I'm A Quadrillionaire chapter 1155

Chapter 1155 When the Grim family's cores were looking at the Octagon blankly and not knowing what to do, the Octagon's hatch opened. The cores' eyes narrowed, and they saw David walk out. Mia had a wooden box on her back as she followed behind David.

The two stood in the void and looked at the Grim family, who were more than a hundred kilometers away

"Lucifer, do you regret what you've done after seeing that?" David asked. "H—How did you do that?" Lucifer pointed at David, his face filled with shock.

He could not understand how David destroyed so many of his family's vessels with just his voice.

Not only that, but the four grandmasters were also thrown hundreds of kilometers away.

Lucifer would have never imagined this.

After Lucifer said that, he heard a voice behind him. "Kneel!" Then, he felt an overwhelming force on him. After that, he knelt in the void involuntarily. Lucifer turned around in disbelief. The person who asked him to kneel just now was Grandmaster. "Grandmaster!" Lucifer cried. "Shut up! Apologize to David now!" Marino said sternly. "Grandmaster, I..." Before Lucifer could finish, Marino interrupted him. "I asked you to apologize to him!" Marino stared at Lucifer and said word by word. Right now, he was seething. The Grim family worked hard for generations and finally got to where they were right now. They were lucky enough to be among the eight prominent families and were even ranked fourth.

Marino did not expect to suffer such a massive loss because they accidentally offended someone,

Countless of their vessels had turned to dust. The destroyed vehicles made up two-thirds of their vessels and were accumulation over hundreds of years. Now, they were all gone.

Moreover, the other party did not seem like he would stop. If they were not careful, their family would be wiped out today. In addition, the person who did all this was Lucifer, the family's lucky star. Right now, Marino did not think that Lucifer was a lucky star. He was clearly a troublemaker. Marino was so remorseful. If he did not let Lucifer out, would their family be in such a compromising position right now? Lucifer looked at the

grandmaster's angry eyes and knew he was being serious. His heart grew cold as he recalled how the grandmaster was also thrown hundreds of kilometers away by that sound. The grandmaster might have known he was not David's opponent, so that was why he showed this expression. If not, he would have sought revenge after the family suffered such a huge loss.

He would not allow David to act so arrogantly.

Even if Lucifer did not want to believe this possibility, he had to admit it was still possible. If he wanted to survive, he had to admit his mistakes, apologize, and get David to forgive him. "D—David, Dance Fairy, I offended you. I hope a person with great moral stature like you won't remember my faults. Please let me and my family go. I will never forget your grace and kindness," Lucifer said humbly. He thought this through and realized that if he wanted to stay alive, he could only be humble.

Chapter 156 After all, nothing was more important than his life. He would have nothing if he lost his life.

If he was alive and had his family, he would still be Master Lucifer to the outsiders.

Mia was in disbelief as she looked at Lucifer kneeling from a distance. 'What's going on? Master Lucifer, from the fourth-ranked family among the eight prominent families, is kneeling and asking for forgiveness from me?'

She needed to look up to someone like Lucifer before she followed David.

Right now, he was kneeling and asking her for forgiveness.

"David, I know there's a misunderstanding between you and Lucifer. Now that he's kneeling and admitting his mistakes, please spare him. From now on, you'll be our family's honorable guest. You can ask anything from us, and we will try our best to fulfill your wishes," Grandmaster Marino said from one side.

He was not confident that he would defeat David.

Marino had to admit that he could not do what David did. It did not matter how David managed to destroy so many ships with his voice as well as throw the four Infinity Rankers back.

It was easy to destroy the ships, but throwing three beginner Infinity Rankers and one mid Infinity Ranker back was not easy.

Therefore, he could only admit defeat.

“You recognize your mistakes now? But unfortunately, it’s too late,” David said expressionlessly.

“David, please show due respect to me,” Marino said in a deep voice. “Are you their grandmaster?” David asked.

“Yes, I am Marino, the Grim family’s grandmaster. Please show me due respect, David. We will remember this,” Marino answered.

“I can spare you, but you have to agree to one of my request.” Marino, Lucifer, and the Grim family’s core sighed in relief when they heard David say that Finally, things did not develop in a direction they could not control. However, Marino had a new idea.

‘Does it mean he can only use that powerful technique once?’

‘If not, why would David go easy on them if he had such a huge advantage over them?’

‘Does he not know not to sow the seeds of calamity?’

No!

‘I have to probe him when I get the chance.’

‘If he can only use that method once, then I will make him pay for the losses he caused.’

Marino thought inside his heart. However, he said, “David, please tell us. As long as we can do it, we will do our best to fulfill

you.”

“Since you’re their grandmaster, you should be the strongest in the family, right?”

“Yes!”

“Then you should try blocking my sword. If you can, I’ll spare all of you.” After David said that, the wooden sheath on Mia’s back opened automatically. A long red sword flew out and landed in David’s right hand. Then, David performed some tricks with the sword, and the long red sword drew some lines in the void.

What David said shocked everyone in the Grim family.

No one expected such a request from him.

David did not look too old.

The grandmaster had been living for thousands of years and was a mid-Infinity Ranker.

Even so, David was asking him to block his sword? How incomprehensible!

Marino looked at David and did not rush to answer.

It was as if he was trying to read David's mind, but he could not.

David held his long red sword and stood in the void, waiting for Marino's answer.

However, no one answered him even after some time.

So, he chuckled lightly and said, "So? Are you scared? You're a mid-Infinity Ranker, but you're scared of my sword?" "Are you serious?" Marino asked. "Of course! I never joke around," David answered. "Alright, I'll block your sword and see what you truly got." "That's more like it," David smiled and said.

