

When His Eyes Opened Chapter 2167

Chapter 2167

If Emilio was Norah, he would probably be so desperate that he wanted to disappear.

“I don’t care if Norah messes up or not, I’m going to take her back!” Travis’s eyes were full of murderous intent, “I hate people treating me as a fool in my life! Norah was afraid of Elliot, so he helped Elliot punish me, she thinks that I’m her biological father, so I won’t kill her! Haha!”

From his father’s words, Emilio already knew that once Norah fell into his father’s hands, she would definitely die.

In the evening.

Easy home.

Calvin Emond held his mobile phone and talked on the phone in the living room. He was one of Margaret team members.

After Margaret’s research was over, he gave all members of the team a large sum of money, and then disbanded the team.

Because when he joined the team, he signed a special agreement. Three years after the team was disbanded, no team members could find related jobs during this time.

The member who went to Margaret’s funeral today was Otto Wiens.

It was Otto Wiens who called Calvin Emond.

Otto told Calvin about the benefits Travis promised him today. He wanted to pull Calvin into Travis’s team.

After talking on the phone, Calvin said to his wife who was standing beside him listening to the phone: “Mr. Wiens went to see Travis today. Travis came up with a salary ten times higher than our previous salary, so let’s make Margaret’s research results. He also promised to give us shares in the company.”

“Travis is so generous? With such a high salary, why are you still hesitating? Promise!” Calvin’s wife asked him to agree without thinking.

Calvin shook his head: “Travis is not a good person. If I took his money and couldn’t achieve the results he wanted, he would definitely not give us the money for nothing.”

Calvin’s wife: “You are not the only one participating, what are you afraid of?”

“You don’t understand... Margaret’s technology, even if the rest of us add up, it is impossible to copy it. We are just doing miscellaneous things for Margaret... Besides, I am not interested in that technology. I have doubts. I know very well that Margaret paid for the March Medical Award.”

Calvin’s wife: “Husband, Margaret is dead, what are you talking about? Travis is looking for you because he thinks you can do...”

Calvin: “But we can’t do it!”

Calvin’s wife: “Just make it clear to Travis. Let’s see what Travis has to say. I don’t believe Otto didn’t show off with Travis today.”

Calvin sighed, “Otto has a showdown with Travis, Travis asked us to try No matter whether it can be done or not, try it first and then talk about it. He also promised that after we sign a contract with him, we will give us the money first. The temptation given by Travis is too great, and I am flustered.”

Calvin’s wife: “It’s a fool to have money and not make money! Our daughter is going to get married in two years, and it will cost a lot of money. If you don’t take advantage of it now, you won’t be able to make money easily in the future.”

Suddenly, the main door opened, and a shadow appeared in the living room.

“Dad, you insist on your own ideas, don’t listen to my mother. Travis is not a good person, don’t steal the chicken and lose the rice.” Calvin’s daughter, Maggie Emond came out and expressed her opinion.

Maggie’s mother: “Maggie, What do you know? Money is the most important thing to survive in this society!”

“Mom, you love money so much, you earn it yourself! Why force my dad?” After Maggie finished speaking, she knew that her mother would teach her a lesson, so she ran out with her bag on her back.

Running out of the house, Maggie found a coffee shop and sat down, took out her mobile phone, and sent a message to Eric who was introduced by her relatives in a depressed mood: [I heard that you have come to Bridgedale, you should not come to see me in the bar?]

Chapter 2168

A message pops up on Eric’s phone.

— Maggie sent a new message.

Eric took a bath, wiped his hair with a dry towel, and when he heard the news reminder, he freed up one hand and picked up the phone.

Seeing the word 'Maggie', the corner of his mouth couldn't help but twitch.

Who has a blind date like her and found her directly for himself?

His fingers moved on the screen and replied: [No.]

Maggie: What is it? Didn't you come to Bridgedale?

Eric: [I came to Bridgedale, but not to find you.]

Maggie: [Oh, so what are you doing here? Work? travel? Which platform do you usually live stream on? What is the name of your account? I went to see.]

Eric immediately made up his mind that the opposite was a wretched and greasy man.

He took a deep breath, turned around to find the water cup, took a sip of water, and was shocked.

He thought of Avery's words of encouragement during the day, so he gathered up his courage and sent a message: [Are you a man or a woman? My parents said you were a girl, but the feeling you gave me made me feel like you were not.]

Maggie couldn't help laughing when she saw the message Eric sent.

The object that her aunt introduced her was quite funny.

Maggie's aunt said to Maggie that Eric's mother was very beautiful. After seeing Eric's photos, she was that Eric was very handsome. Her aunt said that such a handsome guy must be introduced to her. Although the young man's work is not on the table, it doesn't matter, Maggie will work in the future and let Maggie take care of the outside, and Eric will take care of the inside.

