

I'm A Quadrillionaire Chapter 1106

Chapter 1106 There were the choices 'yes' and 'no' below.

David did not hesitate before choosing yes.

Three days later, David opened his eyes.

At this moment, his eyes looked like two black holes. One would feel they were being sucked in when they looked into them. His temperament was completely different from three days ago. He exuded a fascinating charm in all of his movements.

David opened his system panel again.

[Lavish Points: 42174) He had spent thirty-eight thousand lavish points. His body and mind had come to Infinity level 10, and his combat had reached partial Eternal Ruler Rank

At the same time, David could also see the next standard for the next realm, just like he could for Star Realm and Universe Realm.

Star Realm had three levels: Satellite, Planet, and Stellar.

Meanwhile, there were also three Universe Realm levels: Cosmos, Celestial, and Infinity. It was the same for Eternal Realm: Ruler, Immortal, and Sovereign. David had no idea if there were more, but if he was right, there should be.

However, he was not at the level to know.

He was finally at the peak of the Milky Way.

David clenched his fist.

'Is this the power at partial Eternal Realm?

'It's so strong.'

David felt that Blue Star might not be able to contain him if he sneezed right now.

He had slightly over forty thousand lavish points right now. If he wanted to break through again to reach Eternal Realm, it would take him a hundred thousand lavish points.

However, David was not worried right now.

He was the strongest in the Milky Way now, so was there to be afraid of?

Next, he should hand the matters surrounding purchasing of chambers of commerce to Mia. He asked her to do it without restraints.

He would get rid of anyone who dared to stop her.

He was not scared of Emperor Nimbus, so who else would he be scared of?

After some time, he would get a hundred thousand lavish points. When the time came, even Emperor Nimbus would not be his opponent.

David thought about it.

He had no use for the remaining forty thousand lavish points right now. He should increase his Combat Skills and skills as these were useful.

Next, David upgraded his three Combat Skills and Ancient Traditional Medicine to perfection. He needed a hundred lavish points to upgrade from entry-level to expert.

Then, he needed two hundred lavish points to upgrade them from expert to master. Finally, he needed three hundred lavish points to upgrade them from master to perfection.

There were a total of four levels.

Three Combat Skills and one Skill cost him 2300 lavish points.

Finally, he only had 39874 lavish points left. He would be able to upgrade to Eternal Realm if he gained a little more than sixty thousand lavish points.

He was looking forward to the future. However, he first needed to eliminate the threat to Earth, the Tuffin family.

Chapter 1107

After David upgraded his Combat Skill and Skill, he did not leave the secret room immediately.

Instead, he took out the Nine Turning Star Iron.

At the same time, he opened the system panel to turn the iron into an Evil–Splitting Sword.

After the system checked the iron, a pop–up window appeared.

(This is a Nine Turning Star Iron, which can be turned into any weapon. However, there's a limit to its size, so it can only be made into a knife, sword, dagger, or any similar attack–type weapon. If you need it, please enter the weapon you want.)

David entered Evil–Splitting Sword,

A window appeared once again on the system panel.

(Host, are you sure you want to turn this Nine Turning Star Iron into an Evil–Splitting Sword? This will cost ten thousand lavish points.)

There were two choices below.

Yes and no.

“F*ck!”

David blurted out when he saw the amount needed to make an Evil-Splitting Sword. 'Isn't this just a stupid sword? Do you need ten thousand lavish points for it? 'Why don't you just rob me of it?'

However, David would still spend the lavish points after screaming at it.

Right now, David's combat level had reached partial Eternal Realm, which was the strongest in the Milky Way. It would be challenging if he wanted to break through again in a short period.

Because of this, he would not miss any chance to increase his strength.

The Evil-Splitting Sword and Evil-Splitting Sword Technique were a package, so he would be more powerful if he used them together.

'It's just ten thousand lavish points. I have almost forty thousand! I can afford it!'

He then selected yes.

A day later, David walked out of the secret room with a long dark red sword.

Then, he asked the Concord family members to help him make a wooden sheath so he could put the sword inside and carry it on his back.

From now on, the sword would be David's combat partner.

According to the system's introduction, the sword could slash through everything in the world. A Milky Way battleship or Galaxy Warship could not handle David's sword. David was ready. Next, he would take care of the Tuffin family, the hidden threat to Earth.

