

When His Eyes Opened by Simple Silence Chapter 1241

Some people are in the helicopter, searching with special thermal imager equipment.

This kind of equipment can only search for living people or living animals. If Elliot was dead, this equipment would not be able to find him.

Others were placed in various areas under the mountain, looking for them inch by inch.

The search and rescue work started in the morning. About two hours later, the helicopter flew back to the mountain and put Avery down.

The moment Mike saw her, he almost uncontrollably wanted to train her.

“The terrain below is steep, there are many canyons and bushes, and I can’t find his body at all... Mike, if I can’t find him, he will definitely die! What should I do?” Avery’s head was dizzy, so she rested her head on Mike’s shoulder.

Mike was instantly scalded by her body temperature.

“You have a fever, Avery. Are you dying?” Mike took out the antipyretic medicine he brought and stuffed it into her mouth, “Hurry up and take the medicine down the mountain. Leave the rescue to the professional rescue team. Go deal with it. Elliot is alive or dead, you can’t control it.”

Avery swallowed the medicine without saying a word, but tears kept streaming down.

“Avery, don’t cry. I’ll take you back first, and we’ll come back when your fever subsides.” Mike softened.

Avery: “My head hurts... Mike, my head seems to be splitting...”

Mike picked her up and walked towards the car.

“You have a fever, so your head hurts. Go back and have a good sleep. Maybe when you wake up, they will find Elliot.” Mike comforted her.

Mike stayed on the mountain for two hours, and after seeing the surrounding terrain, he almost immediately concluded that there was no way that Elliot was still alive.

Reality is not a novel, not a TV series, and there will be no miracle of resurrection.

With Mike’s comfort, Avery finally closed her scarlet eyes.

Back at the hotel, Mike carried Avery to the bed, covered her with a quilt, and waited for her fever to subside.

Mike paced up and down the room, thinking about whether to take her home while she was sick.

Elliot is dead, absolutely dead. Searching further will yield no results. As the saying goes, long pain is worse than short pain. If someone has to be the villain, let him be the villain.

.....

In the hospital.

Today is the fourth day after Elliot's surgery. Typically, patients wake up 24 hours after surgery.

But today is the fourth day, and the nurse came to round the room in the morning, and he was still in a coma.

Kyrie was very dissatisfied with this. After breakfast in the morning, he came to the hospital.

The dean, the chief surgeon, and the nurse who looked after Elliot were all scolded by him.

"If he doesn't wake up today, the three of you must die." Kyrie's roar spread throughout the entire floor, "Speak, Which of you will die first?"

The dean and the chief surgeon stepped back one after another. They don't want to die.

Obviously there were no accidents during the operation, but Elliot didn't wake up. They also don't know what's going on.

The nurse threw a fright and knelt on the ground.

"Brother Kerry, when I scrubbed Mr. Foster's body this morning, his hands twitched. He didn't move a few days ago. He moved today. Please give me two more days!" The nurse cried. After saying these words, a bodyguard strode over.

"Brother Kyrie, Elliot is awake."

.....

When His Eyes Opened by Simple Silence Chapter 1242

After the plane landed at the capital airport of Aryadelle, Mike immediately called an ambulance.

Avery had a high fever since yesterday. After taking the antipyretic, the fever only subsided for a while.

On the plane, he asked the flight attendant for antipyretics and gave her a second fever.

As a result, this time the fever subsided was shorter than the previous one.

Avery soon continued to burn again. And the body temperature is higher than the first burn.

When Mike took her off the plane, he felt that Avery's body temperature had reached over forty degrees. Her body began to twitch and babble, and she lost her mind.

If Mike knew that her fever would be so severe this time, he would never take her home while she was sick.

The ambulance came quickly. After putting Avery into the ambulance, Mike went to the hospital with the car.

Since the news of Elliot's death spread a few days ago, the rumors about Elliot in the whole city have not stopped.

This time Avery was rushed to the hospital, which made people wonder whether her illness was related to Elliot's death.

"The Sterling Group has never denied the news of Elliot's death."

"The Sterling Group has nothing to do with Elliot for a long time. So whether the news is true or false, they will not speak out."

