

I'm A Quadrillionaire chapter 1217

Chapter 1217

After taking care of these troublemaking Sangruil Sinners, the Galaxy Warship continued heading into the Royal Region.

Its next destination would be Blue Star, where the Concord family resided.

With David's initial deterrence, almost all of Blue Star's forces looked up to the Concord family.

Even though the Concord family had the absolute right of speech on Blue Star, they did not have enough history, so they did not have the power to control the entire planet.

A family's prestige would need to be built up over a long period.

With the Concord family's current strength, if they developed normally, they would need at least decades or centuries of development to reach that

stage.

They still had a long time to go.

However, with the support of David, someone at partial Eternal Realm, the Concord family did not need to take that long.

Moreover, as David slowly displayed his true strength, the Concord family would rise according to the situation.

The Concord family's position would skyrocket when David's strength was finally exposed in front of everyone.

No one in the Milky Way would dare to provoke them, even if they did not have much history.

Light Star.

As the king of Sangruil, Moe naturally had a unique way of finding out about the lives and deaths of his higher-ups.

Moe flew into a rage after finding out two Infinity Rankers and three peak Celestial Rankers were dead.

They were the backbones of Sangruil.

They were important figures for when Sangruil finally controlled the Milky Way.

Now, a third of them had died.

If this continued, Sangruil would have a shortage of manpower after they wiped out the Barlowe family and seized control of the Milky Way Empire.

Moe was seething.

The Milky Way was vast, with many forces, big and small.

Someone at partial Eternal Realm like him could only suppress them for a short while, but not forever.

Even if these forces seemed to obey Sangruil on the surface, Moe would not know if they decided to work together in the dark.

He could not visit the forces one by one to verify their relationship.

What Sangruil lacked the most right now was a powerful weapon like the empire's four internal halls.

Unfortunately, their foundation had been exhausted after struggling for thousands of years.

Right now, he could not let anyone who was Infinity Rankers and above die in battle.

"B*stards! Didn't I tell them to hide and not do anything for the time being? Why did two more Infinity Rankers and three more peak Celestial Rankers die? Are they not listening to me? We have lost so many Infinity Rankers these past few days. If this continues, how will we take over the Milky Way? How are we going to return Sangruil's glory?"

Moe cursed and vented the anger in his heart.

"Please calm down, Your Majesty. Azure Dragon and White Tiger Internal Halls are too powerful. No one can escape from them if they are discovered. It's likely they didn't retreat in time, and that's why there's such a huge loss," an old man said.

"Powerful? So what? Do you think those four internal halls can save the Milky Way Empire? Nimbus and Wilfred can't even do that, let alone the others. I'll let them have fun for a few more days. Spread the word. No one is allowed to appear, and they should all stay put and wait for the state banquet. After that, they should wait for my order to head to Planet Royal

together to conquer it. We'll start with the Barlowe family.”

“Yes, Your Majesty!” The old man replied respectfully.

Soon, all of the Sangruil Sinners got the order.

No one was allowed to take action without explicit approval.

If not, they would be punished severely even if they succeeded.

The only thing they needed to do was wait until the state banquet.

When the time came, King Moe would lead everyone to attack Planet Royal and take back everything that used to belong to Sangruil.

Who would dare to show up when Azure Dragon and White Tiger Internal Halls patrolled?

The Sangruil Sinners were not fools unless they had a death wish.

Meanwhile, the people David killed were just deemed an unfortunate accident.

I'm A Quadrillionaire chapter 1218

Chapter 1218

Blue Star.

David and Mia arrived at the planet in the Galaxy Warship.

The moment they arrived, they alerted all of the forces in Blue Star.

They all came forward to curry favors with David to get a close relationship with him.

How could an ordinary person visit them in a Galaxy Warship?

David surely had an astronomically powerful force supporting him, and that was why he could travel in a Galaxy Warship.

One must know that even Gunnar, the head of the Drake family, the first family amongst the eight prominent families, would only travel using a Milky Way Battleship.

Due to this, the force behind David was a little terrifying.

Only a few families in the Royal Region were more powerful than the Drake family. One could count all of them on two hands.

Hence, they needed to rely on David to seize the only chance to get out of Blue Star.

David also met Blue Star's forces courteously.

At the same time, he announced that the Concord family would be his spokesperson. Blue Star would also be East League Chamber of Commerce's base in the future, and he hoped everyone would support him.

This was also to help with the Concord family's reputation.

Of course, the forces on Blue Star would not say no to David's statement.

They were dying to curry favors with David, so they all proclaimed they would fully support East League Chamber of Commerce's development.

At the same time, they hoped they could join the chamber of commerce.

This was exactly what David was looking for. It would be better for East League Chamber of Commerce to develop faster.

A chamber of commerce would need a lot of money at the starting stage.

David was desperate for more people to spend money for him.

Right now, he still needed more than nine thousand lavish points to get to a hundred thousand.

Once he got ten thousand lavish points, David could break through his current realm to get to Eternal Realm.

This was a realm that even the number one of the Milky Way, Emperor Nimbus, could not reach.

Right now, David was not scared of Nimbus. As for who was stronger, he had no idea as they had never had a duel.

However, David could crush Nimbus once he broke through to Eternal Realm.

These were two completely different levels.

Despite this, David was not in a hurry to upgrade his combat power.

Back then, he was in a hurry because he had to get rid of the Tuffin family, a hidden danger to Earth.

Hence, he had to upgrade his combat power as soon as possible to get rid of it.

Now, the Tuffin family had been wiped out, and Earth's crisis was completely dealt with. Furthermore, he was standing at the peak of the Milky Way and on the same level as Emperor Nimbus.

No one in the Milky Way could threaten him again. Hence, David did not feel the urgency anymore.

Most importantly, he did not have any ambitions or desires.

He did not want to take over or rule the Milky Way, let alone be the Ruler of the Universe. He was not interested in any of that.

David planned to go back to Earth after the state banquet to get Celia and **the** others. Then, he would fulfill his promise to the old man in another timeline. At the same time, he would show Celia and the others a whole new world.

David would go to all the planets in his head. He would protect those who needed protection and save those who needed saving.

After he was done, David planned to bring Celia and the others back to Earth to live in seclusion.

He wanted to live with the people he loved in a familiar place. After that, he would have a few children, and no one could disturb him anymore.

David figured this would be the perfect life.

He could continue developing the chamber of commerce and not bother about the lavish points.

Anyway, there was not much difference in Eternal Realm or any other higher realms in the Milky Way.

As for the power struggle or ambitions to take over the universe, David had no interest in any of that.
