Chapter 456: Starting the Treatment

When he entered the room, Lin Yuan was lying on the hospital bed with a pale face. Her lifeless eyes were staring at the ceiling expressionlessly.

There was a thermostat on the cabinet beside the bed. Lin Yuan's hands were soaked in a special liquid in the box. Her hands, which had lost their circulation, were slightly pale from the medicine and there was no longer any color of blood.

After being brought to Lin Yuan's room by the Kang family's servant, Mo Jiu picked up the translucent box on the cabinet and quietly observed it for a few minutes. Then, he frowned slightly and turned to look at Cheng Tang, who had followed him in. He said in a low voice, "Ms. Cheng, this lady's hand has been delayed for too long. It won't be easy to treat it. I'm afraid the price we agreed on previously will have to be changed!"

Upon hearing Mo Jiu's words, Kang Ting's expression darkened. He walked in with a cold expression and scolded unhappily, "Mo Jiu, don't push your luck. The price I'm offering you is already dozens of times the market price. Isn't this amount of money enough to buy a pair of hands?"

Mo Jiu raised his eyebrows and raised his hand to knock lightly on the box beside him. He said coldly, "That's the price I offered before I came to the Kang family to take a look at the situation. Now that I'm here, it's indeed very difficult for your wife to reconnect her hand perfectly. According to the original price, I can't cure her."

After pausing for a few seconds, seeing that the Kang family's expression was grave as if they were about to flare up, Mo Jiu touched his chin and added, "Master Kang, on the account that we're old friends, I might as well give you a reminder. In Beijing, only people from the divine doctor's family can cure your wife's hands. The opportunity is right in front of you. If you miss it, there won't be such a shop after you pass this village!"

"No! If you increase the price, we can't..." Kang Ting was already a little angry. Before he could finish, Cheng Tang suddenly took two steps forward and interrupted him. "We'll increase the price by half. If you can accept it, you can start treating Mrs. Kang now!"

Upon hearing Cheng Tang agree so readily on behalf of the Kang family, Mo Jiu didn't waste any time. He immediately took out the acupuncture bag he had brought with him from his pocket and disinfected the silver needles in the bag. Then, he started to operate it seriously according to the steps Mo Zhu had shown him previously.

In the first round of acupuncture, Mo Jiu stimulated the nerves in Lin Yuan's entire body by inserting the needles into her acupuncture points. When he injected the internal energy that had already been brewed in his dantian into Lin Yuan's body, Cheng Tang, who was observing him attentively, suddenly widened her eyes in surprise.

Cheng Tang's expression darkened slightly as she rubbed her hands in disbelief.

If she wasn't wrong just now, Mo Jiu should have used his internal energy to treat Lin Yuan. She had interacted with Mo Jiu before and didn't realize that this man had internal energy. She didn't expect him to hide it so well. Huo Xuan actually had such an expert by his side.

After quietly observing Mo Jiu for a few minutes, Cheng Tang realized that Mo Jiu didn't use this internal energy very smoothly. She lowered her eyes and thought for a while. Then, she recalled that there was nothing abnormal about the man when she saw Mo Jiu a while ago. She suspected that Mo Jiu had recently opened his dantian and had internal energy.

Through the strength and speed of Mo Jiu's acupuncture, Cheng Tang acutely sensed that his unfamiliarity with this acupuncture technique and his control of his internal energy were not especially accurate. It was also because of this that when Mo Jiu completed the entire acupuncture technique through his internal energy, his forehead was already covered in sweat.

Time passed minute by minute. After Lin Yuan's acupuncture points were all opened, Mo Jiu reconnected the woman's broken limbs.

After going through the process once, he placed the silver needles back into the acupuncture bag according to the instructions. Mo Jiu held the edge of the bed and heaved a long sigh of relief.

The entire process took two and a half hours before Lin Yuan's hands were finally reconnected.

Chapter 457: Lin Yuan Is Awake

After regaining his balance, Mo Jiu took out a tissue from his pocket and calmly wiped his sweat. He looked up at Cheng Tang and emphasized coldly, "I've already reconnected Mrs. Kang's hand. It's time to transfer the money you promised me."