"The capital letters of the word Elliot. It turns out that it doesn't belong to Elliot now, so will the Sterling Group change its name next?"

"I don't know if the Sterling Group will change its name, I only know that Elliot should really be dead. Do a search. You can find relevant news on the news of Yonroeville. It is said that he had a car accident on the mountain, and now the rescue team is looking for someone on the mountain... It has been almost a week, and no one has been found. What's worse, from After he had a car accident, it started to rain heavily in Yonroeville. This is God's death."

"What was Avery's condition when he was sent in?"

"It was said that she had been burning for a day and a night, and the high fever could not go down."

Several doctors chatted in the office.

“Avery came back from Yonroeville. Maybe Elliot really died, that’s why she became sick.”

“They must have really loved each other, otherwise they wouldn’t have had so many children.”

“But Avery is also a very capable woman. Others say that she relied on Elliot to help her rebuild the Tate Industries, but she did not rely on Elliot for an technology abroad.”

“She did not rely on Elliot abroad, but she did rely on other men. There are several men around her who She is so determined! For example, the blond man who brought her to the hospital today.”

“Ms. Tate has just been widowed, let’s have some morals!”

.....

The Schaffer family.

Juniper called Ben, but no one answered.

Juniper discussed it with her husband last night and decided to let Ben marry Gwen into the family as soon as possible, so that when Gwen gave birth to a child, it would be justifiable.

But Juniper called her son for two days in a row, but couldn’t get through.

Gwen: “Are you calling Ben?”

“I know, but he doesn’t have time to connect the phone, right?” Juniper put down the phone, “I want to let him give you a place. Didn’t you say you want to go to school again? Your uncle and I think that you should focus on your child now. You can go to school anytime, and if something goes wrong with your child, it will be too late to regret it. “

Gwen waved her hands again and again and refused, “Aunty, I’m not suitable for Ben.”

“I know you despise him for being old...but you are pregnant with his child. If you don’t marry him, who are you going to marry?” Juniper persuaded her heartily, “If your second brother hadn’t died, I’m sure I wouldn’t dare to say that to you. Your second brother is gone now, you have no backer, and others will not look down on you. Only when you are with Ben Schaffer, you will not be bullied.”

“Aunty, I said that I was not suitable for him, not only because I didn’t like him, but also because he didn’t like me.” Gwen said bluntly, “The matter of the child.”

When His Eyes Opened by Simple Silence Chapter 1243

“I’ll take care of him. When he comes back, I promise to let him marry you.” Juniper made a promise to her, “My request to you is that you don’t need to work or go to school for the time being. You just stay at home and raise your baby. I will find a nanny to serve you.”

Gwen looked embarrassed, and an idea came to her mind: “Aunty, although my second brother is dead, my second sister-in-law is still there. I have to tell her about this first.”

“Oh...you said Avery! Will she take care of your business?” Juniper asked.

“Never mind! She treats me very well.” Gwen is now caught between Ben Schaffer and Ben Schaffer’s parents, very embarrassed, unable to make up her mind.

Mainly because Ben Schaffer’s parents were too kind to her. She really didn’t say anything too cruel to make them sad. So she needs to wait for Avery to come back and let Avery help her decide.

After Avery was sent to the emergency room, the doctor immediately injected her with antipyretic and anti-inflammatory drugs.

By evening, Avery’s temperature finally returned to normal. Her face was pale and bloodless, but fortunately she woke up.

“Avery, you’re finally awake. If you don’t wake up again, I’ll collapse.” Mike said excitedly when she saw her eyes open.

Avery had no strength. She glanced at Mike with a dull expression, then began to look around.

“You have a high fever, and you can’t get rid of the fever in Yonroeville, so I’ll take you back to Aryadelle for treatment.” Mike made an excuse with a guilty conscience.

Avery did not doubt what Mike said, because she felt that she was indeed sick.

“Elliot...”

“Looking for it. Ben Schaffer invited the best rescue team in the world to search on that mountain day and night. If they can find it, there will definitely be news. If they can’t find it...then accept the reality. No matter how reluctant you are, you have to accept it.” Mike held her pinned hand to prevent her from breaking down.

