Hawk.

Chapter 2944

While inquiring about the progress, he directly expressed his idea of looking for the Dark Doctor together.

"Mr. Ye should also listen to all the ancient forces looking for Doctor Darkness, right?"

Agent Black Hawk reacted immediately.

Levi Garrison should have heard of this, so he took the initiative to help find the Dark Doctor.

For them, finding the Dark Doctor is a task.

But for Levi Garrison, looking for Doctor Dark is to prevent him from bringing disaster to this world.

Now I must have heard that many ancient dark forces are looking for the Dark Doctor, and if they are found, it may be another attack on the laboratory of the gods.

This is definitely something Levi Garrison doesn't want to see...

Resolutely not allow anyone to use the Dark Doctor to create threats.

But no matter who has great motives or not.

The purpose of both parties is the same.

All to find the dark doctor.

In the eyes of Agent Black Hawk.

Rather than let other forces find Doctor Darkness, Levi Garrison might as well help himself and let the Sky Shield Bureau take him.

But what he didn't think was that Levi Garrison also wanted Doctor Dark to use it for himself.

"Well, I heard it! That's why I came!"

Levi Garrison said.

"It's great. With your help, we can definitely find the Dark Doctor before all the dark forces and control him!"

Agent Black Hawk exclaimed ecstasy.

"Report the information you found and the progress in all aspects to me at any time! I will also participate!"

Levi Garrison said.

Agent Black Hawk had no doubts at all.

All the information found was given to Levi Garrison.

In particular, all the seventy-eighty-thousand-eight thousand copies that were screened out with problems were given to Levi Garrison.

There are also the latest developments, and they will be notified in time.

"It's inappropriate if I've been on the cow's side, lest other people see it, I'll leave first!"

Levi Garrison said.

Agent Black Hawk understood that Levi Garrison was afraid that others in the Sky Shield would know.

Quickly agreed.

He also found a place for Levi Garrison and gave him a lot of authority.

After coming to the dark.

Levi Garrison began to convene the Four King Kong and begin to analyze these data.

The variants No. 1, No. 3, No. 8, and No. 11 are also around to help.

Levi Garrison also invested himself.

Want to speed up.

After all, time is precious.

He directly analyzed the seventy to eighty thousand questionable data screened by the Tiandeng Bureau.

Only after analyzing it for a long time.

Levi Garrison suddenly murmured, "Huh? That's wrong! The direction is wrong!" At present, the key direction of the Tiandeng Bureau is to conduct secret investigations of these seventy to eighty thousand pieces of information one by one.

Accurate to the interpersonal relationship of each person's daily life.

Because of the need to beware of the dark doctors, their explorations are cautious.

The workload is very large and difficult.

...

But the direction is wrong!

If you continue to search in this way, you can throw away the ancestral graves of these seventy or eighty thousand doctors.

Also useless!

Doctor Dark is not among them at all!

The direction is completely wrong!

Doctor Dark can hide from ordinary people for decades and hundreds of years. How can his information be selected?

How can it be so easy to find a problem?

There is no problem with careful screening.

How can the problem be filtered out at once!

This is absolutely impossible!!!

Like Doctor Dark, his information was so perfect that he couldn't find any problems.

Over the years, he must have honed this aspect to the point that there are no clues, no flaws.

Whether it is information or his life and work.

It must be perfect!