After a pause, afraid that the Cheng family and the Kang family would join forces and go back on their words, a hint of ruthlessness flashed across Mo Jiu's eyes. He frowned slightly and added, "Although this is the old mansion of the Kang family, all of you are famous people in Beijing. You can't go back on your words after we've agreed on something. Otherwise, I can chop it off like how I reconnected them!"

Upon hearing this, Cheng Tang waved her hand and asked a subordinate over from behind. She asked for the bank card number from Mo Jiu and directly used her personal account to transfer the money to the man.

In order to better hide Mo Zhu's identity, Mo Jiu also gave her his bank card number.

After confirming that the money had been transferred, Mo Jiu didn't want to stay in the Kang family any longer. He walked straight to the door.

At this moment, Lin Yuan, who had been lying on the hospital bed in a daze, seemed to have sensed something. She propped her head up and looked at her hands beside her. She muttered in disbelief, "My? My hand has recovered??"

When Mo Jiu heard this, he turned around and glanced at Lin Yuan indifferently. He lowered his voice and said, "I've indeed reconnected your hands, but if you want to recover faster, try not to use them for the time being. Rest well for a month or two and you'll be able to move freely again!"

Upon hearing this, Lin Yuan laughed out loud. Ever since her hand was broken, her soul had been sucked dry like a zombie even when she was awake. Now that she knew such good news, she was so happy that she could not close her mouth.

After saying this, Mo Jiu didn't stay any longer and immediately left the Kang family's old mansion.

After his figure completely disappeared at the entrance of the old mansion, Cheng Tang quickly walked to the subordinate who was handling the transfer procedures just now and signaled the subordinate to bring out the page where the transaction was done. She lowered her eyes and asked in a low voice, "How is it? Who does this card number belong to? Find out where this account has been used recently? What business does it do?"

Following Cheng Tang's words, the subordinate quickly typed on his phone. A few minutes later, he placed the screen back in front of Cheng Tang and replied with a frown, "Miss, this account is Mo Jiu's personal account. Apart from the Huo Corporation transferring money to him regularly, he hasn't traded with anyone else through this account."

Cheng Tang nodded. She had already expected this outcome. Huo Xuan had dominated Beijing for more than ten years and had helped the Huo family revive many corporations over the years. Be it the business in the country or in Southeast Asia, they have done well. With such a person by his side, Mo Jiu couldn't be a fool. He had to master this most basic method of maintaining privacy.

Cheng Tang stood rooted to the ground and pondered quietly for a moment. She seemed to have thought of something and leaned close to her subordinate. She deliberately lowered her voice and instructed, "Bring some people to Country N in Southeast Asia personally. Remember, choose a few experts from the Cheng family's elite team to bring with you. No matter what the price is, find Kang Wan and bring her back intact!"

Upon hearing this, the subordinate frowned in confusion and asked, "Miss, didn't you say that Ms. Kang was already done for and you asked them to prepare for her funeral? Why are you asking me to bring so many people to find her personally now?"

Cheng Tang frowned, her long eyelashes blocking the emotions in her eyes. "I want to see her dead or alive. Kang Wan is my niece. I can't let her die in a foreign country!"

After a pause, her face darkened coldly as she continued, "Besides, I bet she's still alive!"

Chapter 458: Suspecting Huo Xuan

Huo Xuan's business took up the majority in the region of Southeast Asia and the Cheng family had long discovered this.

Therefore, in Cheng Tang's eyes, this matter more or less had something to do with Huo Xuan. It was impossible for someone of Kang Wan's status to disappear silently under Huo Xuan's watch, unless he was the one who did it in the first place.

As for the men of the Huo family, they had a good habit of never fighting with women. Apart from the time when Lin Yuan drugged Huo Xuan and he cut her hands off, Huo Xuan had never fought with a woman.

In that case, it was impossible for Kang Wan to die in his hands. She could only be locked up secretly.

Thinking of this, a few seconds later, Cheng Tang waved at the subordinate she had just instructed and added, "When you bring her to look for someone, pay more attention to the underground wineries and casinos in Country N. Kang Wan must be locked up in such a shameful place!"

At the same time, in a small mansion in the suburbs.

Under Mo Zhu's command, Jin Fang was firmly watched by Huo Xuan as he soaked in the medicinal bath for five hours.

