

## I'm A Quadrillionaire Chapter 913

Chapter 913

**Chapter 913** After David tucked Celia in, he opened the system panel.

Indeed, it had finished upgrading.

(The system has been upgraded and is now in phase 2. All data will be reorganized and refreshed. Host, please use the system reasonably according to the new rules.)

Then, an interface appeared.

[Host: David Lidell

[Balance: 10000000000000000 Galaxy Dollars

(Body: Stellar level 10 (Can be upgraded with 100 lavish points) [Mind: Stellar level 10 (Can be upgraded with 100 lavish points)

(Combat: Partial Cosmos Rank

(Combat Skills: Void Punch (Entry level), Air Crushing Slap (Entry Level), Evil-Splitting Sword Technique(Entry Level)

(Skills: Ancient Traditional Medicine (Expert)

(Lavish points: 0]

David looked at the reorganized and refreshed system panel.

After it entered phase 2, there were some new changes.

Firstly, his balance returned to a quadrillion, and the unit turned into Galaxy Dollars.

Then, there were additional combat and combat skills.

Besides Ancient Traditional Medicine, his driving skills, basketball skills, and so on were gone from the skills column.

This also meant that the second phase did not recognize these skills.

Of course, another plausible explanation was that David would not need these skills in the Stella Civilization Galaxy.

While David was looking at the three new combat skills that appeared on the combat skills column, he suddenly heard a voice in his head.

[The host has completed the first phase's test and has successfully entered the second phase. Three top combat skills have been rewarded: Void Punch, Air Crushing Slap, and Evil Splitting Sword Technique.]

Then, information about these three skills surged into David's brain.

After he had accepted the information about these three skills, David was excited.

'This is so powerful!

'It's similar to the combat skills on Earth, but there's such a huge difference in terms of power!'

He could smash a planet with one Void Punch, which was formidable.

Plus, he could ignore space and distance and use Air Crushing

Slap to kill someone through the air. With that, he could defeat his enemies from thousands of miles away.

Lastly, he could eliminate all evil and kill all demons with the Evil Splitting Sword Technique. This technique would be the enemy of all evil.

David lamented about how powerful the system was.

However, he felt relieved when he thought this was a product of the God Tier Civilization.

The Earth was not even a level 1 civilization, so he could not fathom the power of the God Tier Civilization.

When David first met Pavan, he was a little worried that Pavan would discover his system.

After all, Pavan came from an even higher civilization, and the system was also from outer space.

Now, it seemed that he was just overthinking.

It would be hard to say whether someone from a level 8 or 9 civilization would discover the system, let alone a level 3 civilization.

God Tier Civilization.

This name sounded so bad\*ss, it was much stronger than the level 8 or 9 civilization.

Therefore, David could use the system without worries in the future.

He would not need to worry about getting exposed.

Back then, David felt that the system was extraordinary, but he did not think it would be so powerful.

The system panel showed David's body and mind as Stellar level 10 while his combat was partial Cosmos Rank.

While he was attacking Pavan's Octagon, David only showed the combat power of a peak Planet Ranker.

Thus, one could see how thoroughly he was hiding.

If Pavan learned about David's true strength, he might piss himself in fear.

David would be on the same level as the Tuffin family senior elder with the combat power of a partial Cosmos Ranker.

Of course, David had some qualms about this.

It would not be wise of him to show his trump card immediately because he did not know if Pavan and the others had trump cards back then.

If he showed everything, he might be targeted.

So, even if it meant failing to defeat them after a long time, he did not show his combat power that was beyond peak Planet Rank.

He would be happy just to keep Pavan around.

However, if he could not keep Pavan here with his combat power as a peak Planet Rank, David would expose his power as a Stellar Ranker. He would never let Pavan go no matter what.

#### Chapter 914

##### Chapter 914

Now, it seemed that his strategy was correct.

He only showed the power of a peak Planet Ranker, so when Pavan passed the news back to the Tuffin family, he would tell them that David was just at peak Planet Rank.

However, he did not know that David's combat power had reached partial Cosmos Rank.

The next time the Tuffin family came to Earth, David felt he would be able to handle them.

If David let Pavan know his true strength and he passed this information back to his family, then the next person from the Tuffin family would definitely be stronger than himself.

Hence, David was not wrong in hiding his true power.

The only problem now was that the system had been measured in any currency on Earth but Galaxy Dollars.

In this case, did it mean that it is impossible for him to spend money to obtain lavish points on Earth? Should he go to the center of the Milky Way to continue spending money to get lavish points and then improve his strength?

If so, it would be a little troublesome.

David would not leave until the Earth was completely safe.

Not leaving meant he would have no way to spend money to

gain lavish points to improve his strength.

He would be able to handle the Tuffin family when they arrived, but what about the next time after that?

