

When His Eyes Opened by Simple Silence Chapter 1236

Aryadelle.

Chad drove to the Starry River Villa.

Mike was home alone.

After returning home at noon today, Hayden was called away by the teacher.

Mike took a nap at home and woke up in the evening.

“Avery fainted.” Chad told him the news.

Mike suddenly sobered up: “Elliot is really dead?”

Chad nodded: “Brother Ben said that my boss was on the way up the mountain by car, and the car fell down the mountain...even the body can't be found.”

Mike: “F*ck, so Miserable!”

“That's why Avery fainted.” Chad had a headache, “I can't believe it, and I can't accept the result.”

Mike: “Didn't you say you suspected murder? Are you sure it wasn't murder?” Mike almost forgot When was the last time he saw Elliot?

Mike didn't even say goodbye to him. He felt very regretful and absurd.

Knowing that Elliot would leave this world so early, Mike would never oppose him again and again.

Chad said after thinking, “Brother Ben said that my boss and Kyrie have no entanglement of interests for a long time, and my boss has nothing to do with the Sterling Group now. Kyrie has no motive or purpose to hurt my boss at all. Before my boss, whether it was an injury or a happy event, Kyrie would come to visit and celebrate. I think their personal relationship should be fine.”

“Is that an accident?” Mike frowned and sighed heavily, “No, I..I have to go to Yonroeville. I'm afraid that Ben Schaffer won't be able to bring Avery back.”

“You can go tomorrow. When Hayden comes back, you can tell Hayden and Layla... If you leave, I don't know how to tell them.” Chad was very embarrassed.

“Just say what you want to say. Do you think this matter can be kept from them?” After Mike finished speaking, he saw Mrs. Cooper walking out.

Mrs. Cooper heard their conversation. When she heard the news of Elliot's death, she was deeply saddened.

"Mike, go and bring Avery back. What if she did something stupid, what would the three children do." Mrs. Cooper's eyes were scarlet, "Oh, it's really uncomfortable. Fortunately, Robert doesn't understand anything now."

Mike walked over and comforted: "I know you have served by Elliot's side for many years, and now you may be sadder than us."

"Mike, Elliot is a very good person." Mrs. Cooper was emotionally broken.

"I know. That's what Avery said, and so did Layla. I believe he was a good guy."

"But they didn't remember him being nice until he died. If they were nice to him before he was alive, they might have not the result." Mrs. Cooper complained in her tone.

"How can a couple not quarrel. Elliot's death was an accident, and it has nothing to do with Avery."

"I know... I'm just too uncomfortable, so I said casually, don't tell Avery this." Mrs. Cooper Turn back to the room.

Chad took his mobile phone to check the air ticket to Yonroeville, and then said, "Listen to Mrs. Cooper, you should go to Yonroeville now. It just so happens that there is a flight going there tonight."

"Yeah. I'm going to the airport now, You stay at home and wait for Hayden to come back." Mike said.

"Do you want me to tell him the truth?"

"Now that Elliot is gone, I can no longer treat Hayden as a child. He should learn to take on the responsibilities. He has to bear."

Soon after Mike left, Hayden was sent home by a bodyguard.

When Hayden saw Chad, he politely greeted him.

Chad asked with a smile, "Hayden, you just returned to Aryadelle, are you so busy?"

"I'm behind my classmates in culture class. I have to make up for it."

"I must be very tired, right?" Chad said.

"Not tired." Hayden said lightly, "Are you looking for Uncle Mike?"

“No, he just went out and is going to pick up your mother.” Chad asked him to sit down on the sofa, “I want to talk with you.”

When His Eyes Opened by Simple Silence Chapter 1237

Hayden looked at his face and asked keenly, “Is Elliot dead?”

Chad was stuck in his throat and replied, “Hayden, as the eldest son in the family, you need to take care of your sister’s emotions at this time. Because your mother...”

“What happened to my mother?” Hayden frowned, worried.

“Your mother fainted. When she wakes up, I’m afraid the real pain will begin.”

Hayden suddenly lowered his eyes, unable to hide the sadness in his eyes.

Chad watched him carry his schoolbag and silently went upstairs to go back to his room, a feeling of grief arose spontaneously.

How hopeful that something can be done to alleviate the damage caused by this bad news.

