

When His Eyes Opened Chapter 2170

Chapter 2170

Aryadelle.

After Elliot rested for a night, he sent Robert to kindergarten first, and then sent Layla to elementary school early the next morning.

After arriving in elementary school, Elliot met Katalina.

Katalina looked at Elliot with surprise.

She knew that Elliot had returned to Aryadelle, but she thought that Elliot was relatively weak and had to rest at home.

Unexpectedly, Elliot looked like a normal person.

“Mr. Foster, are you in good health? I see your complexion, and I think you are fine.” Katalina greeted him.

“Well, I feel fine now.” Elliot changed his words, “I heard that you told Aqi that it was your cousin who planned what happened in Yonroeville. Up to now, I haven’t personally said my thanks to you.”

“Mr. Foster, you are too polite. Even if the victim is not you, but someone else I know, I should have spoken out. I did this not to make you thank me, but to make my own conscience better. So you don’t thank me with Miss Tate. Miss Tate has thanked me several times on whatsapp.” Katalina said with embarrassment.

“Norah has returned to Aryadelle now. You usually pay attention when you go out. If Norah contacts you privately, you can tell Aqi at any time and don’t meet Norah alone.” Elliot reminded.

Katalina smiled and said: “Mr. Foster, I have already deleted her contact information. If she calls me, as long as I hear her voice, I will hang up immediately. I will not have any dealings with her again.”

Elliot: “Well. Go to work! When Avery comes back, we will invite you to dinner.”

After Elliot finished speaking, Katalina took Layla to the classroom.

After seeing his daughter entered the classroom, Elliot left the school with Aqi.

“Aqi, how far have you and Katalina developed?” Elliot asked after getting into the car.

Aqi's face turned red with a 'swish'.

How can the boss ask such a sensitive question?

The boss never asked about his private life before.

The boss must be concerned about Katalina, but he is too embarrassed to ask Katalina directly.

"I-I made an appointment with her to climb the mountain this weekend... We booked a homestay at the foot of the mountain. We will spend the night outside..." Aqi blushed and told the date itinerary say.

Elliot glanced at him and didn't understand why Aqi was so shy: "It's good. Take advantage of the opportunity."

"Uh...she proposed to go hiking with me. I'm not really good at dating women. I-I think it's too much trouble. I usually rest, I like to sleep at home, or go to the gym to work out." Aqi fastened his seat belt, "Boss, where are you going?"

Elliot: "Go to the company."

"Okay. I was going to ask Katalina to spend the weekend Going to the gym, but she doesn't like the gym. She likes the outdoors." Aqi said, drove out.

Elliot: "Are you going to climb mountains far away?"

"It's not too far. It's in the city." Aqi said bluntly, "Katalina could have come back the same day, but she wanted to see the sunrise the next day. So she booked a homestay. Actually I prefer hotels, not B&Bs (Bed and Breakfast). But she likes B&Bs."

It could be seen that Aqi was very submissive to Katalina.

"Katalina might want to test you." Elliot remembered reading a passage, "Someone said that if you want to see if two people are suitable, you can see if you go on a trip together."

Aqi: "I thought she just wanted to climb the mountain with me!"

"You don't have to lower yourself to obey her. It's suitable if it's suitable, but it's not suitable if it's not suitable." Elliot said, "If it's not suitable, you are even married and divorce soon."

When His Eyes Opened Chapter 2171

“But I think you and Miss Tate are very suitable. Although the two of you are divorced, I never think that the two of you are really divorced.” Although Aqi hasn’t been in love much, he can see that Elliot and Avery get along Sometimes. He can see that they have each other in their hearts.

It was easy to see whether two people have feelings for each other.

“The situation between me and Avery is very rare. Most of them don’t get along after they get divorced.” Elliot reminded him, “Take advantage of this trip with her, you can also investigate to see if she is the one you are looking for your wife.”

Aqi: “Good boss. I’ll take a good look at it.”

“You don’t have to be too nervous. Just go with what you feel.” Elliot continued.

Aqi: “Okay.”

Not long after, the car arrived at Sterling Group.

After the car stopped in front of the building, Elliot opened the door and got out of the car.

Elliot hasn’t been back for months and it feels like he has’t been back in years.

