

18:35 

Chapter 1631

It shocked everyone to see Fade make such a daring move. The scene quietened down. Everyone stopped moving and looked at him.

He kicked the few people who were lying on the ground a few times, then looked around and said coldly, "Now, who else wants to fight?"

For a moment, no one responded. After all, he was the one who had defeated Moon. Moreover, the move that he had just revealed in front of them had truly shocked quite a number of people.

Seeing this, Fade said in a low voice, "If you don't do it, then come over and accept your punishment."

Hearing that, the faces of the family members changed. Several members of the big families looked at each other. Finally, Yves said, "Let's go together. I don't believe that he alone can defeat all of us."

"That's right. Let's attack him together. He's not qualified to be our chairman. Let's beat him back."

"This is risky, but with everyone together, we can destroy him."

.....

As they shouted, a burst of positive energy burst out, and a group of people attacked Fade.

Feeling the incoming attack, his gaze swept around and found seven or eight people. These people were very strong. They were

18:35

at least at the late stage of Earth Level, and there were even one or two early-stage Heaven Level martial artists.

The explosive force from such a united attack combined and the momentum burst out. In an instant, it covered the whole scene, like a furious wave, and slammed towards Fade.

Even if he had shown strong fighting skills before, in the face of such a violent joint attack, everyone was still worried about him.

However, at this moment, his face was calm. Looking at the surging offensive wave, he even nodded and said: "Not bad. This is something I can play with. I can finally move a bit."

While speaking, he rushed out.

The impact stirred up a strong wind in an instant, accompanied by a burst of positive energy that enveloped his body. At this moment, Fade looked like a long spear facing the raging waves, as he fiercely rushed forward.

Boom!

A strong crash came. Fade's thin figure seemed to be overwhelmed by the huge wave from his opponent, and he disappeared behind a colorful curtain of light.

"Fade is missing. Did he lose?"

"He should be defeated. After all, so many experts launched a joint attack. No matter how strong he is, he can't withstand them!"

"This kind of ending is something that was expected a long time ago. He is too arrogant. He has gone overboard."

"Young man, you think too highly of yourself. You don't know how to hide your power and bide your time. This is your end."

.....

18:35 

The crowd commented with their arms crossed in front of their chests as they anticipated the outcome.

All of a sudden, a sharp whistle sounded. The crowd was shocked, and then they looked toward the source of the sound.

Then, they found that Fade, who had been drowned by the wave of positive energy, broke through the curtain of light at this moment. He shot out like a sharp arrow.

Before the crowd could react, a scream was heard along with the sound of blood splashing in the air.

Everyone's eyes turned around and they looked at the ground again. They were immediately dumbfounded.

That was because the seven or eight masters who attacked Fade just now had all fallen to the ground, and they were bleeding profusely.

Although the positions of the wounds were not fatal, the physical pain and the damage to their dignity was not light at all. It made their faces turn pale and gloomy.

All the lights on Fade's body had dissipated. He stood in front of them with his hands clasped behind his back. He glanced at the people on the ground, and then said, "Now, do you still not admit defeat? If you don't admit defeat, you can still take action. I don't mind doing some more exercise."

This time, after hearing his words, everyone on the spot couldn't help but tremble. They couldn't help but take a few steps back, trying to stay away from him.

Although it was quiet and no one spoke, the expressions on their faces and eyes showed the shock in their hearts at the moment.

18:35 

"How could this be? So many masters attacked together, but they were all defeated."

"Then how did Fade do it? He's too strong."

"What realm is he in? Is he not only in the middle stage of the Heaven Level, but also in the late stage of the Heaven Level?"

"Is he really going to become the chairman and take control of us, the hidden family?"

.....

At this time, Fade looked around at the crowd and saw that no one was going to fight, so he said, "It seems that no one wants to challenge me. Then, I have told you the rules and various kinds of punishments. You all have agreed!"

At this point, the faces of many representatives of the families changed, and they wanted to disagree. However, in the face of Fade's gaze, they couldn't speak up.

"Since you don't have any different opinions, then do it according to the rules!" Upon finishing his words, Fade turned around and was about to enter the headquarters of the Elder Council.

At this moment, an old but deep voice sounded, "President Chen, you're admirable!"

Upon hearing the voice, Fade stopped and turned his head, only to find that an elder with a tall and straight figure was walking towards him.

With the appearance of the old man, the originally quiet scene suddenly became lively.

"Master Lin is here. We'll have a good show to watch."

"Old Master Tarmon, he's Moon's father, and Eliff's and Yves's grandfather. He is a senior!"

18:35 

"Master Lin is an expert at the late-stage of the Heaven Level. Now that he has appeared, the situation has changed again."

"I'm afraid that Fade won't have any good outcomes."

.....

Upon hearing the comments, Fade immediately knew who the other party was. Slightly narrowing his eyes, he looked at Tarmon and said, "Old Master Lin, you're also here. Is there anything you wish to teach me?"

"As if!" Tarmon gave a heavy snort. Then, he glanced at Yves on the ground and asked Fade, "I just want an explanation from you, Chairman Chen. You hurt the younger generation of my Lin family, so you should at least give us an explanation for this matter!"

"Explanation?" Fade snorted coldly. "He attacked the chairman of the Elder Council and I gave him a lesson. This is an explanation. Are you satisfied?"

"Chairman Chen, your explanation is not satisfactory to me," Tarmon said in a low voice: "Furthermore, I heard that you were slandering the Lin Family for bullying and you said that you were going to punish us. That is nonsense."

"The evidence is there. It's not up to you to decide whether it's nonsense or not," Fade replied.

Tarmon spoke in a more imposing manner, "I'm not sure if it's something that I can decide, but it's definitely not something that you can decide with just a word."

Chapter 1632

"Is that so? Then what if I want to do this?" Fade narrowed his eyes as he looked at Tarmon. Meanwhile, the positive energy in his body started to circulate.

Tarmon immediately let out a cold snort as the positive energy in his body erupted. In a low voice, he said, "Do you really have to do this? We, the Lin family, need an explanation, Chairman Chen. Please don't blame me for being impolite."

Fade was not afraid at all when he saw the terrifying aura emanating from Tarmon's body. Smiling, he took a step forward and said, "Since that's the case, then let me witness your skills, Master Lin. Let's take a look at this so-called first-rate hidden family. I wonder what level you're at."

"Young man, you are too arrogant." Upon hearing these words, Tarmon's expression turned even grimmer.

Fade smiled and said, "You will soon know whether I'm arrogant or not."

As he spoke, the aura of the positive energy on the two of them continued to soar. Two terrifying surges of pressure spread out from the two of them and enveloped the surrounding people. Their hearts raced, and they felt an inexplicable sense of oppression.

At this time, the two people were like two balls of light that were constantly becoming brighter. Their aura spread and surged, and in the end, they began to collide with each other. The battle was on the verge of breaking out.

18:36 

The surrounding people felt the horrible oppressive pressure, and they quickly retreated far away. It was not until they were 100 meters away that they felt a little relieved.

After all, Tarmon was an expert at the Heaven Level. In fact, within the entire hidden family, he could be considered to be one of the top three masters.

At this moment, Fade's aura of positive energy was on par with Tarmon's, and his strength was already terrifying.

If two warriors in the Advanced Stage of the Heaven Level collided with each other, the aftermath of the attack would probably cause serious injury to some Earth Level warriors.

Therefore, at this moment, everyone was shocked and terrified. At the same time, their eyes were full of expectation to see the results of the fight.

Of course, the majority of them were more optimistic about Tarmon winning.

"Master Lin is going to make his move. He'll definitely win this time."

