Shocked!

It's just too shocking!

In an instant, Levi Garrison took over the four artifacts of the town pavilion!

This is incredible.

It is already a miracle to be able to take over a large town hall artifact.

In an instant, took over the four great artifacts of the town pavilion?

This is simply a miracle of miracles!

Gong Qianqiu even suspected that Levi Garrison had the ability to pause time and freeze space.

Freezing the time, staying at just now, Levi Garrison took over the four artifacts one by one.

Otherwise, it is impossible!

how can that be?

But Levi Garrison blocked everything!

However, the real killer move was the assassination of the top ten experts of the Xuanming alien race hiding behind the Four Great Talents!

The time in between is negligible!

No time to react at all.

At the moment when Levi Garrison blocked the four sacred artifacts, the assassination of the top ten masters of the Xuanming alien race came.

They are just like the shadows of the top ten talents.

The top ten Tianjiao were caught, and they appeared instantly.

From all directions, shrouded killing Levi Garrison.

For Levi Garrison, it is to cover the sky and the sun.

There are no gaps.

There are enemies coming from any angle.

Covered tightly.

Not only that.

Hundreds of masters of loose cultivators came, followed by the ultimate move of the Eternal Kingdom.

There are also all kinds of killers overwhelming the sky, in a variety of ways

The Jiutian bow and arrow held by Levi Garrison's left hand was still raging, trembling frantically, trying to pierce Levi Garrison's body.

Terrifying lightning flashes, and a terrifying force is hitting a crit.

The masters of the top ten Xuanming alien races came crashing down, leaving no chance for Levi Garrison.

But at the critical moment, Levi Garrison let go.

“laugh!!!”

The arrow flew out immediately.

It was completely directed at Levi Garrison.

And the power is no different at all compared to when it was shot just now.

Because Levi Garrison just held down the arrow and did not remove the terrifying energy it contained.

It is equivalent to just temporarily sealing and freezing the arrow.

Now released, the power is still exactly the same as before, without any reduction.

Even Levi Garrison added energy, and with a slight push, this arrow was even more terrifying!

“boom!”

It was just that Levi Garrison suddenly tilted his head, and the Jiutian bow and arrow were deflected and shot out.

“Pfft!!!”

But the Xuanming alien master behind Levi Garrison was not so lucky.

Under the speed and energy of this arrow, he could not escape.

What’s more, all his attention was on Levi Garrison.

Notice the arrow there.

The nine-day bow and arrows slammed through the expert Xuanming Alien Race!

Died on the spot!!!

However, the target of Jiutian Bow and Arrow is always Levi Garrison!

Whoosh!

After another turn, he shot at Levi Garrison.

This is so fast that there is almost no gap.

It's just that Levi Garrison is hiding again.

"Pfft!"

Another Xuanming alien powerhouse was pierced on the spot.

Next, Levi Garrison shuttled among the other eight Xuanming alien masters with extremely fast movement.

Draw a route.

And Jiutian Bow and Arrow followed Levi Garrison through the crowd.

"Pfft!"

"Pfft!"

"Pfft!"

...

The eight Xuanming alien masters couldn't dodge the Jiutian bow and arrows, all of them were pierced!

No one thought of this!

Levi Garrison would come to a trick to kill someone with a knife!

All ten experts of the Xuanming alien race were killed by Jiutian Gong?

This is so shocking.

The key is this is basically the most powerful killing move.

The masters of the top ten Xuanming alien races cooperate with the top ten geniuses and the four great artifacts.

This is the strongest blow.

If this can't kill Levi Garrison, they can't imagine what to do.

But the attack is not over yet.

The next attack is here.

The rounds of attacks were airtight, almost instantaneous.

## The Return of the God of War [The Protector] Chapter 3548

First, hundreds of loose cultivators came to kill them.

Immediately afterwards, various aircrafts and other weapons of the Eternal Kingdom attacked Levi Garrison with precision.

In front of Levi Garrison, Jiutian bows and arrows are still shooting at him.

“Snapped!”

It's just that Levi Garrison grabs it again.

Like his toy.

This time, Jiutian Bow and Arrow was much more honest, no longer attacking Levi Garrison, but parked in Levi Garrison's hand honestly.

Everything was intentional by Levi Garrison.

He already had the strength to hold down the Jiutian bow and arrow.

Just didn't do it.

"kill!!!"

Levi Garrison released the Jiutian bow and arrow again.

"boom!"

He still flicked lightly at the tail, and Jiutian's bow and arrow shot out in terror.

Straight to the sky!

This time, instead of shooting at Levi Garrison, it was shooting at the spaceships of the eternal kingdom and various high-tech products that shuttled through the sky.

These nine-day bows and arrows made Levi Garrison very satisfied.

The main thing is to be able to withstand extreme strength.

The terrifying power shot by the nine-day bow itself is still there, plus his bullet.

This maximizes the power of the arrow.

Levi Garrison, on the other hand, was facing hundreds of masters of loose cultivation.

The surreal aircraft in the Eternal Realm were bombarding Levi Garrison.

But suddenly they felt a terrifying force approaching, and everything around them was sealed off.

"Drip drip..."

Their instruments began to sound an alarm.

dangerous!!!

“Buzzing...”

The defense systems of their various aircraft were subconsciously deployed.

In front of it appeared a mask of masks, engraved with various symbols and patterns.

A terrifying aura was impacting.

This is their shield against everything.

“Pfft!”

It’s just that after the nine-day bow and arrow came, it directly penetrated the mask.

“Pfft!”

“Crack!”

Simultaneously penetrate the aircraft directly!

Ripped it in half directly and destroyed it on the spot.

No matter what kind of defense system, no matter what kind of material.

In front of Jiutian Bow and Arrow, there is only one thing that can be pierced!

“Pfft!”

“Crack!”

...

Jiutian bows and arrows shuttled in mid-air, destroying the fleet of the Eternal Kingdom.

No matter what kind of aircraft or high-tech product, it cannot stop this arrow.

They lost a lot.

Air support, all removed.

No one thought of this.

Jiutian bow and arrow turned out to be Levi Garrison's weapon?

Xu Zhetian and the others were dumbfounded.

And for the weapon attack of the eternal kingdom.

Looking at the weapon that came bombarding, Levi Garrison blasted it away with his fist.

"Boom..."

There were explosions everywhere, and scenes of wild bombings were everywhere in the air.

The weapons of the Eternal Kingdom are really too powerful.

But Levi Garrison is stronger.

Bombard directly with fists.

At the same time, hundreds of scattered cultivators all attacked Levi Garrison.

"Although there are many people! It's also very surprising! But it's not strong enough!"

Levi Garrison smiled.

Hundreds of loose cultivators came at the same time and killed him one after another.

It's just that Levi Garrison's face changed, and a terrifying force suddenly swept from his body.

"Buzzing..."

There was a tremor in the air.

“puff!”

“puff!”

“puff!”

...

They were not even ten meters away from Levi Garrison, and they all exploded into blood mist at the same time.

These are also masters of loose cultivators carefully selected by Gong Qianqiu.

As a result, in front of Levi Garrison at this moment, he was like cannon fodder.

How many to die.

There is no fighting force at all.

But their only role is to help the assassins of Yama Temple as cover.

Many killers are like the shadows of loose cultivators.

“Chichichi...”

After the loose cultivators fell, these killers suddenly appeared like ghosts.

From all directions, he tried his best to assassinate Levi Garrison.

Not only that.

Even the killers came out from under Levi Garrison’s feet, and they all killed Levi Garrison.
