### Chapter 1317

"Of course, I want to, but I can't leave now. I might venture out in the future, but not now," David said, shaking his head.

"You... Sigh. David, to be honest, I admire you a lot. I don't want to see you waste your time in this small place. Right now, it's time for you to work as hard as possible and catch up vigorously. If not, you will always be miles away from those guys. If you don't catch up now, the gap between you and them will only continue to grow bigger."

"I know, but I don't care. Everyone has something they value in their hearts, and this is not my ambition. Therefore, you don't have to try to change my mind, Amadi."

"Why won't you listen to me? Why are you so stubborn?" Amadi said helplessly.

The scene fell into silence.

Amadi had said what he needed to say, and he had no idea how to make David leave this place.

He had humbled himself, but David refused to give in.

If it were someone else, Amadi would not waste his breath.

The reason David worked so hard to improve himself was to protect his homeland and his family. Thus, he would not leave Earth.

As for taking Celia and the others with him, there were too many uncertainties with this plan.

It would be fine if they stayed in the Milky Way. After all, he was the master of this place.

However, if they left the Milky Way, there were too many people stronger than him, and David might not be able to handle the situation.

It would be better to stay safely on Earth and accompany Celia and the others for the rest of their lives.

At least, they could live happily in the following days.

It would be even better if they could have children.

David was not ambitious. He was the same even if he was already at Eternal Realm.

Celia and the others were more important in his heart than contending for supremacy with the chosen ones or obtaining ultimate power.

At this moment, Celeste looked at Selena and asked, "Little girl, what's your name?"

Selena was stunned and said, "Me?"

She had noticed Celeste staring at her a long time ago.

So, when Celeste was asking this question, she instinctively felt that it should be directed to her.

"Yes, you. What's your name?"

Celeste had a grin on her face. She looked as if she was deceiving an innocent kid.

"Ma'am, my name is Selena King," Selena answered courteously.

"Selena King? What a nice name! Are you interested in following me? I'll take you away from here to see the outside world. The outside world is so magnificent that you'll never forget it," Celeste asked expectantly.

Amadi was dumbstruck.

'Is Ms. Celeste taking a disciple?

'How is this possible?

'So many of the exceptional chosen ones from good families wanted Celeste to take them as disciples back then but she rejected all of them.

'She has been alone all these years and never accepted any disciples.

'But now, she's voluntarily taking this woman as her disciple?

'And she's from a low-level civilization.

"Something's wrong.

There must be more to this."

Amadi quickly used his Star Observation Skill.

This time, his target was not David, but Selena.

After a while, Amadi shook his head which was starting to throb.

This was the consequence of using the Star Observation Skill.

Even if the Star Observation Skill was a skill from the Star Mansion, Amadi should not use it so many times consecutively.

Just now, Amadi had used it on David, so if he used it again, it would be a little too much.

However, he saw through Selena.

‘She’s just a beginner Satellite Ranker.

‘She’s pretty talented, but there’s nothing special about her.

‘This shouldn’t be the reason.’

Amadi was confused.

His Star Observation Skill could see through Selena clearly.

## I’m A Quadrillionaire chapter 1318

### Chapter 1318

There was nothing special about her.

Even though she was talented, she was miles apart compared to those chosen ones who wanted Celeste to take them as disciples.

However, since Celeste was voluntarily taking Selena as her disciple, there must be something Amadi did not know

As for what it was, Amadi had no clue

It seemed that he needed to improve his Star Observation Skill

He still needed to train it when he got back.

“Huh?”

Selena’s brain could not register what was going on.

“What’s going on?”

“Why is this beautiful woman offering to take me away to see the outside world?

She can't fool me with that nonsense.’

If Celeste were a man, Selena could still understand.

After all, her looks had dominated countless men. However, this was a pretty woman who was emitting an alluring aura.

Plus, Selena felt that this woman was even more attractive than her.

This was evident from the mesmerized looks on the men's faces when they looked at her.

They were all charmed when this woman walked past them.

Only a few people were not affected. Among the ones who were not affected, aside from David, who was still young, the rest were all old men. They had no lust in their heart anymore, so they were immune to this.

Selena knew how strong David's willpower was.

He had so many beautiful women around him back then, and all of them were scantily clad.

However, he was not moved at all.

Selena and the others fell deeply for this part of David.

He would not accept anyone easily. Once he did, he would be responsible for them until the day he died.

“What do you mean huh? Little girl, come with me. This place is too small. You won't achieve anything if you stay here. It might even waste you..”

Celeste stopped just in time and did not say the last word.

“Ma'am, you want to take me as your disciple?” Selena finally understood.

“If you're willing, I'll be fine with that. I'm also fine if you don't want to be my disciple. You can follow me and we'll be sisters. What do you think?”

Celeste looked like a wolf luring a bunny.

On one side, Amadi had no idea how to describe how he was feeling now.

It was fine that David was immune to his Star Observation Skill in this small place, and now, Celeste was trying to make a woman her disciple.

Amadi looked at the others.

He noticed a few of the women on this planet were pretty talented.

Even if they were not exceptional, they would achieve great things if they were well-cultivated.

This small planet was such a paradise.

Selena did not know what to say, so she looked at David hoping that he could give her some hints.

If it was back then, Selena would not hesitate to reject Celeste.

However, ever since David got into Eternal Realm and told her everyone at Eternal Realm could live forever, she started to have other ideas.

It was not that she wanted to live forever. On the contrary, she did not want David to see her when she was old. At the same time, she also wished she could always stay with David.

However, Selena did not know if Celeste was telling the truth or if she could really help her get into Eternal Realm.

If Celeste could not, then Selena would rather stay with David forever and appreciate her coming days.

