### Chapter 1371

Avery didn't give him time to react, and immediately asked: [What are you looking for from me? I am in ward v03. If you want to come to me, just come directly.]

Of course Avery guessed that Elliot said he had something to do with her, which was a pretense.

Estimated the time, Kyrie should have completed the examination by now and was sent to the inpatient department for treatment.

Kyrie's black-faced subordinate doesn't look easy to mess with, and although he is not Kyrie's son. His level is definitely not low. Otherwise, he wouldn't dare to show his prestige directly in front of Elliot.

It took a while for Elliot to reply to her: [Because someone said you were hospitalized in neurosurgery, I want to know why you lied.]

Avery teased him deliberately: [If you don't care about me, you won't care why I lie.]

Elliot didn't reply. Because Avery was so direct.

Elliot didn't remember every bit of their past, he only knew their past from the mouths of others and her.

Even so, it still affected his judgment of her.

He can analyze anyone rationally and look at them objectively, but every time he faces her, his mind will become a mess and a mess.

Like a spell, he was destined to walk step by step towards the love trap she set.

Eleven at night.

Avery asked Xander and the bodyguard to go back to the hotel to rest.

"I haven't had surgery yet. In fact, I can go back to the hotel to rest today." Avery lay on the bed and smiled lazily.

Since Avery came back from seeing Elliot tonight, the corners of her mouth have always been smiling.

The bodyguard said to Xander, "Doctor Xander, go back to the hotel and I'll just watch my boss here."

Xander: "Okay, then I'll go first."

Avery said to the bodyguard, "You go with Xander. I'm safe here."

"Who told you that it's safe here?" After a pause, the bodyguard said, "You have an appointment with Elliot for a secret meeting tonight? If so, then I'll go."

Avery thought he was outrageous, and his words became more and more presumptuous.

"Then don't leave, stay here and see if Elliot will come to me for a secret meeting in the middle of the night."

"Okay! I didn't intend to leave." The bodyguard said, but went to Xander's side, "But I Go back to the hotel to take a shower first."

After speaking, he and Xander left together.

After the bodyguard left, Avery got out of bed immediately and went to the bathroom to wash.

When the two of them were here, she was too embarrassed to wash up.

Even if it was a VIP ward, after all, there was only so much space, and there was no privacy at all.

Upstairs, neurosurgery.

Lorenzo asked Elliot to go back, and Elliot asked him to leave.

"Rebecca will come over tomorrow morning. You can bring her with you. Then I will go back to rest." Elliot said.

When Lorenzo heard the word 'Rebecca', he was immediately confused.

If Elliot hadn't come to Yonroeville, Rebecca would have become Lorenzo's wife after graduating from university.

This was also the reason why Lorenzo was unhappy with him.

Moreover, Kyrie also intended to let Lorenzo suppress him, so Lorenzo was not afraid of him at all.

After Lorenzo left, Elliot glanced at the time.

It's almost 12 o'clock.

“You guys stay here, I’ll talk to the doctor.” After explaining to the bodyguards, he strode towards the doctor’s office.

The southernmost part of the vip ward, through a corridor, and walking forward, is the general ward and the doctor’s office.

### Chapter 1372

Elliot entered the doctor’s office, asked the doctor on duty about Kyrie’s situation, then came out and walked towards the elevator next to him. Entering the elevator, he pressed the number on the next floor.

After a while, the elevator arrived, and he strode out of the elevator.

Instead of going directly to Ward v03, he went to the neurosurgery doctor’s office.

The doctor was stunned when he saw Elliot. He sat down opposite the doctor and asked, “I want to know Avery’s condition.”

“This... This is the patient’s privacy, and it is inconvenient for me to tell you.” The doctor looked embarrassed, “If you talk to the patient I know, you can ask the patient directly.”

“She said it was a minor operation. Tell me, is it a minor operation?” Elliot changed his question.

The doctor pushed the glasses on the bridge of his nose, and after thinking for a while, he let out a sigh of relief: “She can’t trust the doctor in Yonroeville, and specially called for an expert in Bridgedale to operate on her. Do you think this is a minor operation or a major operation? “

Elliot frowned, ready to get up to find Avery.

At this time, the doctor said again: “But for Ms. Tate, this operation is indeed a minor operation, and she is not deceiving you.”

Elliot sat down again, calmed down, and asked, “She invited him from Bridgedale?”

“Yes, she originally asked me to register and issue a check-up, but after the report came out, she didn’t trust my medical skills, so she found the expert from Bridgedale. It is said that she was a classmate in graduate school, Now he is an expert in a large hospital in Bridgedale. It is amazing to be an expert at a young age.”

“Xander?”

“Yes. Dr. Xander not only became an expert at a young age but also can deal with. I made an appointment with Vice President Lewis.”

Elliot: “When did she call you?”

“It happened a while ago. It was not long after your surgery in our hospital”

Elliot’s heart suddenly tightened.

–Avery came here shortly after his surgery. And when he came here, he found out that she was suffering from such a serious disease.

Even so, Avery still insisted on awakening Elliot memory, hoping to take Elliot out of here. Obviously, she could leave here in time and go to Bridgedale to receive better treatment after finding out that she was ill, but she chose to call a doctor from Bridgedale for treatment here.

