

Chapter 5112

The man said: "To tell you the truth, only the dead soldiers who were manipulated and enslaved can be traced back."

"It has a history of at least 300 years, so the time when the organization was founded is likely to be during the Ming Dynasty,"

"But I am only speculating on this, and I am not too clear about the specific situation."

Duncan couldn't help taking a breath, and then he settled down and asked again:

"Then do you have the identity information of this Commissioner?"

"No." The man shook his head and said: "The internal structure of the garrison is extremely strict."

"But it is still the object of the organization's enslavement,"

"And everything is done according to orders every day, and I don't know the specific identity of Commissioner."

Duncan pursed his lips, and asked: "If we divide according to strength,"

"Commissioner, Commissioner Which group is the most powerful, the bodyguards, the Cavalry guards, and the dead soldiers?"

The man thought for a while, and said: "We have never seen Commissioner and his personal guards attack,"

"But our strength is generally stronger than that of the dead because we stand out from the dead."

Duncan asked: "Do you Cavalry guards often perform missions?"

The man replied: "The Cavalry guards only perform emergency missions."

Then, he further introduced: "Normal missions are usually performed by dead men,"

"And we will select them in advance. The dead soldiers who performed the mission,"

"And then put them into a deep coma before they set off,"

"And then hand them over to the postman to transport them to the place where the mission was performed."

"We Cavalry guards will be in charge."

Duncan asked again: "Then please describe to me all the details of the mission you received this time."

The man thought for a while and said in a straightforward manner:

"Temporary mission was received only hours ago, the Commissioner gave the commander the pictures of eight Nordic people,"

"And the commander selected seven of us according to the physical characteristics of the eight people in the photos."

"After makeup in the copper mine, He led the team and we flew to Bergen."

Duncan suddenly felt a little tricky.

He said to Charlie: "Master Wade, the structure of this organization is strict, and the information isolation between each layer is very good."

"Even for a Cavalry guard, all the inside information he knows is limited to their station to station."

"Some deceptive business, but almost nothing else, so if you look at it this way,"

"If you want to know more in-depth information, you have to find the Commissioner."

Charlie nodded, and said: "The Commissioner may not know how much valuable information."

Duncan suddenly remembered something, and quickly asked Charlie:

"Master Wade, you just said that the poison in their bodies needs to be taken regularly to delay the onset, right?"

Charlie nodded slightly: "That's right."

Duncan asked May 47: "May 47, you dead men living near Sri Lanka also need to take medicine regularly, right?"

May 47 nodded truthfully and said: "Yes, Inspector Li."

Duncan then looked at the commander of Cavalry guards and asked him:

"How do you get the medicine you take every week?"

"There are a large number of them in the copper mine. Is it a reserve, or will someone come to deliver it every once in a while?"

The man hurriedly said: "The medicine is delivered regularly, and it is all transported by the freighter between us and Turkey,"

"And the large number of supplies we need are also delivered through the channel of the freighter."

Duncan nodded and murmured: "In other words, if there is a way to cut off the supply of antidote,"

"Then all the dead soldiers and all the Cavalry guards in the entire station will not survive seven days. Right?"

The man's back turned cold, and he said subconsciously:

"In theory, this is the case, but you can't do this!"

Duncan looked at him, and said lightly: "I just raised this possibility."

Said After that, he looked at Charlie and said seriously:

"Master Wade, if you want to get rid of this station, it is definitely a good way to cut off the supply of antidote,"

"And once the supply of antidote is successfully cut off, you can enter the In a state of encircling a point to fight for aid,"

"It is like a sniper on the battlefield, instead of killing the wounded,"

"He uses the wounded to attract rescuers from the other side,"

"And then kills all the people who come to rescue one by one."

Joseph heard this, and couldn't help but excitedly said: "Waiting for help! Inspector Li's method is great!"

After that, he quickly said to Charlie:

"Mr. Wade there is a seven-day deadline, and after those seven days, the station may disappear by itself."

May 47 said in horror, "Mr. Wade, think twice! Once this is done,"

"Thousands of dead men and their families may die without burial. This is the land of the organization!"

"Yes..." the commander Cavalry guards also said in a panic:

"Most of the dead soldiers and Cavalry guards are forced to work for the organization,"

"If their antidote supply is really broken, none of them will survive, this... this is... too cruel for them..."

After finishing speaking, he looked at Charlie and begged:

"Sir, please see that we are all forced to do nothing, please give us, our relatives and friends a way to survive..."

Charlie didn't speak, and after thinking for a while,

He opened his mouth and said: "Although the method of cutting off the antidote is useful,"

"It is really not humane. Once it succeeds, thousands of lives will cease to exist."

Speaking of this, Charlie suddenly looked at May 47 and these Cavalry guards, he asked seriously:

"If one day, you find that after you take the antidote given by the organization,"

"The poison in your body is not delayed, but suddenly completely eliminated. What would your reaction be?"