But when I calmed down, I found that my heart was also riddled with holes.

After Elliot transferred the shares of the Sterling Group, Chad never really felt that Elliot left the Sterling Group. So he still works normally every day. He believed that Elliot would definitely come back in the near future.

Unexpectedly, this is the result. He didn’t know if he could return to the Sterling Group to work normally as usual.

If parents and teachers shaped him when he was a student, then Elliot shaped a brand new him when he was working.

Many people say that Elliot is indifferent, ruthless, and arbitrary towards people and things, but only those who really get along with him know that he is a man with flesh and blood.

.....

Yonroeville.

Avery woke up slowly after falling asleep for several hours. She looked at the unfamiliar room, a little lost.

Her mind was blank, She can't remember what happened, but she can clearly feel the pain from her heart.

After Ben Schaffer made a phone call, he returned to the room from the balcony.

Seeing Avery's eyes open, Ben Schaffer immediately walked to the bed.

"Avery, Mike is here to pick you up. When he arrives, you can go back to Aryadelle with him."

"Why did he pick me up?" Avery stared at Ben Schaffer, "Where am I? Why are you in the same room as me?"

Ben Schaffer gasped sharply. He held the phone, his arms raised and lowered.

Here is the hotel.

After she fainted, he took her to the hospital emergency room. After the doctor took a look, he asked him to take her to rest, and she would wake up when the rest was over.

But although she wakes up now, her mental state is worrying.

Is she amnesia?

Ben Schaffer said sharply, "Avery! Please cheer up. Chad called me just now and said that your child is very sad, and you must return to Aryadelle as soon as possible to soothe the child's emotions. "If Elliot was still alive, he would definitely not want to watch it. You look so sluggish."

Ben Schaffer's words made Avery remember everything.

The memory loss just now seemed to be a self-protection mechanism activated by the body.

"I see. I'm sober. I can go home... I'm taking him home with me." She quickly got out of bed.

Ben Schaffer pressed her back.

"Look at the weather outside. It's still raining. The weather forecast shows that it will rain for the next three days." Ben Schaffer would never let her leave the hotel, "You still have three If you die too..."

"Shut up. Ben Schaffer, shut up for me." Avery's cheeks were flushed, and she bit her every word, "I don't want to die for love. I'm not going to die. I just want to see his body to believe he really left me."

When His Eyes Opened by Simple Silence Chapter 1238

Ben Schaffer clenched his fists in both hands and clenched his teeth, not knowing how to convince her.

“Elliot is a living person. He is neither a gust of wind nor a shower of rain. Don’t say he is dead before finding his body. What if he is still in a corner, waiting for rescue? Do you think this is not possible?” Avery’s eyes were scarlet, and the words came from the bottom of her heart.

Ben Schaffer cried bitterly when she was questioned: “I didn’t want to give up on him. Avery, I’ll take you to the scene to see it. I just find it difficult..”

“I will find him no matter how difficult it is. Avery’s eyes were firm, and his tone was firmer, “Even if I look for him inch by inch, even if the mountain is leveled, I will find him.”

.....

In a luxurious European-style villa.

A subordinate quickly entered from the door.

“Brother Kyrie, Avery and Ben Schaffer went to the mountain. They are not afraid of death. It’s still raining outside. I don’t think Elliot had a car accident on the mountain, but the two of them are afraid that there will be a car accident on the mountain. .”

Kyrie was smoking a cigar, and a thick ring of smoke came out of his mouth.

“I didn’t expect this Avery to be quite strong. I didn’t see what Elliot liked in her before, but now I see it. She and Elliot have similar personalities, and they are both stubborn.” Kyrie frowned, squinting his eagle eyes, “Let her find it. I think she can last a few days.”

“We don’t care about her?”

“I don’t care about her. As long as she doesn’t come to trouble me, treat her as non-existent.”

“Okay! Brother Carrier.” The subordinate nodded, and after two seconds of silence, he asked, “Brother Carrier, how is Elliot? Is he awake?”

Kyrie stared at him and snorted: “Don’t ask about things that shouldn’t be asked. When he can do things for me, you will naturally see him.”

“Brother Carrier, I don’t mean anything else. I’m just worried that Avery will find him.”

