## The Return of the God of War [The Protector] Chapter 3951 - 3960

After deeply realizing the terrifying effect of the dragon veins, Levi Garrison immediately decided to take Levilia over and let her use the dragon veins to practice.

When Levilia came to the secret realm, she was quite shocked. She never thought that there would be so many terrifying spiritual veins here.

In particular, the purity of the spiritual energy in the secret realm is dozens of times stronger than that of the holy vein, which makes Levilia uncontrollably create his own exercises.

“Um?”

Levilia suddenly felt a little strange, as if attracted by some invisible force.

“Levilia, what’s wrong?”

Levi Garrison asked with some doubts.

Levilia said with a serious face: “Dad, the moment I ran the exercise just now, it seemed that I had some kind of induction with the power of the extremely strong spiritual veins.”

“Oh? Then you try to tell their approximate directions?” Levi Garrison said solemnly.

Levilia continued to run the self-created exercises, with her body as the center, and layers of energy fluctuations quickly spread out.

After a while, Levilia suddenly opened his eyes and said with a smile: “There are two spiritual veins more than ten miles to the southeast that are extremely sensitive.”

“There are three spiritual meridians about twenty miles to the northwest that are strongly sensitive, and there are also over there.”

Levilia said the position and approximate distance one after another, and Levi Garrison's face changed from surprise to surprise.

Because the position pointed out by Levilia is exactly where the dragon veins are.

And in order to be safe, Levi Garrison deliberately used his strength to hide the dragon veins.

Even the detectors used by God's Brain can only determine the approximate location of the dragon veins, but the location pointed out by Levilia is extremely accurate.

"Levilia, I never thought you had such talent."

Levi Garrison paused and continued: "This is not a talent, I think it has something to do with the attributes of your own creation."

Levilia's self-created practice pursues the unity of heaven and earth, utilizes all the energy between heaven and earth, and even integrates with the power of heaven and earth in the end.

In order to achieve a wonderful state of inexhaustible power.

And no matter what level of spiritual veins, in the final analysis, it is a special energy source ore bred between heaven and earth.

It is reasonable to have some kind of induction between the cultivation technique of seeking the unity of heaven and man and the spiritual meridians.

"In this way, with the growth of my cultivation realm, the induction of super spiritual veins will become more and more sensitive."

Levilia speculated.

Levi Garrison nodded and said: "According to common sense, it should be like this, Levilia, you can first try to practice with dragon veins."

Then Levi Garrison brought Levilia to the dragon vein, and Levilia directly operated his own exercises.

“Wow!”

Levi Garrison clearly heard the sound of the dragon’s roar coming from the hinterland of the dragon vein, as if the pet was happy when it saw its owner.

Buzz!

After a while, the entire dragon vein vibrated slightly, and Levilia’s body also formed a huge energy vortex.

Insanely absorbing the power of the dragon veins.

“It turned out to be bigger than my body quenching movement. It seems that there is no problem with Levilia’s cultivation with dragon veins.”

Levi Garrison was extremely gratified. In terms of talent, Levi Garrison even felt that his daughter was even better.

After guarding for a while, Levilia did not experience any discomfort, and Levi Garrison was completely relieved.

Levi Garrison immediately began to quench his body at the dragon vein not far away. Once Levilia encounters any trouble, he can also support him in time.

At the same time, the guardians of the gods and elites who fled in embarrassment are also improving.

They also finally realized the strength gap between them and Levi Garrison.

But the guardian of the gods is eager to let the main god be born, and the power of the dragon veins is even more important.

The many dragon veins in the secret realm are equivalent to the fat to the mouth.

Even if Levi Garrison is occupied by a fierce beast, it cannot completely dispel the coveted heart of the gods.

Fortunately, they have a lot of holy veins and divine veins in their hands, which is enough to increase their strength again.

So the gods guarded the remaining guardians and agreed to use the resources they mastered to improve first, and then snatch the dragon veins in the secret realm.

Or find other dragon veins...

the other side.

After attending the wedding of Gong Qianqiu and the Great Holy Son, Xiao Feng also entered a more crazy state of cultivation.

I completely let go of my feelings, and the blank in my heart was completely replaced by hatred.

This allowed Xiao Feng to reach a state where he had nothing else to do. He frantically plundered the cultivation resources of the five major sects.

“Xiao Feng, the inventory of the Cang Qiong Sect is empty, do you want to visit the other sects?”

Xie Huanyu’s tone was full of bitterness.

After returning from the wedding, Xiao Feng searched for cultivation resources like he was crazy.

All the high-grade treasures in the Cang Qiong faction’s inventory were almost consumed by Xiao Feng.

If things go on like this, the disciples of the Cang Qiong Sect will not have the guarantee of follow-up cultivation resources, and the complete destruction is almost a certainty.

Xiao Feng said displeasedly: "If you don't have any stock, go out and find it for Lao Tzu. There are countless treasures in the Kunlun Ruins, so in the end, it's you who are not doing your best."

