

I'm A Quadrillionaire chapter 1121

I'm A Quadrillionaire chapter 1121

Chapter 1121 Nelle looked at David, who was not far away, her face filled with surprise. She knew Santos' strength, since he was a peak mid-Infinity Ranker. However, Santos could not stop this person's slash. Moreover, this sword was too strong. Nelle felt that among the people she knew, only the head of Lunar Palace could fight with this person.

The two deputy heads would not be able to match him.

'Why is he here?

'From what he said, it's because the Tuffin family wanted to plant a slave mark on an indigenous living planet, and he was coincidentally there, so he stopped them.

'He's so strong and has such a strong sense of justice.

'It's rare to see this kind of people. 'When I return to Lunar Palace, I have to ask the head if they know him.

A silver masked man with a long red sword should be easy to identify.

After all, not many people could reach peak Infinity Rank in the Milky Way.

'Moreover, judging from his body, he shouldn't be too old, at least not an old man. However, he shouldn't be middle aged yet either. I wonder what that face under the mask looks like.' Nelle thought to herself.

Inside the Tuffin family's Milky Way Battleship, all of the family members were so scared they could not speak. They were all looking at David.

Fear spread from all over their body, including the head of the family.

They would never expect their powerful grandmaster to die like this in a million years.

Did this mean that their family was doomed? Once their grandmaster died, their only support would be gone. Who would protect the Tuffin family now? Even God wanted to eliminate their family!

"L-Lord Orson, w-what should we do?" Someone asked while stammering.

No one answered him.

'What should we do? Who knows?'

Even Lord Orson did not have the answer.

“W—Why don’t we run away? It’s too scary here. I want to go home,” someone suggested.

‘Run away? Where to? Can we even run away?’

‘Even the grandmaster can’t resist this seemingly plain-looking slash. ‘Undoubtedly, this person’s strength is already at the top of the Milky Way. ‘There won’t be a lot of people who can defeat him. ‘We won’t be able to escape from him.’

Orson could not understand. He only discovered an indigenous living planet. How did he offend such a terrifyingly strong person?

Even though the empire would not publicly allow something as heinous as planting a slave mark, no one would let the opportunity go if they encountered an indigenous living planet.

‘A lot of forces in the Milky Way have planted slave marks in secret too. ‘Why did they never meet such a righteous and powerful person, but we did? ‘Does God want to destroy my family? ‘I thought discovering an indigenous living planet would be the chance for us to rise again. ‘However, it became something that accelerated our deaths. ‘The grandmaster is dead, so the Tuffin family is finished!’

I’m A Quadrillionaire chapter 1122

I’m A Quadrillionaire chapter 1122

Chapter 1122 David looked at the vast planet he split in half which was now falling apart.

There was no one else staying on that planet. David scanned it with his mind power beforehand. If not, he would not have dared to do such a thing.

David was thrilled with the sword’s power.

The Evil—Splitting Sword with the Evil—Splitting *Sword* Technique was indeed bad*ss.

Most importantly, he did not even use a lot of strength. He just waved it to try its power, and that was all.

He did not expect to cause such huge damage.

He had taken care of Grandmaster Tuffin, so now it was on to the core.

David turned to look at the Tuffin family's Milky Way Battleship.

With just one look, the cores were so scared their hearts almost stopped.

David was like a grim reaper to them right now. "Since you treat others like ants that can be stepped on at any time. Then, can I step on you like you're ants too?" After David asked that, he waved his sword before waiting for a reply.

"No!"

The Tuffin family members only had time to say no before a red light flashed across their eyes and slashed through the Milky Way Battleship.

Boom!

The Milky Way Battleship which the Tuffin family was in turned into dust after a brief explosion. As for the cores inside, they all followed Grandmaster Tuffin's fate.

David had taken care of everything, so he turned into a flash of light and vanished at once.

He never looked at or spoke to the Dallarosa family this entire time, leaving them so shocked that they could not ever return to their senses.

After a while, Kruz exhaled and said, "Nellie, how's that person compared to the head of Lunar Palace?"