After Maggie listened to what her aunt said to her, her outer focus was tender and inner.

She had never seen this man named Eric, but as a result, her aunt had already helped them to do a good job in the division of labor after marriage.

Oh no, she has seen Eric's photos.

It's a photo that her aunt asked her mother for.

After seeing Eric's high p photo, her heart was very complicated.

Because the photo was so powerful, Maggie couldn't see the real person of this person at all.

Why does she say that his photo is high p, because this person doesn't seem to be very smart, and he actually turned the photo p into the appearance of an idol star.

Although the photo after his post only looks like the star by six or seven points, anyone with a discerning eye can see that he is trying his best to imitate the popular star.

Afterwards, Maggie thought about it, maybe this little anchor's job is to imitate that male star.

After all, imitation was also a way of survival.

After she figured it out, she was able to talk nonsense with Eric calmly.

Maggie: [Regarding my gender, it's more complicated. I can't tell you in a few words. If you like a woman, you can treat me as a woman, and if you like a man, you can treat me as a man. As long as two people have the same mind, what is the gender barrier? Feelings can arise between humans and animals, right?

When Eric saw her reply, his three views were shaking! After the shock was over, he felt that what she said didn't seem to have much logical flaws.

Maggie: [Aren't you in Bridgedale? Let's meet another day! When you invite me to dinner, I invite you to take a bath! Time to show you my big muscles!]

Chapter 2169

When Eric looked at the word 'big muscles', it was difficult to imagine her as a woman.

He sent a screenshot of the conversation between the two of them to Avery, so that Avery could feel their chatting style.

Avery finally understood why Eric was so confused after seeing the screenshot of the chat he sent.

Avery: [Maybe she's a girl, but she subconsciously thinks she's a man.]

Eric: [Do women have big muscles?]

Avery: [Yes! If you search on the Internet, there are people who exercise all year round.]

Eric: [All right! She asked me to meet, do you want me to meet her?]

Avery: [Look at yourself. If you don't want to see her, I'm afraid it's not easy to explain to your parents, right?]

Eric fell into deep thought. It seems that he still has to meet Maggie. But he did not understand this matter, and his life couldn't return to normal.

Eric: [When are you free?]

Maggie flipped through her timetable, and after a while, replied to Eric: [How about the afternoon the day after tomorrow?]

Eric: [Yes. The place is up to you. Just send me the location.]

Maggie: [OK...]

.....

The next day.

Travis and Margaret's team met in their living room.

There were a total of six people in the team, and these six people were the most important people in the team besides Margaret.

After Otto introduced his colleagues to Travis one by one, he explained: "The others are not important, so I didn't call. It's also to save you money."

"Hahaha! Otto, I see that you are not only smart, but also capable. I will remember that you can help me call so many people. After this is done, I will definitely not treat you badly. At that time, you will all be My hero!" Travis looked at everyone one by one, remembered their appearance, and continued, "If you can completely reproduce Margaret's research, that would be great, but if there is no way 100% re-engraving, as long as it can produce half of the results, as long as it can scare outsiders who don't know how to do it, that's okay. Do you have confidence?"

"We are 50% confident and there is definitely no way to do 100% within time." Otto thought for a while and replied, "Can you tell my colleagues about the treatment you told me yesterday?"

"Yes! I will pay you ten times the previous pay. As long as You sign a labor contract with me, and I can immediately credit the remuneration to your account. In the future, you are my people, and I will naturally ensure your safety, so I will assign bodyguards to each of you to ensure your safety. " Travis said his thoughts, "Don't get me wrong! I'm not trying to spy on you, but many people are playing against you. Once your identities

are exposed, your situation will become more dangerous. I will find a bodyguard. Protecting you is also for the normal promotion of my new career. As long as I make money, I will definitely let you make a lot of money!"

Travis's tone was full of sincerity, making it difficult to refuse.

Otto and a few old colleagues looked at each other for a few seconds, and then said: "If you are worried, you can reconsider. I will sign it today."

"Well, I will show you the contract. After you have read it and if you have any comments, please sign it." Travis asked Emilio to send the prepared contracts to them respectively.

After the six people got the contract, they looked carefully.

"Brother Emond, did I lie to you? Mr. Jones is still very sincere." After Otto read the contract, he said to Calvin, "As long as we can achieve 50% of the results, Mr. Jones will not be difficult for us."

"Hahaha, you are the people who have been doing research with Margaret for several years. How can I make things difficult for you? Even if you don't research anything in the end, I will not make things difficult for you. At most, let you return your rewards." Travis If so, everyone was relieved of their concerns.

After the six people signed the contract, they went to the new laboratory under the leadership of Emilio.