"Of course. Master Lin is a master at the late-stage of the Heaven Level."

"However, Fade has created one miracle after another. Perhaps there will be an accident this time."

"Haha, you've also said that it could only be an accident. Do you think Master Lin will let such an accident happen?"

.....

Just as the crowd was discussing, Tarmon, who was at the centre of the raging energy force, looked at Fade. A slightly surprised expression flashed across his eyes as he said, "Young man, your strength is indeed not bad. It has even exceeded my

18:36 

expectations."

"At such an age, for you to be able to reach the late-stage of the Earth level, you can indeed be considered a master," Tarmon actually praised him. 

However, he immediately changed his tone, and his expression became gloomy. "Even if you are a genius, you shouldn't have provoked my Lin family. You shouldn't have interfered in the position of the head of my family. For this, you have to pay the price."

As he spoke, Tarmon's aura rose once again, instantly suppressing Fade's aura and attacking like a tidal wave.

At this moment, Fade had no fear on his face, and there was even room for him to speak. "Then come on!"

"You are a fool who seeks death!" Tarmon shouted angrily. The raging tides of positive energy instantly transformed into a huge wave that viciously slapped towards Fade.

At the same time, Tarmon's body also began to move. With an agility that did not match his age, he swiftly charged forward. Like a fierce and hungry tiger, he ferociously pounced at Fade.

It was an overwhelming and powerful attack.

Without any fear, Fade stomped on the ground with his legs and he exerted his strength. Then, he twisted his waist and punched out.

This simple punch did not seem like any fancy moves. However, it carried the sound of wind and thunder as it howled and broke through Tarmon's aura of positive energy, directly smashing towards his body.

18:36 

Though Tarmon was a little taken aback by Fade's ferocious attack, his reflexes were extremely agile. With a quick flick of his wrist, he immediately threw out a punch, which heavily collided with Fade.

Instantly, there was a loud bang, and a stream of light, along with positive energy, burst in the place where the two collided.

A strong shockwave of positive energy burst forth with the two of them at the center. The terrifying shockwave actually caused the small building in the center of the Elder Council to collapse.

Fortunately, the surrounding people had long since left. Meanwhile, Fade and Tarmon, who were standing below the small building, were evidently not afraid of the collapsed building.

The light and aura of positive energy gradually spread out. At this moment, the two of them returned to their original positions, as if nothing had happened. Faintly, one could see that Tarmon's right hand was slightly trembling.

At this moment, his face was calm, yet his heart was surging with waves. During the previous clash with Fade, even though he was able to react in time and defend himself, he was still very confident in his own strength and was prepared to send Fade flying with a single punch.

However, the outcome was beyond his expectations. The terrifying force from Fade's fist was not inferior to his. In fact, it was even stronger than his own. In the face of the collision, Tarmon felt as if he was unable to bear it any longer.

Although he finally withdrew his hand in time, his right hand had gone numb due to the impact of the tremendous force, and it was still trembling.

As he thought of this point, Tarmon's expression turned serious as he sighed and thought to himself, "It looks like I have to use that move of mine. I never expected to be forced into this by a younger generation member. However, it should be a great honor

18:36 

for you to die at my hands!"

Snorting coldly, he did not say anything out loud as he gently stepped forward.

In an instant, a sharp aura surged out from his body. It was like a sharp sword that flickered with a golden light as it continuously condensed and surged.

As Tarmon's aura continuously gathered, the sword also grew larger and larger.

In the end, a huge sword that was ten meters long was formed in the air in front of him. The huge sword flickered with a golden light, causing half of the sky to turn golden.

A fierce aura surrounded the giant sword, and it carried a terrifying destructive power.

A part of the aura swept across the top of a tall building and cut off its roof as easily as if it was cutting tofu.

Such power made the spectators a hundred meters away feel a wave of fear, astonishment and excitement, and they moved further away from the battle scene. However, the sounds of discussion became even more lively.

"This huge sword is too terrifying. If I was at the bottom, I would have been crushed by this pressure."

"Of course, this is the unique skill of the Lin Family, the 'Sky-piercing Sword', which was created hundreds of years ago by their ancestors. It's very powerful."

"This time, Fade is definitely going to lose."

"However, it's the boy's honor to be able to force Master Lin to use his unique skill and die under the attack of the Sky-piercing sword."

Chapter 1633

As the crowd was discussing in astonishment, a glint flashed across Tarmon's eyes as his arms ferociously swung downwards. In an instant, the huge sword in the air whistled and slashed down. Sharp and heavy, it fell from the sky towards Fade.

Before the giant sword fell on the ground, the energy surrounding it had already split the ground around Fade, forming a gully that was two meters wide and nearly twenty meters long.

He stood in the middle of the gully and looked up at the giant sword that was about to fall from the sky.

"Go to hell!" Tarmon shouted one last time. His sword whistled through the last stretch of distance as it viciously hacked down towards Fade.

In an instant, the golden light completely enveloped him, and he could not be seen at all.

"It's over, Fade is dead."

"That's for sure. Now, it depends on how much of his body is left. If he's not lucky, I'm afraid there will be no bones left!"

"He's the one who provoked Master Lin. He's digging his own grave!"

.....

Amidst the commotion, a smile appeared on Tarmon's face as he withdrew his hand and placed it behind his back. Soon after,

18:36 

he turned his head to look at the crowd and said in a clear voice: "The bullies have been eliminated. Everyone, the hidden family will return to its peaceful state."

"However, the chairman's position has been left vacant. We need to make a new choice," he said.

Upon hearing this, a person with keen senses immediately stood up and hurriedly flattered, "Master Lin, you're so powerful that you've killed such a villain for our hidden family. The position of chairman should naturally be yours."

Some people took the lead, and others also reacted in an instant to speak out one after another.

"That's right. Master Lin is in high regard. I'm sure the position of chairman will belong to none but him."

"Master Lin is old, after all. It's inconvenient to work too hard. In my opinion, Moon Lin is the most suitable one."

"Moon is indeed suitable. He is Master Lin's son, and he is young and powerful."

.....

Upon hearing the crowd's response, a smile involuntarily appeared on Tarmon's face. Even though he had gone through some twists and turns, in the end, the position of the head of the Elder Council still fell into the hands of the Lin family. Their goal had been achieved.

He was about to announce his acceptance of the position of chairman with a smile on his face.

Suddenly, a cold voice sounded, "The new chairman hasn't died yet. Why is Master Lin in such a hurry to take over?"

Hearing the voice, everyone present was shocked, and they looked at the gully that was cut out by the huge sword.

In the deep gully, it was dark, and there was dirt scattered everywhere. A figure came out. It was none other than Fade.

18:36 

His clothes were not damaged at all, and there was no sign of any injury on his body. His whole face was ruddy and he strode out in high spirits.

Everyone was shocked.

"How is Fade not injured?"

"That's impossible. That was the sword of the Lin family, the Sky-piercing Sword. How could he not have hurt Fade?"

"Could it be that he missed Fade?"

"That's impossible. How could such a huge sword go awry? Not to mention that this kind of attack will be incredibly powerful even if it makes contact with the edge of the ring!"

.....

Just as everyone was at a loss, Tarmon was the first to react. With a stern expression on his face, he let out a heavy snort before he once again made a move, drawing out a formidable Qi blade as he viciously attacked Fade.

Fade remained expressionless. Instead, he shook his head and said, "Your Lin family's ultimate move, the Sky-piercing Sword, could not even kill me, let alone an ordinary move like yours."

After that, he raised his right hand and directly slapped him in the air.

This palm seemed ordinary and unremarkable, yet it seemed to carry an invisible pressure as it directly pressed down on Tarmon.

