I'm A Quadrillionaire chapter 964

Then, he entered the underworld of the Milky Way's Internet.

This was the same as the dark web on Earth, which stood in the gray area of the Internet.

Everyone would do shady deals here.

After looking around for a while, a name entered David's field of vision.

Meteor Chamber.

This was one of the most mentioned names in the underworld of the Milky Way's Internet.

It was said that as long as you had the money, there was nothing they could not do.

Of course, David felt this was a bit of an exaggeration.

The Milky Way was, after all, the territory of the Milky Way Empire.

Who would dare to say something so arrogant within the jurisdiction of the Milky Way Empire?

However, David still got in touch with them because his goal was not the Milky Way Empire.

Instead, it was just the Tuffin family who was about to lose their position among the eight prominent families.

He believed in the people who dared to claim something so arrogant.

He knew they would not be scared of one of the eight prominent families that was about to fail.

Besides, David's purpose was not to assassinate the Tuffin family. All he needed was to monitor the Tuffin family.

He could find a way to fight back as long as he kept an eye on the movements of the Tuffin family's Milky Way Battleship and Grandmaster.

"Hello!" David sent a message over to the other party.

The other party responded as soon as David sent the message.

"Hello, what do you need?"

"You can do anything within the Milky Way, right?" David asked.

"Yes, but the harder it is, the higher the price."

"I want to monitor the movements of the Tuffin family. How much will that cost?" David replied.

"The Tuffin family? One of the eight prominent families of the Milky Way Empire?"

"Yes!"

"What do you want to monitor?"

"I want to monitor their Milky Way Battleship and their Grandmaster's movement."

"If that's the case, it'll be costly. You have to be prepared."

"Name your price," David said excitedly.

Where would he find an opportunity as amazing as being able to spend money to get lavish points whilst simultaneously learning the Tuffin family's movement at any time?

"Please wait, I need to calculate the price according to the task's difficulty."

Not long after, David received a reply.

"I need ten billion Galaxy Dollars."

To be honest, David was very disappointed when he saw this number.

He thought it would be a huge sum.

It would be even better if it could make him break directly through to Celestial Rank.

However, it was just ten billion Galaxy Dollars.

It seemed harder to spend Galaxy Dollars than money on Earth.

David remembered when he first got the system, he would spend twenty billion to buy a random hotel.

It seemed that he could only spend more money if he went to the heart of the Milky Way.

“How should I pay?”

The other party gave David a specified hidden account.

David then paid online and transferred ten billion Galaxy Dollars into their account.

At the same time, David gave them his contact information.

David would immediately get news once the Tuffin family’s ship or Grandmaster did anything.

The system was so amazing. As expected of something from a God Tier Civilization.

I’m A Quadrillionaire chapter 965

I’m A Quadrillionaire chapter 965

I’m A Quadrillionaire chapter 965

He spent 10 billion Galaxy Dollars to have the Meteor Chamber monitor the movements of the Tuffin family, and at the same time, he also got 100 lavish points, which could be considered as killing two birds with one stone.

However, David did not relax in the slightest.

100 lavish points were not enough to give him the strength to fight against the entire Tuffin family.

Thus, he still needed to do his best to continue spending money:

Although he could shop online on the Milky Way’s Internet, he needed to provide a specific identity and address.

However, the prices were not too high, and he needed to buy many things to spend a hundred million.

Things like strategic military weapons would be slightly more expensive, but the requirements to buy these goods were very high.

He needed a certain strength and background to purchase them.

Furthermore, if he bought too many things and spent too much money, he would inevitably attract the attention of certain forces.

Before he had absolute strength, David did not want to expose the Earth's position to the Milky Way.

Even if the Earth was now a high-class citizen planet of the Milky Way, it was not safe yet.

This could be seen from Adan still daring to destroy the Earth after learning that the Milky Way Empire had registered Earth.

If David wanted to do whatever he wanted in the Milky Way, he would need to spend at least trillions of Galaxy Dollars to get tens of thousands of lavish points.

However, how should he spend the money?

David did not know what to do for a while.

He could only take one step at a time.

David waited for news from the Meteor Chamber on Earth.

He would see if the Tuffin family was planning anything significant before he planned what to do next.

If the Tuffin family had received news of Adan's death and were sending someone to Earth again, David would not care so much anymore.

He could only fight back, even if his secret was exposed and others noticed him.

In any case, he had to improve his strength first.

Otherwise, the Earth would be destroyed. Since they were going to die, what use would there be to continue hiding?