It may be related to the practice of extreme swallowing exercises, Xiao Feng's temper has become more and more irritable, and he is often beaten and scolded.

There were already more than a dozen people killed by Xiao Feng on the spot because of his incompetence.

"Okay, I'll send someone to look for it!"

Xie Huanyu could only bite the bullet and agree.

In fact, some people proposed to combine the power of everyone to kill Xiao Feng, but they were worried about Levi Garrison behind Xiao Feng.

In addition, Xiao Feng's strength has been greatly improved now, and he really has no confidence in rushing to do it.

Looking at the back of Xie Huanyu and others leaving, Xiao Feng muttered to himself: "Gong Qianqiu, please wait patiently, I will definitely take your life with my own hands."

However, Xiao Feng did not know that Gong Qianqiu, who was involved in this matter, was not what it used to be.

Especially after swallowing the power of the dragon veins recently, Gong Qianqiu's cultivation realm has reached an extremely terrifying level.

Even in her opinion, even if the seven holy sons join forces, she can directly crush it.

"In today's Taixu Shenzong, even the vice sect master is not necessarily an opponent of this sect master."

Gong Qianqiu said proudly.

Moreover, Gong Qianqiu had both sides, and with the blessing of the future Sect Master's wife, the connections within the Taixu Shenzong quickly reached their peak.

Not only that, Gong Qianqiu also used the Seven Holy Sons to provide many holy veins as bargaining chips to develop many direct subordinates, and the speed of development is very terrifying.

Not only inside the Taixu Shenzong, but also outside, led by Xuanming Duguxiao and his son, recruited a team of loose cultivators with strong combat effectiveness.

It is conservatively estimated that the combat effectiveness of this team is completely comparable to that of small sects.

"Levi Garrison, this sect master is waiting for you to throw yourself into the net."

Gong Qianqiu smiled even more, and now Levi Garrison has long been ignored by her.

In the secret realm, Levi Garrison is still frantically using the dragon veins to temper his body.

Time flies, a month later.

Levi Garrison took the lead in completing the body quenching, and the ten dragon veins only had a small amount of power that was not consumed.

Feeling the flow of qi in the body, if the previous level was described as a river, at this moment it is completely a vast ocean.

In particular, Levi Garrison made a few punches, and there was already a clear sound of dragon roar.

"Physical strength and strength speed have basically reached the level of perfection."

"It's time to go to Kunlun Ruins to have a look."

Levi Garrison made up his mind and immediately went to check on Levilia's situation.

“Dad, your strength has increased again?”

It just so happens that Levilia has completed the refining and absorption of the power of this dragon vein.

“yes!”

Levi Garrison nodded, and then said in surprise: “Levilia, your strength seems to have increased even more!”

Although he only used the power of one dragon vein, Levi Garrison could clearly feel that Levilia’s strength had increased by one level.

Even compared with the self who has not been tempered by the dragon veins, it is not inferior at all.

The speed of this improvement is simply terrifying.

“Levilia, with you in the base camp, I can go to Kunlun Ruins with confidence.”

Levi Garrison said with a smile.

## The Return of the God of War [The Protector] Chapter 3953

The power of the ten dragon veins has not been completely used up, so Levilia can make full use of it.

Levi Garrison also checked the cultivation of Wen Lei and others, and they also made significant progress through the quenching of the holy vein.

As for most of the other members of the base camp, they used their divine veins to improve their overall combat power.

Seeing such a situation, Levi Garrison was completely relieved.

As long as the top sects of the Kunlun Ruins are not dispatched, there is no threat to the safety of the members of the base camp.

Even an opponent of the level of guardianship of the gods, with Levilia, Wen Lei and others in charge, is absolutely sure to deal with it.

After everything was settled, Levi Garrison rushed to Kunlun Ruins single-handedly.

Levi Garrison, where Tianmen is located, is also familiar with the road, and this time he directly forcibly entered the bronze door.

Levi Garrison went all the way without obstruction, but he did not enter the Kunlun Ruins according to the route provided by Xie Zhongmou and others.

Of course, this was also a decision Levi Garrison made cautiously. After all, he didn't know anything about Kunlun Ruins.

The Taixu Shenzong is also very likely to ambush the eyeliner under the normal route.

Levi Garrison planned to quietly enter the Kunlun Ruins to investigate, and did not want to startle the snake.

Because of this, he did not notify the sects and Xiao Feng that he controlled.

If you rashly notify those sects, Gong Qianqiu will definitely get the information in advance.

"This should be the forbidden route for Xie Zhongmou and others."

Breaking through the layers of energy constraints, Levi Garrison came to the end of the road smoothly, and a giant stone tablet carved from an unknown mineral came into view.

The giant stone tablet has a faint blue color, and the ancient characters on it are very conspicuous: The mysterious forbidden land.

“Xie Zhongmou said that this forbidden area is located on the edge of Tianmen, in order to prevent people from entering and leaving Kunlun Ruins abnormally.”

Levi Garrison did not hesitate in the slightest, and directly entered the Forbidden Land.

