

I'm A Quadrillionaire

Chapter 885

Chapter 885 After entering the atmosphere at nearly sub–light speed, the comet with a diameter of five kilometers was stopped by David's body and destroyed.

It was smashed into countless small meteorites, then destroyed again by Mason and others waiting below.

Although some debris fell into the earth, the damage they caused was extremely low.

It was as if a nuclear explosion was reduced to fireworks.

Furthermore, this visual feast was displayed to everyone on Earth through satellite live broadcast.

The power of martial artists once again touched everyone.

It was not just ordinary people, even Mason and other masters who became partial Super – Gods were shocked beyond words.

David's strength was too far ahead of them.

Without David, they would be like eggs hitting a rock even if they collectively charged at the small–scaled comet that was so large and fast without caring about their lives.

They would not do any damage to the comet at all.

At the same time, they were also guessing what state

David had reached.

David solved the catastrophe that the ancients feared so much so easily.

This did not look like a catastrophe at all, it was more like playing house.

While the world was drowning in the sea of cheers, David was not happy.

Instead, he hovered in the air with a serious expression and looked in the direction the comet had come from. After others had dealt with the comet's debris, they saw David standing in the air, looking up into the distant void.

They were confused.

The comet's threat had been removed, and they had safely escaped the catastrophe.

The world was also celebrating now, so why was David standing there blankly?

Mason was the first one to fly to him.

Then, the rest also flew toward David.

"David, what's happening? Is there anything wrong?" Mason asked.

Everyone else looked at David and waited for his answer.

However, David did not say anything.

He hid a huge wave of uncertainty in his heart under his calm and serious face. Just now, a notification popped up in his system, displaying a statement that shocked David to the core. (The system has just detected the Stella Civilization Galaxy. Attempting to connect...)

Only ten seconds later...

(Connected successfully! The system is being assimilated and upgraded. Please wait.]

This whole time, the system had been assimilating and upgrading 'Stella Civilization Galaxy?

'What's that?'

The Earth belongs to the solar system, and the solar system belongs to the Milky Way galaxy.

David knew all of that, but David had never heard of the Stella Civilization Galaxy.

'Was it a planet that had life like the Earth?

'Was the Stella Civilization Galaxy behind the sub lightning comet crashing into the earth? 'Why did they do that?

'Is the Stella Civilization Galaxy friend or foe?'

David had a lot of questions in his heart.

He wanted to solve the questions in his heart.

After a while...

His mind power caught something unusual.

"Come out! Since you're here, why are you hiding? Tell us the reason you're here!" David yelled with a dark face.

I'm A Quadrillionaire Chapter 886

I'm A Quadrillionaire

Chapter 886

Chapter 886 David's voice echoed in the air, and his eyes were fixed on the distant sky.

Mason and the others all turned to David's eyes when they heard that.

However, they found nothing. As they were in doubt, the space shifted in the air far away. After that, a strange-shaped object slowly appeared in front of everyone.

This object was huge, and it was an octagonal shape. It silently suspended in the air, and immediately after, the eight corners opened separately.

Hundreds of humanoid mechas nearly five meters tall flew out.

They neatly arranged themselves in two rows before the huge octagonal object.

They bent one knee and knelt in the air.

After that, the huge octagonal object opened in the middle, and nine white unicorns with wings on their backs stepped out side by side,

They were walking in the air as though they were walking on the ground.

Behind them was a very luxurious carriage with all kinds of lifelike and exotic animals carved on it.

At a glance, one could not help but feel awe. A team of dozens of people followed behind the carriage. Except for four old men, the rest were all young women.

If one looked at them with human eyes, they would feel that all of those women were at least nines.

The most important thing was their extraordinarily ethereal temperament.

They were like the fairies described in legends.

This scene stunned David.

The rest of the masters from Earth around him were all stunned because the people and beasts that had appeared out of nowhere were walking on air like they were walking on the ground.

Even the dozens of young women were like this.

