Chapter 362 A Huge Stir in Jiang City

The man was a little surprised to see Lin Fan. Apparently, he didn't expect Lin Fan to be standing outside in the courtyard; it seemed as though he was waiting for him.

"Mr. Lin!" The man stepped forward quickly and gave Lin Fan a bow.

"Are you Master Hu's man?" Lin Fan glanced at the man coldly. "Do you have something to tell me? Just say it!"

The man dared not beat around the bush when he heard Lin Fan; he went straight to the point immediately. "Mr. Lin, our men just noticed there are four Land Rovers speeding toward the Bai Residence. Their car plates belong to Jiangnan Province, and they might be people from the Bai Clan of Jiangnan Province. Moreover, a total of twelve people came out of the car, each of them looking terrifyingly powerful and strong! Master Hu told me to remind you to be careful!"

The Bai Clan of Jiangnan Province? A disdainful smirk appeared on Lin Fan's face when he heard those words. "It seems like the Bai Clan of Jiangnan Province can't wait to send their men over for death! If I'm not mistaken, tell Master Hu that they are the White Angels!"

The White Angels! Expression on the man's face changed abruptly when he heard the words. He, of course, had heard about the horrifying organization before. He knew the organization took countless lives and they never failed in their assassination missions before. Now, if twelve members of the White Angels were here in Jiang City, they could possibly wipe out the entire city based on their invincibility and horrendous destructive power.

The man turned pale instantly when he thought about this.

"Come out!"

However, the man in black was dazed when he heard Lin Fan's voice. Since only he and Lin Fan were here now, he had no idea who Mr. Lin was talking to at the moment.

Whoosh! Whoosh! When the man was in a daze, he felt two gusts of wind blow across him suddenly. The next second, the man in black shockingly noticed that two elderly men had appeared beside him out of thin air.

The man in black was almost scared out of his wits—especially after he saw the two elderly men's faces. That was because they were the two most powerful and famous martial artists of Jiangnan Province—He Lanshan and Leng Aotian.

“Mr. Lin!” As soon as the two ultimate Grandmasters appeared, they bowed to Lin Fan simultaneously in a respectful manner.

Seeing the duo here, Lin Fan grinned as though he knew the reason they came. He said, "You guys got the news too?"

"Yes!" The two ultimate Grandmasters nodded. Then, with a serious look on their faces, they continued, "According to the information we got, this time, the Bai Clan of Jiangnan Province sent a team known as the White Trio. The captain of the team is Bai San, who is a Top-Tier Grandmaster. Besides, there are eleven martial art experts at the levels of Grandmaster under his command. These people have participated in over 36 assassinations and massacre missions, never once failing in their missions before."

It must be said that as two of the strongest martial artists in Jiangnan Province, Leng Aotian and He Lanshan possessed a highly efficient informant network which managed to precisely obtain any required information within a short period of time. Both of them got

hold of every single information regarding the White Angels as soon as the latter entered Jiang City.

Lin Fan smiled plainly when he heard them; he didn't care very much about the White Angels. In his eyes, a team of martial art experts at the levels of Grandmaster under the leadership of a Top-Tier Grandmaster were nothing more than just twelve worthless ants and bugs—insignificant and weak.

“Just twelve persons? I'm afraid that won't be enough for the four of you to kill,” Lin Fan remarked calmly as a smile crossed his face.

Eh? The four of us?

Leng Aotian was confused. He then asked in curiosity immediately, “Mr. Lin, He Lanshan and I will be at your service for sure—there's no doubt about that. However, there are only the two of us here...” Apparently, Leng Aotian and He

Lanshan didn't know which four persons Lin Fan was referring to just now.

Nonetheless, Lin Fan grinned while looking faraway into the dark night sky when he heard Leng Aotian. Then, he said, "The other two are here!"

What? Upon hearing that, Leng Aotian and the others turned around quickly to look into the dark sky.

Almost immediately, they saw two phantom-like figures leaping across from the distant night sky. *Whoosh! Whoosh! Whoosh!* The two figures were unbelievably fast in their movement. Within a split second, the two figures leaped out from the dark night and appeared in front of everyone.

"Blood Buddha!"

"Blood Wolf!"

Leng Aotian and He Lanshan were shocked the moment they saw the two persons who showed up suddenly. They would never forget about everything that happened in the stadium that day for the rest of their lives; never forgetting how both of them were crushed and defeated by Blood Wolf that day. Clearly, the incident had become their greatest nightmare of all time.

However, they were now...

“My Lord!”

“My Lord!”

At that moment, Blood Buddha and Blood Wolf appeared before Lin Fan, their faces turning red due to excitement. They kneeled in front of Lin Fan with one knee touching the ground in an earnest and respectful manner.

The man in black who first came to

deliver the message to Lin Fan was so shocked that he almost fell to the ground when he saw Blood Buddha and Blood Wolf. *All four of them!* The sound unknowingly emitted from the four Ultimate Grandmasters was enough to make the man in black feel weak and unable to stand properly, almost peeing himself under their overwhelming aura. However, the man in black knew the most powerful and dangerous person here was the young man in an apron standing in front of him, holding a cigarette between his fingers—Lin Fan.

“Mr. Lin, you are truly incredible to be able to win the respect from all four of the ultimate Grandmasters! You are indeed a god-like existence!” The man in black gazed at Lin Fan admiringly; it was as if he was looking at an idol or a God.

“My Lord, when Blood Wolf and I left Jiang City, we came across four Land Rovers. There were a total of thirteen

people in the cars; Blood Wolf killed one of them so there are twelve left. We think that they might be White Angels, and they are probably going to do something bad to you!” Blood Buddha reported to Lin Fan politely.

The man in black was trembling in shock, especially after he heard that Blood Wolf simply killed an expert at a Grandmaster level. *What the f*ck! Why do I have the feeling that in the eyes of these powerful martial artists, killing a Grandmaster is just as simple as chopping up some vegetables?*

However, Lin Fan wasn't aware of the shocking expression on the man in black's face at that moment. He just nodded his head plainly and said, “I know. I think the White Angels are here on Bai Chen's order. They won't do anything to my family, but they'll probably do something to those who are close to me—Xu Tianlong, Xue Meigui, Master Dao, Master Hu and the

others. Since you and your apprentice are back, just stay here in the city and help Leng Aotian and He Lanshan to deal with those guys!”

As he said that, the smile on Lin Fan’s face grew even more sinister and eerie. “Kill all those who intend to harm my men!”

With just a simple command, Lin Fan sealed the tragic fate of all the twelve Grandmasters of White Angels.

...

Before anyone knew it, three days had passed quickly and quietly.

Today was the day of the Bai Family’s banquet. Lots of elites in Jiang City were thrilled, especially after they heard of the news about Bai Chen—the young master from the main branch of the Bai Clan in Jiangnan Province—would be coming to the banquet personally. The

news caused a huge stir in Jiang City because the Bai Clan of Jiangnan Province was one of the Four Greatest Hidden Prominent Families in the province.

As a result, all the elites and prominent figures of Jiang City came to the Bai Family's residence to congratulate the family.

There were different types of luxury cars parked densely side by side in the parking lot in front of the Bai Residence.