“Wow!”

But at this moment, a strange cry came from the depths of the jungle.

“Ferocious beast?”

Levi Garrison sneered: “I want to see how fierce you are?”

Levi Garrison dodged in, the forbidden area was crisscrossed with craggy rocks and ancient trees and vines, but he could feel that there was a lot of spiritual energy.

Boom!

At this moment, five or six people at the far end swayed violently a few times around the thick ancient tree, as if they were hit by something.

The ancient tree is hundreds of meters long, and coupled with such a level of stoutness, it is difficult to imagine how terrifying the power of this fierce beast is.

Levi Garrison continued to move forward. The tall and dense ancient trees covered the sky and the sun. If Levi Garrison had excellent eyesight, I am afraid it would be even more rugged.

In this way, Levi Garrison hurried for about half an hour and suddenly stopped, and a ferocious beast resembling a brown bear blocked his way.

This fierce beast was more than three meters tall, with long brown-black hair, and two sharp-edged horns on its forehead.

Especially the pair of beast eyes were blue, like two ghost fires staring at Levi Garrison.

“Ow!”

The giant beast screamed and rushed towards Levi Garrison.

That huge palm is like an extra-large paddle fan, carrying a terrifying strong wind in the blink of an eye.

“So fast?”

Levi Garrison was a little surprised, not thinking that the huge body of the giant beast did not affect the speed at all.

“Let you have a taste of Lao Tzu’s fist, just to test your cultivation results.”

Levi Garrison punched the giant beast’s palm.

“Wow!”

Levi Garrison’s fist was faintly accompanied by the sound of dragon’s roar.

At the moment of hearing this voice, the giant beast’s body was obviously stagnant, and even those eyes were stunned for a moment.

Bang!

Levi Garrison slammed the giant beast with a punch, and the giant beast weighing several tons was directly blasted out.

In the end, he fell heavily to the ground and lost his life.

It can be clearly seen that its chest is pierced by the punch, and the heart is broken.

“Vulnerable!”

Levi Garrison sneered.

Turning back suddenly, several fierce eyes in the depths of the jungle converged.

## The Return of the God of War [The Protector] Chapter 3954

When Levi Garrison waved his hand like a demonstration, those beasts who coveted Levi Garrison's life then dispersed.

"The strong food of the weak is more vividly reflected here."

Levi Garrison was quite emotional, but fortunately, the effect of quenching the body with ten dragon veins in a row was amazing.

Looking around, Levi Garrison noticed that there was a plant with nine-colored petals behind the giant beast.

"Nine-colored cold ling grass?"

The spirit grass recorded in the ancient books of the Cang Qiong School is rare in Kunlun Ruins.

"The more dangerous the forbidden area, the greater the opportunity, and I just took this opportunity to collect some treasures."

"Whether you use it yourself or take it back to your relatives and friends, you will benefit a lot."

Levi Garrison made up his mind and hurried while collecting treasures from heaven and earth.

As long as you pass through the secluded and mysterious forbidden area, you can reach the locations of the major sects in the Kunlun Ruins.

So Levi Garrison started a journey to search for spiritual treasures in forbidden places, and of course, he fought fierce beasts in the process.

It's just that Levi Garrison's strength is too terrifying, and he is basically crushed all the way.

"If the cultivation base is a little bit nearer, I really can't leave the Forbidden Land of Youxuan alive."

Levi Garrison was quite emotional. According to his estimation, a cultivator of Xie Zhongmou's level would have to pay a heavy price if he wanted to cross the Forbidden Land.

There is even a high probability of dying in Huangquan.

In the next few days, Levi Garrison also discovered three sacred veins and a super spirit vein that was about to reach the dragon level.

Although these had little effect on Levi Garrison, he also didn't let it go. All of them were used for body quenching.

On the tenth day of entering the Youxuan Forbidden Land, Levi Garrison felt that he should have crossed the hinterland of the Youxuan Forbidden Land.

Cha Cha Cha Cha Cha Cha Cha Cha Cha Cha!

Just then, the sound of light footsteps came.

Levi Garrison looked from a distance and saw a group of young people rushing towards him.

There are more than ten people in the team. According to Levi Garrison's investigation, the strength of these people is only stronger than those of the so-called Tianjiao of the Taixu Shenzong.

In particular, the leading woman was particularly conspicuous in her green dress, with a graceful figure and outstanding appearance, and she was full of fairy spirit in her gestures.

As if the fairy fell into the earth, giving people a sense of distance that can only be seen from a distance but not close.

In particular, the strength is outstanding, I am afraid that it is several times stronger than the original three saints.

“These people should be the elites of some major sects in Kunlun Ruins!”

Just as Levi Garrison was thinking about it, the crowd had already arrived.

“This guy is very courageous. He dares to enter the Forbidden Land alone, and he is still alive!”

“No, his line should be the same as ours. I think he borrowed our light.”

“Otherwise, what do you think! If he had relied on his own strength, he would have been buried in the mouth of the beast long ago!”