His expression instantly changed when he felt this majestic energy. This was because this energy was actually even stronger

18:36 

than Fade's earlier energy. It had already surpassed the category of a late-stage Heaven Level martial artist.

For a moment, Tarmon's eyes were filled with shock, "Could it be that you have reached the peak of the Heaven Level..."

Before he could finish speaking, Fade's palm slammed down.

In an instant, Tarmon felt as if a mountain peak had descended from the heavens and viciously smashed into his body. That enormous force was not something he could withstand at all as his body was directly smashed into the ground. It caused the ground to shatter, forming a several meter deep pit.

Tarmon laid in the deep pit, his body motionless. For a period of time, he was actually unable to sense any aura.

The scene really shocked everyone. They looked at the scene in disbelief and were speechless.

Fade's movements did not stop as he directly stepped to the front of the deep pit. He looked down on Tarmon and icily said, "Don't pretend to be dead. Open your eyes and answer my question."

At the bottom of the pit, Tarmon's facial muscles twitched a little as he spat out a mouthful of fresh blood. Soon after, he opened his eyes and looked upwards.

As he took a closer look, he saw Fade, who was looking down from the sky. There were also numerous onlookers around him, as well as the chaotic discussions that broke out amongst them.

Tarmon would rather pass out on his own. He did not want to wake up and suffer such a disgrace.

However, facing Fade's aura, he did not dare to disobey. He could only look at him and said with difficulty, "What do you want to ask?"

18:36 

Fade took a sharp breath before he asked, "About half a year ago, did your Lin family bring back a woman from Bay City? She's called Quin Lin."

Upon hearing this, Tarmon's facial expression changed. Slightly hesitating for a moment, he promptly replied, "It's true. She was brought back by some men."

When his wife's whereabouts were confirmed, Fade couldn't help but be excited. He continued to ask, "Why did the Lin family bring Quin back? What's your relationship with her?"

Tarmon answered, "Quin is my granddaughter. She is a member of the Lin family. The reason why I brought her back was to bring her home."

"Granddaughter!" Hearing this, Fade was a little surprised. He had many questions in his mind.

However, this wasn't the time to ask these questions. Fade asked, "Where is Quin now? Is she with your Lin family?"

"Right now, she..." Upon hearing these words, Tarmon's facial expression changed. His expression was a little peculiar as he started to stammer.

"Answer me, where is Quin now?" Fade noticed that something was amiss and his expression turned cold as he asked sharply.

Tarmon wore an awkward expression on his face. However, in the face of Fade's pressure, he had no choice but to speak up.

However, just as he was about to speak, a young and arrogant voice rang out from the side. "When did a secular warrior become so arrogant? How dare he show off in the hidden family?"

Chapter 1634

Upon hearing the voice, everyone's eyes could not help but turn to look at him.

Then, they saw a young man in his mid-20s. He was wearing a long robe, with his hands behind his back and a proud look on his face.

If someone paid attention, they would realize that this man was the man who had commented on Fade at the challenge battle and selections held a few days ago.

The symbol of the twin pagodas on the man's sleeves could still be seen clearly, showing his identity.

Fade heard the sound and turned around. He looked at the man and said coldly, "What do you want to do?"

The young man looked at him and said with a proud tone, "I don't want to do anything. I just want you to stop and then kneel down to apologize to the Lin family."

Hearing this, Fade's eyes narrowed and his expression became serious. He looked at the other party and said coldly, "What if I don't?"

The man sighed and said proudly, "No? Then be ready to bear my anger!"

"Anger! I don't mind teaching another self-righteous guy a lesson." Fade sneered with a disdainful face.

This fellow was extremely arrogant. When ordinary people saw him, they would think that his strength was very strong. However,

18:36 

Fade had already seen through his cultivation level. He was only at the early stage of the Heaven Level and was not worth mentioning.

"You're courting death!" The man snorted coldly. He immediately struck out with a burst of positive energy and broke through the air towards Fade.

Feeling this strength, Fade felt that it was ridiculous and immediately shook his head. This guy's strength was almost the same as Eliff's. With such strength, it was hilarious that this guy had dared to challenge him.

Hence, he casually threw out a stream of positive energy to block it.

The two collided, and Fade's strength smashed the other party's strength in an instant. He did not reduce his momentum and continued to rush towards the young man.

The other side didn't expect such a thing as he had completely misjudged Fade's abilities. When he felt the horror of his strength, he had no time to react. He looked panicked and hurriedly dodged, trying to avoid the attack.

However, in the end, he was slow to react and was scratched on the waist by Fade's attack.

At this moment, the clothes and flesh on the young man's waist were instantly torn apart, and they were dripping with blood. The man screamed and staggered. His face turned pale, and he almost fell to the ground.

Fade could not bear to look at such a person who was weak and had little combat experience. Without paying much attention, he waved his hand and said, "Now get out of here. I can spare your life."

Hearing this, the man's pale face fell and his expression became even more grim. He covered his wound and did not leave. Instead, he threatened Fade and said, "Do you know who I am? You hurt me. Do you know what the consequences will be?"

18:36 

"Now, kneel down and apologize to me immediately, and break your arms. I will consider sparing your life."

Hearing his words, Fade turned his head and looked at the man as if he was looking at a fool.

"Are you sure you don't want to leave? Then you can take another attack from me!" Fade spoke coldly, and waved his hand to strike another blow.

Seeing this, the man's face twitched in fear and he quickly shouted, "How dare you hurt me! I'm Eirian and I'm a member of the Wushuang Tower. If you hurt me, you're setting yourself against the Wushuang Tower."

Hearing this cry, the onlookers could not help but be shocked, and their expressions were a little surprised.

"So he's a member of Wushuang Tower. No wonder he's so..."

"Judging from the symbol of the twin pagodas on his sleeve, he is indeed from the Wushuang Tower."

"How could the people of Wushuang Tower stand up for the Lin family? Is there any secret relationship between them?"

"Wasn't there a rumor that the Lin family found a supporter for the position of the chairman? Could it be that the members of the Wushuang Tower are the Lin Family's supporters?"

"The people from the Wushuang Tower have come forward. There might still be a turn for the situation."

.....

Listening to the crowd's exclamation and discussion, Eirian looked proud. He slightly raised his head and looked at Fade with a proud face. "Did you hear that? I am from the Wushuang Tower. Now, be more aware of your mistakes. Kneel down and apologize to me."

18:36 

Hearing this, Fade snorted coldly. He didn't pay attention to him at all. Instead, he shot out a stream of positive energy towards Eirian.

Eirian did not expect that after he revealed his identity, the other party would still dare to attack him. He was shocked and said, "How dare you..."

However, before he could finish his words, Fade's strength rushed over and hit his chest, directly sending him flying out.

Eirian spat out a mouthful of blood and he fell to the ground. His eyes were full of ferocity and anger. He screamed, "I'll kill you. I'll kill you. If you dare to hurt me, I'll kill you."

Facing such an arrogant and ignorant guy, Fade couldn't help frowning. Originally, he didn't have any intentions to kill him, but this guy didn't know what was good for him. He kept provoking Fade, which made him feel annoyed and threatened.

Fade didn't mind killing him and calming himself down a little.

Unfortunately, Eirian didn't know what Fade was thinking at this time, and he was still shouting wildly, "I'm a member of a Heaven Level, and I'm a high-ranking master. How dare you, a warrior in the secular world, hurt me? I'll kill you. I'll destroy your whole family. I'll grind your bones to dust. I'll..."

The crazy roar finally angered Fade.