"It's hard to say. That person should be on the same level as the head, both peak Infinity Rankers. I can't tell who will win in a battle. After all, they have never fought before. However, I'm sure he's on the same level as the head," Nelle answered. "It's rare to meet anyone on the same level as the head of Lunar Palace. He's already at the peak of the Milky Way, so I'm sure he won't be unknown. I wonder why he's wearing the mask. He's just destroying the Tuffin family. Would someone at his level have to worry that someone will recognize him? Who would dare to seek revenge on him?" "Perhaps it's a habit of his. Although some people are terrifyingly strong, they have weird

personalities. I'll ask the head when I go back. She should know who this is. He's wearing a silver mask and carries a long red sword. I'm sure it'll be easy to identify him."

"What a pity! He never once looked at us. I'm sure he thinks we're just ants like the Tuffin family. We'll prosper if we can speak to him and build a connection with him. Perhaps we can even become one of the eight prominent families soon," Kruz shook his head and sighed.

He felt annoyed that he did not seize this opportunity. 'That man does not seem to be a strange and reclusive blood-thirsty murderer. 'Was it necessary to say so many things and ask so many questions before killing someone? 'If he were just a blood-thirsty murderer, he wouldn't say so many things before killing Santos.

'Perhaps, he might have even killed us all together.

If we can build a connection with him, our family will benefit greatly.'

However, Kruz felt so much pressure before this character that he could not say anything. "Yeah. If we can build a connection with him, we'll get so many benefits. Too bad he never looked at us. Grandpa, with your experience, how old do you think he is?" Nelle asked.

"It's hard to say. After all, he's wearing a mask, and as a human's realm and strength increase, the cells of their organs will be rejuvenated. If he broke through Universe Realm and reached the legendary Eternal Realm, he would have a life span of more than ten thousand years. However, from what I know, he should not be too old," Kruz pondered before saying.

"Alright, I understand. Grandpa, let's go back. The Tuffin family is doomed, and we must go back as quickly as possible to loot them. Then, we'll be able to stand as one of the eight prominent families." "We're finally taking this step. From here on out, the Dallarosa's glory will be on full display. Let's go back!"

Kruz and Nelle went back to the Milky Way Battleship.

The three Milky Way Battleships moved further away gradually. Even though they lost one of the ships, they have gotten more than they expected. At this moment, Nelle wanted to settle her family's matters as soon as possible so she could return to Lunar Palace to share what she saw today with the head. She wanted to see if the head knew that man. She wanted to know who he was. Even though she knew the two of them had a huge difference in status, this did not stop Nelle from admiring him.

I'm A Quadrillionaire chapter 1123

I'm A Quadrillionaire chapter 1123

Chapter 1123 After taking care of the Tuffin family, David felt much more at ease.

had finally avenged David and Earth in another timeline. He could finally present himself

to that old man.

One had to know that David and Earth in another timeline had a slave mark planted on them by the Tuffin family. They never got to make a comeback after this.

With the benefit of the slave mark, Pavan prospered and became a peerless talent in the Milky Way.

A few thousand years ago, he even became the Master of the Milky Way. One could say he was very well-off.

Unfortunately, Pavan died early on in this timeline.

Now, the Tuffin family was also completely doomed.

Grandmaster Tuffin and the cores were mostly dead. The rest of them could not do anything significant anyway.

Besides, the Dallarosa family would not keep them around either.

Everyone in these big forces knew to completely settle accounts. David would not need to worry about this anymore. He quickly returned to the Octagon.

Mia came to him when he entered the ship and shrieked happily, "David, you're back!"

"Yeah, I've taken care of the Tuffin family. Let's go," David said. "Where are we going now?" Mia asked.

She did not ask how David got rid of them.

Even though she was curious, she would not ask. Mia had been wandering the Milky Way for so long, so she knew the rules of this place. Since she decided to follow David, then she should view him as her master.

"Let's go to Planet Royal to meet Princess Astrid. Once we fulfill our promise, I'll make a trip home," David thought for a while before saying.

"Alright, David! Let's head to Planet Royal. However, I have a suggestion."

"Mia, you don't need to hold yourself back when you're with me. You can just tell me your suggestions and opinions. I prefer if we all get along equally," David said with a grin.

Mia looked at David's warm smile and listened to what he said.

She felt she had made the right decision.

This was the best decision she had made in her life.

David was not the same as the other big shots. He did not share their bad habits, and it was

nice staying with him. “I got it. David, I think we should use another form of transportation. Even though the Octagon was not bad, it is miles apart from a Milky Way Battleship or Galaxy Warship. It can’t compare to those two at all, and it is much slower. It’s such a waste of time.” David figured this was a good suggestion. It was indeed time to change their vehicle.