The faces of several men and women were full of contempt, but they soon discovered the treasures in Levi Garrison’s hands.

“This guy is very lucky, the quality of collecting heaven and earth treasures is no worse than ours!”

“Why don’t you kill it and take these treasures for yourself?”

Several of them transmitted voices to each other, and greed flashed in their eyes instantly.

“Don’t act rashly, I’ll ask him about his situation before making a decision.”

After the leading woman’s voice transmission, everyone instantly restrained their murderous intent, but their eyes couldn’t help but look at the treasure of heaven and earth in Levi Garrison’s hands.

“Next is Murong Qingxue, the saintess of the Xingyue Divine Sect, where did your teacher come from?”

It was originally a polite greeting, but when it came out of Murong Qingxue’s mouth, it had a very condescending taste.

“No way!”

Levi Garrison said with a smile.

The stars of the Xingyue Divine Sect's arrogance became even more contemptuous when they heard the words, and Levi Garrison's answer proved that he was a rookie who just came from the secular world.

"Then your Excellency, come with us! In this way, we can also take care of each other."

Murong Qingxue said lightly.

## The Return of the God of War [The Protector] Chapter 3955

Levi Garrison did not reject Murong Qingxue's proposal.

Of course, Levi Garrison doesn't need to take care of each other, but intends to inquire about information from these people.

As for Murong Qingxue, she had two ideas for her colleagues, one of which was naturally to value the treasures in Levi Garrison's hands.

The second is that the entire team has been injured to varying degrees in response to the beasts, and the beasts in the Forbidden City are very powerful.

In particular, the fierce beasts guarding the dragon veins are even more powerful, and they are far from being able to deal with them.

Levi Garrison's behavior is suspicious. Although he looks like a rookie who has just arrived in the secular world, he is not injured in the slightest.

Even if it comes down to luck, it's rare.

Taking 10,000 steps back, one more person will give you more strength, and if it really doesn't work, you can still push Levi Garrison to the back.

"It's just that this person's strength is mediocre, and he doesn't look like a master at all."

“Especially what questions he raised are the rookie performances that he will only have when he enters the Kunlun Ruins.”

Murong Qingxue made a judgment in her heart.

Levi Garrison also learned a lot of information through conversations. In order to demonstrate their superiority, these people also answered a lot of doubts to him.

For example, the route that Levi Garrison traveled before was deviated, or even detoured.

Since Xie Zhongmou and the others had no experience in crossing the Forbidden Land, they could not provide Levi Garrison with a detailed route map.

“Everyone should be vigilant to prevent sneak attacks and beast attacks from people from other sects.”

Murong Qingxue said through sound transmission.

Others were alert and alert, and everyone was tense, for fear of encountering large beasts again.

They also got a lot of heaven and earth treasures, and they just wanted to leave the secluded and mysterious forbidden land safely.

Only Levi Garrison had a relaxed expression on his face, as if he didn't care about the fierce beasts in the Forbidden Land.

This kind of performance instantly aroused ridicule from the arrogance of the Xingyue Divine Sect.

“It's a monkey who has never seen the world, and has absolutely no idea of the danger of the Forbidden Land.”

“If he hadn't followed our team, he would have long since become food for fierce beasts. He's really a monkey who doesn't know how high the sky is.”

“You don't need to be angry, as the so-called ignorant is fearless!”

Everyone talked through voice transmission, and did not hide their contempt for Levi Garrison at all.

“This person is really strange. He is not nervous at all. This kind of performance is not fake.”

Murong Qingxue secretly checked Levi Garrison’s cultivation level again, and found that the latter was slightly stronger than the threshold for entering the Kunlun Ruins.

“It doesn’t seem to be pretending to be a pig to eat a tiger, but a pure ignorant and fearless!”

Murong Qingxue made a decision in secret, and continued to lead the crowd to the periphery of the Profound Forbidden Land.

However, it is strange to say that when they first came in, they encountered more than ten groups of beasts attacking them.

But when he left, he didn’t even see a vicious beast.

“This person’s luck is really good. No wonder he has collected so many treasures without any injuries.”

Murong Qingxue glanced at Levi Garrison without leaving a trace, and the only doubt in her heart was finally resolved.

However, Murong Qingxue and the others didn’t know that they didn’t encounter any beasts when they left because Levi Garrison was in the team.

Before Levi Garrison beheaded all the way, many powerful and fierce beasts were either killed or injured.

Not to mention ordinary beasts, they immediately retreated when they saw Levi Garrison’s figure, how dare they take the initiative to provoke them?

After walking for another three days, everyone finally left the range of the Profound Forbidden Land, and everyone in the Xingyue Divine Sect also let out a sigh of relief.

With their wounded state, if they encounter a powerful high-grade beast, they will definitely be more fortunate.

“We have no worries now, should we consider dealing with this monkey?”

Hearing this sound transmission, the eyes of the rest of the Xingyue Divine Sect immediately focused on the treasure of heaven and earth in Levi Garrison’s hands.

