Chapter 2599

Lucas was slightly stunned, then turned off the screen of her mobile phone, and showed her the mark on it:

“You never disinfect the screen of your mobile phone, right?”

Siena looked at the clear print on the phone screen, her face was slightly hot: “You are so smart, why didn’t I think of this.”

“I’ll install a software for you, and you can search foreign news later.” Lucas turned her phone back on. Siena thought it was miraculous, and immediately walked to his side to watch him operate.

His fingers were long and slender, with well-defined phalanges, and they were very beautiful.

Siena looked at the phone interface for a while, then stared at his hand intently.

“Young Master, will this save me from going to Yonroeville?”

Lucas: “You can go if you want.”

“Oh...then I’ll see if I want to go during the summer vacation.” Siena murmured, “If I don’t go to Yonroeville, then I’ll go to Aryadelle.”

Lucas did not answer. After downloading the software, he returned her mobile phone to Siena.

“You can use this browser.” Siena took the mobile phone and quickly thanked: “Young Master, thank you! You are amazing. I don’t even know this method.”

Lucas got up from the dining chair, feeling very stuffy, and wanted to go out to get some air.

Seeing him walking towards the door, Siena followed immediately.

“Young Master, are you going out? Where are you going? Do you want to buy something? I can buy it for you.” Siena said

politely, “It’s a bit cold outside, you’ll catch a cold if you go out wearing so little.”

Lucas turned around and came back, took the coat from the sofa and put it on: “I’m going out for a walk, don’t follow me.”

“Oh, okay! Then don’t go far away. It’s going to be dark soon.” After Siena finished speaking, Lucas strode out.

Seeing him walking out of the courtyard of the auxiliary building, Siena turned around and went to have dinner.

She filled a bowl of rice and walked to the dining room. After sitting down, she couldn’t help but turn on her phone, trying to see if

she could really search for news from Yonroeville. She clicked on the software downloaded by Lucas, entered the browser, and searched for the word 'Rebecca Jobin'.

Her heart beat violently when she pressed the search button.

She believed in Lucas, and believed that this search could find the information she wanted to see, so she was a little nervous and a little scared.

When the page about Rebecca Jobin appeared, she didn't even think about it, and immediately clicked on the first encyclopedia about Rebecca Jobin.

Rebecca Jobin, the daughter of Kyrie Jobin, the boss of Jobin Industries. At the age of twenty, she married Elliot, the boss of Sterling Group, and gave birth to a daughter. One year later, he was assassinated at home and his whole family was wiped out.

The case of killing the family of the Jobin family caused a great sensation in the society at that time.

.....

After seeing these messages, Siena couldn't stop crying. She used to be young, even though she knew her mother's name was Rebecca Jobin, but she couldn't find any relevant

information.

No wonder her mother-in-law always took her to hide when she was a child.

No wonder her mother-in-law insisted on her acting ugly to avoid the bad guys.

Was Elliot and Avery responsible for the case of killing the Jobin family?

Her biological father...is it really Elliot?

Why are they so cruel? Even if they don't want to recognize her as a daughter, they can completely ignore her, and they have to

kill all the members of the Jobin family to feel at ease?

Siena wiped away the tears from her eyes, entered the word 'Elliot' in the search box, and pressed the search button.