Avery pulled her hand back from his big palm.

“Mike, if I die, you will help me take care of the child, right?” After a moment of silence, she said a cool voice.

If Avery did die, of course Mike would help her take care of the children. But if she was trying to find fault with herself, of course he would not agree.

“You think too much. I have my life, and I don’t care about your three children. If you die, I will send your three children to the orphanage and let them be adopted by others. As well-behaved and smart as Layla, she will definitely be adopted by a wealthy family, but not your two sons...” Mike said this deliberately, so that Avery did not dare to die.

“You’re mad at me on purpose.” Avery’s vision was blurred and her voice was choked.

“Avery, I only owe you, not your children. Why should I raise children for you? If you really die, I will really send them to the orphanage. If you don’t believe it, then try.” Mike spoke harshly.

Avery turned her head to the side, not wanting to see him, nor to continue arguing with him about this issue.

For a moment just now, she really wanted to follow Elliot away. But Mike’s words made her wake up.

In life, there are eight out of ten unsatisfactory things.

The pain she is experiencing now is called life and death.

Everyone will meet.

From the time her father left her, she knew that she would be leaving, not just one or two, but everyone.

When His Eyes Opened by Simple Silence Chapter 1244

Sure enough, then the mother left, and now Elliot is gone. In the end, she will also leave this world. All the stories and rumors about her in this world will fade little by little with the passage of time. Until the end, all the marks about her existence in this world disappeared.

Like Big Brother said, if death is beyond the time limit, then she hopes that there will never be an afterlife.

About an hour later, Juniper came over after hearing the news.

Mike was a little surprised when he saw Juniper.

“Ben Schaffer called me, I asked Avery, he said she had returned to Aryadelle, and I said I wanted to see her...”

“Oh, Ben Schaffer did call me just now to ask where we were.” Mike said, “Avery has just gone down with her fever. Because of Elliot, her mental state is not very good. I’ll go and ask her first.”

“Okay, tell her that I’m here for Gwen’s business.” Juniper said.

Mike was at a loss, but he went in and conveyed what Juniper meant.

Within two minutes, Mike opened the door of the ward and let Juniper go in.

Avery leaned against the head of the bed, holding her spirits strong.

“Avery, are you okay?” Juniper put the fruits and flowers she brought on the cabinet, then sat down beside the hospital bed, “You may not remember me, when you married Elliot, I went to your wedding scene.”

“Why don’t I remember you? I talked to you at that time.” Avery put on a smile.

“Well, I heard that you are not feeling well, so I came to see you. Avery, you are still young, and you still have a long way to go. Don’t be defeated by the pain at the moment. Ben Schaffer and Elliot are as close as brothers, even if he is not there. Now, if you have any difficulties in the future, just say something, and Ben Schaffer will definitely help you.”

“I know.” Avery asked, “What happened to Gwen?”

“Isn’t she pregnant with Ben Schaffer’s child? Ben Schaffer is not at home now, so I discussed it with his father. Gwen is Elliot’s younger sister, we can’t treat her badly, So we are going to let Ben Schaffer marry Gwen. I talked to Gwen, what Gwen means is that although Elliot is gone, you are still here, and you have to listen to this matter. “

Avery was startled by this incident.

Gwen’s child is indeed from Ben Schaffer.

“Did she really say that?” Avery didn’t expect Gwen to leave the decision to her.

Juniper: “Yes, after all, she is not old and has no elders around, so she is more dependent on you now.”

Avery: “If she decides to give birth to a child, it is naturally better to live with Ben Schaffer. I believe that Ben Schaffer will look at Elliot. Treat her kindly in the face of her.”

Juniper: "Avery, I am relieved to hear your words. You can rest assured in the hospital to recuperate. Ben Schaffer will help with Elliot's funeral. We will come again when this matter is over. Discuss the marriage of Gwen and Ben Schaffer. What do you think?"

Avery nodded.

After Juniper left, Mike strode in.

"What happened to Gwen?" Mike asked.

