

"Feeling regretful now? But regret won't help you anymore. You could have become the First Lady at first," Li Xiuyun said with a cold snort, staring at Li Xian with disappointment. "He won't even want you to be his sworn sister now, let alone becoming his wife."

Li Xiuyun regretted it too. If Li Xian had been obedient, their family would be Lin Zuo's relatives now.

"Li, we know we were wrong. Can you beg Lin Fan to forgive us?" Wang Yanli had broken down in tears. She felt like slapping herself in the face at this moment. *Why couldn't I see that Lin Fan was a giant among men back then?*

"Beg for his forgiveness? How am I supposed to do that? He's already married. Are you asking me to destroy his family?" Li Xiuyun snapped angrily. He snorted, then he added, "You need to put that in your pipe and smoke it. You are destined to be strangers with him

from now on."

In the past, they didn't treat Lin Fan better when he wasn't fully fledged. Thus, it was simply wishful thinking for them to try to curry favor with him now that he was the superior Lin Zuo, one of China's Four Greatest Commanders. It was totally impossible for them to get on his good side now.

Upon hearing his words, Li Xian and Wang Yanli were overwhelmed by a strong sense of regret and pain at once.

However, there was more to it.

When Zhou Peize, who had been standing at a side, learned of Lin Fan's identity, he nearly wet his pants. His face had turned completely ashen, looking as terrified as a mouse before a cat.

He immediately looked at Li Xian and said angrily, "Li Xian, you b*tch. I've

offended Lin Zuo because of you. I'm breaking up with you!"

I've actually insulted Lin Zuo and even fought with him over a woman. If Lin Zuo really gets angry at me, I will face such a miserable consequence that even my father won't be able to protect me by then.

What? Li Xian's expression changed wildly, and she looked at Zhou Peize in outright astoundment. "Zhou Peize, w-what did you say?"

Not only did I miss out on Lin Fan, but Zhou Peize is also going to dump me now? Is this what it means to go out for wool and come home shorn?

However, Zhou Peize snorted coldly and answered angrily, "What did I say? I said, you are a f*cking jinx. Whoever marries you will have bad luck."

After that, he left without looking back.

He couldn't even spare Li Xian another look again, for he was already scared out of his wits.

Thud! Li Xian suddenly slumped down weakly on the ground, looking at Wang Yanli with an ashen face. "Mom, I have nothing now. What should I do?"

Wang Yanli held her in her arms while crying, not knowing how to comfort her.

At this moment, the atmosphere of the entire hall was tense. With a horrified look, everyone turned to stare at Lin Fan in disbelief. The atmosphere was extremely thick with tension as at this moment, Lin Fan had become the center of attention.

Even Bai Yi and her family were completely stupefied now.

Lin Fan is Lin Zuo? How is this possible?

They looked at Lin Fan with a horrified

look, feeling like he was a stranger. They felt that he was now a different person.

Even Bai Yi couldn't believe that her husband could have such an impressive background.

At this moment, under the shocked yet excited gazes of everyone, Lin Fan slowly walked to the front of the stage while holding Bai Yi, looking around at the people at present.

He exuded an air like that of a lofty king watching a group of ants from high above. Then, under everyone's horrified gazes, he announced, "I... am Lin Zuo."

After Lin Fan's personal announcement, all the guests present felt their hair stand on end. Immediately, they all got down on their knees and began to shower Lin Fan with their words of congratulations.

"Congratulations for your wedding, Lin

Zuo!"

Those endless shouts were so loud that they were deafening.

All eyes are on me. I am Lin Zuo!

At this moment, everyone was shocked by Lin Fan, and they were so excited that they couldn't calm down for a long time.

Meanwhile, the members of the Shen Family were in complete despair.

Furious, Old Master Shen shouted angrily, "Where are Shen Jian and Cuiping? Where are they?"

Those two scourges wanted to frame Lin Fan and Bai Yi in the first place, but they turned out to be the real Lin Zuo and the First Lady.

Those two were trying to get the whole family killed! Old Master Shen planned to hand over the two for atonement in an effort to que

ll Lin Zuo's anger.

However, one of the Shen Family members said with a long face, "Master, they have already absconded. I think they have known the identities of Lin Fan and Bai Yi from earlier on."

Old Master Shen finally understood why Shen Jian and his wife wanted to leave earlier just now; they had even said that something was not good.

That couple had caused such a big trouble for the Shen Family, but in the end, they ran away, expecting the rest of the Shen Family members to take the blame.

He felt dizzy at once and almost fainted on the spot. If he hadn't been supported by someone, he would have fallen to the ground and hit the back of his head.

After being helped up, Old Master Shen suddenly burst into tears, his face full of

regret. "This is our family's misfortune! Quick! Help me there so I can apologize to Lin Zuo!"

However, before they could get closer, Lin Fan said, "Those of the Shen Family, if all of you cut one arm off from each of you, you may leave alive."

The moment the Shen Family members heard this, they went completely pale, looking extremely horrified.

Thud! They all slumped down onto the ground, their faces ashen.

We're doomed. The Shen Family is doomed!

Lin Fan didn't want to listen to their explanations at all; he had directly ordered for their dismemberment.

Old Master Shen looked at Shen Yumei with a devastated face and pleaded, "Yumei, please forgive me! I am your

father!"

However, before Shen Yumei could speak, Lin Fan said with a strong murderous intent, "No more bullsh*t. Otherwise, everyone in the Shen Family will die here."

At this moment, everyone could feel the terrifying murderous intent exuding from Lin Fan.

Old Master Shen knew that Lin Fan was a man of his word. After all, he was Lin Zuo; eradicating a small family in China with the snap of a finger would be a small matter for him.

His words brought a look of despair to the faces of Old Master Shen and the others. They had all realized that the Shen Family was doomed now.

At the same time, after hearing Lin Fan's words, all the members of the Bai Family suddenly tensed up, fearing that

they would end up like the Shen Family.

However, Lin Fan didn't even look at them as he walked toward the door with Bai Yi in his arms.

Upon seeing this, Long Jiu and the others immediately knelt down on the ground respectfully, shouting in unison, "Farewell, Lin Zuo!"

Old Master Bai and the others felt somewhat miserable when they saw this, as if their hearts were being stabbed by a knife.

They would rather Lin Fan beat them and scold them, rather than ignoring them with such an indifferent attitude. His attitude was an obvious way to deny any connections with the Bai Family, which would simply mean that they had lost a great opportunity to get on the good side of Lin Zuo. Naturally, they were unable to accept this.

"Master, we can't let them go. Lin Fan is Lin Zuo. Our family has to rely on him for prosperity!"

"Yes, Master, he is your grandson-in-law. He will definitely forgive you!"

At that moment, Old Master Bai nodded his head in agreement, and then strode toward Lin Fan with his head held high.

"What are you doing?"

However, before they got close, they were stopped by Long Jiu and the others.

Old Master Bai, who had now learned that his grandson-in-law was Lin Zuo, thought nothing of them anymore, for he said, "Go away, you fools! I am Lin Zuo's grandfather-in-law, how dare you stop me? Do you want to die?"

But as soon as he finished speaking, Lin Fan turned his head and said with an

enigmatic smile, "Master Bai, do I even deserve to call you my grandfather?"
