

I'm A Quadrillionaire chapter 1365

Chapter 1365

There were still three days before leaving Earth, the Milky Way, and going to the high-level civilization Star Kingdom.

After leaving this time, they would not be back in a short time.

Once David left, there would be no Eternal Realm powerhouse watching over this place.

The Milky Way's safety could not be guaranteed.

So before leaving, David wanted to go to Beast Galaxy to punish someone as an example to others so he could intimidate the strong around him in one fell swoop.

And Nine-Headed Serpent Clan would be the victim.

Those guys wanted to keep humans from the Milky Way in captivity several times and were so sinister.

For countless years, the Milky Way had lost track of how many humans died in the jaws of the Nine-Headed Serpent Clan.

The scene David saw last time was pure hell.

Now he did not have that strength, otherwise, David might not be able to resist going directly to destroy the Nine-Headed Serpent Clan so that he could completely eliminate them and avoid future troubles.

However, it was fine if he did not have the strength this time.

He had two Universe Enforcers, Celeste and Amadi, with him. He would be a fool not to utilize such powerful backers.

With the two Universe Enforcers, the Nine-Headed Serpent Clan absolutely dared not resist.

However, if David wanted to completely eliminate hidden dangers, he probably had to wait until he became stronger.

Universe Enforcers also needed to act in accordance with Universe Convention.

Otherwise, their status as Universe Enforcers would be revoked.

The next day, Celia went home early in the morning.

She wanted to use the time to accompany her parents more.

David thought about it, and in order to let Celia and the others spend more time with their families, he called them and told them to stay at home. Then, he would go and pick them up when the time came.

It would not take much time anyway.

It would be fine for Celia as she lived nearby, for the women who lived farther away, they would have to leave a day or two in advance.

Since it only took dozens of seconds for David to pick them up, why not do just that?

The women received David's call, saying that he would come to pick them up. Naturally, they were very happy, and they continued to accompany their families at home with peace of mind.

After finishing the phone call, David suddenly heard Celeste's voice outside the house.

"David, come out. I have something to tell you."

David stood up. Coincidentally, he also wanted to talk to Celeste about going to Beast Galaxy.

After opening the door and walking out of the room, David saw Celeste sitting in the small courtyard. However, something was wrong. She had an unpleasant expression on her face and she seemed very

angry.

'What's wrong?

'Wasn't she fine yesterday?

'The three women chatted so happily that they completely ignored me.

'So why is she like this so early in the morning?'

David was a little puzzled.

He really could not figure out what Celeste was thinking. She was too moody.

'I didn't offend her, right?

'Is it about Goldie?

'She can't blame me for this.

'I had no intention of taking Goldie in the first place.

'Celeste was the one who asked Goldie to go with her. So what's my business in this?'

David felt helpless when he met such an unreasonable woman.

More importantly, he could not afford to offend her.

This woman was too powerful.

Shaking his head, David bit the bullet and walked over.

"What can I help you with?" David asked, sitting across from Celeste.

"David, can you control yourself at night, kid?" Celeste looked at David and said in an unfriendly tone.

I'm A Quadrillionaire chapter 1366

Chapter 1366

"Huh?"

David opened his mouth a little confused.

'What does that mean?'

"What do you mean 'huh'? Although I know it's hard for a young man like you to control yourself, can you please consider other people's feelings?"

"C—Celeste! You... What do you mean?" David still did not understand.

In fact, what Celeste said was very clear.

Of course, he could understand.

However, Celia was his girlfriend. 'Isn't it normal for us to be intimate? This should have nothing to do with her, right?'

"What do I mean? I've made it so clear. Do you really not understand or are you pretending like you don't understand? From now on, as long as I'm here, you're not allowed to do this kind of thing again, or I'll go and knock on your door."

Now David understood completely.

'It's really because of me and Celia.'

Even though David had a good temper, Celeste still made him a little angry.

'This woman is really crazy.

'She even wants to manage when others are being intimate.

'Is something wrong with her brain?

'I wonder how she cultivated such strong strength.'

"Celeste, you're too nosy! Celia is my girlfriend, what's wrong with us being intimate with each other? Are we in your way?"

