

## When His Eyes Opened Chapter 2176

Chapter 2176

Three hours later.

Frank returned to the boss Eric.

“Boss, it’s really a pity, he’s really a man! If it’s fake, then the Adam’s apple can’t be faked.” Frank said with a look of regret.

“Since he’s a man, why did you stay out with him for so long?” Eric glanced at the time, “You two shouldn’t go to the bath after eating, right?”

Frank shook his head: ” No. But I saw his big muscles up close. After we both ate, he was sweating hot and took off his coat, so I could see...”

“So what? What did you two do outside?” Eric was puzzled.

.....

The other side.

Ian handed the screen of his mobile phone to his sister.

“He took me to play games and passed the level! Although he doesn’t look very good and is very fat, he has a good temper. He doesn’t say swear words when he meets teammates who cheat in games. It can be seen that his character is very good. It should be good.” Ian spoke highly of Frank.

Maggie lifted her arm: “So what? When you finally leave, shouldn’t you make an appointment to continue playing the game next time?”

“Yeah! I’ll let him take me!” Ian looked at his sister with his big’s eyes, “Sister, don’t cut ties with him first! You can’t be lovers, you can be friends! As long as you treat him as a friend, It doesn’t matter what he looks like! He invited me for lunch today! He ordered a large table of dishes for me, and I am so happy to eat!”

Maggie raised her hand to rest on Ian’s forehead.

She didn’t expect her brother to be so easy to buy.

Maggie: “Don’t you want to stay in shape? You eat so much that you don’t want to be in shape?”

"It's okay to indulge once in a while." Ian put an arm around his sister's shoulder, "Sister, I really think that man can be a friend! If we meet next time, let's go together!"

"You don't mean he is seriously cheating with us? you also said that he is chubby, I really can't accept a fat man..." Maggie didn't plan to meet her blind date again.

Ian: "Be a friend!"

"I don't need him to play games with me. Brother, you can make him brother yourself!" After Maggie finished speaking, she shook her hair, got on the electric car next to her, and put on her helmet, "I will be tonight. I have class, so I won't go home for dinner. Also, if my parents ask me about my blind date, don't say anything."

Ian: "Why?"

"They don't tell me anything, and I don't want to told them anything." Maggie was brooding about her father's promise to work for Travis.

She checked Travis's related news again today, and she found a revelation that Travis had borrowed billions from the bank.

For her, Travis was like a bottomless hole, and it was really unwise for her parents to get involved with such a person for the sake of short-term interests.

.....

Eric heard Frank talk about what happened after meeting with 'Maggie'. Not only did he not feel calm, but he felt even more disgusted.

Especially after Frank told Eric that Maggie was a vigorous and a little silly and sweet male college student, he couldn't look directly at the fact that he had a blind date with him.

"Boss, I have already told him, let him go back and make it clear to the elders, you don't have to worry about it in the future." Frank said, "But he asked me to continue to play games with him in the future, and I agreed."

"You're okay. Like him?" Eric glanced at Frank.

## **When His Eyes Opened Chapter 2177**

### **Chapter 2177**

"Hahaha! Because he's good. He has thick eyebrows and big eyes. He is a year old brother. I'm so excited. I have a younger brother who is far worse than him." Frank

explained embarrassingly, "Boss, as long as you don't put When he is a blind date, he is actually not so obsessed with it."

"It's not him, but the introducer." Eric picked up the water glass and went for a glass of cold water, "My parents must have told him. Even though my sexual orientation is normal, the introducer has to introduce me to a man. The most hateful thing is that the introducer actually took a picture of a woman to deceive us."

At this point, Eric paused, his bright eyes watching Frank: "You saw him today, he looks the same as the girl in the photo?"

Frank said, "I can't say they are exactly the same, after all, one is male and the other is female. But the facial features are not bad. After he saw me, he compared my photos with yours, and he almost screamed out in fright. Hahaha!"

Eric has completely lost his curiosity about the blind date. After all, he already knew the real gender of the other party.

Frank said: "Boss, I think acquaintance is fate, don't we have to stay in Bridgedale for a while? Next time you have a chance, you can go and see for yourself."

"Next time? You still want to see him!" Eric asked Frank.

"It's not true... It's mainly because we deceived him, I don't feel very well." Frank said, stretched out his hand and scratched his head, "I can't respond every time he calls me brother. Next time I hope he will call me Frank."

...

The new laboratory invested by Travis will be put into use soon.

In order to reassure investors, Travis invited Leland Sirois to visit the laboratory together.

Accompanied by Travis and Emilio, Leland Sirois came to the laboratory.

"These six people are the original members of the Margaret team. They are all core members of the original team. The others are my newly recruited elites in the medical field, and they will be their assistants." Travis introduced to Leland, "Mr. Sirois, you can rest assured that I will do things. I have already made a plan for the follow-up marketing and publicity. When the plan is optimized, I will send it to you."

"Well. Margaret is dead, and this resurrection technique is not up to us. Even if there is no such medical technique in this world, we must convince everyone that it exists! Only in this way we can make a steady profit without losing money." Leland Sirois invested 5 billion in Travis...

In order to show his sincerity, Leland made a one-time payment to the account of MH Medicine.

“If I don’t have the determination to win, how can I form a team so quickly? Mr. Sirois, I am more eager to succeed than you.” Travis was ambitious and full of confidence, “Margaret is the winner of the March Medical Prize, and I am Margaret’s fiancé, this is something everyone knows. Even if you don’t believe me, you will still believe in the gold content of the March Medical Award!”

Leland: “Haha, Mr. Jones, this is also the main reason for me to cooperate with you.”

Then they started roaming around the lab.

“Mr. Wiens, this is Mr. Sirois, our investor.” Travis saw Otto looking this way, so he introduced to Otto.

Otto Wiens immediately walked up to the two of them and greeted them politely: “Mr. Jones, Mr. Sirois, how are you?”

“Mr. Wiens, tell Mr. Sirois about your current work situation.” Travis found a chair next to him and sat down.

Otto Wiens immediately reported the current work situation to Leland one by one.

Finally, Otto Wiens said mysteriously: “We seem to have found a way to control the device in Elliot’s mind.”

Travis immediately stood up from his chair after hearing this.

“Then try it now! See if it works!” Travis often dreamed of Elliot in his dreams these days.

Travis really hated Elliot so much!
