

Chapter 5170

Charlie changed the subject, and said again: "However, once you get on the boat,"
"You will temporarily forget me as a person, and that I am your only master,"
"And forget that I just gave you a psychological suggestion,"
"And in your subconscious mind, you only need to firmly believe in one thing, that is:"

"You have completed all the work in the copper mine,"

"And firmly believe that everything inside the copper mine is going well without any abnormalities!"

"Except for this point Other than that, you follow your true nature in everything,"

"Be the special envoy when you should be the special envoy,"

"Practice your martial arts when you should practice your martial arts,"

"Play with your male favorite when you should play, you act as the original, and it is what it is! Can you understand me?"

Charlie's words made Reverend feel a little short-circuited.

However, after a few seconds, he figured out the content of Charlie's hint.

In fact, Charlie just wanted to give him a hint, a trigger condition.

When Reverend was not here, Charlie didn't need him to be used by him,

Nor did he need him to keep thinking that he was his master.

What Charlie needs is that when Reverend is not here, he is still himself.

He doesn't remember that he has any master, nor does he remember that he was given psychological hints,

So as to ensure that he has no influence in front of other people.

And once he got off the boat and in the copper mines, the real strong cues kicked in.

In this way, it can be ensured that Reverend will become a tool man as soon as he arrives here,

And when he leaves this place, he can return to normal and be himself.

The only difference is that in the deepest part of his subconscious,

Charlie gave him a hidden hint, firmly believing that there is nothing abnormal here.

This order is extremely simple, and it doesn't require Reverend to think about it,

Nor does he need to deal with any other variables for it.

Therefore, the impact of this deep psychological suggestion on Reverend will also be reduced to a limit.

What's more, Charlie also specifically hinted that he should follow his true colors, So that it would be more difficult for others to see the clues.

However, apart from Reverend, Charlie also controlled his favorite on the boat last night.

Right now, the same psychological hint needs to be given to that man as well.

So, he said to Reverend, "Go to the boat and bring your male pet over. I have something to tell him."

"Okay." Reverend nodded without thinking, and then immediately opened the door and went out.

Just after Reverend left, Charlie called Joseph, Leroy, 390, 547, and Joseph's master Jackson to the office.

After everyone came in, Charlie said: "Everyone, I have already solved Reverend's problem."

"In the future, as long as he is still a special envoy, he can temporarily avoid the monitoring of the Warriors Den."

"However, once this matter changes, I am afraid that this base will be in danger,"

"And everyone will have to evacuate from Cyprus immediately before the Warriors Den has mobilized enough troops to attack."

Leroy asked respectfully: "Sir, all of us add up to more than four thousand,"

"If we really need to evacuate, where can we evacuate to?"

Charlie smiled slightly and said with relief: "Don't worry about this,"

"The Cataclysmic Front is on the other side of this coast in Syria and is building a base that can accommodate 100,000 people."

"If necessary, I will ask him to transfer everyone to Syria."

Joseph said at this time: "Don't worry, everyone, Cataclysmic Front maneuvers from Syria,"

"And the response speed is much faster than Warriors Den maneuvers from other places."

"Moreover, judging from the current global mobility of the Warriors Den,"

"The number of dead soldiers they can mobilize around the world in a single day cannot exceed 2,000."

Joseph said this with confidence.

The strength of the Warriors Den is indeed very strong, and its influence spreads all over the world.

However, if they really want to concentrate their efforts on doing big things,

They are definitely not as good as Cataclysmic Front in this regard.

Even if it is a country whose military strength ranks above the middle in the world,

It is impossible to deploy tens of thousands of people around the world in a short period of time,

And there are tens of thousands of soldiers under the command of Cataclysmic Front,

And most of them are concentrated around Syria.

Therefore, in the Middle East, the Cataclysmic Front really doesn't have to be afraid of breaking the Warriors Den.

Joseph's words made Leroy, 390 and others breathe a sigh of relief.

After all, they all have families and have just seen the dawn of changing their destiny.

Under such circumstances, they naturally want to see More hope, see a greater success rate.

If there is Cataclysmic Front behind it as support, then everyone can completely rest assured and stick to it here.

Charlie said at this time: "Everyone must be clear about one thing."

"No matter how well we can hide it now, this base will be exposed sooner or later,"

"But the exposure is not terrible. As long as we are fully prepared,"

"We can definitely avoid unnecessary casualties."

Then, Charlie said again: "Listen well, once something happens to Reverend,"

"We will immediately evacuate everyone, but before evacuating,"

"You must completely destroy this base for me. I want Warriors Den to watch their hard work go to waste!"

The value of this copper mine is not high, but the value of the underground project under the copper mine,

Which is specially designed for dead soldiers, is immeasurable.

The construction cost of the entire underground project alone is estimated to start at one billion US dollars,

And when various hardware equipment is included, the cost is even more astronomical.

The most important thing is that it takes a lot of time to quietly build such an underground project,

And it may not be completed in eight or ten years.

This is the most distressing thing for the Warriors Den.

Leroy said: "Sir, with your permission, we can lay a blasting point underground in advance."

"Once needed, we only need to fill the blasting point with high explosives to blow up the entire underground fortification."

"Once the underground is destroyed, there will be a huge subsidence area on the ground, and the entire copper mine will have almost no rescue value."