He snorted and stepped forward with a cold face. The positive energy in his palm began to condense and he was about to slap the young man.

Eirian, who kept shouting, felt the surging strength of Fade's palm, and then he perceived the threat and realized that Fade really dared to kill him. In an instant, his face changed. "No, don't kill..."

18:36 

However, at this moment, Fade didn't care about what he had to say, as his palm was about to fall.

Seeing that the killing intent was determined, Eirian was about to be killed by Fade's palm.

At this moment, Tarmon, who had barely managed to escape from the deep pit, turned to Fade and said, "Mr. Chen, you can't kill him. Otherwise, Quin will be in mortal danger."

Upon hearing this, Fade's palm, which was about to land on Eirian's face, came to a halt. He turned his head towards Tarmon with an ice-cold expression on his face, "You said that Quin is in mortal danger. What do you mean by this?"

"I..." Tarmon paused for a moment before he lowered his voice and said to Fade, "Didn't you just ask where Quin is? I can tell you that she has been taken away by Eirian's grandfather, Ceylon, and is currently on the way back to Wushuang Tower."

"What!" Hearing this, Fade couldn't help but look serious, and a lot of questions came to his mind.

Upon seeing this, Tarmon said, "Mr. Chen, if you want to ensure Quin's safety, you can't kill him. As for the whole matter, it is not convenient to speak here..."

Fade's eyes narrowed, and his expression changed. He immediately said, "Go back to the Lin family manor. Don't try any tricks, or there will be consequences."

Chapter 1635

Tarmon lowered his head and said, "I don't dare to!"

Fade's display of strength had already exceeded Tarmon's expectations and completely overwhelmed him. The fact that Fade was able to defeat him meant that he was at least on par with him in terms of the cultivation realm, reaching the advanced stage of the Heaven Level. It was even possible for him to reach the peak stage of the Heaven Level.

At Fade's age, who was not even thirty years old, it was truly shocking for him to reach such a cultivation level. Such a top-tier martial arts master would definitely be a top tier existence even amongst the four Heaven Level factions. Tarmon did not want to offend such a master.

Soon after, Fade, Tarmon, and the injured Eirian returned to the Lin family manor.

As the strongest first-class hidden family, there was no need to say much about the residence of the Lin family. It was huge, well decorated, and filled with positive energy. No matter how one looked at it, it was an exquisite residence.

However, the atmosphere within was exceptionally tense and oppressive.

That was because the pillar of the Lin family, Master Lin, had actually been defeated, and the enemy was still in his own home. How could they relax?

Fortunately, Fade had no interest in finding trouble with the rest of the Lin family members. After he entered the guest hall, he

18:36 

immediately turned to Tarmon and asked, "Can you tell me now, how did Quin end up in the hands of a member of the Wushuang Tower?"

"This..." Tarmon paused for a moment before he continued, "Before the election, the Lin family had targeted the position of the chairman. In order to stabilize our position, our Lin family had secretly done quite a bit of work, including seeking support from the four Heaven level sects."

"In the end, we found a connection and got in touch with the people from Wushuang Tower. The other party also promised to support us but proposed the corresponding conditions. Among these conditions, one of them was the Lin family's Quin."

"So, Moon found Quin and reached an agreement with Wushuang Tower."

"In the election of the chairman, Wushuang Tower sent Ceylon, the outer elder, and his grandson, Eirian, to support the election. Originally, our trade was going to be decided after the election."

"But Master Sun suddenly had something to do, so he decided to leave Eirian to support the Lin family, and take Quin back to the family in advance."

"That's why we're in such a situation now."

After listening to Tarmon's story, Fade's eyes turned cold as he looked towards him and said, "You said that Quin is your family member and you also brought her home."

"Instead, you gave her to the people of Wushuang Tower as a bargaining chip in exchange for benefits. Is this the Lin family's attitude towards their own family members?"

Tarmon could feel Fade's anger and quickly explained, "This is indeed our fault. However, when we were negotiating with Master

18:36 

Sun, he had promised us that Wushuang Tower would not harm Quin and would even treat her well. Thus, we..."

"Enough, I don't want to hear your explanation." Fade shouted angrily and then said coldly, "Now, tell me, where is Ceylon? I'm going to bring Quin back."

"This..." Tarmon's face turned pale and he seemed to be in a difficult position. "Master Sun has already set off several days ago. Based on his speed, he would likely have returned to the Wushuang Tower long ago. Thus..."

"In that case, I'll go to Wushuang Tower. Even if they are annihilated, I will bring Quin back." Fade's eyes were red with anger.

As Tarmon stared at Fade, who was extremely furious, he did not dare to say anything else. He could feel that the current Fade was extremely furious, so much so that he was about to lose his mind. Destroying the Wushuang Tower was not something a normal person would say.

If Fade was to fight to the death against Wushuang Tower, Tarmon would definitely be glad. However, what he was worried about now was that the furious Fade would first wipe out their Lin family before going to Wushuang Tower to fight to the death. That would be a huge loss.

Therefore, he did not dare to infuriate Fade. Instead, he continuously consoled him, "Mr. Chen, please don't be agitated. This matter has yet to reach that stage. I will contact Master Sun immediately. Perhaps, there is still a chance for things to turn for the better."

After finishing his words, Tarmon gave Eirian a look.

He suddenly came to his senses and hurriedly said, "There's a turning point. There really is a turning point."

"What turning point? Tell me!" Fade said coldly.

18:36

Eirian gulped and quickly said, "I heard my grandfather say that on his way back, he would go to Dragonville and Bay City to investigate something. Thus, he may not have returned to Wushuang Tower yet."

"I can call my grandfather now and ask him to bring some people back immediately."

"Interesting." Fade looked at him.

Eirian nodded repeatedly. "It's true, it's absolutely true. If you don't believe me, I can call him now..."

Immediately, he didn't care about the pain. He took out his cell phone and began to dial a number.

Tarmon hastily explained to Fade, "Don't worry, Mr. Chen. Master Sun will definitely return. Eirian is his most valued grandson. He is also the grandson whom Master Sun thinks most highly of. He dotes on Eirian very much and will definitely return."

Just as they were talking, Eirian's call connected, "Grandpa, this is Eirian. You haven't returned to the family yet, right? Come back quickly. Bring Quin with you."

"Turn on the speaker!" Fade shouted coldly.

On the other line of the phone, Ceylon's voice could be heard, "Eirian, what are you talking about? Why did you ask me to come back? What happened?"

"Grandpa, don't ask so much. Hurry up and bring your men back. If you don't come soon, I'll die here," Eirian cried.

Ceylon's tone changed when he heard this, "What do you mean by 'die'? What the hell is going on? Eirian, tell me clearly."

"Grandfather, I..." Eirian was somewhat incoherent.

At this time, Fade waved his hand and grabbed the phone in Eirian's hand. He then said in a low voice, "Master Sun of Wushuang

18:37 

Tower, right? I'll give you half a day to bring Quin back to the Lin family of the hidden family. Otherwise, you can prepare to collect your grandson, Eirian's, body."

"Who are you? What did you do to Eirian?" Ceylon asked.

Fade did not answer him, "I've given you a limited amount of time. You only have half a day. Also, if Quin gets hurt, prepare to take my fury."

He immediately hung up the phone.

He pointed at Eirian as he instructed Tarmon, "Take him away and send someone to watch over him. If any accident occurs, the Lin family will no longer need to exist."

"No, there will definitely be no accident," Tarmon promptly sent someone to take Eirian away, before respectfully returning to Fade's side.

Chapter 1636

Fade stared at him and thought of something. He opened his mouth and asked, "You said Quin is a member of your Lin family. What's going on? Tell me the details."

