

When His Eyes Opened Chapter 2161

Chapter 2161

Leland Sirois: "I told Emilio about this just now! I thought you were going to play by yourself, not bring me. It seems that I am narrow-minded! I will punish myself for three cups later!"

.....

Emilio watched his father and the surname Sirois sit down at a wine table in harmony, and his brain started running at high speed.

It's really nice to see the father's appearance.

What was he doing just now?

What happened? Did he have any chips in his hand?

Emilio walked over quickly and sat down beside his father.

During the banquet, because there were so many people, they didn't talk about business.

After the banquet, the two of them went to the private room to chat. Emilio had no way to follow up, so he could only go to the bodyguard beside his father to inquire about the situation.

Emilio: "What were you doing with my dad just now? Did you meet someone?"

He hadn't gone to the private room with his father and the surnamed Xiao, he would have asked his father directly.

The bodyguard felt that it was okay to tell Emilio about it, so he replied truthfully: "Although Margaret is dead, there are other people in her research team. The boss found other people in her research team today."

Emilio's thoughts were instantly opened....

He didn't think about it at all, but his father did.

Not only did his father think of it, but he also successfully found other members of Margaret's team.

The members of Margaret's team had always been kept secret from the outside world. Outsiders had no idea who the core members of her team are, so everyone's attention had always been on Margaret.

Emilio did not expect his father to find a way in such a desperate and difficult situation.

It is estimated that Avery and Elliot did not expect it either.

Emilio instantly saw hope that the Jones family was saved.

However, according to his father's character, in addition to using this technology to make money, he would definitely seek revenge on Elliot.

Emilio couldn't help but want to contact Avery again.

He got angry with Avery three days ago because he felt that the Jones family was over, and Elliot was the culprit who brought the Jones family down, so he took his anger on Avery.

Now that the Jones family is about to turn over, his mood towards Avery has changed back to what it was before.

After hesitating for a while, he never had the courage to call Avery.

After a while, Avery took the initiative to call him as if she knew what he was thinking.

"Is something wrong?" Emilio asked in a cold tone, holding the shelf.

"I watched the live replay of the funeral just now. I saw that your dad left the scene shortly after the memorial service started. He never showed up again." Avery took advantage of lunch time to watch Margaret's funeral Live playback.

She was mainly curious about the guests who came to the memorial service today.

"Avery, you are so shrewd. You have discovered such small details." Emilio laughed and ridiculed, and his tone was not malicious.

"Will your father be hospitalized again?" Avery guessed.

"I only praised you for your shrewdness, but you said the opposite. Not only did my dad not stay in the hospital, but he also found a way to deal with you." Emilio couldn't help it after all, and he missed the point.

Avery's expression froze, and her heart tightened: "What method?"

"You guess." Emilio betrayed her, "Avery, I won't tell you everything about the Jones family. You should understand."

Avery: "Well, you are the second son of the Jones family after all. I can understand that you are on your father's side."

Emilio: "I feel like you are mocking me."

"Emilio, don't make up your mind so much. I-I don't think so. Even if you say that you have no relationship with your father, after all, blood is thicker than water, and you are the only heir of your family. Most people will make the same choice as you." Avery said calmly, secretly But she was thinking about what bargaining chips Travis got.

Emilio: "I also want to live on my own like you and Elliot did, but the ideal is full and the reality is very skinny. If I leave the Jones family, I don't know how I should live."

Avery: "Well, Emilio, you are still different from your father. Yes. If you inherit the Jones family in the future, I believe you won't be like your father..."

"My father is not dead yet." Emilio knew what Avery meant. he hoped that the chips the Jones family had would not hurt her and Elliot.

If the Jones family was under his control, Emilio naturally wouldn't do that, but now Travis was in charge.

"How did Travis find Margaret's research results? Since Margaret didn't love him, she shouldn't leave things to him." Avery will guess.

"It wasn't left by Margaret. Did you overlook a problem, that technology was not developed by Margaret alone. She had a team at the time. Now, my dad has found someone from that team." Emilio didn't want to explain it to her, but chatting with her, his heart opened naturally.

"So it is." Avery really ignored this.

She forgot about the people on the team who also knew more or less about the technology.

At the beginning, Margaret's laboratory was invested by Travis. It was naturally easier for Travis to find other people in the team.