"This is my territory. Even if Avery really finds him, it is impossible to take him away from me." Kyrie sucked After taking a breath, his deep eyes flashed darkly, "We don't have to take her seriously at all. Just like when I went to Aryadelle a while ago, she didn't take me seriously."

"She's still too young, I'm not sensible. When did Elliot meet you, he was not very respectful...I really don't know how he adjusts and teaches his wife on weekdays." His men teased coldly.

"There is no need to mention the past. Elliot will not be entangled in love again in the future. I believe he has this determination himself." Kyrie said, and took out a notepad, "This is what he gave me. Reply to the notepad that the nanny asked for the night before. He was probably afraid of forgetting some key information after the operation, so he wrote down what he thought was important."

The subordinate looked at the notepad and was very curious.

"His three children are written on it, but Avery is not written. It shows that he hates Avery deeply. Even if he doesn't have this operation, he will never have anything to do with Avery again."

.....

Ben Schaffer held an umbrella and pointed out the incident to Avery.

"All the railings here were destroyed. Kyrie asked a rescue team to search and rescue. The search and rescue team recovered some auto parts, but other than that, nothing was found." Ben Schaffer Road.

"Did you find the driver who was killed together?"

"No. It's such an unfortunate rain. When I came to visit in the morning, I could still see bloodstains, but now the bloodstains have been washed away by the rainstorm." Ben Schaffer said When he got here, he took a deep breath, "Avery, do you really think there is a chance of surviving if you fall from here?"

Avery choked: "It's theoretically impossible. But I haven't seen his body, so I don't think so. I will give up. If the rescue team here can't be found, I will go to rescue teams from other countries. Even if he really dies, I will take his ashes home."

Ben Schaffer was moved by her sincere feelings: "Okay, I'll contact the best search and rescue team. It's already dark, let's go down the mountain first. If you still want to come, I'll accompany you tomorrow."

Avery is like a puppet As usual, she was pulled into the car by Ben Schaffer.

Back at the hotel, she didn't take a bath and just lay down on the bed.

It was probably due to the wind and the rain, her body and bones were cold.

It was summer, and the air conditioner in the hotel room was running at 24 degrees, and she was huddled with cold.

She can turn off the air conditioner and cover up to keep herself warm. But she was rigid and motionless.

When His Eyes Opened by Simple Silence Chapter 1239

Avery imagined in her mind that Elliot was lying in a barren forest and waste rocks, with no food and no water, covered with bruises and bruises, but could not be treated.

The more she thought about it, the more her heart ached. Tears kept pouring out, soaking the hair on the temples. After a while, she fell asleep in a daze.

In the second half of the night, there was a strong wind blowing outside.

She was awakened by a nightmare, and when she woke up, she saw that the curtains were constantly beaten against the wall by the strong wind.

Fortunately, the light in the room had never been turned off, otherwise she would have been scared out of her head by the terrifying sound.

She walked quickly to the window, ready to close it.

Surprisingly, the rain stopped outside.

The rain stopped...She don't know how Elliot is now. As if her soul had been hooked away, she walked towards the door of the room without being controlled by reason.

She wants to find him right now, go find him in the mountains.

What if he was still alive, what if she found him?

She remembered that once before, Charlie set up a bureau and invited them both to Tierney's house. At that time, his leg was just short, and he went to look for her on the wild mountain near Tierney's house and fell.

At that time, she found him. Now, she can find him just as well.

A few hours later, a new day kicked off with the continuous rain.

After Ben Schaffer received Mike, he took him to the hotel.

Because it was still early, Ben Schaffer took Mike to have breakfast first.

“Avery wants to find Elliot’s body. She means to keep looking if she can’t find the body.” Ben Schaffer took a sip of coffee, his eyes heavy with exhaustion, “Mike, take her back to Aryadelle first. I will contact International Rescue. The team will come to search and rescue. If you can’t find him within a month, then give up. Because he can’t survive a month under the mountain...”

Mike: “I’m afraid Avery won’t accept this result.”

“No. So what if you accept it? You can continue to look for it, but it is nothing more than a matter of spending more money. But I don’t recommend her to do so. In addition to the huge search and rescue fee, the energy and emotion she put in is also a sunk cost. I’m afraid that she will get deeper and deeper and won’t be able to get out, which will affect her future life.”

