I'm Sorry My Love Novel Alternative...

Chapter 2538

Arron: "Huh?"

Arron really hasn't asked the child about the future of the child.

First, because the only one is only thirteen years old, and the future of the child is still far away. What he thinks in his mind is that the child's primary school, junior high school, high school, university, and further study abroad will all be completed.

That would be at least ten years.

It's too early to think about it now.

Arron didn't know that Shen Weiyi had already had his own plans.

It was there a long time ago.

"Well, I want to study architecture." Shen Weiyi looked up at his father.

"Do you want to inherit your mother's profession?" Arron asked with great interest.

Shen Weiyi looked at his father with a sly smile: "It's grandma's..." Remember the website

Arron smiled suddenly: "You little thing, you can talk quite a bit, but your father tells you that no matter if you inherit your mother's profession It's still

Grandma's major, and Dad supports you. Dad admits that Dad used to hope that you could control the entire Fu Group.

Because you are Dad's eldest daughter.

Your two younger brothers are seven or eight years younger than you.

You When you were growing up, your two younger brothers were still young, so it would be most appropriate for our Fu family to be taken over by you first.

But now my father has changed his mind."

Shen Weiyi raised his head and looked at his father with interest: "What did you pay attention to Dad?"

"Because Dad suddenly found that no matter who it is, sitting in Dad's position is very dangerous and worrying. I don't want my children to worry and work hard like me.

I have the ability to let my children live. It's better, don't worry, don't worry, don't compete for those in power. It's better.

Why should I push my children to the cusp?"

Shen Weiyi looked up at Arron: "Dad, I I love you so much."

"Dad loves you too, baby."

"But Dad, I don't want to be in charge of the Fu Group. It's not that I don't want to worry about it, I don't want to endure hardship. In fact, I can endure hardship, do you believe it, Dad?"

I was five years old. Living with my mother, I have seen with my own eyes how my mother endured hardships.

I can endure hardships. I am

not afraid to worry about it.

I just think that everyone needs to support themselves.

Secondly, I prefer architecture, especially ancient buildings, and I like to study them. "A

thirteen-year-old child has already planned his future position. Arron was really excited when he heard his daughter's explanation.

"As expected of my Arron's daughter." Arron said proudly.

"Tell Dad, which college do you want to go to? Pennsylvania? Or..." Arron asked his daughter as he walked.

He suddenly felt that this was the happiest family happiness in the world.

Walking slowly, slowly talking to her relatives about her ideals, her hobbies, and everything is based on her daughter's preferences.

How good is this.

Life is the most beautiful, but that's it.

In the past, he was really stupid and devoted himself to the Fu Group. Although he accompanied his children every day, he had always regarded himself as a father and felt that he should accompany his children.

And not now.

Now Arron is also enjoying it, and talking about her ideals with the child so slowly, Arron's heart is very comfortable.

The father and daughter talked about their ideals while walking, and it took more than an hour before they walked home.

Chapter 2539

When I

got home, I found two people sitting at home.

“Jing Yu, Shen He, why are you two at my house, especially Shen He, you are a rare visitor. We have not seen each other for a few years, right?” Arron asked happily.

Jiang Chenhe sat up and hugged Arron’s shoulder: “Brother, I’m sorry, you’ve been in the south, I’ve been in charge of things in the north, we are so far apart, brother, when I know about your affairs, your affairs are your own. It has been dealt with.

As a big brother, I am really ashamed of you.

No, I just came here as soon as I heard what happened on your side, but it was too late.

Now the streets of Nancheng are small . It has been spread all over the lane, saying that your Fu Group has shrunk by four-fifths because of the business war with the Shu family.

If this is the case, I will definitely help you brother. If

you are short of money, I will give it to you immediately. You turn around, and I will give you as much as you need, as long as you speak.

If you are short of supplies, only I have it in the north, and I will give you what you want.

If you need manpower, I can also transfer it to you!

My brother will be like ten A few years ago, when you conquered the world, I helped you!"

"Brother!" Arron was very moved: "Thank you Shaoqin, it's fine with your words. But Shaoqin has to tell you, no need."

Jiang Chenhe : "Are you angry with your brother?"

Arron shook his head: "Our brothers, we don't need to say this. Brother, I have discovered the greater joy in life."

Jiang Chenhe was even more surprised: "You, just you, are you still having fun? You have always been pure-hearted and have few desires, and you never know where the happiness in the world is. Are you still having fun?"

Arron looked down at his own pearl in the palm of his hand, who was about to grow up: "Take it. After school, my daughter walks along the river with her, walks home, and talks about her ideals, which is the greatest joy in my life, Arron."

Jiang Chenhe and Kraig suddenly laughed.

Especially Jiang Chenhe, he and Kraig looked at each other: "Shaoqin, Jingyu and I are relieved that you can do this, you know, this is the life you should live, you have been living in In an extremely difficult struggle.

When you were young, the Fu family suppressed you and Aunt Shanna.

Later, your struggle, your hard work, for Aunt Xia to have a place to stand, in order to seek justice for Aunt Xia, you Your life has always been on the edge of a knife.

You are very strong.

But you are only highly concentrated.

Now, you can finally relax and enjoy the happiness of your family.

Ah Shaoqin, let me tell you, I have a lot of experience with children..."

"I'm more experienced than you, okay!" Kraig quickly grabbed it and said.

Suzi, who was beside him, almost died of laughter.

Who would have thought that one is the overlord who dominates the north, the other is a key player in Middle-earth, and the other is the overlord who dominates the south and surrounding areas. The three of them are talking about how to take care of children on the flat floor of this metropolitan area. .

"Mom, I told my dad today that I won't take over the Fu Group when I grow up. Dad agreed. I didn't expect my dad to agree." Shen Weiyi said to his mother cheerfully.

Suzi smiled and looked at Shen Weiyi: "Your father is the most open-minded, he won't force you to do things you don't want to do, tell your mother that you don't want to take over the Fu Group, so what do you want to do?"

Shen Weiyi immediately pouted and said: "Mom, I told you once, I want to study architecture, I want to inherit your mantle, and I also want to go to Lishan Village when you were a child to experience it.

I like domestic soil. Buildings, as well as some ancient buildings.

I think a lot of the wisdom of the ancients is integrated into those buildings.

Mom, I like it."

Suzi was very happy that her daughter wanted to inherit her mantle, she was overjoyed: "Mom is really happy. "

Mom, do you agree with me?" Shen Weiyi asked.

"Yes, of course! My daughter wants to do everything, and my mother supports it!"

"Then...I want to go to the north and study the alleys there, do you agree?"
Shen Weiyi asked suddenly.