"I don't care if you want to be intimate, but don't do it here."

"Why?" David asked suspiciously.

Seeing David like this angered Celeste.

"Why? You still have the nerve to ask why? I have lived more than a thousand years safely. It is because of you that I became like this! Now 90% of my strength is used to suppress the power that is about to explode in my body. If you don't stop, everyone will be doomed once I can't suppress it anymore."

'Uh...'

David seemed to understand.

'This does seem to be my fault.

'But can't she turn off her mind power?

'Then she won't be able to feel anything.'

How would David know that Celeste's mind power was just produced not long ago, so it was still very weak and could not be turned off as freely as he could?

Otherwise, how would she have no way to fight back and let him bully her in the fantasy?

"Celeste, you can turn off your mind power. This way you won't be able to perceive external things, and you can have a good rest," David said brazenly.

“You...” Celeste was so mad she could not speak.

She almost forgot that this little bastard was a lunatic.

He could already turn his mind power on and off freely, unlike her who still could not control it fully.

“David, I don’t care if you hold back or control yourself. Anyway, as long as I’m here, you can’t do this kind of thing anymore. You can’t even do it when we’re on our way in two days, or I’ll go over and knock on your *door*.”

“Celeste, you’re asking for too much.” David smiled wryly.

“Am I? If you continue this, you will know the consequences if I really can’t suppress it anymore.”

‘Fine!’

For his safety and everyone else’s, David finally chose to do what Celeste said.

After all, it was he who caused it.

ut to a

“Okay! Don’t worry, Celeste, I will pay attention in the future. Even if I want to be intimate, I will go out hotel and I won’t stay here,” David agreed.

“That’s more like it. Well, remember what you said, I’ll go first.”

Celeste stood up and was about to leave.

“Celeste, wait!” David stopped.

“What?” Celeste asked.

“I have something I want to discuss with you, and I hope you can help me.”

“Oh? You need my help? Let’s hear it.” Celeste sat down again.

I’m A Quadrillionaire chapter 1367

David told Celeste that he wanted to go to Beast Galaxy, and was going to ask her for a favor. He wanted to borrow her identity as a Universe Enforcer to intimidate the Nine-Headed Serpent Clan.

At the same time, he wanted the powerhouses of the surrounding galaxies to dare not attack the Milky Way.

Only in this way could they leave Earth, the Milky Way, and go to the Star Kingdom with peace of mind. If his home was not safe, he would not feel at ease after he went to a high-level civilization.

David did not want to see the Milky Way in ruins the next time he came back.

Although this possibility was very, very low, it was not impossible. What David wanted was to put an end to it. He did not want even the slightest possibility.

“Celeste, what do you think? Can you do me this favor?” David asked.

Naturally, Celeste would not refuse David’s simple request.

Instead of refusing, she would try her best to help David get things done.

Celeste originally wanted to have a good relationship with David the lunatic, so that when he became stronger, he could in turn help herself and the Iridescent Sect.

Now that David was asking for help, it was everything Celeste was hoping for.

However, the method of helping was important too.

She could not just agree so simply as the effect would be too bad.

So, Celeste said, “It stands to reason that if the other party has not violated the Universe Convention, the Universe Enforcers cannot intervene.”

“The Nine-Headed Serpent Clan loves to eat humans the most. They have infiltrated our Milky Way many times and want to keep us in captivity as the food they want for a long time, which is already a violation. of the Universe Convention. After all, they are a mid-civilization, and we are just a low-level civilization. The strength of the two sides is too different.”

“Then you have to show evidence! The Milky Way is fine now. They are in their own territory, and it is against the rules for me to punish them as a Universe Enforcer.” Celeste said apologetically.

In fact, she could destroy the Nine-Headed Serpent Clan easily as long as she wanted to.

This small race in the level 5 civilization was no different from ants to Celeste.

As for going against the rules, she said it on purpose.

The purpose was to make David feel grateful.

This would help achieve better results.

“Then what should we do? We won’t leave without worry if we don’t use them as an example to scare the strong around us.” David frowned.