Tarmon's expression slightly changed as he began to explain, "It was around twenty years ago, and the Lin family was considered one of the well-off hidden families. We were not considered among the first-rate families but we were considered one of the better ones."

"I had a nephew and his name was Daniel. Even though he was born into a martial arts family, he wasn't interested as he was not talented in it. Thus, when he grew up, the family sent him to manage the Lin family's business."

"Daniel was only average in terms of martial arts, but he was quite talented in business. In just a few years, he had raised the Lin family's business by a few folds and he had a certain reputation in the family."

"Just when they were about to promote his position in the family, Daniel brought back a girl whom he had met during a vacation, and the two of them had fallen in love. Therefore, they were planning to get married."

"As a hidden family, the Lin family is very enthusiastic about the marriage of our members, and they strive to find someone that is a perfect match for them. Moreover, Daniel was performing well and thus, the family was finding a significant other for him. That was why they initially opposed their marriage."

"But then, the woman showed us her strength, and this was when we found out that she was also a martial artist herself."

18:37 

Moreover, she was not an ordinary person. She was a Heaven Level martial artist and was related to Wushuang Tower."

"After finding out about this, the family naturally agreed to Daniel's marriage. After all, this was a great opportunity to curry favor with Wushuang Tower. Therefore, the family held a wedding for the two."

"However, on the day before the wedding, the woman returned, injured, and she left to get her injuries treated. Then, an anonymous person came to the Lin family and threatened us not to contact that woman again."

"Initially we didn't think too much about his threats but then our Lin family's business was greatly impacted, and our disciples were also ambushed and attacked. Even one of the elders of our family was also injured from their attacks. Therefore, under such circumstances, we couldn't just ignore their threats anymore. We had no other choice but to call off the wedding"

"But Daniel was too stubborn, and he insisted on marrying that woman. Hence, he didn't even hesitate to leave the Lin family so that he could marry her."

"After Daniel left, our Lin family quietened down immediately. Later, we also secretly investigated what had happened to them. The last we heard was that they had a child together. After that, Daniel died and the woman went missing. We knew that this was the doing of that anonymous person, and we were afraid that it would affect the Lin family. Hence, we stopped investigating it and we also made it a rule that no one in the family was allowed to speak about this matter ever again."

Hearing this, Fade's eyes could not help but slightly squinted. He asked, "What is the name of the woman?"

"Her name was Chrystal Xie."

Upon hearing the name, Fade's heart jolted. She was indeed Quin's mother. Back then, Francesca had told him that his mother-in-law was somehow related to Wushuang Tower, and now, this was verified by Tarmon.

18:37 

However, he had now gotten some new information, which was the sudden appearance of that anonymous martial artist before Daniel and Chrystal's wedding. Why did he want to obstruct their wedding, and why was Chrystal injured? What happened to Daniel that caused him to die so suddenly and why did Chrystal go missing?

All of a sudden, these questions flooded his mind and he was feeling doubtful.

After a pause, Fade continued to ask, "What happened after that? Why did the Lin family pursue the matter again, and what is the motive behind you hunting Quin down?"

Tarmon's face turned pale as he explained, "Actually, all of these happened recently. Six months ago, we went to contact Wushuang Tower. Their people mentioned Chrystal's incident and that they wanted us to help them bring Quin in. That is the only reason why we started to pursue this matter and that is also why..."

"Why does Wushuang Tower want to bring Quin in, and what is the relationship between them and Chrystal?"

Tarmon shook his head and replied "I have no idea about this. Wushuang Tower ordered us to carry out the task and the Lin family did not dare to ask so much."

Seeing that Fade's expression was a little grim, he hastily added, "But I've secretly sent people to inquire about it, and I vaguely managed to gather some information. After Chrystal went missing, she did go back to Wushuang Tower once. However, things didn't end up as they wished and she left after that. That is everything I know. As for the details, I have no idea."

As Fade listened, he recalled that before he came to Capital City, one of the members of Wushuang Tower, Santos, went to Dragonville, and he was looking for an antique token that was left behind by Chrystal.

"Could this token be somehow related to the fact that she left Wushuang Tower?"

18:37 

There were all kinds of doubts in his heart, but no idea where to start his search. However, Tarmon seemed like he couldn't provide him with any more information. Therefore, he had to wait for Ceylon to arrive; only then could he ask him about the rest.

Concurrently, on the phone, Ceylon had just hung up the phone with his grandson, Eirian. His expression was extremely gloomy upon finding out that his grandson was in a life-threatening situation. He couldn't help but feel anxious.

After the phone was hung up, he dialed his phone again but this time, Eirian was not reachable and this made Ceylon even more worried.

A middle-aged man in a long robe named Ziglar, who was next to Ceylon, saw that he had received a call and his expression changed. He could not help but ask, "Master Sun, what's wrong? What happened?"

Ceylon had a gloomy face as he answered, "Eirian has been caught and now, only by bringing Quin to them can he be freed."

"What! How could this be?" Ziglar couldn't help being taken aback. He then glanced at Ceylon and asked cautiously, "Master Sun, what are you going to do?"

"What should we do? Of course, we have to go and save Eirian. Can we just let him be?" Ceylon glared at him and snorted.

A strange expression flashed across Ziglar's face when he heard this. He quickly replied, "Master Sun, that is not what I meant. We definitely have to save Eirian but Quin is highly valued by the deputy guardian. If we can't bring her back this time, I'm afraid the clan..."

"Then are you just going to sit around and let Eirian be in danger?" Ceylon turned his head and glared at him.

18:37 

Chapter 1637

Ziglar knew that Eirian was the most talented grandson in the entire Sun family and he was Ceylon's favorite grandson, thus he wouldn't just give up so easily. He hurriedly explained, "Master Sun, I didn't mean that. What I was trying to say is that Quin is not any other ordinary person. We should report back to the clan and seek their help."

Ceylon's face darkened. He thought for a moment, then took out his cell phone, dialed a number, and told the person on the other end what was going on.

After the phone was hung up, Ziglar quickly asked, "Master Sun, so what did they say?"

"I have already informed Master Sim of the internal clan. He said that he will come over as soon as possible, and he asked us to go rescue Eirian first."

"It's great that Master Sim can come." Ziglar breathed a sigh of relief.

Ceylon immediately said, "Get ready right now. Let's head back."

"Yes!" Ziglar answered in a hurry.

.....

That evening, in the living room of the Lin family manor, Fade was sitting on the main seat with a serious look on his face.

Beside him, Tarmon stood respectfully to one side, just like one of Fade's followers.

18:37 

There was a group of hidden family members outside the Lin family manor. They found out that Fade had a conflict with the people from Wushuang Tower, and he was holding Eirian as a hostage. He even wanted Ceylon to come over and exchange hostages.

As a result, all types of heated discussions broke out.

Some people sighed and said that Fade was so bold that he dared to provoke a Heaven Level clan.

Some people also praised Fade's strength and how he was not even afraid of a Heaven Level clan.

Of course, there were some who hoped that Master Sun would come back and slap Fade to death. These people naturally consisted of the Pei and Chiang families that were once defeated by Fade.

As the sun was about to set and the sky gradually darkened, Fade suddenly squinted his eyes and said, "They are coming!"

Tarmon was dumbfounded at first. He was stunned as he lifted his head to look outside. Soon after, he also felt a terrifying burst of positive energy coming towards him. Immediately, he was certain that it was Ceylon.

As his gaze turned towards the entrance, Tarmon was more puzzled with Fade's strength. He was also at the peak stage of Heaven Level and his senses were way stronger than a lot of people.