## The Return of the God of War [The Protector] Chapter 3956

The members of the Star Moon Sect did not hide their fiery gazes. For them, these treasures of heaven and earth represented a higher realm of cultivation.

Now that there is no threat from the beasts in the forbidden land, Levi Garrison is just a scumbag who has never seen the world, and the fat in his mouth will naturally not allow it to fly away.

Levi Garrison naturally also felt the hostility of the Heavenly Chows of the Xingyue Sect, and the corners of his mouth twitched involuntarily.

However, just when everyone was about to make a move, Murong Qingxue directly stopped her.

“Don’t act rashly, let me investigate and make plans.”

Although everyone was unwilling, they did not dare to disobey Murong Qingxue’s orders.

The saintess of the Xingyue Shenzong, speaking outside is equivalent to the sect master coming to give orders.

“I first entered the Kunlun Ruins, what are your plans next?” Murong Qingxue asked tentatively.

Levi Garrison said with a smile: "Of course, I came to the new world to expand my knowledge, and at the same time I want to gain stronger strength."

"It's too boring to have no rivals in the secular world."

Murong Qingxue almost laughed out loud when she heard Levi Garrison's last sentence, which was clearly in a 'lonely seeking defeat' tone.

"This person is really interesting. The top powerhouses in the world are basically at the bottom of the Kunlun Ruins. Is he quite proud?"

"If he really saw the strength of many strong people in Kunlun Ruins, he would definitely not say such arrogant words."

Murong Qingxue had never seen anyone from the secular world, and immediately developed a strong interest in Levi Garrison.

"If Your Excellency is willing to present the collected treasures of heaven and earth, this saint will make an exception to bring you into the sect and make you a named disciple of this seat."

"It should be noted that the Xingyue Divine Sect is a super-powerful sect that dominates one side. This is a once-in-a-lifetime opportunity."

"I don't know what your opinion is?"

Murong Qingxue said proudly.

As if bringing Levi Garrison into the sect and allowing him to become a follower is a great gift.

"Not a saint, this person is mediocre in talent!"

"Yeah, Holy Maiden, if you want the treasure in his hands, just kill it."

"There is really no need to make an exception to hire, there is nothing special about this person."

All the arrogances of the Xingyue Divine Sect opposed it. In their opinion, Levi Garrison was ordinary, and he really did not deserve the special treatment promised by the Holy Maiden.

“This saint has made up her mind, do you want to disobey?”

Murong Qingxue’s words instantly left everyone speechless.

“How is your consideration?” Murong Qingxue asked again.

Levi Garrison said with a smile: “I am very happy.”

It is not important to him that these treasures of heaven and earth, which are regarded as rare by the Celestial Chosen of the Star Moon Sect, are not important to him.

If Levi Garrison is willing, he can go to the depths of the forbidden area to collect it, which is simply as easy as the palm of your hand.

The most urgent task now is to understand the Kunlun Ruins as much as possible, especially the depths of the Taixu Shenzong.

“It seems that the Xingyue Divine Sect is quite strong, and I just got to know them better through them.”

Levi Garrison made up his mind secretly.

“Okay, from now on you will be a member of my Star Moon Sect.”

Murong Qingxue said with a smile.

She is not entirely happy because Levi Garrison joined the sect, but more because she has obtained such a rich treasure without blood.

Levi Garrison folded his fists and said, “I would like to ask you for more advice in the future.”

The stars of the Xingyue Divine Sect gave him a look of contempt one after another. In their opinion, Levi Garrison’s performance was clearly a villain.

Murong Qingxue took over many treasures from heaven and earth, and immediately led everyone back to the sect.

Along the way, Levi Garrison also took the opportunity to learn a lot of information after passing through active small sects.

Three days later, the sect people came to a large city, and Levi Garrison found that on the pavement similar to the market, the people who came and went were exchanging something.

“They are exchanging spirit crystals for items.”

Murong Qingxue’s voice suddenly came.

## The Return of the God of War [The Protector] Chapter 3957

Levi Garrison suddenly became interested, and Murong Qingxue did not hesitate to spread knowledge to Levi Garrison.

Mainly, there is a sense of superiority to show off his long knowledge to the buns!

“The common currency in the Kunlun Ruins is spirit crystals, which can be exchanged in the market for natural materials and treasures, exercises, etc.”

“Although there are many spiritual veins in the Kunlun Ruins, the top spiritual veins are basically occupied by major sects.”

“Ordinary small sects or loose cultivators want to obtain cultivation resources, they can only exchange for spiritual crystals through various things.”

Levi Garrison suddenly realized, he carefully observed the spirit crystals circulating in the market, and they were basically red.

“The vast majority of those in circulation are spirit crystals produced by the divine veins, which only poured into the exchange place after being processed and purified.”

“Of course, there are also very few top-level spiritual crystals produced by the sacred veins and dragon veins, but those are only owned by top-level sects.”

While speaking, Murong Qingxue took out a purple spirit crystal, which was dazzling under the sunlight.