This time, the medicine that Mo Zhu instructed Ming Mei to buy was a large amount of spirit medicine. The medicine itself had a certain amount of stimulation. With the large amount of medicine and the fact that Jin Fang's body was already affected by the poison in his body, his physical condition was no longer as good as before. Now that he was under the impact of the medicinal bath, he fainted a few times from the pain.

When he came out of the bathtub, Jin Fang immediately felt that his body was much lighter than before. There was a warm feeling all over his body. Even his abdomen, which had occasionally hurt, no longer ached.

After putting on her clothes and walking out of the bathroom, she saw that Mo Zhu was trying to understand the situation here from Huo Xuan, who was guarding the door. Jin Fang quickly walked up to the two of them and asked with an excited smile, "Girl, you've given me such good medicine. After soaking in it, I feel refreshed and the heaviness has disappeared. I feel like I'm ten years younger!"

Mo Zhu nodded and raised her hand to gently feel Jin Fang's pulse. A few seconds later, she replied lightly, "Uncle Jin, the poison in your body has almost been cleared by the medicinal bath. I'll give you a prescription. In a while, you and Auntie Ming can go to the pharmacy and follow the prescription to buy half a month's worth of Chinese medicine and drink it every day. Come look for me after your body has recovered. At that time, you can put the matter of conceiving a child on the agenda."

Upon hearing this, Jin Fang laughed happily and immediately agreed loudly. Then, he suddenly thought of something and looked up at Mo Zhu seriously as he asked, "Girl, can you write a copy of the ratio of the contents this medicinal bath for me? This medicinal bath is so comfortable. I want to go home and soak in it a few more times."

When Mo Zhu heard this, she glanced at the man indifferently. She shook her head and said coldly, "Uncle, this prescription was previously specially used for martial artists. This time, I made an exception and used it on you because Huo Xuan and I are both here. It can deal with special situations in time. This prescription is used in large doses. With your physique, it's not suitable for you to use it often."

All these years, Jin Fang had been sitting in the office, working and not exercising often. His body was not as healthy as a person who exercised often. Many years ago, he had suffered internal injuries, and the internal injuries had turned into poison and piled up in his abdomen. After every incident, his body was no longer as good as before. He could not withstand using such domineering herbs for a long time.

Upon hearing Mo Zhu's rejection, Jin Fang lowered her head slightly and sighed regretfully. "Such a good prescription is actually not suitable for long-term use. What a pity."

Chapter 459: Provoking Mo Zhu

Mo Zhu ignored him and returned to the main hall. She picked up the pen on the table and quickly sorted out the prescription for Jin Fang. She handed the thin piece of paper to the man and instructed seriously, "Uncle, take this prescription twice a day. You can take it in the morning and night or in the afternoon."

Jin Fang nodded and took the prescription before putting it into his pocket. He smiled and said, "Okay I'd remember it girl. I will definitely take my medicine on time!"

After saying this, he took the briefcase that he had casually brought in when he entered the house. He quickly dug out a check from it and neatly filled in a string of numbers. Jin Fang handed the signed check to Mo Zhu.

"Girl, although our families are considered friends and your Auntie Ming and Chen Man grew up together, it's all thanks to you for treating our illnesses this time. We can't trouble you for nothing. Take this money as a thank you gift from Ming Mei and I!"

Following Jin Fang's words, Mo Zhu looked up at the check in the man's hand indifferently.

Counting the zeros on it, if Mo Zhu's eyes weren't playing tricks on her, there should be 50 million yuan on this check.

She lowered her eyes quietly and pondered for a moment. To be able to take out such a price to thank her, Jin Fang was indeed quite sincere!

Thinking of this, Mo Zhu smiled and reached out to take the check. She said nonchalantly, "Thank you, Uncle. I won't stand on ceremony then."

Seeing Mo Zhu put the check into her pocket, Jin Fang rubbed his palms quietly. It was good that she accepted the money, the action of accepting the money this time meant that this girl might be able to help him in the future on the account of money. If she did not accept this check this time, it would be difficult for him to ask Mo Zhu for help in the future.

Chen Man, who had just walked out of the house after exchanging pleasantries with Ming Mei, saw Jin Fang's actions. She frowned slightly and her face darkened in displeasure.

It was already late at night outside. Chen Man did not ask the two of them to stay in the small mansion any longer. She instructed Jin Fang to drive and she pulled Ming Mei out of the small mansion slowly.

