

# Chapter 5040

Chloe sneered: "Because you want to leave the other leg for me!"

Jessica smiled and said, "I want to save one for you,"

"But I'm worried that when we go to the playground after lunch,"

"The people in the other cells will not be able to control themselves and beat her to death first!"

"Also..." Chloe looked at Elaine and sneered: "You still don't know if you can go back to the cell alive,"

"Those people who have been bullied by you in other cells,"

"I'm afraid they are all waiting now to teach you a lesson!"

When Elaine heard this, her whole body softened and she almost fell to the ground.

She can't wait to find a place to hide immediately,

But she is queuing up to go to the restaurant. There is nowhere to escape except this way.

Even if she wants to go to the playground to call Charlie for help,

She has to wait until lunch is over, because only After lunch,

They, the prisoners and suspects, can enter the playground.

However, going to the playground also means great danger.

Because there are often violent incidents on the playground.

At Bedford Hills Correctional Institution, people in the same cell usually resolve disputes in the cell,

But people in different cells can only have the opportunity to do it when they are in the playground.

The reason why Elaine was able to become the ghost of Bedford Mountain was because,

When she used to let out the air almost every day,

She would ask Evelin and the others to teach the people in other cells a lesson,

Naturally, she became the eldest sister of the entire Bedford Hills Correctional Institution.

However, this also means that she has made countless enemies here.

Now that she has lost her shelter, she might be beaten to death when she is released later.

Elaine's heart was already extremely desperate, for fear that she would have to explain it here today.

Following the line to the restaurant, all the prisoners in the restaurant knew that Elaine had lost his backing.

For a time, many people looked at her with hostility in their eyes,

And many people even wished they would rush up to beat her right now.

And those who usually follow her in front of and behind the horse have kept a distance from her at this time.

They used to come to the restaurant to eat, and there were people who especially served her plates,

But now there is not even a person who dares to sit with her. All are gone.

Many people are watching her, wanting to confirm whether she still has a backer,

And Elaine also knows that it is extremely important for her to find a group to join in.

If anyone is willing to help at this time, take them in, maybe she can have more security.

Elaine held the dinner plate, looked around for a long time,

And saw a few Chinese compatriots who had been very flattering to her before.

These compatriots originally lived in the cell next to hers.

Elaine and they had nothing to do with each other, but after Elaine became a ghost in Bedford Hills,

One day, when they were out in the air, they found her and said tearfully that there was a woman in their cell.

She as the head of the cell always bullied them, hoping that Elaine could help out,

So that the other party would stop bullying them.

In order to let Elaine take action, when they begged her for help,

They even knelt in a row in front of her.

Elaine was at the stage of extreme expansion at the time.

Seeing that the other party was so respectful to her,

And another compatriot was being bullied, and she immediately agreed.

She directly asked Evelin and beat the cell leader so hard that the cell leader was still lying in the infirmary.

And these few Chinese compatriots, because of Elaine's protection,

Turned over and became the new boss in their cell.

After that, these people would gather around Elaine to greet her every day,

When they were eating and venturing out. It was so respectful.

Therefore, at the moment, she thought to herself, since she owes this other party a big favor,

They have to lend a helping hand and help her at this time,

And at least they have to protect her from being beaten when she is out for fresh air.

So, she took the dinner plate and walked towards these people.

However, when she just arrived in front of the other party and was about to sit on an empty seat next to them,

One of them immediately put her leg on the empty seat and said indifferently, "There is someone here!"
