

## When His Eyes Opened by Simple Silence Chapter 1251

Avery keenly judged that there might be something wrong with her body. She has not been on her period recently, nor has she suffered any trauma or bleeding. How can the data be like this?

She has a severe headache recently, maybe she needs to go to the hospital for a brain CT.

As a neurologist, she is very sensitive to diseases of the brain.

If it is a disease of the brain, it is troublesome.

.....

Avonsville.

Ben Schaffer came out of the airport and went straight to his home. He didn't tell his parents about his return in advance, so Russell was very surprised to see him back.

"Ben Schaffer, you came back just in time. What happened to Elliot?" Russell asked.

Ben Schaffer angrily asked, "Where's my mother? Where is Gwen?! Where are the two of them?"

Russell saw his son's angry face, and immediately said, "Oh, your mother took Gwen out to buy clothes. By the way, what kind of expression is this? You want to eat people?"

"Who am I to eat? Don't you want to eat me? Who is Gwen, you may not understand. The child in her womb is not mine. You let me Isn't it a big joke to marry her?" Ben Schaffer sat down beside his father.

Russell: "Gwen said she was pregnant with your child."

"I haven't slept with her before, how could she be pregnant with my child?" Ben Schaffer had a splitting headache, wishing to open his mouth to justify himself, "I will take her now. Call back, I'm going to confront her."

"Wait." Russell was stunned for a moment, and said, "Gwen didn't seem to say that the child is yours. It's your mother who thinks the child is yours. Because Gwen didn't say no, So your mother thinks the child is yours."

"It's really confusing. If the child was mine, how could I not know? If the child was mine, I would have..." Ben Schaffer said.

His mind went blank and he didn't know what to say.

Russell raised his eyebrows: "What happened to you long ago? Married her long ago? How many times has your mother urged you over the years, but you always said that you didn't meet the right one, and would rather not get married than do it soon."

"Yes, It's the same attitude now. Even if the child in Gwen's womb is mine, I will not marry her. She is too scheming and too shrewd. It's clear that the baby in her womb is not mine, why didn't she tell you all? She deliberately misunderstood you and asked you to force me to marry her and treat our whole family as fools?" Ben Schaffer's angry voice spread outside the door.

Juniper and Gwen came back from shopping and heard Ben's words before entering the door.

Juniper looked embarrassed and looked at Gwen: "Gwen, isn't your child from Ben Schaffer?"

Today, Juniper took Gwen to buy a lot of new clothes and bought her some jewelry.

Gwen pushed and refused several times, but she really couldn't, so she accepted it all.

Unexpectedly, Ben Schaffer came back.

Ben Schaffer looked at the new clothes on Gwen's body and the jewelry on her hands with disgust: "Gwen, I see your second brother's face and tolerate you everywhere, but that doesn't mean I will allow you to be with me. Chaos in front of my parents." After a pause, he shouted sharply, "You move out of my house immediately."

Gwen's cheeks were burning hot.

The new clothes on the body, the bracelet on the wrist, like a burning red iron, has become a shame.

Half an hour later, she took a taxi to the Starry River Villa.

Mrs. Cooper heard the doorbell and came out.

Seeing Gwen, Mrs. Cooper was stunned for a moment, then opened the courtyard door.

Although this was the first time Mrs. Cooper saw Gwen. She had seen Gwen's photos and Know that she is Elliot's sister.

Mrs. Cooper led Gwen into the room and introduced Hayden in the living room:  
“Hayden, her name is Gwen, she is your father’s sister, you should call her Aunty.”

Hayden glanced at her, and the word ‘Aunty’ really shouted Do not export.

“Gwen, don’t you live in Ben Schaffer’s house?” Mrs. Cooper asked.

“He kicked me out.” Gwen lowered her head and choked, “I don’t have a place to go now.”

“Oh, then you should stay here for now. I’ll talk about it when Avery comes back. I’ll make dinner first, and wait a while. I’ll clean up your room.”

After Mrs. Cooper left, Hayden looked at Gwen and asked, “Why did Uncle Russell drive you out?”

Gwen’s grievance broke out in an instant: “I’m pregnant with his child, but he hates me.”

## **When His Eyes Opened by Simple Silence Chapter 1252**

Such a bloody thing is beyond the cognition of Hayden’s age group.

“I decided to kill this child. I will never meet him again.” Gwen made up her mind.

The expression on Hayden’s face was stunned, and for a moment, he didn’t know what to say.