The people the Tuffin family sent to Earth would definitely get stronger and stronger.

David did not think he could dominate outer space as a partial Cosmos Ranker.

If he kept waiting on Earth and did not upgrade himself, his enemies would soon defeat him.

He seemed to have encountered an obstacle.

He could not upgrade himself if he did not leave Earth, but Earth might be attacked if he did.

'What should I do?'

David looked at the starry sky outside the window and was lost in thought.

The Tuffin family might be on their way here, so he could not leave Earth.

The only thing he could do was to try the genetic drug.

The David from another timeline said that the current David was extremely gifted, but his talents were not stimulated. Once he did so, he would be able to cultivate even faster.

To be honest, David was not very confident about his talent.

However, he could only do this now.

He had to try regardless of if it worked or not.

At this moment, a notification popped up on the system.

[The system is connected to the Stella Civilization Galaxy's Internet; should I connect it to the Earth's Internet?]

There were two choices below.

Yes and no.

What does this mean?

'Could the system connect to the Milky Way's Internet from Earth?'

David was elated.

This was great news!

If he could connect to the Milky Way's Internet, he could not only understand everything about the Milky Way but also spend money on the Internet.

He would be able to get lavish points to increase his strength this way, right?

David clicked on yes without hesitation.

The system opened another window.

"Connecting... Please wait...".

About a few seconds later, the system displayed [Connected successfully. (The Earth's Internet is in sync with the Milky Way's Internet. Do you want to hide the Earth's location?]

There were still two choices below.

Yes and no.

David naturally chose yes.

It would be best if he could hide the Earth's location.

If others found out and more Pavans came in the future, the Earth would be in danger.

## I'm A Quadrillionaire Chapter 915

## Chapter 915

### Chapter 915

At this moment, all the netizens staying up late to surf the Internet realized that the Internet looked different.

Strange news that they did not understand was popping up without any reason.

“Breaking news! Head of Planet Boundless, Burke Lutgen, has broken through to Cosmos Rank, and he spent a large amount of money inviting the Dance Fairy, Mia Concord, to dance for him on Planet Boundless. According to sources, Mia has already agreed, and she is now heading to Planet Boundless.”

“Breaking news! The Dallarosa family announced today that they would work hard to fight for a position among the eight prominent families of the Milky Way Empire. The Tuffin family is in danger! Once they lose this position, the Tuffin family’s prestige will plummet!”

“Breaking news! The Milky Way Battle Institution will hold a very rare battle among the nine institutions soon. This battle will be the biggest yet. Chief of the Primo Institution, Leonidas Hinsen, announced that there will be a 1 vs 8 battle, which shocked everyone. The other eight institutions also stated that they would teach Primo Institution a proper lesson.”

There was more such news.

While countless netizens felt confused, they were also very excited.

Hence, they began to read the news earnestly.

The Earth’s internet world was in an uproar.

David took out his phone and opened a website at random.

He was also very excited as he looked at the countless news about the Milky Way.

He could actually connect to the Milky Way’s Internet.

He started searching for everything about the Milky Way on his phone.

The Milky Way was just too vast.

There were hundreds of billions of planets, big and small.

There were at least a million living planets, so many things would happen daily.

David searched for half the night but realized what he understood was just the tip of the iceberg.

However, David focused on the news about the Tuffin family.

David already knew most of the things related to the Tuffin family.

He was temporarily relieved.

Although the Tuffin family was one of the eight prominent families of the Milky Way Empire, they were the weakest of the bunch.

Also, their position among the eight prominent families seemed somewhat unsafe.

On the surface, the strongest person in the Tuffin family was only Cosmos Rank.

If this were the case, it would be impossible for them to send their strongest person over.

As long as it was not a Cosmos Ranker, then a partial Cosmos Ranker like him should be able to deal with them.

This at least bought him a lot of time.

As long as he continued to improve, then the Tuffin family would not be able to do anything to him.

Of course, he did not rule out the possibility that the Tuffin family was hiding even stronger people.

They were a big family, so they would not display all of their strength.

Therefore, David could not relax in the slightest during this short period.

The sky was already slightly bright.

David put down his phone.

After that, he got up, washed up, and cooked.

Soon, three bowls of fragrant buttered noodles were prepared.

David took the noodles to the bedroom, woke Celia, and handed the noodles to her.

Then, he pondered for a while before knocking on Selena’s door.

Knock knock knock!

“Coming!” A crisp voice said from the room.

Creak!

The door opened.

At that moment, the two stared at each other.

David only saw Selena wearing loose silk pajamas.

Two of the buttons on her chest were undone.

Selena did not expect David to be the one at her door.

Back then, it was always Celia, as David had never approached her before.

Thus, she did not tidy herself up and opened the door in the same state she woke up in.
