

## Chapter 5099

The man in the Volvo driver's seat, after wearing the real-time transmission camera,

Pushed the door and got out of the car.

After confirming that there were no people or vehicles passing by,

He used the lock-picking tool to skillfully pry open the door.

In fact, the house Maria lives in has, in addition to the ordinary door lock,

A hidden deadbolt was hidden on the top and bottom of the door frame,

And a whole set of Internet of Things control systems has been upgraded for the door lock.

Under normal circumstances, whether she was sleeping or going out,

She would use her mobile phone to lock the hidden deadbolt.

This kind of door lock can only be unlocked through the Internet,

Even the best locksmith can't break it.

However, when she and her personal servants evacuated this time,

They intentionally did not open the hidden bolt,

Which made it easy for this person to slip into the room.

At the same time, in many corners of the world,

The lord of the mysterious organization, and the four earls who are second only to the hero in power,

All are watching the real-time transmission in front of the screen.

When the man entered the room, the corpses of Maria's bodyguards suddenly appeared on the ground.

The man didn't seem surprised to see so many corpses.

Instead, he approached and reported: "It seems that there was a gun battle here.

But these corpses are not Cavalry guards, they should be the other party's bodyguards."

As he spoke, he followed the traces all the way to the study,

And found another corpse on the floor of the study.

He immediately stepped forward, and when he saw the face of the corpse,

He was startled for a moment, and blurted out: "It's the commander of the Cavalry guards!"

The voice of the viscount immediately came from the earphone:

"Check whether he is dead or not!" How did he die!"

The man immediately bent down, checked the commander's eyelids

And the corpse spots on his neck and hands, and said, "He should have died of poisoning..."

As he spoke, he opened the commander's teeth and found the crushed fangs in his mouth,

And immediately added: "It seems that the commander committed suicide by crushing his fangs."

The viscount immediately Asked: "Where are the other Cavalry guards?!"

Eight Cavalry guards were dispatched this time. Why did he die alone?! Where are the others?"

The man at the scene looked around, then went out and searched the entire villa,

But unfortunately, no clues of Cavalry guards members were found at the scene.

So, the man asked, "Master Viscount, is there anything else you need me to do?"

Before the Viscount could speak, a voice that had been processed by a voice changer,

And had a horribly low voice coming from the earphone:

"Return to Study room! Take a look on the desk!"

The man was startled by the voice.

It was the first time he heard such a cold voice, which made people feel a little creepy.

However, the next moment he realized that this voice was probably the mysterious lord!

He suddenly became tense, and stammered, “Okay... okay... I... I’ll go right away...”

After finishing speaking, he hurriedly stumbled back to the study.

When he came to the quaint desk, he suddenly found that there was a pair of calligraphy written with a brush on the desk.

He looked down and found that there were only eight characters in this calligraphy work:

“The ring has been abandoned, and it is useless to chase after it.”

## Chapter 5100

He didn’t know what kind of message these eight characters conveyed,

Nor did he know what the ring mentioned in it was. What does it mean,

But he also happens to be a calligraphy lover, so he can see that the brush calligraphy is imitating the cursive script of calligrapher Wang Xizhi,

And the writing is round and beautiful, and at the same time vigorous and powerful,

Where every stroke Can be called impeccable.

If such eight characters are used in today’s calligraphy world,

They will definitely “be the top-notch”!

The only thing that doesn't match the painting style is that at the end of the eight characters,

There is actually a smiling face drawn with a brush.

Although the lines of this smiling face are simple, they are very vivid,

And it is even obvious that there is a bit of contempt in that smile.

Just when he was immersed in the impeccability of these eight characters,

The low voice that had been changed suddenly came from the earphones,

And he seemed to growl very angrily: "What a h3ll! Dmn it! Dmn it!"

After finishing, He roared furiously: "Blow it up for me!"

The man was a little surprised, and subconsciously asked: "Blow it up? Blow up what?"

Just after he finished speaking, the portable camera hanging on his left chest suddenly exploded. There was a violent explosion!

With a bang, the impact of the high explosives shattered the entire desk into pieces,

And the calligraphy written on the rice paper was instantly burned to ashes by the high temperature generated by the explosion.

And the man who came to investigate, before he could figure out what was going on,

He felt a sudden sharp pain in his heart, and he flew upside down and died directly!

His death was horrific, the explosives blew a big hole in his heart,

And his face also maintained an expression of extreme fear.

He did not know until he died that he would die in the hands of the portable video camera he wears with him.

The structure of this portable camera is very ingenious.

At least half of the internal volume is used to fill high explosives,

And a miniature detonator is installed in the explosives.

The remote control only needs to use the original communication network,

And the camera's built-in Lithium battery just can control the detonator to detonate at any time.

The reason why this kind of equipment was developed and assigned,

To members of the organization is to kill people and destroy corpses when necessary.

At this time, the camera after the explosion caused flames in many places in the room.

The entire interior of the camera is made of flammable materials.

After the special plastic shell is burned at high temperature,

It will form a viscous object with high viscosity like asphalt,

And its flame can last for a long time.

At this time, the damaged desks, wooden floors, and curtains made of chemical fibers,

All were stained by the sticky matter produced during the explosion,

And the sticky matter carried flames, so the fire quickly intensified.

A few minutes later, a raging fire was already ignited in the study,

And the flames gushed out from the study, and then completely ignited the entire villa.

When the neighbors saw that the house was on fire, the fire was completely out of control.

Someone called the fire alarm, but this place was relatively remote,

And it took the fire engine nearly half an hour to arrive.

When the fire engine arrived at the scene, the scene was Almost burned to ashes.

And because the main frame of the house here is a wooden structure,

When the fire burned to the later stage, the whole villa collapsed instantly and became a ruin.

The firefighters at the scene began to inspect the scene after the open fire was extinguished,