He did not expect this to be so troublesome.

‘Does an awesome Universe Enforce not have this bit of power?’

Moreover, he did not want Celeste to kill the Nine–Headed Serpent Clan directly.

He just wanted to punish and warn the other party, and while he was at it, achieve the effect of deterring the people around them.

When he returned, it would be extermination day for the Nine–Headed Serpent Clan.

“Actually, it’s not impossible at all. As a Universe Enforcer, I can use my authority to punish the Nine- Headed Serpent Clan, but it will be more troublesome, and I hate trouble the most,” Celeste said.

“If you have any request, you can just say it directly. It’s so boring to go around like this. As long as I, David Lidell, can do it, I will agree with you as long as it does not violate any principles.”

David could also tell that Celeste was trying to exchange conditions after saying so much.

“David, since you’ve said that, then I won’t hold back. You need to promise me a condition. As for what the condition is, I can’t tell you now. We’ll talk when you surpass Eternal Realm and reach the next realm. Don’t worry, I will never ask you to violate any principles.”

“Okay, I accept,” David thought for a while and said.

“It’s a deal! Then we’ll go to Beast Galaxy, deal with the Nine–Headed Serpent Clan, and then go on our way,” Celeste said happily.

How would Celeste be sad after she got the promise of a strong person who was likely to surpass Eternal Realm in the future?

Although Celeste was only over 1,700 years old by virtue of her alluring body, she had already reached Eternal Realm Sovereign Rank.

However, if she wanted to surpass Eternal Realm and reach the next realm, she still had a long way to go.

She might even be stuck on Sovereign Rank forever.

“Okay, Celeste! It’s a deal,” David agreed.

The reason why he agreed to Celeste so readily was not because of the reason just now.

In the future, Celia, Selena, Pearl, and the others would all join the Iridescent Sect, and they all need Celeste’s help and care.

David was bound to be in a hopelessly complicated relationship with this woman, Celeste.

I’m A Quadrillionaire chapter 1368

Chapter 1368

If Celeste could really bring Celia and the others into Eternal Realm, David would agree to ten conditions that were within his ability without hesitation, let alone one.

After this was settled, they would go to the Beast Galaxy when the deadline rolled around.

With the help of Celeste’s Universe Enforcer identity, David would collect some interest from the Nine- Headed Serpent Clan.

As for the principal amount, David would only collect it after he returned from Star Kingdom.

Not long after, David received a phone call that surprised him.

It was from Ava.

She told David that she had decided to leave Earth with him.

This was something David did not expect.

He did not understand how Ava made this decision.

One must remember that they had not seen each other for several years.

David tried to change Ava's mind over the phone but in the end, he failed to convince Ava.

'Fine, I got myself in more trouble.'

However, since it was a promise, David could only accept it.

'We'll just go together. After all, we're classmates.'

Since David failed to change Ava's mind, he asked her to wait at home and told her that he would go to pick her up when the time came.

The reason Ava finally made such a decision was because of her family.

Who was David?

The savior of Earth and the strongest person.

Countless people dreamed about the opportunity to follow him.

Therefore, Ava's family agreed with her going.

It was soon the last day.

David directly tore apart the space, went to Celia's house first, and took Celia away.

Then, he went to pick up a few others.

After less than ten minutes, Celia, Selena, Pearl, Sandy, Julia, Amelia, Goldie, and Ava were all gathered.

As for the two newcomers, Goldie and Ava, the girls were already used to such incidences, so they got along very quickly.

Amelia and Ava were both among the Three Campus Belles of South River University, and they had known each other since they were in school.

Being able to meet an acquaintance here made Ava feel a little more relaxed.

Not long after David brought everyone to the courtyard, Amadi and his four maids arrived.

After getting out of the space crack, Amadi spotted a group of beautiful women and they were all drop-

dead gorgeous.

“Dave, not bad. You’re even better than me!” Amadi gave David a thumb’s up.

“Amadi, this is not what you think,” David smiled bitterly.

“I understand. I understand,” Amadi said with a smirk.

‘What the hell do you understand?’

David felt speechless on the inside.