However, just now, Fade could sense that Ceylon was coming before he could even sense it. This made Tarmon somewhat puzzled.

Just as he was slightly dumbfounded, two figures appeared at the entrance of the Lin family's living room.

The two men were Ceylon and Ziglir.

18:37 

When Ceylon entered, he immediately saw Fade, who was seated in the center of the room, as well as Tarmon, who was standing respectfully beside him.

Seeing such a situation, Ceylon's face twitched and his eyes narrowed slightly.

During this period of time, he was in charge of contacting the Lin family and he obviously knew how terrifying Tarmon's strength was. He was at the late stage of Heaven Level, and Ceylon was still a stage lower than him; he was at the middle stage of Heaven Level.

Despite this, in actual combat, Ceylon was confident that he could defeat Tarmon. However, the fact that Tarmon could actually reach the peak of Heaven Level was considered quite outstanding.

And now, Tarmon was standing respectfully beside this young man. This was enough to prove that this man was not as simple as he seemed. Either his background was shocking, or his strength was shocking.

As this thought entered his mind, Ceylon squinted his eyes at Fade.

For a moment, both pairs of eyes met each other and neither said a word. The atmosphere immediately tensed up.

Tarmon could feel the oppressive atmosphere, and his heart began to thump faster. However, he did not wish for these two experts to start a fight in his house. He forced a smile and introduced, "Mr. Chen, these are the members of the external clan of Wushuang Tower. This is Ceylon Sun and the one beside him is Instructor Ziglar Han."

Upon hearing that, Fade had an indifferent expression on his face and he stared at them in silence.

Immediately, Tarmon glanced towards Ceylon and introduced, "Master Sun, Instructor Han. This is Mr. Chen. He..."

18:37 

Without waiting for him to finish his introduction, Ceylon snorted lividly as he glared fiercely at Fade. In a cold tone, he asked, "You were the one who called me? Where is my grandson, Eirian?"

Fade did not answer. Instead, he asked, "Where is Quin?"

"I want to see my grandson first. If anything happens to him, don't even think of seeing that woman ever again," Ceylon said with a heavy snort.

Hearing this, Fade's expression suddenly became gloomy, and a chilling aura burst forth from his body.

Tarmon promptly tried to persuade both parties, "Mr. Chen, don't be impulsive. Master Sun, don't worry. Everything will be fine!"

Ceylon interrupted, "I don't believe you. Hand over my grandson first."

"I want to see Quin first." Fade squinted his eyes; he was a little exasperated.

When Tarmon saw this, he was worried that the two of them would start a fight. He hurriedly added, "Master Sun, Mr. Chen, we won't solve the problem if we continue this. Why not both parties bring out the hostages? I will be the witness and the two of you will exchange people at the same time."

Ceylon thought for a moment, then nodded and said, "Seeing that Master Lin has spoken, I agree to this decision."

After that, he clapped his hands, and Ziglar brought out a woman in the blink of an eye.

Fade's gaze was fixed on the woman and it was indeed Quin. For a moment, he was emotional immediately. Back then, his wife didn't even say goodbye when she left and they had been separated for half a year. Now that she was right in front of him, emotions flooded his mind and he couldn't hold them back as he rushed forward.

18:37 

"Quin!" However, he suppressed his impulse and called out softly, only to find that she was not reacting. Fade's face immediately darkened. "What did you do to Quin?"

Ceylon answered, "Nothing, I just gave her some sleeping pills and she fell asleep."

"Where's my grandson? If anything happens to him, all of you have to die with him," he continued in a livid tone.

Fade clapped his hands. Suddenly, someone lifted Eirian and strode out.

Ceylon saw his grandson lying on the stretcher. His face was pale and his waist was red. Suddenly, his face changed greatly. "What did you do to Eirian? You hurt him. I'm going to kill..."

As they were talking, his aura broke out, and he was about to rush over and attack Fade.

When he saw this, the positive energy in his body immediately surged. He shouted coldly and was about to move.

Upon seeing this, Tarmon quickly stepped forward and advised, "Master Sun, Mr. Chen, please don't be impulsive."

Immediately, he turned to look at Ceylon and explained, "Master Sun, I have already checked on Mr. Sun's injuries. They are not serious. I've already checked on his wounds and there are just some bruises. After some rest, he should be able to recover."

Chapter 1638

"It's just a bruise!" Ceylon's face was filled with rage as he glared at Tarmon and questioned, "Tarmon, my grandson was left in your Lin family house and that is how you treat him. It looks like you don't think highly of me and Wushuang Tower!"

Upon hearing this, Tarmon's face immediately turned pale with fright. He hastily waved his hand and explained, "Master Sun, it's a misunderstanding. How would I dare to not think highly of you or Wushuang Tower. It's just that..."

Meanwhile, Fade, who was eager for Quin to return to him, snorted and said, "Eirian was hurt by me and he deserved it. If you still want your grandson back then exchange the hostages now. Or else, when I change my mind, it would be too late."

"You..." Ceylon was furious when Fade's words flooded into his ears. However, seeing that his grandson was still being held hostage, Ceylon could only hold in his anger and gritted his teeth, "Exchange the hostages."

Hearing that, Fade also nodded.

Thus, Ceylon and Fade's positive energy enveloped the entire scene, and they confronted each other. Ziglar and the members of the Lin family brought along Quin and Eirian as they strode towards each other.

The atmosphere was tense. Both sides had their guards up in case the other party had some tricks up their sleeve, and their strength was on the verge of breaking out.

In the midst of this tense atmosphere, Tarmon was the one suffering the most. He prayed in his heart for the battle not to break

18:37

out. In the end, Quin and Eirian were finally exchanged, and they returned back to where they belonged.

Ceylon immediately bent down and checked Eirian's condition. After confirming that his grandson was really just bruised, he was relieved.

Meanwhile, Eirian, lying on the stretcher, seeing that he had returned to his grandpa's side, finally dared to speak. At this moment, he was full of grief, indignation and resentment. "Grandpa, it's Fade. He hurt me. I want you to avenge me. I want you to kill him!"

Ceylon held Eirian's hand and comforted him in a low voice. "Eirian, don't be impulsive. Don't worry. I will definitely get justice for you, for sure!"

Immediately, he winked at him and asked Ziglar to take Eirian away.

Meanwhile, Fade hugged the unconscious Quin and checked her pulse. After confirming that she was just asleep from the pills, he let out a sigh of relief and turned around to leave with her.

However, just as Fade was about to leave, Ceylon stepped forward, shrouded by the aura of his positive energy. He uttered in a low voice, "Do you want to leave just like this?"

Hearing this, Fade paused, stared at him, and said indifferently, "What do you want to do?"

"Hmph, what do I want to do!" Ceylon snorted coldly, and his eyes became more and more gloomy. "You hurt my grandson and ruined Wushuang Tower. Do you think you can just leave so easily?"

Hearing this, Fade's eyebrows suddenly raised, and he looked at him with a cold expression. "Are you trying to start a fight with me?"

18:37

"Arrogant boy, I'd like to see what you are capable of to be so arrogant," Ceylon shouted and attacked Fade with his positive energy surging out.

Upon seeing this, Tarmon was extremely anxious as he hastily shouted and advised, "Master Sun, please don't be impulsive. Mr. Chen..."

However, at this moment, Ceylon was determined to avenge his grandson. None of Tarmon's words were heard by him. Before he could finish shouting, the raging aura of his positive energy had already charged up. With a raging killing intent, it looked as if he wanted to tear Fade into pieces.

Feeling the killing intent, Fade didn't hesitate. With a heavy snort, he held Quin with his right hand and threw out his left palm.