Levi Garrison recognized at a glance that this kind of spiritual crystal was almost the same as the original dragon vein ore used for his body quenching.

“It seems that Murong Qingxue’s previous words are not completely bragging.”

“Being able to take out the Dragon Vein Spirit Crystal, it seems that the strength of the Xingyue Divine Sect is quite good, at least far from the sect of the level of the Sky Sect.”

Levi Garrison made a judgment in his heart.

“Xiaoye, do you know what they exchanged?”

At this moment, a star-moon god sect Tianjiao suddenly patted Levi Garrison on the shoulder and asked.

Levi Garrison looked in the direction of his fingers and saw a middle-aged man in Chinese clothes holding several chains in his hands.

On the other end of the chain, there are unkempt people tied up, and they are also well-cultivated, but at this moment they are not much better than prisoners.

“These people are slaves from the secular world. They have all been domesticated by the strong, and their edges and corners have been completely smoothed out.”

“Some people have to do the dirty work of some major sects, and monkeys from the secular world are the most suitable.”

“If they can satisfy their masters, maybe they can also reward some spirit crystals!”

“Xiaoye, if you look like this in the slave market, you will definitely be able to sell it for a good price.”

“Don’t be angry, Xiaoye, it’s just a joke!”

“Hahaha!”

Xingyue Divine Sect’s arrogance burst into laughter.

Even Murong Qingxue couldn’t hold back, and there was an imperceptible smile on the corner of his mouth.

Levi Garrison naturally knew that they were taking the opportunity to mock him, but he didn’t care in his heart.

“A group of people at the foot of the mountain laughing at the god in the cloud is ridiculous!”

Levi Garrison didn’t take it seriously, and continued to actively learn about the relevant information of Kunlun Ruins.

However, Levi Garrison’s reaction was timid in the eyes of the stars of the Xingyue Divine Sect.

“We will rest in this city for a few days before continuing on our way.” Murong Qingxue said solemnly.

The injuries on their bodies have not yet healed, and they have obtained a lot of heaven and earth treasures, which happened to be exchanged for some top-level spiritual crystals here.

Levi Garrison naturally agreed, which was more helpful for him to understand the information of Kunlun Ruins.

“The Xingyue Shenzong and the Taixu Shenzong have a close relationship, and the overall strength of the two sects is equal to each other.”

“Gong Qianqiu has developed rapidly in the Taixu Shenzong, and has become the elder of the last seat, especially with many holy sons.”

“There are many sects in the Kunlun Ruins, and medium-sized sects may have dragon vein resources.”

Levi Garrison was quite satisfied. He never thought that he could collect so much key information in just a few days.

However, just as Murong Qingxue was about to leave the city, she suddenly received an astonishing piece of information, and immediately gathered everyone in one place.

“According to reliable information, someone discovered a large dragon vein in Tianying Mountain, and many forces have arrived.”

“Taixu Shenzong and Sun Moon Divine Fire Temple sent people to go, and we rushed over immediately.”

Murong Qingxue immediately made a decision, and at the same time sent this message to the sect, asking for help.

“Little Ye, just wait here for your little strength!” Murong Qingxue said in a deep voice.

She is not worried about Levi Garrison’s safety, but this competition for dragon vein resources must be a fierce battle.

At that time, Levi Garrison’s strength is too poor, it is inevitable that he will be ridiculed by others, and it may even damage the face of Xingyue Shenzong.

Levi Garrison said solemnly: “It’s rare to have such an opportunity to expand my horizons, I’ll just follow from a distance.”

“And I will perform a disguise, and I won’t have anything to do with the Xingyue Divine Sect on the bright side, so I won’t lose face.”

Levi Garrison's reaction was so suitable for a rookie who had just entered the Kunlun Ruins.

Especially since he had said it for the sake of it, Murong Qingxue couldn't refuse it.

"Okay, then you will pay attention to your own safety. If there is a chaos, we may not have time to protect you." Murong Qingxue said in a deep voice.

Levi Garrison nodded and said: "Okay, if the situation is not good, I will hide away."

This sentence immediately caused everyone to burst into laughter, and they began to 'like' Levi Garrison, this guy is simply here to be responsible for laughing.

Levi Garrison was also slightly relieved, with the large dragon veins and Taixu Shenzong involved, he must go.

So Murong Qingxue led everyone to rush to Tianxuan Mountain at full speed. Since they were very close, they arrived at their destination in about a few hours.

Levi Garrison performed a disguise and mixed into the crowd. After all, he was not sure if the Taixu Shenzong sent an acquaintance, so as not to startle the snake.

Tianying Mountain.

The mountain towers into the sky, and the surrounding mountains are endless.

On the top of Tianying Mountain, there are ancient trees and strange rocks, and even at the foot of the mountain, the height of ordinary people is cloudy.

It's hard to imagine what a spectacle this is.

"The aura is so full!"

The Celestial Choirs of the Xingyue Divine Sect sighed with emotion.

