I'm A Quadrillionaire chapter 1039

David looked at these guys.

After turning into beast mode, these people's combat power improved significantly.

He had seen such a sudden increase in combat power when he was fighting with Adan from the Tuffin family.

However, the difference was that after Adan used the Blood – Burning Potion, and although a layer of crimson gas appeared on the outside of his body like a beast's armor, at least David could see that it was a person inside.

Meanwhile, these people were no longer human, they were completely beasts.

It was not hard to decipher from Princess Astrid's words that these guys were not good people.

David decided to ask what was going on after he took care of them.

"It's not up to you whether we betray humanity. As long as we destroy the Milky Way Empire and become the overlords of the Milky Way, who would dare to sanction us? Only we can sanction others," the man in the lead said.

"You won't have a chance to do that. My father will never spare you!"

"Tsk tsk... Your father? We'll talk if he can defeat our king! Sangruil is not the same Sangruil centuries ago that was in hiding after being chased and hunted by the Milky Way Empire. This time, we've come back for revenge while filled with endless hatred."

"Impossible! My father is an invincible existence in the Milky Way. No one can defeat him," Astrid immediately retorted.

However, they could hear her voice trembling a little, so she had to be nervous.

"Really? Then why didn't he come to save you in person? With that strength, he could cross great distances in the blink of an eye. However, he still hasn't come, so don't you understand, Your Royal Highness Princess Astrid?"

"No... No... No! My father cannot be defeated. He's only been delayed because something has come up," Astrid comforted herself in a panic.

David noticed something different. After Adan took the Blood –Burning Potion, although his combat power increased, he could not control his emotions, and his body would slowly decay. When the time came, he would die without anyone doing anything.

However, these guys did not seem to be affected at all.

He could still speak coherently with Princess Astrid; their bodies also showed no signs of decay.

David did not bother to listen to their nonsense. He used his materialized mind power to form a transparent sphere and wrapped Astrid and the gang in it to prevent them from being hurt by the shockwave.

Then, he disappeared from where he stood.

He appeared in front of the leader of the black–robed men in an instant.

One should capture the leader if one wanted to capture a thief. Hence, David had to get rid of the most powerful person first. Of course, even if the leader was the most powerful among the men, he was still nothing to David.

Even if his combat power increased after going into beast mode, he was only at mid–Celestial Rank.

David's current combat power was partial Infinity Rank.

The difference between the two was so big, and there was no comparison at all.

Boom!

The black – robed man who transformed into a beast felt his vision blurring, and a burst of pain overwhelmed him before he could react. Then, his body was knocked away by a strong force.

David stood in place. He was just trying to get the feel of things. The man's scales were very hard, and the defense

was pretty high. That was why David could not kill the man with a single punch. Although it was just a regular punch, it was not something a mid–Celestial Rank could resist.

Meanwhile , David was dissatisfied with the effect of the punch, and his body disappeared in place again.

When he reappeared , he had already caught up with the black –robed man who was knocked into the air by him and still had not stopped.

The black-robed man was in excruciating pain, but David was by his side again before he could return to his senses.

The black-robed man's eyes narrowed.

'What kind of speed is this? How the hell am I going to continue fighting?

"There's no way for me to fight back at all!"

He wanted to make a defensive move, but David's soft palm immediately made contact with his chest.

Top combat skill: Air Crushing Slap!

This immediately shattered all of the black-robed man's internal organs.

Then, David grabbed the man's tail and returned to his original location.

David only used a split second to send the leader of the lead Sangruil Sinners flying. Immediately after, David chased after him again to deal him the final blow.

Astrid, her gang, and the more than a dozen Sangruil Sinner hybrids were the only ones left at the scene.

Astrid and the others were stunned.

'What's going on?

'Is he going just to ignore us?

There are so many human-beast hybrids here!'

Since the materialized mind power was transparent, they could not see it. Therefore, they did not know that David had a backup plan for them.

They only felt that David was very unreliable.

More than a dozen Sangruil Sinner hybrids were also left stunned.

'He left just like this? Isn't he giving us a window to act?'

As long as they captured Princess Astrid and returned to report the news, their mission would be completed, and the king would reward them.

Other than that, they could also continue to increase their combat power. Who would not want to be a Celestial Ranker?

"Go!"

Someone said this, and then dozens of hybrids acted at the same time. They quickly approached Astrid and the gang, extending their scaled claws to grab Astrid.

"Ah!"

Astrid and the gang screamed.

At the same time, they closed their eyes, waiting for disaster to come.

But after a while...

Bang bang bang!

More than a dozen loud sounds rang in their ears.

They were not hurt in any way. Then, Astrid and the others opened their eyes. They saw more than a dozen Sangruil Sinners hybrids with painful expressions on their faces.

They seemed to be blocked by an invisible barrier a few -meters away.

These people were very fast, so the sudden appearance of the invisible barrier caught them off guard, causing their claws, body, and head to slam into the barrier simultaneously. They were all feeling dizzy after the collision, and they had pained looks on their faces.

'What happened?'

The trio was curious.

Although it was not clear how this situation occurred, they all understood in their hearts that the young man who rescued them must have done this.

These Sangruil Sinners were naturally not pleased since their target was kept away from them.

Hence, they began to use all kinds of means to attack the mind barrier set up by David.

However, only a tiny ripple appeared after countless powerful attacks. They could not do any damage to it at all.

David's mind power had reached Celestial level 10, so only a partial Infinity Ranker could break it.

These Sangruil Sinners were all Cosmos Rankers, so they would not do anything to it even if they continued attacking for three days straight.

At first, Astrid and the gang were still nervous and scared the barrier would be broken. However, when they saw everyone being blocked outside, they started to calm down slowly.

This made them feel more and more curious about David.

He was so young, and yet, he was so terrifyingly strong.

He could even overpower a beginner Celestial Rank Sangruil Sinner.

Furthermore , he even possessed this freakish invisible barrier.