Then, he would fulfill his promise and go to visit Astrid in Planet Royal. While he was at it, he would meet Emperor Nimbus. This was mainly to see how strong Emperor Nimbus was. David would not dream of defeating him. He only wanted to confirm that Emperor Nimbus had no ways of dealing with him.

Nimbus was the strongest person in the Milky Way, and his combat power was through the roof.

If they were evenly matched, David could go back to Earth and live the life he wanted. If Celia and the others were willing to come out, he would bring them out to take a look and treat the trip as a holiday.

Even if he had just left Earth and constantly kept in contact with the women, David still wanted to return to Earth badly.

After all, Earth was his home, and his family and friends were all there. One had to return to their hometown in glory. If not, it would be meaningless. Right now, David was the most powerful person in the Milky Way and had reached the height countless people dreamed of.

He badly wanted to update Celia and the others on Earth of this.

Even after he came out and met Mia and Astrid, two of the four fairies, he still only had Celia and the others in his heart, even if they could not compare to the two fairies.

I'm A Quadrillionaire Chapter 1108

Chapter 1108 David only saw Mia and Astrid as his friends. If he had a choice, he would not hesitate to return to Earth to accompany Celia and the others, instead of staying and being amorous with the two fairies.

As for Mia and the Concord family, David would still make them his spokesperson in the Milky Way and continue buying chambers of commerce for him.

Even if David could do whatever he wanted in the Milky Way right now and he would not need to fear anyone, he still could not be too relaxed. Also, David had a hunch that the matter surrounding Princess Astrid's abduction and the Sangruil Sinners working with the Nine-Headed Serpent Clan would not end so easily and quickly.

A huge force that had disappeared for centuries suddenly showed up again, so they must have made a lot of preparations.

There might be a large-scale battle in the Milky Way soon.

This depended on whether Nimbus could handle it.

Due to this, there were no disadvantages to having more power.

David did not want to provoke anyone, but some people did not want to spare him. He had rescued Astrid and killed some Sangruil Sinners, so there was already grudges between them.

He could not be careless about this, and he had to remember this.

Before leaving Blue Star, David went to Mia and told her what he was thinking.

"Are you leaving Blue Star? Didn't you say you would stay for a while here? Why are you in such a hurry to leave?" Mia asked quickly.

"I have something important to take care of urgently, so I have to leave," David answered.

"Will you come back again?" Mia looked at him expectantly. "I am not sure, but I might not come to Blue Star any time soon. After I'm done with this, I plan to make a trip home," David replied honestly. He did not want to lie to Mia. After taking care of the Tuffin family and making a trip to Planet Royal, he would get ready to return to Earth.

That was his home, and many people were waiting for him.

David was just a passerby to Blue Star.

He came here to get enough lavish points to break through his barrier back then. Now that he had completed it beyond his expectations, he needed to take care of his business now.

"I see..." Mia was disappointed.

She thought he could stay on Blue Star with David for a long time. However, David wanted to leave after only a few days.

"Yeah, Mia. However, I need your help with something. I will start my own chamber of commerce. Then, I'll let you and your family run it. If there are any chambers of commerce for sale, please buy them and merge them with the established chamber of commerce so that it will become stronger. Money is not a problem. If you encounter any problem you can't solve, please contact me, and I will handle it," David said.

"Will you go to Planet Royal to see Princess Astrid?" "I will go after I'm done with my business."

"Can you bring me? You said you just came back from exploring, so you're unfamiliar with the Royal Region. If I'm around, I will spare you of a lot of trouble and problems. After all, I've been in the Royal Region for so long, so I know a lot about the place," Mia said suddenly. "Mia, thank you for your kindness. Truly. However, you just come back, and you just reunited with your family. Furthermore, your family has gone through such a huge catastrophe, so how can I ask you to ignore your family for my selfishness? So, you should stay with your family. If we were a few days late this time, you might never see them again. Nothing's more important than family," David rejected. Of course, he knew it would be better to have Mia around so he would not be so clueless.

However, Mia was being very transparent in what she wanted, including when she announced that she would withdraw from the four fairies.

David did not want any more women troubles.

He had enough of them but did not know how to handle them.

Right now, it would be best to avoid it.