So, how were they not shocked? These women who looked like they were in their twenties were actually masters halfway to God Rank?

People around the world who were cheering had also noticed this scene. However, since the satellite was too far away, they could not see it clearly and could only see the outlines.

A group of people and beasts suddenly appeared, and they stopped in the sky not far from David, towering over David and the others.

At this time, a young man's voice suddenly came from the carriage.

"Thirteenth Elder, how is it?"

The old man who was closest to the carriage replied respectfully, "Master Pavan, the important information has been extracted."

"Let's hear it," the young man in the carriage continued to ask.

"According to the information extracted from the intrusion network, this is a living planet called Earth. The level of technology is about 0.7. Even the resources inside the planet cannot be fully exploited and used, let alone developed outside the planet," the old man replied.

"So, are you sure that this is an indigenous life planet that others have not discovered?" the young man asked.

His voice had changed.

He did not sound as calm as he did before. Instead, he sounded excited.

"It is absolutely certain that this is a planet of indigenous life that has not been discovered. More importantly, the talent of the people on this planet is extremely high. The

earthling who destroyed the comet just now was named David Lidell, and he should be close to Satellite Rank. He has not been stimulated yet, and if he is, he will have limitless potential and surely bring you great benefits."

"Haha! This is great! Even God is helping me. I didn't think I'd find such an important indigenous living planet at such a crucial time. I think that I, Pavan Tuffin, am destined to be the blessed chosen one."

From the carriage came the cheerful laughter of the young man. "Congratulations to Master Pavan for having floods of good fortune filling up the heavens. In the future, you will surely become glorious and world-shattering. Then, you will be the man of destiny

and have your name known throughout all ages!" The old man knelt in the air with one knee before shouting with his hands together.

"Congratulations to Master Pavan for having floods of good fortune filling up the heavens. In the future, you will surely become glorious and world-shattering. Then, you will be the man of destiny and have your name known throughout all ages!" The other three old men and dozens of young women also knelt in the air with one knee. They also clasped their hands together as they shouted.

Immediately after, hundreds of humanoid mechas with a height of nearly five meters also roared at the same time, "Congratulations to Master Pavan for having floods of good fortune filling up the heavens. In the future, you will surely become glorious and world-shattering. Then, you will be the man of destiny and have your name known throughout all ages!"

The deafening sound echoed in the sky and did not dissipate for a long time.

I'm A Quadrillionaire Chapter 887

I'm A Quadrillionaire

Chapter 887

Chapter 887 "Thirteenth Elder, connect to the Internet of this planet. I have something to say to its inhabitants," Pavan said.

His voice was calm again.

However, his face was flushed with excitement.

An indigenous planet that had not yet been discovered had already developed its technology to level 0.7. Most importantly, someone had reached Satellite Rank before their potential was stimulated. This huge value was unimaginable even with his current status.

Once they successfully planted the slave mark on this planet, it would be very helpful.

He would definitely skyrocket because of this.

"Yes, Master Pavan!" The old man stood up and replied.

Then, he threw a few things out of his hand. They were scattered and suspended in the air.

Then, the signals were transmitted directly and connected to the Internet on Earth, sending the footage here to all internet-connected devices on the planet.

As long as the person was online, they would receive the video from this no matter what they were doing.

Of course, the vast majority of people on earth were

watching live satellite broadcasts right now, hence the live broadcast of the satellite was also switched to this.

Immediately, everyone was attracted by the scene they saw.

There was a huge octagonal alien spaceship and hundreds of five-meter-high humanoid mecha monsters.

Furthermore, there were so many beautiful young women.

'A-Are they aliens?'

'These aliens look no different than the humans on earth!'

'However, what are those meter-tall humanoid mechas?'

While everyone was watching in high spirits, the four beautiful women came forward and entered the carriage.

Soon, they carried a luxurious throne out from it. Meanwhile, a young man was sitting on the throne. He had a gold crown on his head and was exuding a dazzling light from his entire body.

