

# Chapter 5137

The aura in the antidote is minimal, which allows Charlie to conclude that,

The person who made the elixir must also be proficient in the aura,

But he is unable to guess the other party's cultivation through the elixir.

After all, the potency of this antidote is really a bit too low,

Charlie felt that its greatest use is not to be able to suppress the poison in the body of the person taking it,

But seems to be just to send a signal for the poison in his body to not rush to attack first for the time being.

As he looked at these antidotes, he couldn't help but speculate in his heart that,

If the Warriors Den had ten dead soldier bases around the world,

Then together with the dead soldiers, the families of the dead soldiers,

And the Cavalry guards, there would be at least tens of thousands of people.

In addition, there are also "scholars", "guides", "special envoys", and "governors" scattered around the world.

The company's staff is also a part of the "Uniform Guards", "Speedy Transport Company" and various other supporting personnel.

It is roughly estimated that there are at least 100,000 people under his command, or even more.

The vast majority of these more than 100,000 men have to take one antidote every week,

This means that the daily output of the Warriors Den will be 10,000 to 20,000 or more antidotes.

With such a large demand, it is impossible to let the master of aura in charge of the experts,

Otherwise, it is the same as the strongest of the small group of people,

Pressed in the manufacture of antidote sweatshops, is a really big material with small use.

Therefore, Charlie estimated that the Warriors Den should have a sizeable elixir processing base,

The lord, or those under his command who mastered the aura,

After refining the core elixir, to the processing base with a specific recipe for dilution.

At present, Charlie can find clues, basically have strong independence,

It is difficult to find an actual clue in Cyprus, with the organization's higher levels of connection.

But now it seems that the only thing that runs through all the links of the Warriors Den,

It is the production and transportation of the antidote.

The antidote is a real and actual link that will connect all the external organizational structures to it with the transportation route of the antidote,

And if he can find the output path of the antidote sent all the way down, he can find this elixir processing base.

This elixir processing base is not an independent existence isolated from the headquarters of the Den or the senior management,

Because the antidote it produces must have an elixir with spiritual energy as the core raw material,

So there must be an input path of spiritual energy elixir upstream of it.

Once he can find this input path, he may be able to follow the vine all the way to the real core of the Warriors Den.

Having made up his mind, Charlie then asked Reverend:

"You just said that the time and place for the antidote to arrive in Turkey are random,

Tell me specifically what the process is for you to receive the antidote."

Reverend said respectfully, "Generally, without any warning,"

"We will receive a coordinate and a six-digit return code sent via satellite communication,"

"The coordinate may be anywhere in Turkey, and we will rush over to receive it immediately after receiving the address."

Saying that, Reverend added, "They usually choose a wilderness ridge to place the safe,"

"And since the coordinates are accurate to the meter after we arrive at the designated coordinates,"

"We can soon find the location of the safe as long as we try to dig on the flat ground."

"Wilderness ridge?" Charlie couldn't help but frown.

It seems that this gang's process is indeed very meticulous,

The kind of place in the wilderness, there is no monitoring equipment,

And the other party first randomly chooses the location, so it is impossible to do it in advance to lay control.

And when the other party calmly placed the antidote,

There is still enough time to clean up all the clues, and then inform the other party of this coordination.

It is even possible that the other party may plant multiple safes in Turkey at once,

Only to announce the coordinates of one of the safes at intervals down the road.

In this way, it would be even more difficult to trace this line.

Then, Charlie asked, "Every time you guys go over to receive the safe deposit boxes,"

"Do you find any traces left behind when they placed the safe deposit boxes?"

"No." Reverend shook his head: "I also paid special attention to this,"

"But every time I received the antidote, I did not find any traces,"

"No footprints, nor wheel marks, nor they had special treatment when they left,"

"Or they had buried the safe long enough, the wind and sun naturally covered the traces they left, or maybe both. "

Charlie could not help but smacked his lips and asked him,

"What about after finding it? To give them feedback?"

Reverend said, "The safe has a password input area, but this area is not used to open the safe door,"

"But to send a return receipt to the organization,"

"As long as the correct return code is entered, the organization will be able to confirm that we have received it safely."

Hearing this, Charlie did not know for a while, what kind of method he should use to catch this clue of the other party's antidote.

At this time, the ship emitted a very piercing whistle,

While the speed of the ship also slowed down a lot,

Which made him realize that the ship was about to dock.

So, he immediately threw the antidote brought by Reverend back into the closet and wrapped up in one of the black robes,

Then he said to Reverend, "I will disguise myself as your deputy and go to the copper mine with you,"

"The way you handed over the pills to them before, is how you hand over it again this time."

Reverend nodded without thinking: "Yes, sir!"

After saying that, he also took a black robe, skillfully put on the body, and use a large hat to cover the whole head completely.

Charlie also followed the example of the black robe with the hood. Now his head was covered.

He found that the black robe's cap is very wide, and the cap part of the fabric is light sand,

Even if the cap will cover the whole face, it does not hinder vision.

Subsequently, Charlie and Reverend came to the door, looked at the martial artist who was standing still like a wooden board,

And said in a cold voice: "Listen, if anyone other than the two of us dares to enter this room, kill without amnesty!"

The other party was immediately controlled by Charlie's psychological implications,

And immediately nodded respectfully and said, "The subordinate follows orders!"