### Chapter 1319

Naturally, David felt Selena's inquisitive gaze.

Judging from the position of the group of six, Amadi and the pretty middle-aged woman were standing in front, so they undoubtedly held the highest positions.

Meanwhile, Amadi called the woman Ms. Celeste, so clearly, the middle-aged woman was his senior.

'Does this also mean the alluring beautiful woman is the leader of this team?

'Why does she want to take Selena as her disciple?

'Is she for real?'

David had the same thoughts as Selena.

If Celeste were a man, David would not hesitate to reject regardless of whether Selena asked him for his advice or not.

However, David was unsure since this woman was even more alluring than Selena.

If Celeste genuinely wanted to take Selena as her disciple, David would agree.

The future was too long and lonely. Of course, it would be nice to have someone familiar as a companion.

David even hoped Celia and the others could enter Eternal Realm so they could become immortals just like him and accompany him forever.

Unfortunately, he knew this wish would be very tough to fulfill.

This was Eternal Realm!

There were millions of living planets in the Milky Way, and there were also countless humans in them.

Yet, there had been no Eternal Realm among them after so many years.

If he did not have the system, David would not even dare to think about it.

Plus, only he could use the system. He could not help others break through.

"Amadi, how should I address her?" David looked at Amadi and asked.

"This is Ms. Celeste. I just became a Universe Enforcer and she took me out to take a look at the outside world. She's a well-known and experienced Universe Enforcer, and she's very powerful."

After Amadi said that, Celeste next to him said, "David, my name is Celeste Red and you can call me Celeste. I can tell that everyone here listens to you. I want to take Selena with me. Do you object?"

"Ms. Celeste, won't it be a little impolite if you let David call you by name?" Amadi complained.

"This is different. You can also call me Celeste. You don't have to worry about your mom," Celeste said nonchalantly.

'Call her Celeste?'

Amadi did not dare to do so.

His mother would skin him alive.

"C—Celeste, do you genuinely want to take Lena as your disciple, or is this just a whim?" David asked.

"Of course it's genuine!" Celeste answered.

"Does Lena have a chance to get into Eternal Realm?"

"If she comes with me, that is. I can't guarantee you other things, but I can guarantee that she'll get into Eternal Realm within a hundred years."

Everyone was shocked by what Celeste said, and they all turned their gaze to Selena.

Amadi was no exception.

'Go from Star Realm to Eternal Realm in a hundred years?'

'How talented would she have to be?'

'Even those exceptional rogues won't dare to say they will rise from Star Realm to Eternal Realm in a hundred years!'

'Did my Star Observation Skill misread this lunatic?'

'No!'

'I have to continue training my Star Observation Skill.'

'If not, I might miss out on another lunatic like this next time I meet them.'

Celia, Pearl, Sandy, Julia, and Amelia were looking at Selena with envy in their eyes.

At the same time, they felt bitterness inside their hearts.

## I'm A Quadrillionaire chapter 1320

### Chapter 1320

It was possible that after hundreds of years, only David and Selena would be the ones among them who would still be alive.

When the time came, they could travel across the universe carefreely.

“Lena is just a woman from a low-level civilization, so how did she attract the recognition of such an aloof and remote Universe Enforcer like you, Celeste?”

David did not let Celeste’s words get to his head.

If Celeste wanted to take Selena away, she had to let him know why.

If not, David would not agree.

He had to be wary of other people’s intentions.

He could not believe someone he just met because of a few words.

Even if he got along with Amadi, David would not trust him fully.

Trust between humans needed to be built after spending time together.

Do you think I’m lying to you?” Celeste asked.

I’m just a little curious,” David answered.

You and Selena were born in a low-level civilization while I am an aloof and remote Universe Enforcer, so why should I lie to her? As for why, I can’t tell you yet. You won’t understand even if I tell you.”

I’m sorry. If you don’t tell me why, I won’t let Lena go with you.”

At this moment, Amadi interrupted.

“David, you should agree since Ms. Celeste is now accepting disciples. You must know that countless chosen ones from good families wanted Ms. Celeste to take them as disciples, but she rejected all of them. Ms. Celeste is very well-known even in my hometown. This is the first time she is accepting a disciple voluntarily, so if you miss this chance, you won’t get it back.”

Amadi was nervous.

If Ms. Celeste successfully took Selena as her disciple, David might change his mind.

“Amadi, if you were me, would you hand the person closest to you to someone you just met when you still didn’t understand what was going on?”

“Um...”

Amadi was speechless after he heard that.

Selena smiled sweetly inside her heart when she heard David calling her his closest person.

She was relieved to let David decide for her. She believed David would make the right choice.

Even if Celeste was telling the truth, Selena still could not decide for herself.

If she left with Celeste, she would have to part with David for some time.

However, if she looked at it as a long-term plan, this was undoubtedly the right choice.

“David, I am a Universe Enforcer and considered noble. How could I be as horrible as you think I am?” Celeste asked unhappily.

“You’ve misunderstood me, Celeste. I just want to protect everyone around me. This is also the reason why I am working so hard to improve myself. If I can’t even protect the ones closest to me, will it matter if I’m in Eternal Realm or not?”

What David said touched Selena and the women around him.

As they looked at his tall figure, they were even more sure of their decision.

Celeste was speechless.

‘This punk is so annoying.’

Even though she understood why David was doing this, it didn’t really matter. David did *not* know how to appreciate favors, and Celeste was a little annoyed by this.

‘He’s just someone at Eternal Realm from a small low-level civilization, how dare he disrespect a Universe Enforcer?’

‘I wonder who gave him the courage to do so.’

‘They who know no fear know nothing indeed.’

However, Celeste would not tell him them the truth.

The fewer people know about this, the better.’