Seeing Jin Xuan's figure walk away, Chen Man grabbed Ming Mei's hand and reminded her in a low voice with a serious expression, "Xiao Mei, it's not that I want to criticize you, but when you go back, you must warn your Old Jin well. Don't target my daughter-in-law with those bad intentions. Otherwise, I'm afraid our family won't be able to continue our relationship in the future!"

Upon hearing Chen Man's serious words, Ming Mei anxiously held her hand in confusion. "What do you mean by that? Why don't I understand what you mean?"

When Chen Man heard this, her frown deepened. "This time, half of the reason why Xiao Zhu is willing to treat the two of you is because of me, and the other half is because of your nephew. Now that Old Jin has used a check to completely break the balance of this matter, the relationship between our families has become superficial. Go back and tell Old Jin that it's best if he doesn't think of asking Xiao Zhu for help in the future. Otherwise, we won't have any contact with each other in the future!"

After saying this, Chen Man did not want to say anything else and could not be bothered to explain it to Ming Mei in detail. She immediately turned around, opened the door and returned to the small mansion.

Although she and Ming Mei were as close as sisters, Chen Man could still tell who was the real family. She was not like the noble ladies in Beijing who were mostly evil mothers-in-law. As long as she was around, no one could make use of Xiao Zhu!

For the sake of the Huo family's future and happy life, she would definitely not do anything to make her daughter-in-law unhappy!

Chen Man's words confused her. Even when she was in the car that Jin Fang had driven over, she still could not understand the meaning behind the woman's words.

Seeing Ming Mei looking at the night view outside the window in a daze, Jin Fang coughed twice and took the initiative to speak to her. "Xiao Mei, it's really amazing. The formula for this medicinal bath concocted by the girl from the Huo family, Mo Zhu, is really useful. After soaking in the medicinal bath, I feel much more relaxed. It's simply amazing!"

Chapter 460: Understanding the Reason

After saying this, he paused for a few seconds and added, "We've been treating this illness for so many years and it hasn't healed. Now that this girl has cured it, there's actually a possibility of recovery. At such a young age, this girl's medical skills can't be underestimated. In the future, you should ask Chen Man out for beauty treatments and

shopping. If you have nothing to do, go to the Huo family and walk around. As long as this girl is familiar with us and can help us do things in the future, be it the Jin family or the Ming family, your status in Beijing will definitely improve!”

Ming Mei still did not understand what Chen Man had said just now. However, now that she was reminded by Jin Fang, she immediately understood what had happened.

Ming Mei lowered her eyes and looked coldly at Jin Fang, who was driving. She asked in a low voice unhappily, “What did you say just now? You want to target Mo Zhu?”

Seeing Ming Mei making a fuss, Jin Fang nodded nonchalantly. “That’s right. With our relationship with the Huo family, as long as we give them a little more benefits, that girl definitely won’t reject us. Besides, in order to instruct her better in the future, I’ve already given her a check for 50 million before we left the small mansion. If this money isn’t enough, we’ll give her more in the future!”

Jin Fang had been pampered by the old master of the Jin family since she was young. Although he had suffered a lot in recent years because he did not have a son, in the capital, he had always believed that there was nothing that could not be done with money. If there was, it meant that the money offered was not enough!

Upon hearing Jin Fang’s words, Ming Mei immediately frowned and patted the armrest of the chair beside her with strength. She quickly reprimanded, “Why didn’t you discuss it with me before you did anything? You’re really muddle-headed! How could you think of using money to bribe Mo Zhu! Great, now that you’ve interfered in this matter, the family might not be willing to continue treating us half a month later!”

Jin Fang did not understand what Ming Mei meant. Taking advantage of the red light at the intersection ahead and stopping the car, he turned his head and looked at the woman in surprise. He asked in a low voice, “What do you mean by that? That girl has already agreed to treat us. Can she go back on her words?”

Seeing that Jin Fang was still so stubborn, Ming Mei pinched the space between her eyebrows with a headache. “Didn’t I specially remind you before we went to the small mansion in the afternoon? You have to be more respectful and careful in front of that girl. Why don’t you understand what I’m saying! Now that you have ill intentions towards her and you had even let Xiao Man see through it, let’s not talk about whether she is still willing to treat us. If you dare to have any thoughts on Mo Zhu again, knowing her capabilities, she will definitely not let the Jin family and the Ming family off easily!”

