

Chapter 1861

"Haha!" Lily's laughter became more and more hysterical. "Your husband? Alex? I'm afraid he won't be able to be here within a short time. Woman! Didn't you forbid me from coming? I just want to deliberately come over! I will walk slowly to the front of you and take your child away. If my guesses were right, Old Master Poole still hasn't acknowledged you as his daughter-in-law, right? I'll take your child away now, and when I get to Old Master Poole, I will be the rightful and proper wife of Alex. Haha!" Lily moved closer to Jane.

"No...go away. Don't come over. If you take another step, I will shout for help. I will call for the nurse here. I will shout!"

Lily could not have wished more for Jane to call for help. If Jane did call for help, then Lily would immediately smile at Jane. Even if Jane complained to Alex, Lily would also just complain tearfully to

would also just complain tearfully to
Alex. "Alex, I already know my mistake. I
won't disturb your life in the future. I just
wanted to...look at your child because I
can no longer give birth to a child
anymore in the future. I like children,
especially yours. I just wanted to take a
look. I don't have any other intentions."

Lily would say that to Alex with sincerity
and humbleness. She had already
planned it all out. Her goal that day was
purely to intimidate Jane. Haha! This
woman still could not stand a little fright.
How fun! Unknowingly, Lily had already
completely gotten very close to Jane. She
looked at Jane's face, who was frightened
out of wits, with a hideous smile.

"Don't touch my child..." said Jane
weakly.

Lily wore a sneer on her face as she
looked at Jane. The distance between
them was very close.

"Jane Sheen! You d*mned woman! Who

the hell are you? You dared to occupy my fiancé! My family, the Parker family, has been practicing medicine in Kidon City for generations. We have been respected by others for generations. I have always been like a little princess. Even the true princess from the Kemp family in Kidon city had to respect me and give way to me! I have always gotten whatever and whoever I wanted! But, you! You beggar! You s!t! You're a tool dedicated to being someone else's bed warmer! Such a lowly woman like you actually snatched away my beloved man! Not only that, but you even let my beloved man beat me half to death, and then make me flee abroad. You make me suffer all sorts of humiliation! I even lost any possibility of bearing a child in the future! Jane Sheen, everything that I've been through was caused by you! However, you never would have expected that even after going through countless hardships, I still did not die! I actually am still alive, and I'm living such a glorious

life. Not only that, but I even returned to the country! I could still...stand in front of you! Isn't this something you've never expected?"

Lily used an extremely suppressed voice that sounded like a kind of ghost to whisper to Jane. The reason why she used such a voice, tone, and pressure was that she wanted to torture Jane's heart. She wanted to make the heart of this timid woman crumble.

"So, I can't set the evil person free leaving calamity to happen, right, Miss Lily?" At that moment, Jane's tone was no longer terrified. There way she looked at Lily also no longer have the slightest bit of terror. Instead, her gaze became ferocious.

"What are you saying?" Lily did not understand.

"I'm saying, serve you right for coming to me out of your own volition today!"

"I'm saying, serve you right for coming to me out of your own volition today!" Suddenly, Jane grabbed Lily by her hair! A pair of scissors appeared in her other hand out of nowhere. That pair of scissors was opened and poked Lily's throat.

"Is it cold? *Miss Lily?*" asked Jane in a calm and confident tone.