"Avery, I can't help you this time." Seeing that Avery didn't hang up or speak, Emilio knew that she must be in a very downhearted mood, "You took away my family's 14

billion, if my father didn't think of this method, most of our family will go bankrupt. Even if what my dad did is dishonorable, what you have done will not be dishonorable."

"Emilio, the grievances between us and your family did not come from us cheating on your dad. The money started when your father wanted to take away the Tate Industries and the Dream Makers Group. It is no exaggeration to say that your father may also want to take away the Sterling Group. You must be aware of your father's ambitions. If it wasn't for your father's deception Too much, how can we get revenge on your dad?"

Emilio: "I know...I know that my dad messed with you first. But I still can't watch the Jones family go bankrupt. I won't be sad if my dad dies, but if the Jones family goes bankrupt, I can't accept it."

"Emilio, I didn't ask you to do anything for me. I'm very grateful for you to tell me this news in advance." Avery said, and a phone call came in.

She picked up her phone and saw a familiar name.

It was from Eric.

Eric had become more and more popular in the past two years, and the schedule had become more and more full. Occasionally he came to see her, and he just hurried to meet for a meal and then left.

A few years ago, he came back after surgery, and the work after his comeback was relatively relaxed and casual, considering physical factors.

Afterwards, the body recuperates almost, and the work intensity also increases.

Avery talked to him once, and he said that his body had returned to a normal level, and he wanted to live up to this love while he still had passion.

Chapter 2163

After hanging up Emilio, she answered Eric's call.

"Avery, are you in Bridgedale now? Have you eaten yet? I'll invite you to dinner." Eric stepped barefoot on the soft wool pad, stood in front of the huge French window, and called her.

Eric just arrived at the house in Bridgedale, and when he was free, he thought of asking her out.

"I've finished my meal. Are you here for work or vacation?" Avery asked.

“Vacation. And this time I have saved two years of leave. I can rest for at least two months.” Eric said this, and laughed happily, “I didn’t want to come here because you are here, I just came here.”

“But I’m very busy.” Avery told the truth, “you should have heard about Elliot, right?”

“Well, I heard about it. I also consulted a doctor I know well. The doctor told me that the Elliot thing is too ridiculous. You can directly ask the screenwriter to write a movie.”

Avery couldn’t help laughing: “It’s a bit ridiculous. But that special device is indeed in Elliot’s mind. And it can make him feel unbearable. “

“Can’t you take it out?” Eric raised his doubts, “If it were me, I would definitely not be able to be controlled like this.”

Avery: “Eric, don’t say such things in front of Elliot.”

Eric: “I won’t say this in front of him. I won’t dare to yell at him in the future. If he gets angry with me, he definitely won’t forgive me.”

“Not only will I not forgive you, but Layla won’t either. But the two of you won’t have a chance to meet. He’s back to Aryadelle now.” Avery glanced at the sunshine outside the window. What Emilio said, her brows twitched unconsciously.

“Is he still coming when he returns to Aryadelle? You must not worry about being separated from him for too long.” Eric knows Avery’s feelings for Elliot too well, “Actually, I came to Bridgedale this time because I was forced to marry.”

Avery: “Uh? Your parents forced you to get married?”

“They introduced me to a partner. This matter is almost like a life-and-death device in Elliot’s head. They passed through a friend who had known each other for less than a month. The friend said that There was a relative who was very good-looking and showed my parents the photo. My parents saw the photo and felt that the person was completely in line with their fantasy of their daughter-in-law, so they forced me to go on a blind date with that person.”

Avery was stunned when she heard his words.

Avery: “That person is in Bridgedale?”

“Yeah!” Eric said, “I won’t go to see that person!”

“I think since my uncle and aunt like that girl very much, it means that the girl must be good -looking. Not bad, why don’t you go see me! What if it’s suitable?” Avery advised,

“Or, you can add your contact information first and chat on the Internet first. After the chat is suitable, you can meet again.”

Eric: “Add... You can’t imagine that the person my parents introduced to me is a tough guy with eight-pack abs.”

Avery: “How could this be? How could your parents...”

“My parents thought he’s a woman. Because the introducer said it was a woman. I told my parents that it was a man, but my parents didn’t believe me.” Eric was confused by this absurd thing and didn’t know what to do.

“Then how do you know that person is a man? Haven’t you met before?” Avery was puzzled.

“His profile picture was a guy with eight-pack abs, and his name was also a man’s name.”

Avery: “Eric, the profile picture does not represent a person’s true identity! Since the introducer says she is a woman, I don’t think she will be wrong.”
