## Chapter 4833

Georgina's words gave her eldest son great encouragement.

He was on the other end of the phone, and couldn't hide his excitement and said,

"Mom, if you say this, then I'm really relieved!"

Georgina snorted coldly and said, "I tell you, don't mess around outside in the future,"

"Especially don't mess with girls like this one of the Sun family, their level is too low!"

Her son asked quickly: "Mom, what do you mean by this level too low thing? I don't understand!"

She reprimanded: "I'll let you learn more English, learn English,"

"I've been here for more than 20 years, you can't even understand what level is, what a fucking waste!"

Her son laughed and said: "Mom, people say that Yin is prosperous and Yang is declining."

"You alone in our family hold most of the sky, so naturally you are the best..."

Georgina was complimented by her eldest son, and her mood eased a lot, and she asked,

"If I remember correctly when I came back to hometown to worship ancestors a few years ago,"

“I saw that girl from the Sun family. She didn’t seem to have graduated from junior high school,”

“So she is now working in the factory?”

“Yes.” Her son said casually: “She worked outside a few years ago, but she seemed to go home and talk about matchmaking afterward.”

“She didn’t get along with the few boys in the village,”

“So she said that she wanted to go out to work, and her father found me... “

Georgina snorted, and said, “In the future, we have to keep a distance from their family.”

“After the child is born, we will cut off contact with them.”

“If you are looking for a woman outside in the future, you should set your sights a little higher,”

“And at least find a young woman who has graduated from college! This will give you two more children!”

Her son said angrily: “Mom...college graduates are smart, how can they look down on someone like me...”

Georgina sneered disdainfully: “What about graduating from university?”

“How much money can you earn a month after graduating from university?”

“How many lifetimes can you struggle to drive a luxury car and live in a villa after graduating from university?”

“They are successful people, and they really have this great opportunity, and it is too late for them to be happy!”

Her son sneered twice: “But I’m a little old at this age,”

“How can a girl like an old man in his thirties like me.”

Georgina hummed and said: “Look at those female stars,”

“They can earn tens of millions or even hundreds of millions a year by themselves,”

“But there are still many of them who choose to marry a man older than their father, why?”

“Isn’t it because the old men are richer than them?”

She further said lightly: “Your mom has been here for so many years,”

“And I have long understood that no matter what shortcomings a man has, he can use the money to make up for it,”

“Whether he is old, ugly, short, or under-educated,”

“All these are not a problem at all if you have money, but only having no money is the problem.”

“Without money, what is the use of being handsome? Girls are dazzled by love at first,”

“And may even be willing to starve for a day or two.”

“But can’t get along like that for years, so after a year or two,”

“She will understand that it is useless to look good, and only money is the last word.”

Her son smiled: “I know Mom, when you come back, let’s join hands to run the yellow-faced woman away first,”

“And then look for a young and beautiful college student.”

“Yeah.” Georgina nodded and said, “Okay, I still have something to do,”

“I won’t talk anymore, about the \$50,000 thing, you can contact me privately to see if someone wants to exchange currency.”

“If so, I will be able to trade in a few days after I finish my work.”

Her son said excitedly: “Okay mom, I’ll contact you then!”

Georgina hung up the phone, and Jason, who was driving, said with a smile:

“Sister Mei, are you going to hug another grandson again? How many are there? Nine?”

Georgina gave a rare smile, nodded, and said, “Yes, nine.”

Jason asked in surprise: “Sister Mei, do you like children so much?”

“If I were you and my two sons had eight or nine children, I’m afraid my brain would explode.”

Georgina waved her hand: “You don’t understand.”

As she said that, she turned to look at Jimmy and Helma who were sitting in the back row, and said,

“Listen carefully, doing our line of work is the most detrimental to the good fortune and future generations,”

“So if you have the conditions, it is necessary to have more children.”

“If God wants a person to cut off offspring, the fewer children you have, the harder it is to fight fate.”

“But if there are enough children, if retribution comes and falls on future generations,”

“Children If there are too many, maybe there will be one or two fish that slip through the net.”

Jason was dumbfounded, and said embarrassingly, “Sister Mei, it’s not as evil as you said...”

Georgina said blankly: “Is it so evil, I don’t know, people say that eggs can’t be put in the same basket,”

“But the key question is, you can’t have only one egg,”

“If you have enough eggs, for god, it will be very tiring to smash one by one,”

“Besides, he will be numb if he smashes more and more, maybe he will stop when it is enough.”

Hearing this, the other three were horrified.

They dared not imagine that the so-called eggs in Georgina's mouth were actually referring to her own children and grandchildren.

The translation is that if god wants to collect her children and grandchildren,

It will be very tiring for the gods to collect them one by one.

Georgina didn't take the three people's shock into her eyes at this time, and just asked lightly,

"How long will it take to get to the border?"

Jason said: "Even if you drive non-stop,"

"It will take at least 30 hours, why don't we find a city to fly over there?"

"No." Georgina waved her hand: "What I hate the most is flying."

"Except for returning home, I almost never fly."

Jason hurriedly asked: "Sister Mei, are you afraid that the plane is not safe?"

Georgina shook her head: "I know that the plane is very safe,"

"At least it is much safer than taking a car, but that is for ordinary people."

"For us, the plane is a big sealed cage. Once we get in if the police are there for us. There's no chance of running."

Jason nodded suddenly, and asked her again:

“Sister Mei, you have been making money for your family for so many years.”

“It’s almost time to go back to take care of your life, right?”

Georgina said indifferently: “Let’s do it by the end of the year,”

“And I’ll leave by the end of the year. After so many years of hard work,”

“It is indeed time to go back and enjoy some time with the family.”

Jason sighed: “Sister Mei, you are married, and the ancestral grave is smoking.”

“You don’t have to do anything, just enjoy the happiness in the country!”

Georgina sneered: “My husband is just a piece of trash waiting to die.”

“If both sons and grandchildren had changed their surnames to me,”

“I would have kicked him out of the house long ago, how could he have the opportunity to enjoy this luxury.”

Saying that, she looked at Jason and asked him, “By the way, when are you going to go back?”

Jason sneered and said, “I’m still early... I’ve earned a lot less than you in these years.”

“I want to worry about food and clothing in the future, and I have to work hard for a few more years.”

Georgina snorted and said with some anticipation:

“I have been traveling around the United States these years, and I have no fixed place to live.”

“Going back and enjoying the joy of living in my own home, surrounded by children and grandchildren is the real life”

What Georgina didn't know was that the Cataclysmic Front had already sent all the information,

That had been given to the local police back in China.

At this moment, the police are ready to close the net.

When her eldest son came out of his villa and was about to get into the newly bought Mercedes-Benz G,

A group of police suddenly rushed in.
