

I'm A Quadrillionaire Chapter 881

I'm A Quadrillionaire

Chapter 881

Chapter 881 David stood up.

He narrowed his eyes and stared carefully at the object that was rapidly approaching Earth.

Are they heading for Dark Cape?

At close to sub-light speed?

'How is this possible?'

David was also a highly educated student and always had a perfect score in Physics.

'How can a comet hit the earth at such a speed?

This is totally unreasonable.

'Under natural circumstances in space, it is impossible to produce such a speed at all.

'Various theories also do not support this happening.

'Unless...'

David's eyes narrowed suddenly.

He found something unusual.

'Indeed...'

He knew it would not be that simple.

If it were just a comet crashing into the earth, with David's strength, he would not worry about it even if the earth's technology could not stop it.

If that were just the case, this catastrophe would be too simple.

David could clearly see something that even the satellites in the sky had not discovered yet.

Plus, he could even know the approximate landing zone.

Hence, one could tell how strong David was right now.

He was simply incredible.

After three years, David made a statement.

He asked all the masters halfway to God Rank and above in the world to gather at Dark Cape to discuss this major event.

At the same time, he dispersed the ordinary people around Dark Cape. Since David was acknowledged as number one in the world, everyone already recognized his prestige, so when he spoke, all martial artists halfway to God Rank did not dare to waste any time even if they had doubts in their hearts.

Even though a lot of peak God Rankers had broken through to partial Super-God Rank, who could guarantee that David was where he used to be and had not progressed after three years?

He was so young, so his potential must be greater than a lot of people.

Perhaps David had taken another step forward.

Soon, all martial artists halfway to God Rank were heading to Dark Cape one after another.

One day later, when all the masters halfway to God Rank arrived at Dark Cape from

every corner of the world, some countries with satellites suddenly detected a comet with a diameter of 5km speeding toward earth.
It was moving very fast.
It was at least tens of times faster than the comets detected in the past and was close to the speed of light.
It was expected to reach Earth in a day, and its estimated landing zone was Dark Cape.
It was moving at almost sub – light speed, so it was very terrifying
It would cause Jupiter’s gravitational pull not to affect the comet.
The Earth had also been targeted by comets several times.
However, while they were on the way to Earth, they were intercepted by Jupiter’s strong gravitational pull.
However, this time, due to the incredible speed of the comet, it seemed that Jupiter’s gravity could not hold it, and it began heading straight for the Earth.
The news quickly spread to the high-level officials of Dark Cape.
When everyone found out, they were horrified.
A comet with a diameter of five km was rushing towards Earth at sub-light speed.
If it hit the earth, there would be an absolutely devastating impact.
Everyone understood that the legendary catastrophe was here.
If a comet with a diameter of five km slammed into the earth at sub-light speed, the current level of technology on Earth would not be able to stop it.
All kinds of interceptor missiles would be completely unable to touch it.

I’m A Quadrillionaire Chapter 882

I’m A Quadrillionaire

Chapter 882

Chapter 882 If this level of technology could not stop it, what about the mighty martial artists? Martial artists halfway to God Rank and above quickly gathered.
Everyone looked at the masters who had just broken through to partial Super-God Rank.
As he looked at everyone’s expectant eyes, Mason was the first to shake his head to show that he was powerless.
Even if he had surpassed peak God Rank, he would die if he touched a comet of that speed, let alone receive the impact of a comet of this size.
Hence, he could not stop it.
The other partial Super-God Rankers also shook their heads bitterly.
At this time, everyone suddenly wondered what David’s purpose was in calling everyone to gather at Dark Cape
It could not be such a coincidence.
David did not show up for three years, and he summoned everyone at this time.
He must have known about the catastrophe.
In other words, David knew the comet was about to hit the earth a day in advance.

Since he was the number one person in the world, would he have a way out of this? Otherwise, David would definitely not gather everyone here to die together.

Everyone pinned their hopes on David again.

“What about Mr. David? Is there any way he can prevent this from happening? Mr. David called everyone here, so it should be about the catastrophe, right?” Someone asked.

“Yes, Mr. David must have a way. If he can’t even do it, then we should escape as soon as possible! Maybe we could escape if we run to the other side of the earth.”