“Are you Hayden?” Gwen looked at Hayden’s face, and the more she looked, the more she felt that he and Elliot looked alike.

Hayden: “Yeah.”

Gwen hesitated for a while then asked, “Are you still on summer vacation now? Can you accompany me to the hospital tomorrow? I’m a little scared alone.”

Hayden: “...”

Although this woman was his aunt and this was the first time they met. They don’t know each other at all.

Besides, she went to the hospital for an abortion and brought a child to accompany her, what role could it play?

Hayden instinctively wanted to reject her. But he suddenly remembered that when his mother was pregnant with him and his sister, he didn't have his father by his side. A woman who is pregnant and lonely is so miserable.

Now Gwen's experience is similar to that of her mother.

Unexpectedly, Ben Schaffer is also a big sc\*mbag.

Gwen said, "If you don't want to, forget it. If I can't come back from the operation tomorrow, I'll ask the doctor to find me a nurse..."

"We'll talk about it tomorrow." Hayden said solemnly.

"Oh. Where's your sister?" Gwen was a little restrained.

Although Hayden is much younger than Gwen, Hayden exudes a mature temperament that does not belong to his age group. Gwen had never met Elliot, but she felt that maybe Elliot was the same.

"Layla has her own business." Hayden glanced at Gwen's stomach inadvertently.

Gwen: "I just got pregnant and my belly is not big yet."

Hayden's face suddenly turned red.

Gwen said uncomfortably, "How old are you this year? Why do you look so old and heavy. I wasn't so nervous in front of Ben Schaffer. Why do I feel so nervous when facing you!"

"You can go to the guest room and stay." Hayden showed no emotion on his face and said, "Turn right to the second guest room."

Gwen dragged her suitcase and walked towards the guest room on the right.

Not long after, Mrs. Cooper's cell phone rang. It was from Ben Schaffer.

Mrs. Cooper replied, "Yes, Gwen is here with us. She said you kicked her out."

Ben Schaffer took a breath: "Hey! It's hard to say. It's not what you think."

Mrs. Cooper: "I know you're not that kind of person. There must be a misunderstanding between you."

"No misunderstanding. I don't get along well with her. I can pay her monthly living expenses, but I can't live with her."

“Well. It’s fine. Let her live first. We’re here. We’ll talk when Avery comes back.”

“Okay. I’m calling you mainly because I’m worried about her running away... In case she gets lost, I can’t tell Elliot.” Ben Schaffer was in a mood particularly contradictory.

After Gwen dragged her suitcase away, Juniper found that she had left all the new clothes and jewelry she bought today in the room without taking it with her.

If she is bad to the end, Ben Schaffer will not be so upset.

The next morning.

Gwen came to the hospital accompanied by Hayden.

After registering, the two went to the gynecology department.

The gynecology waiting area is full of women and their husbands.

When Gwen and Hayden appeared in the gynecology department, everyone’s eyes fell on them.

Gwen was nervous about the surgery, so she didn’t pay attention to other people’s eyes.

And Hayden, the intestines regret green. If he knew it was so embarrassing, he would never sympathize with Gwen. Never accompany her to have an abortion!

After waiting for half an hour, Gwen dragged Hayden into the doctor’s office.

“Let your husband wait outside.” The doctor glanced at them and reminded them in a deep voice.

## **When His Eyes Opened by Simple Silence Chapter 1253**

Gwen: “...”

Hayden: “!!!”

Hayden was ashamed to leave, Gwen grabbed his arm and prevented him from leaving.

Gwen said embarrassedly, “Doctor, he’s my nephew. He’s not yet ten years old. I was nervous when I saw a gynecologist for the first time, so I asked him to accompany me.”

Doctor: “...”

After the awkward atmosphere lasted for a minute, the doctor immediately asked for help: "The child is well nourished and developed."

"He has good genes. His parents are very picky." Gwen explained.

"Oh, what's your problem?" The doctor asked.

"I want to have an abortion." Gwen handed the doctor the color Doppler ultrasound she had done last time, "The child is a month old now."

Doctor: "Are you married?"

Gwen: "No."

Doctor: "Have you thought about it?"

"Well. I haven't. Money to raise a child and give birth to a child will only make him live a miserable life with me. It's better to get rid of it as soon as possible." Gwen explained her difficulties.

Her words shocked Hayden. He thought that Gwen didn't want baby because she had a bad relationship with Ben Schaffer, but he didn't expect it was because she didn't have the money to raise baby.