The man could charm both the old and young with his looks, and he could win over millions of young women. The women watching the broadcast on earth, from teenagers to middle-aged, were all head over heels over

him.

David was a little envious of how he appeared.

He wondered if he should get one for himself when he had the chance.

Four women carried Pavan out of the carriage. After they stopped, he said, "Earthlings, hello. I am from the Stella Civilization Galaxy, and my name is Pavan Tuffin. Nice to meet you.

"The reason I came here is to lead you out. This is already the most secluded area of the Milky Way galaxy. You have insufficient resources and a low level of technology. You need to go to the center of the Milky Way to see what true prosperity is. There is everything you can imagine there, and even the unimaginable.

"And if you want to go to the most prosperous center of the Milky Way, you can't go as you are. If you want to go there, you need an identity, um... It's similar to the ID card on Earth.

"And I, Pavan, can give you this identity. As long as you have this identity, you can go anywhere, and no one can stop you.

"Next... Please also accept my gift.

"Elders, please refine the seal."

After speaking, Pavan took out a dagger and sliced his palm.

Immediately, pale golden blood flowed out of his wound.

Soon, a large mass of pale golden blood gathered on Pavan's chest, amounting to at least a thousand milliliters.

Then, he pushed the blood forward, and the four elders acted immediately.

They instantly appeared in the four directions of the blood. After that, the four stretched out their right hands

simultaneously.

A stream of invisible energy gathered around the blood until the blood began to tumble rapidly and slowly decrease in volume.

This entire time, this group from Stella Civilization Galaxy never once paid any attention to David and the gang.

I'm A Quadrillionaire

Chapter 888

Chapter 888 It might seem to these people that David and his group of the most powerful people on Earth were nothing but ants.

Everyone just watched silently, and no one said anything.

Pavan stared at the blood being refined by the four elders.

A look of surprise appeared in his eyes.

Soon, soon.'

Once they planted the slave mark on the earth, the planet would belong to Pavan.

The efforts of all people on earth would then belong to him.

Next, Pavan would have a sky-rocketing value, and no one could stop him.

There were very few people who owned slave planets even in the entire Milky Way.

Which one of them was not a monster – level existence ?

Which one of them was not a strong contender for the title of Master of the Milky Way? Pavan did not expect this day to come for him.

He was blessed by God indeed.

It seemed that he was truly the chosen one.

At this moment, Pavan felt that his heart was about to jump out

He had never been so excited.

Soon, he would be able to stand shoulder to shoulder with those monsters and compete with them for the Master of the Milky Way title.

Although it would cost him a lot to refine the slave mark, as long as it was successful, everything was worth it.

David frowned when he saw Pavan's surprised look.

He instinctively felt that this gift of identity might not be a good thing.

Just when he was about to ask aloud, there was a change at the scene..

At this time, only one-tenth of the one thousand milliliters of blood was left, and the golden light emitted was getting brighter and brighter.

The four elders stopped at the same time.

One of the elders instantly appeared in front of the remaining one-tenth of golden blood.

After he reached out to grab it, he teleported above the giant octagonal spaceship in the blink of an eye.

The eight corners of the spaceship emitted lightning-like

light at the same time.

After it fell on the golden blood, it continued refining.

The elder had returned to his original position. The four elders were sweating profusely from their foreheads and also getting weak. Obviously, they exhausted a lot of energy from just refining the blood.

The blood slowly faded away under the refining of the octagonal spaceship.

Then, a large golden word began to appear slowly in the sky.

Now, Pavan looked even more excited, and it caused his body to tremble a little.

He was going to succeed soon.

David looked at the word that was gradually forming in the sky.

'Does it say slave?'

Suddenly, a notification popped up in David's system automatically.

There were three large red words on it.

[Warning! Warning! Warning!]

Then, another series of words appeared.

(Slave mark detected! Host, please stop it!) (Slave mark detected! Host, please stop it!) (Slave mark detected! Host, please stop it!)