In an instant, a wave of air rushed out and collided with Ceylon's violent positive energy.

Ceylon, who had originally had a fierce momentum, was instantly repelled back by the impact. He stumbled back and coughed, and blood started oozing out from the corner of his mouth.

After just one single blow, he had actually been injured.

This outcome was not what he expected and he squinted his eyes as he glared at Fade.

Concurrently, Tarmon hurriedly tried to persuade him, "Master Sun, Mr. Chen is really powerful and even I am no match for him. If you have anything to say, let's discuss it like civil people!"

These words were like a warning to Ceylon.

However, when he heard this, his face darkened and his expression turned more ugly. He glanced at Tarmon before his gaze

18:37 

landed on Fade. Clenching his teeth, he coldly uttered "Whoever hurts my grandson, I'm going to let him pay the price."

After that, he stepped out and attacked Fade again. "I don't believe it. How strong can a secular world self-learner be? I'll show you the strength of our Heaven Level Clan."

With Ceylon's words, the positive energy in his body surged again, and his momentum was stronger than before.

Upon seeing this, Fade's eyes turned cold and he said in a livid voice, "Since you want to die, I'll grant your wish."

In an instant, his positive energy began to surge out.

Meanwhile, the living room of the Lin family manor was flooded with two majestic auras. The violent and powerful positive energy collided with each other, shaking the entire house. The whole house was constantly shaking, and it looked like it would collapse at any time.

"Brat, go to hell!" Ceylon shouted and leaped forward. His body was wrapped in positive energy. Like a cheetah, he pounced on Fade with sharp fangs.

His positive energy sliced through the air, and with a sizzling sound, it fiercely charged to kill Fade.

This formidable killing intent was even more terrifying than Tarmon's Sky-piercing Sword. One had to admit, the strength of a Heaven Level clan was indeed formidable. Even though Ceylon was a stage lower than Tarmon, in terms of battle prowess, Ceylon was actually a little higher than him.

However, to Fade, it was the same.

In the face of such a violent aura, Fade, who was already at the peak of the Heaven Level, showed no fear at all. He rushed

18:37 

straight out like a gust of wind.

Following the impact, Fade turned into a long spear and stabbed directly at Ceylon.

Upon impact, the spear instantly pierced through Ceylon's positive energy, letting out a slashing sound.

Amidst the intense impact of their positive energy, Tarmon could only see two shadowy figures continuously colliding, and he was having a hard time tracking their movements.

A few seconds later, a black shadow flew out and slammed into the wall of the living room. With a loud thud, the figure then slammed to the ground. His face was pale, but his chest was bright red.

After taking a closer look, Tarmon realized that this person was none other than Ceylon. In an instant, he could not help but exclaim, "Master Sun."

Although he had personally experienced Fade's prowess and he had also thought that he would be able to defeat Ceylon, when all of this happened before his eyes, Tarmon was still incomparably dumbfounded.

Chapter 1639

He turned his head swiftly and glanced at Fade, only to find that he was still rooted to the exact same spot. It was as if he had not even been slightly touched by what just happened. Upon seeing this, Tarmon was even more dumbfounded.

He wanted to go over to support Ceylon up and see whether he was alright. However, just as he was about to take a step forward, Fade stepped forward and walked towards Ceylon. Immediately, Tarmon was scared out of his wits. He obediently lowered his head and stood to one side, not saying a single word.

Fade came up to Ceylon, glanced down at him, and said indifferently, "Now, are you ready to die?"

As he spoke, the positive energy in his palm began to concentrate and condense into a sharp Qi-blade. He was about to stab it down on Ceylon.

Seeing this scene, Ceylon's eyelids twitched, but he still forced out a sentence, "I am the elder of the external clan of the Wushuang Clan. If you dare to kill me, Wushuang Tower will not let you go. Now, you'd better let me go. Maybe we can spare your life."

Fade was not interested in dealing with this kind of nonsense. He directly raised the Qi-blade in his hand and slashed it at Ceylon's right arm.

Bright red blood was gushing out. Ceylon's right arm was amputated, and it fell onto the ground. He screamed in agony, gritting his teeth and covering the wound that was gushing with blood. He glared at Fade with resentment and said, "If you dare to hurt

18:37 

me, Wushuang Tower will not let you go. I..."

Fade turned a deaf ear to this. He gently raised his hand, and a sharp Qi-blade appeared in his palm. He was about to stab it into Ceylon's heart.

Ceylon stared into his indifferent eyes and how he wasn't even hesitating at all. For the first time, he actually felt the fear of dying. In an instant, his heart fiercely contracted and a surge of fear rose up within him.

Meanwhile, he was actually frightened. He didn't want to die. He hurriedly shouted, "No, don't kill me. I was wrong. I know I was wrong. Don't kill me..."

However, Fade did not hesitate at all and continued to bring the Qi-blade down at him.

Just as the whistling Qi blade was about to pierce through his heart, Ceylon cried out, "If you kill me, Quin will be dead too."

Hearing this, Fade stopped in an instant. The sharp Qi-blade had pierced through Ceylon's skin and it was stained with blood.

Meanwhile, Fade's eyes were livid, and his voice was as cold as the frost in the depths of hell, "What did you just say?"

Ceylon's face was very gloomy. He gritted his teeth and said, "Before I brought Quin here, I had her take a unique pill that was specially made by our Wushuang Tower. If she doesn't get the antidote in three days, all her organs will start to rot. By that time, even the Heaven Level martial artists will not be able to save her."

"What!" Upon hearing this, Fade instantly flew into a rage. He almost couldn't help but slap Ceylon to death.

However, Ceylon hastily shouted, "If you kill me, Quin will be dead too."

Fade held back the killing intent in his heart and turned back. He hugged Quin and began to examine her body meticulously.

18:37 

After the inspection, he really felt a strange positive energy in her body. The positive energy was very weak and it was well concealed. If he had not meticulously inspected her, he wouldn't have noticed it too.

Afterwards, he tried to use his own positive energy to dispel that abnormal positive energy lingering in her body. However, after a few attempts, that abnormal positive energy started to shift in her body. This caused the unconscious Quin to frown and reveal a painful expression.

Suddenly, he did not dare to continue. He put Quin down, then turned to Ceylon and said coldly, "Take out the antidote."

With blood gushing out from his mouth, Ceylon sneered and said, "Do you think how I will hand over the antidote? If I hand over the antidote now, I will die."

"If you don't hand it over now, one of the Wushuang members will die now." Fade uttered furiously. His aura began to burst out and it directly suppressed Ceylon.

In an instant, he felt a huge wave of positive energy enveloping him, and the air around him seemed to suddenly solidify. His whole body was pressed by a huge force, and he was having difficulty breathing.

"Hand over the antidote right now!" Fade's voice was icy cold.

Ceylon could feel that his body couldn't hold on any longer, but he still gritted his teeth and his gaze showed determination. He knew that if he handed over the antidote now, Fade would definitely kill him right away.

The only possible way he could survive now was to stall for Master Han's arrival. After he received the news, he would rush over as soon as possible. And thus, with his arrival, Ceylon's chances of survival would significantly increase.

Therefore, at this moment, no matter how terrified Ceylon was, he had to endure it as he gasped, "It's impossible for me to hand

18:37 

over the antidote now."

"Then go to hell!" Fade's eyes were scarlet. He raised his right hand with fierce killing intent and was about to stab it down at Ceylon.

He trembled with fear, but he still gritted his teeth and said, "If you kill me, Quin will definitely die. If I don't hand over the antidote, you can't kill me..."