"Can I go?" Avery glanced at the ward, feeling depressed, and wanted to leave here.

"You can't go." Mike walked over to the hospital bed. "The doctor drew your blood and took it for a test. You have to live here until the results come out."

Avery sighed and lay down on the hospital bed again.

"Mike, my head hurts... I may not live long." Avery whispered, "If I die of illness, I will give you all my property, you just need to help me take care of my three children and grow up Just anyone."

Mike listened to her babbling about this, and his head also started to hurt.

"Does your head really hurt that much?" Mike sat down by the bed and grabbed her arm with his big palms, "It's a pity that I can't do the test today, so I can only do it tomorrow. I'll go and ask the doctor to give you an order first. I'll take you to do it."

Avery retracted her arm and changed her frustrated attitude: "I'm fine... I'm a little sleepy, I'll sleep for a while."

"Avery, Ben Schaffer let you escape once, I Stay in the ward tonight, you have a good rest, and don't want to go anywhere." Mike said firmly, "When you wake up tomorrow, go for a general examination, I want to see if you are really dying of illness."

When His Eyes Opened by Simple Silence Chapter 1245

Avery turned her back to him and didn't answer his words. She said just now that she had a headache and thought she might die of illness, which was true.

Missing Elliot became a heartbreaker, which led to depression and suicide, which is also true.

From childhood to adulthood, every time she encounters difficulties and setbacks, she will do psychological construction for herself in her heart and redeem herself.

But this time, she was so tired. Even though there are still three children to take care of, she is willing, but powerless.

After dinner, Mike asked the doctor for a checklist and put it on the cabinet.

Avery was lying on the bed, looking at her mobile phone.

“Didn’t you say headache? I asked the nurse for some painkillers for you.” Mike handed her the medicine, “Would you like to take one?”

“I’m feeling better now.” Avery said, “You take the medicine Put it on the table, and I’ll eat it later when I have a headache.”

“Don’t play with your phone. The news about Elliot on the Internet is overwhelming, and it’s disgusting. Don’t make yourself unhappy.” Mike stood beside the hospital bed and reminded her.

“I didn’t watch the news. I was replying to a friend’s message.” She showed him the screen of her phone. “Many people send me messages, but I can’t help but reply.”

“There are still many people who care about you. The world is not gone. No one can run.”

“Well, without Elliot, the sun will still rise. Without me, the earth rotates on its own.” Avery seemed to be answering his question seriously, and seemed to be joking.

As soon as his scalp exploded, he always felt that her words meant: I’m going to die with Elliot. After all, the world can’t run without anyone.

“Avery!” Mike shouted angrily.

“Have you taken a shower?” Avery said tepidly. “You smell of sweat. Even if you don’t have any clothes on, why don’t you take a shower? Otherwise, if you stay in the same house for one night, I don’t care. You are dizzy.”

Mike gritted his teeth and turned to go to the bathroom.

Avery put down the phone after replying the message. Pick up the painkiller from the table and swallow it.

She took medicine and got a good night’s sleep.

The same moment.

Tammy received Avery’s reply message.

“Husband, what does Avery mean when she says she’s fine?” Tammy didn’t believe Avery was fine now.

“She was afraid that you would be worried, so she said she was fine.” Jun translated, “I can’t contact Brother Ben right now, so it can be seen that the situation in Yonroeville is definitely not good.”

“She said she was going to sleep, I still think Let’s call her. Forget it, I’ll call her tomorrow.” Tammy was worried, “If she was crying, I wouldn’t be so worried. But she said she was fine... .”

“Little sweet, I understand what you mean. But since she said she was going to sleep, it means that she doesn’t want to be disturbed now. You can contact her again tomorrow.”

“Well.”

The next morning.

In ther hospital.

The doctor pushed open Avery’s ward door, walked to Mike’s side, and patted him awake.

“Where’s Avery?” The doctor asked, looking at the empty hospital bed.

Mike slept on the side of the bed.

Hearing the doctor’s words, he looked at the empty bed and was shocked.

“The results of her blood test came out yesterday. There are several abnormal data, and further examination is necessary.” The doctor said, “Go and find her quickly.”