However, Murong Qingxue frowned slightly, and said in a condensed voice, "Everyone, be careful, the opponent you meet this time is not easy."

Levi Garrison looked in the direction of Murong Qingxue's finger, and saw that many sectarian powerhouses had gathered at the foot of the mountain at this time.

"The Promise Palace!"

"Rising Cloud Sword Sect!"

"The Misty Palace!"

"Akasaka Palace!"

"These sects are comparable in strength to the Xingyue Divine Sect, so don't take the initiative to provoke them unless you have to."

Murong Qingxue seemed to be reminding everyone, but she was actually warning Levi Garrison.

Because she found that Levi Garrison had a tendency to approach those sects.

"Thank you Saintess for your advice." Levi Garrison said in a low voice.

Seeing Levi Garrison's humble and teachable appearance, the stars of the Xingyue Divine Sect felt very comfortable.

"What a monkey that has never seen the world!"

Everyone added a sentence in their hearts.

However, at this moment, a joking voice came.

"Murong Qingxue, I didn't think that you would dare to come to Tianying Mountain. It's better to meet by chance. Today, you all stay!"

As soon as the words fell, a team of about twenty people swarmed.

"The Seven Stars Religion Saint Son Mo Junyan?"

Murong Qingxue frowned, her cheeks covered with frost.

The leader was a tall and thin young man, his eyes were full of wicked banter. Seeing Murong Qingxue, he was as excited as a jackal who had found its prey.

Followed by several Seven Stars Sect elders behind him, they did not hide their contempt for Murong Qingxue and the others.

“Murong Qingxue, this dragon vein must be owned by our Seven Stars Sect, and the lives of the Holy Sons of all of you will also be taken in accordance with the order.”

Mo Junyan said sullenly.

“Yo ho, did your Xingyue Divine Sect accept such weak garbage?”

“It seems that you are really hopeless. A monkey from the world is so valued.”

“Murong Qingxue, otherwise, if you are willing to be the slave girl of this holy son, this holy son will show mercy and let you live, how about it?”

provocative!

Red-faced provocation!

The people of the Xingyue Divine Sect were outraged and planned to do it on the spot, but they were stopped by Murong Qingxue’s voice transmission.

“Mo Junyan, don’t be so quick to talk, we will see the true seal in our hands when we compete for dragon veins.” Murong Qingxue said coldly.

After Mo Junyan finished speaking, he left with many elders of the Seven Star Sect.

Looking at the backs of the Seven Stars Sect members, the faces of the Heavenly Chows of the Xingyue Divine Sect were all very solemn.

“Holy maiden, there are four or five elders in the Seven Star Sect team. If there is a head-on conflict, we won’t be able to get any advantage.”

“It’s not as simple as not being able to get cheap... We may even be wiped out.”

“It will take some time for our reinforcements to reach Tianying Mountain. How can this be good?”

The Xingyue Divine Sect elites were talking a lot, and their faces were getting worse and worse.

The Seven Star Sect was the mortal enemy of the Xingyue Shenzong. They had been fighting openly and secretly for many years, and the team that Mo Junyan brought this time was obviously superior.

Murong Qingxue pondered for a moment, then said, “We can join forces with the Taixu Shenzong to fight the enemy together, and the Seven Star Sect is obviously bound to win the Dragon Vein.”

“It is indeed feasible to combine vertical and horizontal, but it is also necessary to prevent others from being stabbed in the back.”

“That’s right, a large dragon vein can even support a medium-sized sect, and even the Taixu Shenzong may not be completely reliable.”

“They all want to take advantage of the fisherman, but there is no deep hatred between the Seven Star Sect and the Taixu Shenzong. If there is a war, they may not take action.”

Murong Qingxue sighed in her heart, everyone’s analysis was very reasonable.

In the face of absolute interests, friends may not be completely reliable. After all, enemies will never have the chance to betray.

"In any case, delay as long as possible and wait for reinforcements to arrive." Murong Qingxue said in a serious tone.

Everyone nodded in agreement, but they suddenly found that Levi Garrison was looking at him with a relaxed and comfortable face, and instantly became angry.

"Holy maiden, it's like a fuel bottle for you to bring such a waste. If you are in danger, you have to take care of him."

"The surname is Ye, we will fight with the strong of the Seven Star Cult in a while, you can do it yourself!"

"Xiao Ye, do you think you have a good mentality, or are you ignorant and fearless? The Seven Star Sect and the Xingyue Sect are mortal enemies, and there is no way they will show mercy."

Murong Qingxue did not stop everyone from attacking Levi Garrison.

Especially when she saw Levi Garrison smiling, she was even more upset.

"This guy is really heartless, how can he still laugh now? When he fights with the Seven Star Sect, there will be times when he will cry!"

Murong Qingxue secretly complained, and even began to doubt whether her decision to accept Levi Garrison was correct because of curiosity.

Levi Garrison said sincerely: "If there is a war, you don't have to worry about me, just keep yourself safe."

"I....."

The people of the Xingyue Divine Sect suddenly had a strong urge to utter foul language.