After being silent for a few seconds, Hayden pulled her out of the doctor's office.

.....

Yonroeville.

Avery got the CT film of his brain and fell into a long silence. She doesn't have to take the film to the doctor. Because she is a doctor herself. She had unexplained bleeding inside her skull.

She sat on the bench outside the CT room, thinking about whether she had been hit by an external force recently. She thought about it for a long time without getting an answer.

Because she hasn't been hurt by any violence recently. She had to do another MRI to identify the lesions.

"Boss, why don't you show the film to the doctor?" The bodyguard stood beside her and asked, "In a little while, the doctor will be off work."

Avery got up from the chair, glanced at her phone, and said lightly: "I'm a little hungry. Let's go and eat first."

"Okay! Then we can go back to the hotel first, and come back in the afternoon." The bodyguard said.

"Do you know that I'm a doctor?" Avery asked the bodyguard with her lips curled up.

The bodyguard was stunned for a moment: "I know, you are still a very good doctor."

"Then do you know what kind of doctor I am?" Avery's question stopped the bodyguard.

After the bodyguard scratched his head, he suddenly realized: "I'm really stupid. You seem to be specially designed to show people's brains."

The smile on Avery's face disappeared, "Well. I may need an operation. My situation is not serious illness, don't tell Mike."

"Boss, who performed the operation on you? Although you are very powerful, you can't operate on yourself." The bodyguard was worried.

"I can ask a doctor I know to operate on me. Don't worry, my illness will be fine." She comforted. "And it hasn't been diagnosed yet. I need another test. Come back in the afternoon."

The bodyguard asked, "Boss, is it really a minor illness?"

"If it's a serious illness, I'm afraid I won't be able to laugh at you here. As I'm a doctor, my illness is not a big problem, but to ordinary doctors, my illness is definitely a serious illness."

It may be that during this period of emotional depression and multiple collapses, intracranial hemorrhage was caused.

The human will can be invincible, but the human body is very fragile.

No wonder the splitting headache the day before yesterday made Avery feel like she might be dying. Her body had already signaled her disease.

It's just that she was too sad to think about it.

In the afternoon, she came to the hospital for an MRI examination.

An hour later, she got the test results.

## **When His Eyes Opened by Simple Silence Chapter 1254**

The moment Avery saw the results of the examination, her body was weightless, and the strength in her body was drained, as if she was about to fall down at any time.

Seeing her face ashen, the bodyguard was so frightened that the alarm bell rang.

“Boss, don’t you have a terminal illness, are you going to die?” The bodyguard considered whether to be more euphemistic before saying this. But he hadn’t thought about it yet, and the words came out first.

Because Avery’s face was so gloomy. It gives the feeling that the sky is about to collapse.

“It’s not a terminal illness.” Avery answered him firmly, “You don’t have to worry. Even if I die, Mike will pay you your monthly salary.”

The bodyguard couldn’t help laughing: “Boss, I’m not worried about my salary... ..hey, well, I do get a little worried. You’re the best boss I’ve ever had in my career and I don’t want you to die. As long as you don’t die, I can follow you for the rest of my life.”

Avery: “I try to live as long as possible.”

“Thank you.” The bodyguard supported her and said cautiously, “Would you like to see the doctor? Let’s see what the doctor has to say.”

“No. The qualifications of the doctors here are not as good as those of my junior brothers and junior sisters.”

“Okay. Then What are you going to do? You can’t operate on yourself, you have to find a doctor.” The bodyguard could not wait to send her to the hospital for treatment as soon as possible.

Avery’s face was completely bloodless, and her voice was not as energetic as before. Anyone who looked at her could see at a glance that she was seriously ill.

“I’ll contact the doctor. Let’s go back to the hotel now.” Avery pushed the bodyguard’s arm away and said, “I’m fine now, I can walk by myself.”

“Oh, what’s wrong with you? Are you sure you won’t tell me, Is it?” The bodyguard was confused and had no clue.

Avery: “You don’t understand when you say it.”

The bodyguard: “Okay! Then are you sure you don’t tell Mike?”

Avery: "He doesn't understand when I say it."

Bodyguard: "..."

"If you use light, medium, and Let's distinguish the illness again, my illness belongs to 'moderate'." Seeing that the bodyguard was really worried, Avery told him in an easy-to-understand way.

The bodyguard nodded sharply, feeling very disappointed: "It means that there is a possibility of death."

"Any disease has a possibility of death. Even a common cold has a possibility of death." Avery advised him.

