The Return of the God of War [The Protector]

Chapter 3562

Seeing the top ten arrogances, their hearts trembled.

This is too scary, isn't it?

Soon after, Gong Qianqiu stopped.

Because the four town pavilion artifacts are too powerful.

If she forcibly absorbs all of it, she is afraid that it will cause too much change.

This might be discovered by others.

This will be more than worth the loss.

She can either absorb it slowly or find a place like a secret room, no matter what she does, nothing will change outside.

After she stopped, the four artifacts of the town pavilion seemed to dim a little.

Of course, just a little bit of the essence has transformed Gong Qianqiu into a superb master.

Far beyond the top ten arrogance.

Gong Qianqiu is now confident that he will fight against the Three Saints of the North Pavilion.

It's three!

Not alone!

She felt that soon, if she swallowed her power again, her strength would surpass that of the Three Saints of the North Pavilion and the ancestors of the West Pavilion.

“This is the most correct way to use this technique! Haha...”

Gong Qianqiu is sighing for the power he has obtained.

She will be the strongest in the end.

The top ten talents and Xu Qingya are really going to despair.

They witnessed the process of Gong Qianqiu becoming stronger.

The point is that it's getting easier for her to become stronger now.

this is too scary!

After she devoured the skills of the top ten arrogances, and completely devoured the four sacred artifacts.

How powerful she will be, no one can imagine.

There may be a certain distance from Levi Garrison.

But probably not too far!

Gong Qianqiu looked at the top ten talents and smiled and said: “Start with your root bones! I will go to the master to see if I can create a pair of devouring spiritual roots and bones!”

The top ten Tianjiao were desperate.

They will eventually become someone else's wedding dress!

But helpless.

After Gong Qianqiu left.

Li Zhuyue immediately said: "Can we save ourselves now? Looking at this situation, it is impossible to ask for help!"

Everyone began to think of ways to save themselves.

Just Xu Qingya smiled: "Everyone still has no idea, Gong Qianqiu's work has always been seamless! What you can think of, she can also think of!"

"It's impossible to save yourself!"

Xu Qingya reminded everyone like a deflated ball.

That's right.

Gong Qianqiu has achieved this step, how can they save themselves?

Glancing at the chain on his body, it completely locked them.

How to save yourself?

"Now the distress signal can't be sent out at all! Can we just wait for people outside to find us and come to us to save us?"

Baili Wan'er was already scared.

Chu Qingshuang has seen the situation clearly: "Impossible! Gong Qianqiu has already arranged it! I'm afraid she will blame Levi Garrison!"

"Because we disappeared from Levi Garrison, everyone else died, and it is normal for us to die! No one would doubt it!"

"It's not enough, there's still a possibility! The only possibility is Levi Garrison!"

Chu Qingshuang suddenly exclaimed.

Bai Xinghe nodded: "Yes! If Levi Garrison knew that we disappeared, he would be blamed for the disappearance of the four artifacts! He might investigate it!"

Xu Qingya also said: "Yes, and Levi Garrison's ancient sword was also stolen, he must be investigating! This is our only hope!"

Now everyone can't do anything.

I can only expect Levi Garrison to find him.

This is the only hope.

There is little hope, but there is hope.

Otherwise they will be desperate.

Gong Qianqiu's mind is now full of creating a new devouring spirit root spirit bone.

She hurried to find someone in this area.

But just left here.

The subordinates came to report: "Master, Xiao Feng is looking for you!"

"Xiao Feng?"

Now that Xiao Feng is mentioned, her brows are furrowed.

Because she now almost gets what she wants.

Her goals are clear.

It seems that Xiao Feng does not have much use value?