Now, Ming Mei completely understood why Chen Man had specially said those words when she sent her out. Not only was this a warning to her, but it was also a kind reminder.

If Jin Fang really accidentally touched Mo Zhu’s bottom line, with the Huo family’s personality, Huo Xuan wouldn’t let them off.

At that time, Xu Huan would probably be caught in the middle.

The red light in front of him turned green. Jin Fang started the car again and said in a low voice, "Xiao Mei, it's not as serious as you say, right? I didn't mean to harm that girl. I just gave her a check tonight!"

After saying this, Ming Mei raised her hand and patted her chest to calm herself down. She continued to explain to Jin Fang, "Xiao Zhu treated us on the account of the close relationship between our families for many years, but you insisted on giving her money. What do you mean by this? Do you have to make things so clear?"

"When we left just now, Xiao Man had already come to warn me. What does this mean? It means that this matter has already made Xiao Zhu very unhappy. If you don't restrain yourself and become worse, she will definitely not treat us anymore!"

When Jin Fang heard this, he pursed his lips and replied, "I heard that the girl called Mo Zhu is from Cloud City in the countryside. The 50 million I gave her should be an amount that she won't be able to earn in her entire life. She should be happy!"

Chapter 461: Reprimanding Jin Fang

Upon hearing Jin Fang's words, Ming Mei's face turned red with anger. She suddenly raised her hand and patted the man's shoulder. She reprimanded him unhappily, "Let me tell you, Jin Fang. Xiao Man sold her face and asked her daughter-in-law to treat me on the account of our many years of friendship. Just now, she specially chased me out to remind me about the matter that made Mo Zhu unhappy. If you continue to be stubborn and insist on offending the Huo family, we won't be able to bear the consequences!"

Seeing that Jin Fang was still indifferent, Ming Mei added anxiously, "What I said just now was not exaggerated or casually said. That girl can cure Xuan'er's illness and even make Huan'er look at her in a different light. She definitely isn't as simple as she looks on the surface. She definitely has some true ability. I heard from Xiao Man that not many families in Beijing can afford to hire Xiao Zhu to treat her illness. Besides, the little money you gave her is nothing compared to the people who offered her to treat them!"

Just as he finished speaking, Jin Fang carefully pondered over the meaning in Ming Mei's words. Half a minute later, as if he had realized the seriousness of the matter, he frowned slightly and subconsciously tightened his grip on the steering wheel. He said in a low voice, "Xiao Mei, if this matter is really as serious as you say, how should we ease our relationship with Xiao Zhu now?"

Jin Fang patted his head in frustration and muttered to himself with a headache, "I didn't mean to distance myself from the Huo family. I didn't expect it to be so serious."

Following the man's words, Ming Mei pinched the space between her eyebrows and thought about the solution very seriously. She understood that since Chen Man had chosen to remind her, she would definitely not interfere in this matter anymore. She raised her eyes and looked straight at Jin Fang, who was beside her. She sighed unhurriedly and said, "For the present, I'm afraid it won't work if we ask Xiao Man to help us plead. We can only go to Huan'er and ask him for help. I hope he can help us put in a good word for Xiao Zhu!"

Upon hearing this, Jin Fang immediately turned the steering wheel and turned the car around to drive towards the Xu family's old mansion. "There's no time to lose. Let's delay it for another day. If we don't solve this matter tonight, none of us can sleep well. Shall we just go straight to the Xu family to look for Huan'er?"

When Ming Mei heard this, she agreed lightly. Then, she sat quietly in the front passenger seat and looked at the night view that flashed past outside the window. She thought about how she should ask her nephew when she saw him later.

As for Xu Huan, ever since Mo Zhu handed Jiang Yu, Meng Ran, and Zhang Qi to him, he had been living in deep trouble these few days. He was not doing well at all.

After causing trouble in the Xu family's old mansion for two days, Xu Huan really could not withstand the power of Jiang Yu. He was afraid that the few of them would disturb the Xu family's elders' daily work and rest. Xu Huan specially spent a lot of money and rented a big mansion in a famous villa area in Beijing to entertain the three of them.

