

Chapter 5115

Hearing that Charlie wanted to act on his own, Joseph quickly said:

“Mr. Wade It’s risky, why don’t you let your subordinates choose a few elite soldiers and go with you!”

Charlie waved his hand and said seriously:

“The success rate of this kind of thing is the greatest only when one person acts,”

“And even if it fails, one person can do it alone.”

“If I can escape completely, once there are more people, the chance of being exposed will be greatly increased.”

“Not only must I ensure that this matter is as successful as possible,”

“But I must also ensure that if this matter fails, no clues will be left as much as possible. ...”

Duncan also agreed at this time and said: “I support Young Master Wade’s point of view.”

“Based on my experience as a police officer for so many years,”

“Most of the major cases that have not been solved in the true sense are cases involving a single suspect.”

“As long as the person’s professionalism is high enough and his strength is strong enough,”

“He will be able to accomplish his goal in a leisurely manner without leaving any valuable clues for the police.”

“The chances of usable clues will increase exponentially.”

Speaking of this, Duncan said again: “To use an appropriate analogy,”

“The murderers behind the double-digit serial murders of the victims are almost without exception a one person.”

Hearing this, Joseph could only nod his head and said,

“If that’s the case, then the subordinates should make preparations in Beirut.”

“Whenever Mr. Wade needs the Cataclysmic Front and the subordinates must furnish it as soon as possible!”

Charlie nodded, and said with a smile: “I really have something that you need to prepare in Beirut in advance.”

Then, Charlie said seriously: “Joseph, on the day of the operation,”

“You should bring May 47 and these seven Cavalry Guards and wait for me on the high seas.”

“Once I succeed, you take them all to the copper mine.”

“If you want to make those Cavalry Guards and dead soldiers surrender completely,”

“You need a few of them to show up and speak.”

Joseph said without hesitation: "Alright Mr. Wade, I will arrange a cruise ship in advance,"

"And will be waiting for your news on the high seas."

Charlie nodded, looked at May 47 and the other seven Cavalry Guards, and said,

"When the time comes, I will have to work hard for you all."

"If this matter can be successful, I need you to manage this for me together."

All eight agreed without thinking.

Charlie's bold and radical plan made them all very excited.

If the disappearance of the poison in their bodies broke the shackles that the organization had shrouded them for many years,

Then following Charlie to take down the entire resident is the first step to launch a counterattack against the organization.

Afterward, he asked the people:

"Everyone, can you describe to me what the antidote this organization usually takes for you?"

May 47 took the lead and said, "We take round pills with a diameter of About one centimeter,"

"The color is dark brown, and the surface has a certain luster."

Several other Cavalry Guards also nodded, and the leader said: “We take the same.”

Charlie frowned, took out a blood-scattering heart-saving pill came,

And asked, “Does it look similar to this?”

May 47 nodded: “Basically, it is very similar, but the color of your pill seems to be better.”

Charlie said thoughtfully:

“It seems that the antidote they give you is also made using traditional medical techniques.”

Chapter 5116

Duncan thought of something at the moment and said:

“By the way, I have a question, You just said that the antidote will be taken after five days,”

“But the antidote will be sent to your station after four days.”

“Don’t the managers of the organization worry that if something goes wrong during the transportation,”

“The antidote will not be delivered in time? Will it not kill everyone?”

The leader of the Cavalry Guards shook his head and said,

“This is just a daily transportation process. Under normal circumstances,”

“The antidote is delivered one day in advance. As long as there is no accident,”

“It will not affect the time of taking the medicine. , It doesn’t matter if there is an accident,”

“Commissioner has enough reserves for more than two months,”

“But these reserves will only be used in emergencies.”

As he said that, he continued: “A few years ago, for some unknown reason,”

“The antidote did not come for three consecutive weeks.”

“Those three weeks were solved by relying on the reserves of Commissioner,”

“But in the fourth week, the follow-up antidote was delivered.”

Duncan hurriedly asked: “Do you know why there was no antidote for three weeks?”

The man replied: “It’s not clear.”

Duncan asked again: “For these three weeks, was the material transportation between you and Turkey terminated?”

“No.” The man said: “The material transportation between us and Turkey is very stable,”

“And the freighter basically goes once a week.”

Duncan nodded lightly, He opened his mouth and said:

“Since the connection with Turkey is normal, your antidote should not be processed in Turkey.”

“Turkey should also be a transit. The problem is the line from the previous station to Turkey.”

“It should be the one.” The man said helplessly:

“We only know a little bit about many things, and don’t understand the deep situation.”

Duncan looked at Charlie and said seriously: “Master Wade,”

“If your plan can be successfully achieved this time, then I suggest that you must find an opportunity to follow the vine and take down the copper smelter in Turkey.”

“The hierarchy of this organization is too strict,”

“And the information blockade is also very strict.”

“Judging from this trend, I speculate that the resident Commissioner may not know too much,”

“And if they go up a level, they should be the copper smelter in Turkey, and the copper smelter must know more.”

Charlie clicked nodded and said in agreement: “Inspector Li’s analysis is very reasonable.”

“The copper smelter should be the highest-level existence in this organization that we know so far.”

Duncan said again: “Besides, the clue of the antidote is also Very important,”

“May 47 was stationed near Sri Lanka, and these Cavalry Guards stationed in Cyprus,”

“But the antidote they took were all of the same specifications,”

“Which was most likely processed by a processing factory,”

“And the antidote was processed here After batch processing in the factory,”

“It will be distributed from here to the world.”

“If this is the case, then the distribution path of the antidote is an important clue to connect the entire organization!”

Duncan’s words made Charlie’s eyes light up.

The biggest impression this organization gave him was the clear division of internal levels.

And the extreme blocking of clues and information.

Moreover, many of the stations basically operate independently,

And are very secretive in themselves. Even if the stations are exposed,

They will not reveal accurate clues about the organization.

However, as Duncan said, if the antidote is produced intensively by this organization,

Then as long as he follows the clues of the antidote upward,

He will be able to find the specific location where the antidote was produced by the organization.

In addition, the antidote is of great significance to the organization.

Once the production site of the antidote is found, it is not far from finding the core of the organization.

Originally, Charlie's attitude towards this mysterious organization was to keep restraint as much as possible,

And only make precise sniper attacks on the global dispatch of its six aircraft.

However, after learning about the situation of the other party's residence in Cyprus,

He suddenly discovered that the management model of the dead man's residence seemed to be unbreakable,