If the Tuffin family had not planned anything, he would go to the center of the Milky Way and quietly spend money in such a prosperous place to improve his strength as it should not attract any attention.

According to David's understanding, the Tuffin family was one of the eight prominent families of the Milky Way Empire, and they were a mighty family.

However, they had been going downhill and were currently last among the eight prominent families. It was, even possible that they might lose their status at any moment.

A mid-Cosmos Rank powerhouse like Adan died, which was a huge loss to them.

Thus, they would definitely take it seriously.

.

Once David's combat power reached mid-Cosmos Rank, he would be unbeatable.

Plus, the Tuffin family could not possibly know how Adan died.

The unknown was the most terrifying.

Therefore, after suffering this loss, the Tuffin family might not send someone over immediately until they were confident in victory.

This was of course, also unless the Grandmaster came out of seclusion.

This was also a huge possibility.

David needed to hear from the Meteor Chamber before he could make arrangements.

It depended on the Tuffin family whether he should go all out without a care in the world or keep a low profile and slowly improve his strength secretly.

Capital City in Somerland, Earth.

It was very lively inside David's residence.

Celia and Selena were not the only ones there. Pearl, Julia, Sandy, Amelia, and Goldie had also moved in.

They said they were here to have David guide them on their cultivation, but everyone knew their true intentions.

As for what gave them the courage to come to David without a care in the world, it was because everyone was more open minded after the Earth almost got destroyed three times.

They were doing whatever they wanted and pursuing whomever they liked.

They would not care about the result because Earth might be doomed one day soon.

Therefore, to avoid leaving the world with regrets, they decided to do this bravely.

David was actually very helpless right now.

However, he could not do anything anymore now that they were all here.

Celia did not seem to care at all and warmly received these women who were all related to David.

To be frank, a woman with a personality like Celia's could take down anyone, regardless of age or gender.

After she brought everyone together, everyone quickly got along.

Now it was David's turn to be embarrassed.

Six or seven beauties who were all nines or more were gathering together, and David had to face them daily.

This made him very depressed and resulted in him having no time for him to be alone with Celia, so he had to hold himself back.

Although the women were pleasing to the eyes, he could only look at them and not touch them.

This was like torture.

Since David had to deal with his own business, Selena, a partial Super-God, would take on the task of leading these beauties in practice.

Just like that, David and many beauties were now living under one roof.

Occasionally, he would also instruct them in their cultivation.

So many people envied his life of being surrounded by such beauties.

However, only David himself knew that he was suffering.

Not only did he not enjoy any benefits, but he was also deprived of his happy time with Celia.

If David could not hold himself back, he would quietly send a message to Celia in advance.

Then, the two would secretly make out in the middle of the night.

On the third day of David spending 10 billion Galaxy Dollars in the Milky Way's underground network to hire the Meteor Chamber to monitor the Tuffin family, he received a message from the Meteor Chamber.

Not long ago, Orson, the head of the Tuffin family, brought all the core executives of the Tuffin family on a Milky Way Battleship to the planet where the Tuffin family's Grandmaster lived in seclusion.

However, the Meteor Chamber did not say why.

Probably David did not pay enough to know the content.

It was also possible that Meteor Chamber had no clue about the reason.

After all, this was the core secret of a superfamily. So, not everyone could know about it.

However, even if the Meteor Chamber did not say anything,

David still knew what was going on.

The Tuffin family must have already received the news of Adan's death.

That was why this huge family attached so much importance to this and directly brought the family's core to see their Grandmaster.

David asked the Meteor Chamber again to see if the Grandmaster of the Tuffin family was doing anything.

The result David got was that the Grandmaster was still living in seclusion. He did not come out just because Orson brought the family's core to meet him.

Plus, the Tuffin family only deployed one of their two ships when they went to see the Grandmaster. Besides that, they were always parked on Planet Tuffin.

When David heard this, the weight on his chest was temporarily lifted

Just as he expected, the death of a mid-Cosmos Ranker like Adan made the Tuffin family vigilant.

They would not randomly send someone over and would definitely ask the Grandmaster for advice.

Now that the Grandmaster was still in seclusion and the Milky Way Battleship was not deployed, it proved that the Tuffin family should investigate this matter first.

Therefore, they would send their strongest people the next time they came.

The Grandmaster himself might even come here.

Therefore, since he had some breathing room, David had to seize the opportunity to increase his power. It was imperative for him to leave Earth.

If he left, he would have more opportunities to spend money to obtain lavish points.