“I understand what you mean. But I can’t do anything about her at all.” Mike frowned, “I have to force her back to Aryadelle and lock her up. But in this way, she will hate me for the rest of her life.”

“You persuade her first.”

“I will persuade her for sure. If she insists on looking for it, I can accompany her here for a while. Just as you said, I will give her a one-month deadline, if she still refuses to leave after a month, I will force her to leave here.”

“Okay.”

After the two agreed, they started to eat breakfast.

Half an hour later, Ben Schaffer brought Mike to the door of Avery’s room. Mike rang the doorbell, but there was no response inside.

Mike took out his phone and checked the time.

It’s already 8 a.m. It stands to reason that she should get up at this point.

Mike frowned and pressed the doorbell again—

When His Eyes Opened by Simple Silence Chapter 1240

“Mike, don’t press.” Ben Schaffer stopped him, “Avery must have slept all night last night. Let her sleep longer. If she wakes up, she must cry again.”

Mike retracted his hand: "I haven't slept all night, have you? Why don't you go back to your room to sleep? You ask the bodyguard to take me to the place where the accident happened."

"I can't sleep. As soon as I closed my eyes, I felt like I heard Elliot calling me to help. I'm very uneasy. I really want to save him but I really can't do anything. If Avery's feelings for Elliot are the same as before, she must be more uncomfortable than me."

Mike said, "Then let's wait for her. I'll call Chad to report safety."

"Okay."

After Mike walked away, Ben Schaffer took out his mobile phone and planned to call the international rescue team he contacted last night.

What we talked about last night was that the rescue team came overnight. After dawn today, the search and rescue work will start immediately.

Because it is still in the golden search and rescue period.

The week before the accident is the most critical moment.

After the golden search and rescue period, the chances of the injured surviving will drop significantly.

In fact, there is no need to wait as long as a month. Generally, the injured person cannot be found after half a month, and it can basically be concluded that they are dead.

Unexpectedly, before he pressed the dial button, the number of the search and rescue team leader called first.

Ben Schaffer answered the phone immediately.

"Mr. Schaffer, there is a woman here. She has to go down with us to search and rescue... We can't take her down. If something happens to her, we can't take the responsibility."

Ben Schaffer's heart rang a big alarm: "Who is this woman?"

"She said she was Elliot's wife. No matter who she is, we will not take her down. She looks like she has a high fever and must leave here immediately."

Ben said sharply: "I know her. I'll go over immediately."

Hearing Ben Schaffer's voice, Mike immediately hung up the phone and came over:
"What's wrong?"

"Avery went to the mountain. The rescue team said she had to go down the mountain to rescue together, how could this be possible?" Step towards the elevator.

Mike patted his head sharply: "I knew there was no response when I pressed the doorbell, it must be because she was not in the room. You can't fall asleep when Elliot has an accident, how could she sleep!"

Ben Schaffer said angrily, "I was negligent. The people in the rescue team said she had a fever, and I have to wonder if she ran to the mountain at night."

"It's definitely possible. She never listens to anyone's orders when she does things. Can't control her, who can control her?" Mike had a headache.

The elevator stopped at the first floor.

Mike went to the front desk to ask the front desk lady for antipyretics.

Today's rain is a little less than yesterday, but it's still a headache.

If it does not rain, the search and rescue work will be better carried out.

The car drove unimpeded all the way up the mountain, and finally stopped at the point of the accident.

After Mike got out of the car, he rushed into the rain and shouted Avery's name.

Where is Avery? There is no sign of her at all.

Ben Schaffer catches up with Mike with an umbrella.

Ben Schaffer muttered, "I think Avery may have gone down with the rescue team."

"She's crazy. She's really crazy. When she comes up, I'm going to take her home immediately." Mike clenched his fingers tightly, looking at the terrain down the mountain in horror, his body couldn't stop shaking.

He has a mild fear of heights, so he never dares to climb mountains. When flying, he never dare to look out the window.

If Chad fell down the mountain, he would never dare to take the risk.

Even if there is no fear of heights, it is dangerous to search and rescue in this weather. If Avery didn't love Elliot, he didn't have to take such a risk at all.

“Elliot, I’m here to find you. I know you’re not dead. If you hear my voice, you must hold on, and I will find a way to save you.”

Avery sat in the helicopter, holding a horn and shouting.

The rescue is divided into two parts.