Chapter 1157 The scene fell into silence. Everyone looked at David and Marino nervously.

"Are you ready?" David asked casually.

"Ready when you are," Marino answered.

He did not think David would be too strong at his young age.

However, he had to pay attention to see if others in the Octagon would attack him in secret.

So, Marino's eyes were glued on the Octagon behind David. On the other hand, he was not bothered by David at all. Marino kept feeling like there should be someone strong inside the Octagon. That was probably why a youngster like David was so arrogant and confident.

"Alright, Marino. Since you're willing to try to block my attack, I won't care whether you can successfully catch it or not. From now on, I will not owe anything to your family."

David stopped spouting nonsense. After he said that, he lifted his Evil-Splitting Sword, swirled it around, and held it in front of his chest. Then, he swung it from left to right.

He looked confident and at ease, and he did not look like he had any killing intent at all.

Instead, he looked like he was performing. It looked nice, but it would not harm anyone. At the same time, there was no energy coming from it.

The Grim family members from hundreds of kilometers away thought David was just taking them for fools. After he waved his sword around, David turned and walked back to Mia. Putting the Evil Splitting Sword into the wooden sheath, he said calmly, "Let's go." Then, he walked back to the Octagon.

Mia was confused.

"That's all?"

'Isn't this child's play?' However, she still followed behind David.

She secretly turned back to look at the Grimms far away during the process.

Marino took his best position when David waved his sword at him.

He emitted all of his power as a mid-Infinity Ranker. However, he felt insulted after David waved his sword and left. At this moment, he understood why David said they would not owe each other anything, whether or not Marino could not block the sword.

This was to give himself a chance to escape.

As a mid-Infinity Ranker and someone whose words carried enormous weight in the Grim

family, Marino was utterly fooled by this young man. He was enraged and amused. It had been so long since Marino fought someone. When did he become so cowardly?

Even though quite a few people in the Milky Way could reach late Infinity Rank and defeat him, they were few and far in between.

Furthermore, they were all giants in the Milky Way. Even if Lucifer offended someone the family could not afford to offend, they would not come to the Grim family in an Octagon to demand an explanation. Instead, they would send a message to the family and ask them to bring Lucifer over to apologize to them.

That was the way the top forces would do things.

It was only reasonable that David had picked up some unknown technique from an ancient relic. They had seen how powerful it was, so this went without saying. However, David definitely could not use it an unlimited number of times. After this, he thought he could move unhindered in the Milky Way and not be scared of anyone. This was why all

this happened. 'This young man is so ridiculous. 'He doesn't know that external power will only ever be external, and you must rely on your own strength.' "Grandmaster!"

"Grandmaster!"

"Grandmaster!"

The Grims started calling out.

Clearly, they did not want David to leave so easily.

"David, is this the sword you wanted me to block? Do you think it's fun fooling us like this? You caused so much damage to my family today, and you want to leave just like that? Don't you think you're underestimating us?"

Chapter 1158 Marino looked at David, who was about to step into the Octagon, and said maliciously.

As David stepped into the Octagon, he stopped and turned to look at the Grims from far away.

He smiled and said, "Fun? I'm not fooling around with you all. As for whether I am underestimating you all, to be honest, I am. You should decide if you want to kill me after you block my sword." After David said that, he turned to leave. Then, he lifted his left hand and snapped his fingers before entering the Octagon. Snap! The snap filled the Grims' ears. Marino was about to stop David when he suddenly felt goosebumps all over him.

Not only him, the rest of the family members felt the aura of death overwhelming them, and they were beyond shocked. "Run! Leave this place now!" Marino yelled at his family members behind him. At the same time, he released his mid-Infinity Ranker combat power to try to stop this sudden crisis.

A red light appeared before the Grims.

It looked so thin and harmless.

However, it was emitting a cold aura of death, making all of the Grims feel like they were plunging into an ice cave.

The red light was moving quickly. In a blink of an eye, it silently arrived before Marino, the strongest grandmaster of the Grim family.

When Marino tried to stop it, the light penetrated Marino's body like an infrared ray. It moved unhindered and amuck, penetrating all the Grims in a blink of an eye.

Then, it disappeared into the void.

Marino and his family members stopped moving,

If one looked closely, one could see utterly horrified looks on all of their faces. Marino looked at the Octagon from hundreds of kilometers away in disbelief.

'What was that?'

It was silent and could move slowly or quickly as it pleased. If one described it as fast, it took so long to travel hundreds of kilometers. However, if one described it as slow, the Grims had no time to hide after they finally noticed it. Moreover, it was also terrifyingly strong. Even an Infinity Ranker like Marino could not stop it.

In a blink of an eye, it penetrated the Grims and chopped them in half. Right now, the Grims were on their dying breaths. Since the red light was too fast, their bodies did not have time to react, so they did not die immediately. At this moment, David's sword finally showed its power. The remaining power from the sword started taking effect in the Grims' bodies.

The places where David's sword passed through their bodies started disappearing. Some started from their chests, while others started on their stomachs or thighs.

In short, no one managed to escape. It was as if something was eating their bodies. How would it feel to have someone watch their bodies disappearing slowly before they died? Right now, the Grims were learning from experience. The darkness slowly devoured them while they were panicking. Marino glared at the Octagon from far away. Until now, he still could not believe David was the one who dealt him that terrifying strike. He still thought David had gotten external help. "D-David! Y-You cheated!" After Marino said that, his eyes became dark, and his body disappeared from the void. Now, all the core members of the Grim family, ranked fourth among the eight prominent families of the Milky Way Empire, were wiped out. None of their corpses remained.