The familiar and unfamiliar feeling made him feel relaxed and heavy.

Entering the company, a group of executives immediately came to his office.

“Boss, you’re finally back! We miss you very much these days you’re gone.”

“There are always people outside that say you’re gone, but we still don’t believe it. We believe you’ll come back. No, you’re really back. “

“Boss, are you alright? Seeing your blushing face, you feel better than the last time I saw you!”

Everyone knew Elliot very well, so they spoke more straightforwardly.

“I’m in good health now. I’ve worked hard for you in the past few months. From today, I will resume normal work. Even if I’m not in the company, I will work online.” Elliot told everyone, “If you suddenly can’t work in the future. If you contact me, you can contact Avery. Do you have her contact information?”

Except for Ben Schaffer, everyone else shook their heads left to right.

Elliot: “You can also ask Ben Schaffer.”

"Then let me add Miss Tate's friend!" An executive said, "I have Miss Tate's phone number, but I have never dared to contact her."

"I also have Miss Tate's number, I didn't dare to disturb her."

Almost at the same time, everyone opened whatsapp and applied to add Avery as a friend.

Bridgedale, half past ten in the evening.

Avery was on a voice call with Ivory Pepin.

When she was taking a bath just now, Ivory made three voice calls to her. If she hadn't known that Ivory's character was more impatient, she would definitely have thought that something major had happened.

"Avery, I've been researching it for days and nights. Really, the more I think about it, the more I think this may be a conspiracy!" Ivory told Avery of his bold idea, "Guess why Margaret Gomez died? Choose to die immediately after winning the March Medal? Don't tell me that she is for James Hough, no matter how I think it is impossible!"

Avery: "Why is it impossible? Mr. Pepin, you don't know them well."

"I-I really didn't know enough about them in the past, but after I came here, I studied it carefully. Margaret and James Hough have not had any contact for a long time. After all, James Hough has been dead for a long time. Furthermore, according to Margaret's previous acceptance In the interview, I judged her character, and she will never sacrifice her love for a man casually."

Ivory's tone was loud, as if he had good reasons to prove that he was right. But he couldn't come up with solid evidence.

"What exactly do you mean by the conspiracy?" Avery was not in a hurry to deny what Ivory said.

When His Eyes Opened Chapter 2172

Chapter 2172

"This goes back to the question we discussed on the first day we met. Regarding Margaret's resurrection technique, does it really exist?" When Ivory mentioned this topic, he became excited, "Although Margaret took When it comes to the March Medical Award, it looks very beautiful and awesome, but there is only one successful clinical trial example of her technology, and that is Elliot."

Avery understood what Ivory was going to say.

“Avery, do you really think there is such a coincidence? People who have won the March Medical Award in the past, the drugs or technologies they developed have gone through countless clinical trials, and the success rate is very high, only in this way, in order to prove the great contribution to the society, so as to win the March Medical Award. But Margaret has only one successful case, doesn't she find it ironic that she won this award? “

Avery did not answer. At one point, she was questioned. Second, she had long known through Professor Greens that the Margaret award was pre-determined.

“As the most influential award in the medical world, it is too hasty to give Margaret the March Medical Award! Or are they treating everyone as a fool? If Margaret's technology is very mature and can withstand scrutiny, why has it taken so long?, there is only one successful case? After Elliot was successfully brought back to life by them, Margaret immediately disbanded the team, which is even more strange!”

The question raised by Ivory made Avery also suspicious.

“This shows that after Margaret resurrected Elliot, she immediately contacted the judges of the March Award. After she was sure that she could win the award, she had no further plans.” Avery explained her understanding, “Her behavior is really strange.”

Ivory: “Because there is no resurrection technique at all! The reason why Elliot is alive now is not because of the device she put in Elliot's head! Avery, how about we make a bet? What do you want? I can give you the bet, I bet Elliot doesn't need that device at all! Let's take the device out of his head! If he takes it out, he won't have any influence at all...”

