Chapter 2613

For so many years, Elliot and Avery had been brooding over Haze's affairs.

They had been looking for Haze for so many years to no avail, and Wesley also tried to find a way, but unfortunately his ability was limited and he couldn't help.

Now, when he met Siena, he immediately had the idea that she was Haze.

There was indeed a probability in this world that two unrelated people would look alike, but the probability was very small.

in Lilly's room.

Lilly introduced everything in her room to Siena.

Most of the decorations, jewelry, and daily necessities in her room were gifts from her parents or relatives.

Because they sent too much, Lilly didn't need to buy anything by herself.

"Because I always knew that I was not the biological daughter of my parents, so when I first came to this family, I was always

very scared. I was afraid of being abandoned again."

After Lilly introduced the things in the room, she sat by the bed and

followed Siena talked in her heart, “I know you must understand my feelings. I dare not make mistakes, and I dare not be willful.

Fortunately, my parents and relatives have always been very kind to me over the years.”

“Lilly, don’t think about it. I can feel that your parents really treat you like a daughter. And your sister also treats you like a sister.”

“Yes. It’s just that I have no friends.” Lilly said.

“Why?” Siena recalled that Shea had indeed said that Lilly had no friends.

“I dare not make friends. Because I don’t know how to distinguish between true friends and fake friends.” Lilly told her about an

incident that happened when she was a child, “When I was in elementary school, there was a boy in the next class who always

liked to call me W!tch, he even called after me. One day I couldn’t help crying... After my mother found out about it, she told my

uncle. Guess how my uncle handled it?”

Siena said in her heart After “uncle” was converted into “Elliot”, she shook her head in fear.

“Uncle asked that boy to apologize to me in front of the whole school, and let that boy drop out of school.” Lilly was very grateful

to her uncle for protecting her at the beginning. After that time, no one in the school dared to bully her again. Everyone treated her respectfully, and many people treated her well. But she couldn't help but wonder if they were doing this because of their uncle.

How did they feel about her? She did not know. So she had never made friends.

Fortunately, Maria and some relatives' friends of the same age play together, so she wasn't as lonely.

"He is very kind to you." Siena said these words in an unconscious state.

Lilly: "Are you talking about my uncle?"

Siena: "Yeah."

"He doesn't talk much, but he is very kind. His biggest request for me and Maria is that we are both healthy and can spend more time with my mother because my mother is not in good health. Okay." Lilly said, with the corners of her mouth raised, "Actually, I want to study medicine. I want to be like my auntie, who can save many people. But studying medicine is too hard, and they are afraid that my body will not be able to bear it."

"That's right. Since they love you so much, it must be for your own good. Just listen to them." Siena envied Lilly for being so

happy for the past ten years.

She was really happy for Lilly.

“Well. Siena, what about you? How have you been living these years?” Lilly looked at Siena and said, “If you have difficulties in

life, I can help you, I can really help you... My uncle’s family is very rich, and they donate a lot of money to charity every year. In

fact, our family should not be poor. If I say I want to help you, they will definitely help you.”

“Lilly, thank you. I know you really want to help me, but my most difficult period has passed. I have no worries about food and clothing now. Otherwise, I wouldn’t have the money to buy a plane ticket.” Siena smiled and rejected Lilly’s kindness.

At night.

After dinner, Siena offered to help clean up the dishes.

“Siena, the nanny will take care of the dishes and chopsticks. You’re a guest, so I won’t let you do anything.” Wesley said, “I think

you have a white hair on your head, can you give me your white hair? Recently, I’ve been conducting medical research.”

Without even thinking about it, Siena immediately walked up to Wesley and showed her own head.