“It’s useless! Once a comet hits the earth at this speed, the earth will undergo a series of changes, and various devastating natural disasters will emerge one after another. Human beings can’t resist when they are faced with this situation. This is also very likely to cause a mass extinction on earth. However, if you escape from the impact zone, you may be able to live a little longer, but the outcome will still be the same,” someone who was educated about this explained,

“Then, Mr. David should give everyone an explanation since he called all of us here, right? If there is no choice, it’s better to live a little longer after we escape, right? It’s better than being killed on the spot and turned into ash.”

Everyone nodded in agreement.

Who would want to die if they could live?

It would be good to live an extra day.

Mason was also a little flustered at this time.

If David could not stop it, he still had many things to do.

This place was too close to Somerland.

Once the comet hit this place, Somerland would be the first to bear the brunt, and it would become a disaster zone.

Mason needed to go back as soon as possible to make arrangements.

At this moment, they could hear a voice in the hall suddenly

“You don’t have to worry. Since I called everyone here, I naturally have the confidence to deal with this catastrophe. You don’t want to die, and nor do I.” Everyone looked for the sound and found that David had been sitting on the main seat.

Mason and several other partial Super-God Rankers looked at each other.

They could see the shock in the other’s eyes.

They were the closest to the main seat, but they did not even notice David’s arrival.

Such elusive speed shocked everyone, but it also gave them great confidence.

The stronger David was, the more confident they were that they could deal with the catastrophe.

“Mr. David, what are you going to do? What else do we need to do? As long as we can get through this catastrophe safely, we will follow all of your arrangements.”

“Yes! As long as we can get through this catastrophe safely, we will all listen to you, Mr. David.”

All the people present agreed.

The partial Super-God Rankers were no exception.

David’s quiet actions just now had calmed them down, and now, they chose to trust David unconditionally.

Besides, they had no choice but to trust David in this situation.

If they could not prevent the collision, everyone would be done for. This outcome was just a matter of time!

I'm A Quadrillionaire Chapter 883

I'm A Quadrillionaire

Chapter 883

Chapter 883 “The diameter of this comet is about five kilometers, its velocity is close to sub-light speed, and its impact will be the strongest in recorded history. Jupiter, the guardian of the Earth, has not been able to change its direction, so even if a partial Super-God tries to stop it, it will do nothing,” David said.

“David, what do we do?” Mason could not help asking.

“Don't worry, old Master Stefani. I have a way to reduce the impact of this comet and divide it into countless small meteorites. By then, what you need to do is to prevent the small meteorites from hitting the earth. After all, I can't do so many things at once, so I need everyone to come together to help me,” David explained.

After hearing David say that, the eyes of those present lit

1. up.

As long as David could slow down the comet and divide it into countless smaller meteorites, then they still had the confidence to complete the next task. “Really?” Mason asked.

“Yes,” David replied seriously.

With David's guarantee, everyone was relieved.

David strictly ordered everyone not to tell the ordinary

people the news of the impending catastrophe. Otherwise, it would surely cause global panic.

When the whole world was in chaos, it would be troublesome.

However, it did not go as they had hoped.

Some people who worked in the satellite observation center disclosed the incident for some reason and posted the pictures of the comet taken by the satellite on the Internet.

The news of the catastrophe spread worldwide in just two hours and instantly caused a global uproar.

Everyone was in a panic, and they stopped working.

The whole world was essentially paralyzed.

They were all waiting for an answer from their governments.

Why would they still work if the catastrophe was coming and there was no way to stop it?

They were dying, and they should enjoy their last moments.

At this time, David had to speak up to avoid escalating the situation.

He immediately made a global live broadcast.

“Hello everyone, I’m David Lidell, I believe everyone

knows who I am.

“The purpose of this live broadcast today is to tell everyone that the catastrophe is real, and it is also true that a comet is crashing into the earth.

“But you don’t have to worry. As the saying goes, there will be tall people stopping the sky from falling. I have summoned all the powerful martial artists worldwide to prepare for the catastrophe.

“Hence, you just need to wait quietly at home. Trust us, we will take care of everything. You don’t want to die, and I don’t want to die.