There was a sudden pain in his head.

Avery loves him. There is no doubt about it. But Elliot questioned it for so long.

If it wasn’t for Kyrie who suddenly fell and came to the hospital, he would not have known that Avery was sick and hospitalized.

Avery had no intention of telling him about it at all.

Half an hour later, the bodyguard came to the hospital after taking a shower.

As he approached Ward v03, he suddenly caught a glimpse of a familiar figure.

On the balcony next to the aisle entering the VIP ward area, a tall figure stood.

That seems to be... Elliot.

The bodyguard strode over, and after confirming his identity, raised his hand and patted his shoulder.

“Mr. Foster.”

Hearing the familiar voice, Elliot’s tense nerves relaxed. He snuffed out the cigarette between his fingers and threw it into the trash can next to him, then turned around.

“It’s really you. Why are you here?” The bodyguard smiled, “Did you come to see my boss? Have you seen her? I knew she let us go to meet you hahaha. “

I didn’t see her.” Elliot said calmly, “When is her surgery scheduled?”

"I guess the day after tomorrow. It is said that a detailed examination will be done tomorrow. After the examination is completed, it is estimated that the operation will be performed." A big tumor was compressing all kinds of nerves in her brain."

Elliot: "..."

Avery and the doctor spoke to him mildly, which caused him to lose his mind when he heard the bodyguard's words.

"Go and see Avery. Xander said that her illness has a 30% failure rate." The bodyguard continued, "Maybe she won't be able to get off the operating table. I already saw her handing over the agreement paper to Xander."

### Chapter 1373

The voice of the bodyguard was settled, and Elliot immediately strode towards Ward v03. He didn't knock on the door, just pushed open the door of the ward and went in.

The light in the ward is on, and Avery has closed her eyes and rested. But she didn't fall asleep. She heard the movement and opened her eyes immediately. She thought it was the bodyguard who came after taking a shower, but unexpectedly, it was Elliot.

Seeing him come in, she jumped and sat up.

"You lie down." Elliot walked to the side of the hospital bed and looked down at her, "A tumor grows in your brain?"

Avery just lay down when she heard the words behind him, and her body suddenly became hot: "Go and ask."

"What your bodyguard said." Elliot sat down in the chair next to him, "I know I'm sick, why don't I treat it well? When I should recover my memory, it will naturally recover."

"I'm afraid you will fall in love with Rebecca. My son, get used to the life here and never want to return to Aryadelle and my illness is not particularly serious, it's okay to delay it." Avery expressed her concerns.

"Yes, delay it, from the early stage to the late stage. When you are dragged to death, even if I recover my memory, I can be with Rebecca with a clear conscience." Elliot followed her words and said calmly.

Avery: "..."

Why is your mouth so poisonous?

“Didn’t I plan to have surgery?” Avery blushed slightly and asked sternly.

“Why didn’t you keep procrastinating?” Elliot asked back.

Avery sighed: “You’ve already agreed to Kyrie’s request, what else can I do? Unless you want to get out of here, I can’t do anything about it.”

“Finally, I know how to accept my fate.”

“I didn’t think about dragging my illness.” Avery was alive and well, but she didn’t want to die.

“After your surgery, I will find a way to get Nick to send you back to Aryadelle.” Elliot hesitated for a moment, then said, “I may not be able to return to Aryadelle soon. You go back, and live your own life first.”

“You might as well not say that.” Avery had a headache.

“Go to sleep.” Elliot ended the conversation.

Avery: “I can’t sleep when you’re here.”

Elliot: “Then I’ll go.”

“Don’t go.” Avery reached out and took his arm, “You stay with me for a while.”

Elliot looked directly into her face: “You are now Patient, it’s hard to sleep late.”

If Avery wasn’t sick, Elliot could stay up late with her, but when he thought of a big tumor growing in her brain, he didn’t want to let her mess around.

“Then you sleep with me for a while.” Avery refused to let go of his arm, “Anyway, Kyrie will not be awake for a while.”

Elliot thought for a moment, and felt that this was inappropriate, but it didn’t hurt.

“Have you not had a good rest these days? Look at your dark circles.” Avery sat up, moved in, and forcibly pulled him down on the hospital bed.

Although the bed in the VIP ward is a bit more advanced than the ordinary one. It will still look crowded when the two of them lie down together.

After he lay down beside her, she reached out and hugged his body: “Did you smoke?”

“Did you choke on you?”

“No.” Avery put her head on his neck and said hoarsely , “You used to only smoke when you were upset. Although the current difficulties seem difficult for us to overcome. we will definitely overcome them. We have come through so many ups and downs in the past.”

“Why are you marrying Rebecca?” Avery suddenly said after a moment of silence.

Elliot was stunned for a moment, not expecting her to mention this sensitive topic.

“Why?” Avery curiosity was piqued. “Even if you don’t remember me, you are not someone who can marry a woman casually.”

His voice Calmly came, “It was Kyrie who asked her to come to me. Kyrie asked her to reveal to me that if I marry her, with my ability, everything in the Jobin family will be mine in the future.”