Before he could finish speaking, Fade's eyes suddenly turned livid. His palm, which was raised in the air, suddenly dropped down with terrible killing intent. He stabbed it into Ceylon and said, "Go to hell!"

Feeling the strength of Fade's positive energy, Ceylon was really frightened, because the attack was really full of killing intent. He showed no mercy at all.

"If you really want to kill me, Quin is dead for sure. You..." Ceylon finally shouted.

However, Fade had made up his mind. He was full of killing intent.

Meanwhile, he was very clear that he could not be threatened by Ceylon, otherwise, things would not come to an end. As for his wife's poisoning, he still had a backup plan.

Ceylon said that he had given Quin a unique medicine that was specially made by Wushuang Tower. This meant that as long as Fade went to them, it was very likely that he could find the antidote. This was not a big problem for him. If worse came to worst, Fade would just ask Aldred to accompany him to Wushuang Tower and retrieve that antidote.

Therefore, when he attacked Ceylon this time, he was full of killing intent, without any intention of holding back.

18:37 

However, just at the critical moment, a loud shout was heard, "Mr. Chen, show some mercy."

Hearing the cry, Fade turned his head and saw a man in his late fifties, dressed in a long robe and his hair in a topknot, rushing in quickly.

Even so, Fade did not intend on holding back; he continued his attack.

Seeing this, the man in the long robe quickly shouted, "Mr. Chen, I have the antidote that can cure Miss Lin."

Hearing this, Fade was taken aback and he froze. He turned his head to look at the man in the long robe and he asked in a cold voice, "Who are you?" 

18:37 

Chapter 1640

The man flashed him a token and immediately declared, "I'm Narvel Xu, the deputy guardian of Wushuang Tower." 

Hearing his identity, several people present couldn't help but be dumbfounded.

Tarmon was greatly shocked as he lifted his head and glanced at the man. Soon after, he withdrew his gaze, lowered his head and did not dare to say a single word.

Ceylon was also taken aback, and then cried out, "Master Xu, save me. He wants to kill me. Save me quickly."

Narvel glared at him and shouted angrily, "Shut up!"

Then, he looked at Fade and said, "Mr. Chen, I've just found out about the situation. This time, it is indeed Wushuang Tower's fault. I am here to apologize on behalf of Mr. Chen and President Lin."

"This is the antidote to Quin's poison. Mr. Chen, please neutralize the poison in President Lin quickly!" As he spoke, Narvel took out a brown pill the size of a carapace.

Fade took the pill and lightly sniffed it. After confirming that there was nothing wrong with the pill, he fed it to Quin.

Immediately, Fade circulated his positive energy and inserted it into Quin's body to help enhance the medicine's efficacy. As the medicine's effects gradually took place, the strange energy within Quin's body slowly dissipated.

Her pale face had also taken a turn for the better at this moment.

18:37 

After carefully examining his wife's body and confirming that the poison had been neutralized, Fade finally breathed a sigh of relief.

Then, he stood up and stared at Narvel and Ceylon angrily.

Narvel, who was treating Ceylon's injury, saw Fade coming over. He stood up and said, "Mr. Chen, it's true that our Wushuang Tower is to be blamed. I hereby apologize for what we've done."

Hearing this, Fade was expressionless and he uttered coldly, "He took away my wife, poisoned her, and intended to kill me. Is a mere apology enough for all this?"

Hearing this, Ceylon, who had just regained some of his positive energy and vitality, immediately said discontentedly, "Chen, don't go too far. My grandson was injured by you, and my right arm was also cut off by you."

"Now, Master Xu came personally to apologize to you. What else do you want?" Although Ceylon was somewhat surprised that the person who came was Narvel instead of Master Han whom he had contacted beforehand, at this moment, he didn't care much about this. After all, his presence was much more beneficial than that of Master Han.

After hearing Ceylon's words, Fade's face turned livid, and he was not trying to conceal his intention to kill Ceylon. He said to Narvel in a cold voice, "Is this the attitude of Wushuang Tower?"

Narvel frowned slightly at this moment and felt a little unpleasant in his heart. However, when he thought about the guardian's warnings, he took a deep breath and said in a low voice, "Mr. Chen, our Wushuang Tower is at fault this time. The apology is only what we can do now. Mr. Chen, please don't hesitate to ask for the rest of your compensation. Wushuang Tower will try our best to fulfill your requirements."

18:38 

"Compensation?" Fade snorted coldly, then pointed to Ceylon and uttered coldly, "The compensation I want is very easy. I want him dead."

"You..." Ceylon was dumbfounded and wanted to refute, but then he was suppressed by Narvel's cold eyes.

Narvel frowned at this moment and immediately said, "Mr. Chen, Ceylon is an elder of the external clan, a middle-stage Heaven level expert. Even if he has blundered, the punishment should not be so severe!"

"To me, it's not considered severe!" Fade said concisely.

"Mr. Chen, this..." Narvel was in a dilemma, and his aura began to surge slightly. Obviously, he was also ready to fight.

Fade noticed this and slightly raised his eyebrow. He snorted and said, "Since you are reluctant to take action yourself, then I'll do it myself!"

The moment he said this, he rushed out like a shadow. He was so fast that people had a hard time tracking his movement and he rushed directly at Ceylon.

Narvel was the deputy guardian of Wushuang Tower and he was at the peak stage of Heaven Level. He was considered a big shot in the martial arts world. The moment he felt that something was wrong, he condensed his positive energy in an attempt to resist Fade's attack.

However, he was still a little slower. When he had realized what just happened, Fade had already returned to where he was standing.

Concurrently, Ceylon, who was lying next to him, had his eyes opened wide and they were filled with horror. Bright red blood was flowing out from his heart and his vitality seemed to have dissipated.

18:38 

"You killed Ceylon!" Narvel could not help but grit his teeth when he saw this. His face darkened and a trace of anger flashed across his face.

He was the deputy guardian of Wushuang Tower. He came here to personally apologize to him and they were willing to compensate him. However, this kid had actually ignored him and killed one of his elders in front of him.

If word got out, it would be a disgrace to Narvel and Wushuang Tower. Therefore, at this moment, he wanted to kill Fade.

However, just as he wanted to charge up killing him, he saw that Fade on the opposite side had a grin on his face. The murderous intent on his body also surged, like a sharp dagger that could erupt at any time and it would stab right into his heart.

This unimaginable killing intent made Narvel calm down. Then, he thought of what Kinsley said to him before he came here, "Don't start a fight with Fade. Just fulfill whatever he wants."

Thinking of this, he suppressed the anger in his heart and calmed down. He stared at Fade and said, "Since you have gotten his compensation, Mr. Chen, I'm going to bring Master Sun away now!"

As he spoke, Narvel waved his hand and picked up Ceylon's body, ready to leave.

However, at this time, Fade's cold voice continued, "Wait a minute!"

Hearing this, Narvel's tone changed. He glared at Fade and said, "Mr. Chen, don't you think that the compensation is enough?"

His voice was filled with rage. Even Tarmon, who was standing to one side, felt it. He could not help but be frightened for Fade. He was worried that if he really enraged Narvel, the outcome would be unpredictable.

However, in the face of Narvel's anger, Fade was indifferent. He said lightly, "The compensation is enough, but there is one more

18:38 

thing that I must figure out before you leave."

"What is it?"

Fade glanced at Quin, then looked at Narvel and said, "Why does Wushuang Tower want Quin? Does it have anything to do with her mother, Chrystal? You'd better tell me the reason honestly."

"This..." Hearing this, Narvel's expression changed and he immediately answered coldly, "This is an internal affair of Wushuang Tower. Outsiders can't know it."

Fade uttered in a cold and firm voice, "But I insist on knowing."