Right now, he was the strongest in the Milky Way, and the Octagon was too lacking for his status mainly because it was too slow and time-consuming

So, David said, “Mia, your suggestion is great. Do you have any channels I can buy one? Money is not a problem.”

“David, you need a certain status and contribution to the empire before you can buy a tactical military weapon like the Milky Way Battleship. However, with our relationship with Princess Astrid, I don’t think this will be a problem for us. When we get to Planet Royal, I’ll mention this to Princess Astrid. I don’t think she will say no to us.”

“Alright, I’ll leave this to you. We’ll change the Octagon on Planet Royal. Also, I’ll give you a list in two days time. Please buy those things for me in the name of the chamber of commerce,” David said.

Since he was going back to Earth, he would buy some things.

“No problem,” Mia answered.

“There will be quite a lot of items, so please pay attention,” David added. “As long as the empire does not ban them, it won’t be a problem. You can get it on the black market even if it’s banned. However, I can’t guarantee the quantity.”

“Great. Thank you.”

“You’re welcome. This is what I should do.” The Octagon headed toward Planet Royal. David brought Mia to a secluded corner of the Octagon. There was a room here that was being used to imprison Nine and Lone.

David kept the two around this entire time. He thought they would be useful for him to defeat the Tuffin family. However, he did not expect to be so lucky to get a precious Nine Turning Star Iron once he came to the Royal Region.

I’m A Quadrillionaire chapter 1124

I’m A Quadrillionaire chapter 1124

Chapter 1124 Not only did he raise his strength to this level, but he also got such a powerful Evil-Splitting Sword. Since the Tuffin family was gone, those two were useless. David was not a blood-thirsty murderer, but he would not let them go because they knew where Earth was.

David would not allow such hidden danger, not even a tiny one, to exist. When Nine saw David and Mia, he quickly stood up and said, staring at David, "David, what the hell do you want? Listen, you better let us go. If not, my family will not spare you." "The Tuffin family will be wiped out soon, and I'm here to send you to hell. You'll be able to see your family soon," David said with no expression. "Impossible! The grandmaster is still around. How will it be wiped out?" Nine yelled and retorted.

"David, you're spewing nonsense. We won't believe you. Let us go now! If not, you'll die a horrible death, Earth will be destroyed, and you will cause the death of everyone on Earth. You'll be the sinner of Earth, and your enemies will..."

Before lone could finish, David looked at her with a sinister gaze. She was so scared she immediately shut her mouth.

David did not want to waste his breath with them anymore. With a wave of his hand, two tiny silver needles shot out and stabbed into lone and Nine's foreheads before they could react.

Then, their brains turned into slime. "You... You..."

The two widened their eyes and stopped breathing.

After taking care of the two, David turned to leave.

Mia followed behind him, never saying a single word.

She had a lot of questions in her heart, but she would not ask if David did not tell her.

Planet Tuffin. As the guards were watching the cores' life plaques, they refused to believe what they were seeing in front of them.

Not only were Grandmaster Tuffin and Lord Orson dead, but more than 90% of the cores were dead.

"Oh no! Oh no! This is bad!" The guard watched the life plaques lost his mind and start muttering. Once word about this got out, a panicked atmosphere filled the entire Tuffin family.

The direct descendants who stayed home and the collateral descendants were all shocked. After they confirmed the news, the entire family plunged into silence.

Clearly, their family was doomed.

Their remaining power was not enough to fight against the Dallarosa family. If they stayed, they would just be waiting for death. So, after they registered what was going on, they tacitly packed everything the Tuffin family owned and left with their family. The entire Planet Tuffin was in chaos.

The Tuffin family, who maintained the order, had collapsed. Naturally, this would cause intense turbulence in Planet Tuffin.

There were even murder, arson, and looting going around. Some more powerful people started using their strength to get more benefits. Meanwhile, the ordinary people could not fight back and could only be victims. A panicked atmosphere started spreading across the entire Planet Tuffin. At this time, the people from the Dallarosa family were heading toward Planet Tuffin. Without the Tuffin family, they needed to take over everything the Tuffin family had and replace them to become one of the eighth prominent families of the Milky Way.