The bodyguard: "D\*mn it! Don't scare me."

"Let's go back to the hotel." Avery felt a little frustrated, "I originally asked you to accompany me to find Elliot, but now I asked you to accompany me to see a doctor."

"Boss, don't said that. I'd rather accompany you to see a doctor. After all, I heard that Kyrie is a very scary person. I'm still a little afraid of death." The bodyguard said what he said in his heart.

Avery sighed. She don't know if she can still find Elliot.

The medical resources in Yonroeville are relatively backward, and reason told her that she should return to Aryadelle or go to Bridgedale for treatment now, which is the best choice.

But she didn't find Elliot, she didn't want to leave here.

There is only one way now, and that is to ask a doctor to come here to treat her.

.....

Furnished in a modern minimalist villa.

Elliot was sent to the bedroom. His sharp eyes like falcons looked at the surrounding environment. Today is the day after he woke up after surgery.

## **When His Eyes Opened by Simple Silence Chapter 1255**

Although Elliot woke up late, his physical condition recovered better after waking up.

He should have continued to stay in the hospital for a few days for observation, but he didn't want to stay in the hospital, so he was discharged today.

"Elliot, the doctor said that it's normal that you can't remember things right now. After a few days, your memory will gradually be restored." Kyrie supported him, wanting him to go to bed and rest.

After Elliot sat down by the bed, he pushed Kyrie Jobin's hand away.

"Recover my past memories?" Elliot opened his thin lips lightly, and said these words in a hoarse voice, his shrewd eyes rolled darkly, "You mean, I have lost my memory?"

Kyrie looked at his cold expression. The appearance of unabated vigor, drumming in his heart.

Because Kyrie couldn't guess what he remembered now, and what part of his memory he had lost.

After waking up from surgery, Elliot rarely spoke. The doctor asked him questions, and he hardly answered.

But a brain examination was performed on him, and his brain was normal, nothing abnormal. So the doctor privately concluded that he should remember the past, but he may not remember certain things.

This sentence is judged, said is equal to not said.

"You had a minor operation. you did this operation voluntarily. Your signature is on the operation sheet." Kyrie held a chair and sat down in front of him and said.

"What operation?" Elliot's head hurts a little now, and he can't think hard.

"Part of the amnesiac surgery." Kyrie showed him the surgical drape. "This is a state-of-the-art surgery, and it has not been popularized yet. Because you are in pain, you chose to have this surgery."

"Why am I in pain?" Elliot took the surgical drape and glanced at it.

"Do you remember the name Avery?" Kyrie stared at his face, not letting go of any subtle expressions on his face.

This chapter is provided . Visit for daily update.

Whether the operation is successful or not depends on his answer to this question.

"I don't remember. What happened to her?" Elliot answered quickly.

Kyrie sighed in relief. It appears that the operation was very successful.

Elliot loves Avery so much but now, he doesn't remember it.

Kyrie gritted his teeth and said, "She is your enemy. She ruined you."

"Impossible!" Elliot clenched his fingers tightly. Knead the surgical drape into a ball. He couldn't have been ruined by a woman.

"Elliot, do you still remember that you are the boss of the Sterling Group?" Kyrie took his arm.

Elliot nodded as he remembered. He is the boss of the Sterling Group. He is the youngest and most promising entrepreneur in Aryadelle, and he has topped the list of the richest people in Aryadelle for many consecutive years! Everyone looks up to him.

He is the unattainable god of Aryadelle.

None of those who tried to take his property and assassinate him succeeded. In the end, they all died under his hands.

"You are no longer the boss of the Sterling Group. If you don't believe me, you can read the news online." Kyrie handed him his mobile phone, "Avery took everything from you. She took advantage of your love for her, Swallowed your company and gave it to another man. You were heartbroken and came here to find me. Elliot, I didn't want to tell you this, I was afraid of evoking your painful memories. But I have to explain it to you Clear your mind, so that you can start a new life again."

"Are you sure I'm being tricked by a woman?" Elliot clutched the phone tightly, murderous aura in his eyes.

Kyrie reassured, "Of course you're not that stupid. She gave birth to three children for you. She used your three children to eat away your body step by step, control your mind, and finally take it away. All of you."

"Three children..." Elliot murmured, "I have three children?"

"Yes. Now the custody of these three children is in Avery's hands. If you want to get your children back, You must become strong." Kyrie opened the bloody reality to him, "You have nothing now. You are not her opponent at all."