Avery: “Mr. Pepin, I have also thought about the question you raised. I also hope that Elliot has never died. I hope more than anyone else that he is not controlled by anyone and is a normal person. But I dare not take that device rashly. If you take it out and something happens to him, no matter what bet you give me, I don't want it.” Avery will never forget the night when Elliot was controlled by Margaret and had a headache, “That device has an external controller. “

“I know! As long as you take that device out of Elliot's head, he won't need to be controlled by anyone!” Ivory insisted, “Avery, you still don't trust me after all.”

“It's pointless to argue about this. If you have someone you love, you will definitely understand my feelings.” Avery's tone was calm, “Actually, I really really hope it's what you said...”

“It's what I said! It's just you Don't believe me. It's a pity that the device is not in my head, or I'll take it out and show you right now.” Ivory sighed, “Forget it, it's useless to tell you this.”

“You are not allowed to go to Elliot to say this! If you go to him and say this, he will definitely go crazy with you! No one can tell the real reason for Margaret’s suicide! We are not her, and our guesses are just guesses. Also, Travis has found other members of Margaret’s original team. They plan to restart the project! Whether this technology is true or false, there should be an answer soon.” Avery said.

“They started that project, obviously to make money.” Ivory said. “They can make up a lot of lies, hire navy, and create a lot of ‘success stories’. I’m sure they will.”

“Mr. Pepin, It’s very late today, let’s not talk about this for now. We’ll talk when we meet tomorrow.” Avery said. She had a headache.

Of course, her reason was to hope that things were as Ivory said, and everything was an illusion created by Margaret.

What resurrection was just a fantasy bubble, a gimmick made by Margaret in order to win the prize.

She also really wanted to take out the device in Elliot’s brain so that Elliot would never be tortured again.

Every time Ivory suggested to her to take out the device in Elliot’s brain, she would be crazy, but in the end, the fear of losing Elliot would prevail.

Avery hung up the phone and saw that there was a friend application on whatsapp, so she clicked it –

a string of friend applications of Sterling Group executives, which made her mistakenly think that she was confused.

Are these people hacked?

She stared at the phone screen for a few seconds, her fingers uncontrollably, and one by one agreed.

She planned to find someone at random to ask what happened. Before she could send her message, the other party sent a message first: [Hello Miss Tate, the boss asked us to add you.

]

Avery was confused: [Why did he let you add me?]

Elliot didn’t tell Avery this.

Executive: [He said next time we can't reach him again, we'll find you directly.

]

When His Eyes Opened Chapter 2173

Chapter 2173

Avery: [Oh? Did he go to work at the company today?]

Executive: [Yes!

]

Avery watched as the executive added a smiley face to every sentence he sent, which made her blushed with embarrassment.

Avery: [OK....

]

Executive: [Then I won't disturb your rest.

]

Avery: [Mmmm.

]

After chatting with this executive, there were several greeting messages from other executives.

Avery took a deep breath and opened Elliot's dialog box: [Running to work so impatiently?

]

Elliot looked at the smiling face she sent, and felt a cold wind blowing up his back.

He immediately replied: [I just came to see the company.]

Avery: [Oh, I didn't let you go to work, so be careful not to get tired. Have you bought a ticket to Bridgedale?]

Elliot: [No, I want to stay with the child for a few more days. Just wait until the weekend is over.]

Avery: [OK.]

Elliot: [You haven't slept yet? Staying up late every day is not good for your health.]

Avery: [I'm going to sleep.]

Avery: [By the way, Eric came to Bridgedale. He has a longer vacation this time, and he should stay in Bridgedale for a while.]

After she sent the news, she waited to see Elliot's reaction.

If it was before, Elliot would definitely come back to her soon after seeing such news.

She waited for a while without waiting for his reply.

She sighed and continued to send him a message: [Eric came to Bridgedale to meet his blind date. I want to see you next Tuesday at the latest.]

Elliot: [Good.]

Seeing Elliot's answer, Avery breathed a sigh of relief.

She didn't mean to force him so tight.

Elliot felt that his health was fine, and it was human nature to want to stay at home for a while longer.

If Travis hadn't brought Margaret's original team under his command, Avery wouldn't be so upset.

Now Travis hasn't troubled them yet, which shows that the original team did not fully grasp Margaret's research results.

But the people in the original team may study it at any time.

Avery was afraid that Travis would attack Elliot, so she had to get Elliot back to her side as soon as possible.