“If I find out that someone has been spreading rumors or has done something harmful to society during this period, then I’m sorry, you will be charged with crimes against humanity, and you will receive the most severe punishment.

“Okay, that’s all from me. Don’t be afraid , the sun will rise as usual tomorrow, goodbye.”

After his speech, David turned off the live broadcast.

David’s words reassured people around the world for a while.

However, at the same time, they also made a request.

They wanted the officials to do a live satellite broadcast around the world.

They wanted to see what the comet looked like. At the same time, they wanted to see how David would lead the powerful martial artists to resist the catastrophe.

If they could not comply, then ordinary people would die without knowing what had happened.

This request quickly reached the ears of David and the others.

David asked for everyone's opinion, and in the end, everyone agreed.

Not long after, footage from hundreds of satellites from every angle was uploaded to the Internet. Everyone in the world was staring at their screen.

Because of the distance, all they could see was a small black dot approaching the earth quickly.

Celia and the others naturally knew that the catastrophe was coming.

In reality, they wanted to be with David the most right now, so that even if they died, they would die together.

However, they knew David had more important things to do now.

Thus, they did not even dare to call David.

They could only pray silently in their hearts.

Time passed minute by minute.

Another day passed in the blink of an eye.

In one day, ninety percent of the world's population stared at the screen without a moment's rest.

After all, this was about their life and death.

That little black spot also grew in size as it got closer. Then, it began to approach the earth's atmosphere.

I'm A Quadrillionaire Chapter 884

I'm A Quadrillionaire

Chapter 884

Chapter 884 Since it was moving too fast, the impact would be terrifying. Even at such a distance, the Earth had many adverse reactions.

The wind raged for thousands of kilometers around Dark Cape, and huge waves more than ten meters high were being flowing at sea.

David took all the partial Super-God martial artists on Earth and stood together on Dark Cape Peak, which he had once destroyed.

"It's here!" David growled.

All of them looked at the sky.

A huge comet was coming at high speed.

"Let's go!"

After David finished speaking, he rushed towards the sky with hundreds of masters halfway to God Rank and above from around the world.

David was still with the others in the beginning, but he was just a little faster than them.

When they were at an altitude of one thousand meters above the ground, David said, "I'll go up and destroy it

first. You guys should spread out and prepare to catch them."

After that, David wrapped his body with his mind power and accelerated suddenly.

He then disappeared from in front of everyone in an instant.

Their vision blurred, and David disappeared.

If it was viewed from a distance, one could see a huge fireball crashing down toward the Earth at high speed while a smaller fireball rocketed out of the earth and shot towards the big fireball.

The speed of the small fireball was even faster than that of the big fireball.

All the satellites captured this shocking scene. People watching the live broadcast almost dropped their jaws.

David did not care about the comet at all at this moment.

Instead, he was thinking about what was accelerating the comet and pushing the comet toward Earth.

That was what worried him the most.

He still did not know what it was.

Therefore, he could only find out after he took care of this comet.

David wrapped himself in his mind power and headed toward the comet at sub-light speed. After a while...

Boom!

The deafening sound shocked everyone.

Everyone looked at what was happening on the screen and could only see fireworks.

Meanwhile, the people within tens of thousands of kilometers around Dark Cape could see a bright light in the distant sky when they looked up.

It was still dazzling even in the daytime.

David's body directly penetrated the comet that had a diameter of five kilometers.

At the same time, he used the power of vibration and shattered the huge comet,

scattering it into countless small fireballs before allowing it to fall to the Earth. After that, the hundreds of partial Super-Gods below quickly dispersed. The strong ones rushed toward the big fireball, while those who were weaker would deal with smaller fireballs. After David shattered the comet, he did not stop at all. He returned quickly to start collecting the various fireballs. 'David smashed the comet?' Everyone watching the live broadcast on earth watched the shocking scene in front of them, and they could not return to their senses even after a long time. Immediately after, loud cheers resounded from every corner of the world. The comet was gone, which meant they had survived the catastrophe. The joy of surviving a disaster filled everyone's heart. At this moment, David was a god in their hearts. However, was the catastrophe so simple? Only David knew that it was not.