Why does Levi Garrison's words sound like 'you still worry about your own life'?

The key is that Levi Garrison's expression was sincere when he said these words, and everyone could not find any flaws to suspect his 'sinister intentions'.

“Let’s go quickly! If the large dragon veins are first occupied by other sects, we will be too passive.”

Levi Garrison reminded ‘kindly’.

What the hell!

This time, even Murong Qingxue wanted to curse.

“This guy just wants to die?”

Murong Qingxue snorted coldly and said solemnly to the others, “Speed up!”

“Little Ye, we’ll take care of ourselves later, you have to be more careful, don’t be shocked to death by the aftermath of the energy.”

“Yeah, Xiaoye, the Holy Son of the Seven Stars Religion has always been vicious, otherwise you should not go! To avoid being tortured to the point of death.”

“Little Leaf, it’s up to you whether the Star Moon God Sect can win this battle!”

Everyone finally found an opportunity and used Levi Garrison’s tone of ‘concern’ just now.

the other side.

In the depths of the jungle, a team of more than 20 people was rushing forward, and the leader was the Great Holy Son of the Taixu Shenzong.

In order to obtain the Tianying Mountain Dragon Vein, the Taixu Shenzong can be said to have used all their elites.

“Stop, the dragon veins are probably in this area!”

Seven Holy Sons said solemnly.

Everyone stopped, and everyone’s face was full of excitement.

It is understood that Tianying Mountain belongs to a large dragon vein, and it is even more terrifying than the dragon vein mastered by the Taixu Shenzong.

If you can take this dragon vein as your own, the overall strength of the sect will definitely be improved qualitatively.

“This place is high in mountains and dense with dense forests. It’s really hard to find it. If you make a big move, it will definitely attract the attention of other sects.”

“Xiao Qi, narrow down the scope a little bit!”

The Great Holy Son pondered for a moment and said.

The Seventh Holy Son nodded, and after a long time, with a keen sense, he finally locked the position of the dragon veins in the southwest of this mountain range.

“follow me!”

The Seven Holy Sons took the lead, and the others followed closely. After a while, everyone reached the finish line.

“Clean up this tree, and the dragon veins are hidden under the rocks.”

The Seven Saints said firmly.

Everyone ran the exercises one after another, and the air blade passed a smooth road, and the trees on the mountain were almost cut off by their roots.

The next step is to clean up the surrounding stones, which is naturally not a problem for the powerhouses of the Taixu Shenzong.

It didn't take a while, the dragon veins covered by the stone were revealed.

"Whoosh!"

The sound of the dragon's roar came faintly, making everyone in the Taixu Shenzong excited.

In particular, this dragon vein is extremely majestic, the surface is covered with a purple halo, and the purity and density of the aura has reached the extreme.

The surrounding area space forms a vortex of energy visible to the naked eye, actively absorbing the surrounding spiritual energy.

"As expected of a large-scale dragon vein, it already has an absolute aura, and it can actively absorb the essence of heaven and earth and continuously improve the quality of the dragon vein."

The Great Saint said with great emotion.

Gong Qianqiu's eyes are also full of excitement and excitement, she has never seen such a magnificent dragon veins.

Even the dragon vein that the Seven Holy Sons gave her is far less than that, no matter the size or the purity of the aura to keep out the cold is the difference between cloud and mud.

Even the few dragon veins controlled by the Taixu Shenzong have not reached such a scale.

"If a sect is founded on the basis of this dragon vein, it will definitely attract many strong people to defect, and it can even be directly comparable to the power of the Taixu Shenzong."

"Levi Garrison, Xiao Feng, you ants will never see dragon veins in the secular world."

“Still thinking of becoming an enemy of this sect master? The gap between us will only get bigger and bigger.”

Gong Qianqiu thought that the corner of his mouth rose slightly involuntarily.

The many masters of the Taixu Shenzong were also excited.

“Now we have the divine robbery as the divine weapon of the town sect. If we have the blessing of this dragon vein, we will definitely be able to rank among the real top sects.”

“That’s right, recruiting strong people based on this, the top masters of this sect will use it to improve, and then you will no longer have to look up to others.”

“For today’s plan, think about how to deal with the coveting of other forces!”

“Dragon veins are in the world, no matter how much we use our strength to seal the leakage of spiritual energy, it is impossible to completely cover it up.”

The Great Holy Son sneered and said, “I want to see who dares to snatch the dragon veins?”

Before he finished speaking, several rude voices came one after another.

“This dragon vein is not exclusive to your sect. Naturally, the powerful ones know that our Xuanjian sect will also have a share.”

“Everyone is innocent and guilty, and we Ba Daomen also come to join in the heat.”

“That’s right, this dragon vein also has a share of our Jagged Alliance.”

Along with the noisy footsteps, personnel from the three major sects rushed to the scene.

The Great Saint snorted coldly and said contemptuously, “Just your group of shrimp soldiers and crab generals also want to fight the dragon vein? First ask me if the sword in my hand agrees?”
