

Chapter 5062

Charlie continued: “No matter how well they cover it up, they will be exposed in front of us;”

“What we have to do is to be strict. Monitor the movements of these six planes.”

“Once their planes move, it means that they are definitely moving personnel or materials;”

“So record the time and place of each plane’s departure, and then track the destination of the plane.”

Duncan said immediately: “No problem, Young Master Wade,”

“I will closely monitor the movements of these six planes.”

“Once they move, I will notify you as soon as possible!”

Charlie smiled slightly: “Let Joseph arrange for the monitoring.”

“Let’s do this, you are responsible for commanding the rear,”

“Analyzing the collected information by the way, and sorting out valuable clues from all the information.”

“Okay!” Duncan said without hesitation: “I will be cooperating closely with Mr. Wan!”

“Okay,” Charlie said with a satisfied smile:

“Then it’s hard work for Inspector Li to stay in Syria for a few more days,”

“And let Joseph prepare a bedroom and an office for you.”

Then Joseph’s voice came from the other end of the phone:

“Mr. Wade, rest assured, your subordinates have made arrangements!”

“I have also asked the intelligence personnel to pay close attention to these aircraft.”

“According to the latest flight records of these six aircraft,”

“They are currently located in Singapore and the capital of Sri Lanka, Colombo,”

“the Mexican border city of Monterrey, the Nigerian port city of Lagos,”

“The Cyprus port city of Larnaca, and the Brazilian port city of Natal.”

Charlie frowned slightly, and with his memory of the world map, he said:

“Sri Lanka in South Asia, Mexico in North America, Nigeria in West Africa, Cyprus in Southern Europe,”

“Brazil in South America, Singapore in the throat of Southeast Asia...”

Speaking of this, he added: “Except for Singapore, which is a developed country,”

“The remaining five countries are all developing countries.”

“It should be that these countries have more loopholes in the overall management and control.”

“It can be drilled, and these locations are scattered all over the world,”

“Either they have their dead soldiers stationed near these places,”

“Or they are deliberately scattered so that they can make maneuver dispatches on a global scale anytime, anywhere.”

Immediately afterward, he asked and answered himself:

“But at present, the possibility of the former is not very high.”

“After all, when they sent May 47 to the United States,”

“They flew from Sri Lanka to Mexico. If they have dead people near Mexico, they should not be far away.”

Joseph said: “Mr. Wade, I will let people keep an eye on these six planes,”

“And if there is any movement, I will report to you as soon as possible!”

“Okay.” Charlie said with a smile: “Keep an eye on them,”

“Let me know as soon as you have a clear move,”

“If I have a convenient time and place, I can go and give them some surprises!”

Joseph exclaimed, “Mr. Wade, didn’t you say that you won’t have actual contact for the time being?!”

Charlie smiled slightly and said, “I hope Detective Li will maintain a non-contact unilateral investigation,”

“And not have any substantive contact with the other party during the investigation process.”

“As for me, I am not going to investigate them. I’m going to surprise them.”

Hearing this, May 47 said in a panic, "Wade...Mr. Wade..."

"I can assure you that almost all the dead are not those who are willing to sacrifice their lives for them..."

"I also ask you to look at their tragic fate...give them a chance to live..."

Charlie said lightly: "May 47, if I meet a dead man like you,"

"I can give them a chance, but the premise is that they must be able to be used by me."

May 47 blurted out: "Mr. Wade, don't worry if you are willing to give the dead man a chance."

"The opportunity to take revenge on the organization,"

"I believe that any dead soldier will not refuse to serve you!"

"If you can rescue them from the shackles of hundreds of years,"

"Even if they die generously for you, they will never have half a minute of hesitation!"

"Okay." Charlie said cheerfully, "If that's the case, then I can give them a chance!"

As soon as he finished speaking, Joseph blurted out to Charlie,

“Mr. Wade, I just received news that one of the Boeing 777,”

“After applying for four hours, took off from Larnaca Airport in Cyprus.”

Charlie blurted out: “Can you see the destination they applied for?”

Joseph said: “The destination is the second-largest city in Norway, Bergen!”
