

## I'm A Quadrillionaire Chapter 921

Chapter 921

### Chapter 921

After David deactivated the hide function of the system, the Milky Way Empire Network Supervision Department quickly confirmed Earth's location.

They were also surprised to see on the galaxy map how far Earth was from the heart of the Milky Way.

They now somewhat believed that David was a peak Stellar Ranker.

After all, it was impossible for him to connect to such a distant network without enormous financial and material resources.

The Milky Way Empire Network Supervision Department would monitor the entire Milky Way network, but they did not find out when David connected the two.

That was kind of scary.

They were eager to learn the secrets of Earth.

They wanted to find out how the Earth connected to the Milky Way network from Earth, and they also wanted to know whether David was a peak Stellar Ranker.

After all, a person from an indigenous living planet that could rise to peak Stellar Rank was very valuable.

The Milky Way Empire would definitely not let this talent go.

However, they only obtained some superficial information that David intentionally released.

He did not want the Milky Way Empire to thoroughly understand everything about Earth, especially the news about Pavan's arrival and detainment on Earth as well as everything about himself.

Hence, the system blocked the news surrounding him and Pavan

The product of a God Tier Civilization was beyond the , imagination of a level 3 civilization.

The Milky Way Empire Network Supervision Department could not find any clues about this at all.

However, the more mysterious David was, the more attention the Milky Way Empire would pay to him.

Soon, Earth was registered and listed on the Milky Way Empire's galaxy map. It was now a high-class citizen planet of the Milky Way Empire.

David also transferred 30 billion Galaxy Dollars directly to the account of the Milky Way Empire.

Transaction complete.

From now on, David was the head of Earth, and Earth was under the protection of the Milky Way Empire.

Even if the Tuffin family arrived here, they would not dare to do anything to Earth since it was now a high-class citizen planet.

The status of an indigenous living planet and a high-class citizen planet of the Milky Way Empire was completely different.

There were [+] buttons on his Body, Mind, Combat Skills, and Skills column, which meant he could upgrade them now.

If he added lavish points to Body, he would have another breakthrough and rise straight to Cosmos Rank.

David would be unbeatable even in the heart of the Milky Way when he reached this stage.

He immediately clicked the [+] button behind Body.

A window popped out.

[Are you sure you want to upgrade Body? This upgrade will cost 100 lavish points.]

Of course, David confirmed.

Then, David slowly felt the changes in his body.

Half an hour later, David looked at the system again.

[Host: David Lidell

(Balance: 9999997000000000 Galaxy Dollars

(Body: Cosmos level 1 (+) [Mind: Stellar level 10 (+)

[Combat: beginner Cosmos Rank

[Combat Skills: Void Punch (Entry Level +), Air Crushing Slap ( Entry Level+), Evil-Splitting Sword Technique (Entry Level+) (Skills: Ancient Traditional Medicine (Expert+)]

Chapter 922

## Chapter 922 (Lavish Points: 200)

200 lavish points remained.

David spent 90 lavish points to raise his Body to Cosmos level 10.

Then, he used another 100 lavish points to upgrade his Mind power to Cosmos level 1.

After that, he continued to spend the last 10 lavish points spent on his Mind power.

David's Body soon reached Cosmos level 10, and his Mind power reached Cosmos level 2.

Moreover, his combat also reached peak Cosmos Rank.

However, he would need a thousand lavish points for the next breakthrough

This was a bit of a hassle.

The best way to do this was to buy all the planets that the old man mentioned.

After this, he would get another massive surge of lavish points.

He could only look for them after the Earth was safe.

A peak Cosmos Ranker could easily defeat the Tuffin family.

If they dared to come, David would teach them a memorable lesson.

He would not hold back against anyone who dared to have any ideas about Earth.

Since he was not worried about the Tuffin family's reinforcements, then there was no need to keep Pavan around.

David clearly remembered what the old man said.

Pavan from that timeline prospered after planting a slave mark on the Earth

In addition, he even won the position of Master of the Milky Way and became the number one powerhouse in the Milky Way.

Also, when the old man forcibly opened the system when he was on the brink of death, Pavan had gone a step further.

Pavan was the main character of that timeline, but it was all built on the eternal pain of the earthlings.

Thus, David figured it would be better to take care of Pavan as soon as possible to avoid any unexpected incidences.

In any case, the relationship between the two parties could not be repaired anymore.

Three days later.

David got everyone on the planet to participate in a vote, with the content of the vote being a decision on what to do with Pavan.

The final result was that 100% of the people agreed that Pavan should become a burial offering to the nearly 100,000 people who died on Earth.

No one would risk universal condemnation and choose to let Pavan live in the face of this kind of righteousness that concerned every human being on Earth.

If anyone found out about this, the person would be drowned by everyone's condemnation.

This result was exactly what David intended.

Therefore, David no longer hesitated.

David took a panicking Pavan to the ruins of the city destroyed by the laser cannon.

David felt a little sad as he looked at the once bustling city that had now become a ruin.

Nearly 100,000 people had been wiped out here, leaving nothing behind.

Ordinary humans were truly vulnerable in the face of advanced civilization.

Either they were planted with slave marks, forcing their children and grandchildren to be controlled forever while never being able to free themselves from it, or were directly destroyed, leaving no traces behind.

These aliens had no regard for human lives, so they deserved to be killed.

Pavan knelt on the ruins.

He had a bad feeling after David brought him here because he was the one who destroyed this place.

However, he did not believe that David would kill him.

He had passed the message about Earth back to the family, and rescue was coming.

Unless David did not care about his planet, he would not kill Pavan.

Was David someone like that?

Of course not.

If not, he would not bring Pavan here.

*Maybe* David wanted him to kowtow and apologize to the dead.

Pavan would kowtow and apologize for the sake of his life.

Nothing was more important than that.

When his family arrived, he would make tens of billions of earthlings on Earth kneel in front of him to wash him of his shame.

As Pavan thought about this, his anxious heart felt much better.
