Super Rich Man by kiang Chapter 2

I Am Strong

A call came for Mawar a few moments then to remind him.

“Sir, please take the more than 900 million US dollars as compensation for the four years. Besides, there is a Spanish Restaurant restaurant, karaoke center, and a five-star hotel all purchased under your name.”

“You can head to the SZ Bank and reach out to Mr. Steven to arrange your money. Everything has been set, Sir. I’ve also prepared you a scooter.”

Leon felt much calmer as soon as he heard Mawar’s warm voice.

‘It has been four years, and as heir to this amount of money, it is about time for me to make a comeback. I wished to interact with you all like normal people, but all you’ve been is cruel to me. It’s time to show you all my real power!’

In half an hour, Leon made it to the SZ Bank branch without changing his work clothes.

Leon planned to withdraw some of the money as pocket money. The rest will be left to Mr. Steven to manage.

By coincidence, it is a crowded day at the bank. Leon didn’t want to look eye-catching, so he didn’t straight away look for Mr. Steven and took a queue number instead.

A woman dressed in the bank’s uniform came to him.

Her sexy body swayed as she walked in high heels.

“Excuse me, mister, my name is Shally. Is there anything I can help you with?”

“I’d like to withdraw money,” Leon replied.

“My apologies, Sir, since the bank service is very busy today, you can withdraw through the ATM instead. That way will save you time too. We hope for your understanding.”

"The ATM has a limit. I'll have to withdraw from the counter." Leon answered easily.

Leon took the queue order as instructed, so why does he have to give it up for other customers?!

"Sir, the counter is very busy. Please just withdraw from the ATM!" Shally answered back with a shooing tone.

But what to do if they need to withdraw a large amount of money should be done at the counter.

Shally eyed Leon from head to toe. In any case, Leon is just a delivery man. Shally can't treat him the same way she would to wealthy customers.

"So why are they allowed to withdraw at the counter?" Leon asked while pointing at the counter.

"They are withdrawing large sums of money, Sir. About more than One million dollars." Shelly said, arrogantly folding her arms.

Leon's face showed only a confused expression.

Is One million dollars already a significant amount?