In the few days that they had been in Beijing, Meng Ran and Zhang Qi no longer had any pressure to study. They left early and returned late every day in a relaxed manner and were busy checking in at the various scenic spots in Beijing.

Originally, the two of them had wanted to go shopping with Xu Huan and Jiang Yu. However, after they got ready every morning, Xu Huan would always suddenly have an accident and it was inconvenient for him to go out. It was either a stomach ache or a stress disorder in some part of his body.

For the first few times, Meng Ran and Zhang Qi would still comfort him and wait for him. However, after it happened many times, the two of them realized that he would return to normal at night although he was in a bad condition during the day, they became impatient and unwilling to ask Xu Huan to go with them.

Therefore, the two of them went out to play happily daily, while Xu Huan and Jiang Yu stayed in the mansion for a day.

Because of these reasons, Xu Huan was not in the Xu family. When Jin Mei and Ming Mei went to the Xu family's old mansion to look for him, they naturally did not find Xu Huan.

After typing a simple message and sending it to her nephew, Ming Mei saw that it was getting late and went straight back to the Jin family with Jin Fang..

Chapter 462: Spending Too Much

At this moment, in the small mansion.

Mo Jiu transferred the reward for Lin Yuan's broken limbs in the afternoon to Mo Zhu's account. After receiving the money, Mo Zhu was in a particularly good mood. On the account that Mo Jiu had worked hard the entire afternoon to earn money for her, she transferred half of the "little money" she had obtained to Mo Jiu.

Just as Mo Zhu was playing with her phone with interest and looking at her bank balance, the phone in her hand suddenly vibrated. Then, a ringtone sounded and the screen showed that there was a missed call.

Mo Zhu looked at the familiar ending number indifferently and swiped the answer button.

A respectful voice of a subordinate from Cloud City's underground organization came from the other end of the phone. "Master Long, the organization doesn't have much money left. Do you think you can transfer some over..."

After saying this, as if he felt a little embarrassed to ask for money directly, he coughed lightly and explained cautiously, "Master Long, as you know, our daily expenses are not small to begin with. Recently, we happened to encounter so many disturbances in Cloud City, so we spent even more money..."

If they had opened an ordinary underground organization, they would definitely not be so short of money. They would not be so short of money that they could not make ends meet. After all, as everyone knew, no matter which city in the world, underground organizations were the most profitable business.

However, it was different for the Eighteen Cities. The cities that Mo Zhu was in charge of had underground organizations that were all involved in clean and proper industries. Not only did they not earn much money usually, but when they saw slums, they also had to pay to help them build a safe place to live. They also had to be responsible for funding and providing for the poor temporarily before they could support themselves.

In the end, the entire organization's expenses became even greater. Although Mo Zhu was also very generous and would transfer hundreds of millions of yuan into their accounts every time she gave them money, and she would transfer the money to them

every quarter, they did not have to take the initiative to ask for money. However, after so many major events occurred in Cloud City some time ago, and the subordinates in the organization had been helping to complete the reconstruction work for the damaged infrastructure in Cloud City under Mo Zhu's arrangements, the funds in their accounts did not last until the next quarter.

When Mo Zhu heard this, she firmly placed her phone by her ear. She raised her eyebrows and replied calmly, "Alright, spend the money where it should be spent. You don't have to make a special effort to save it. I'll transfer the money to your accounts now. If you have any other big expenses required, just call me."

After saying this, Mo Zhu hung up the phone neatly and started to busy herself with the transfer.

Considering the large expenditure in Cloud City recently, she directly transferred the reward she had gotten after winning the first place in the international competition last week and the reward for treating Lin Yuan to the account of Cloud City's underground organization.

Great, she had originally thought that with so much money, she could be a rich woman for the time being. She did not expect to spend so much money raising so many subordinates. Before she could even warm up the money in her wallet, she had already spent it all.

Seeing that Mo Zhu was frowning slightly because of the money, Huo Xuan walked to the girl's side and gently ruffled her hair. He promised seriously, "Xiao Zhu, the Huo family's money is my money, and my money is naturally yours too. If you need money, just tell me. I'll transfer it to you. I'll support you. You don't have to be soft-hearted when you spend my money!"

Upon hearing Huo Xuan's words, Mo Zhu nodded gratefully. She didn't reject him and replied, "In that case, I'll beg Master Huo to support me!"
