Chapter 1407

The Eternals of the Beast Galaxy all nodded in tacit understanding.

When they were about to kill Lucius and Serpentine, Lucius suddenly thought of a good way to escape

this situation.

He immediately said loudly, "Everyone, don't be fooled by David. His purpose is to use his Soulbound Weapon to cause an internal conflict within the Beast Galaxy. If we work together to kill him, the Soulbound Weapon will be ours, right? The Nine-Headed Serpent Clan promises *not* to participate in the competition. Have you ever thought of how to divide the only Soulbound Weapon? At that time, it will be another battle within the Beast Galaxy. This is David's despicable plot!"

After Lucius finished speaking, he paused. Then, he continued, "Moreover, David found the Soulbound Weapon from a ruin. Who can guarantee that he only found one? If he really just found one, why would he be willing to show it to everyone since the top-quality Soulbound Weapon is so precious? I think he must have discovered a lot of them and now he is taking one out to start a fight between us.

"Now, we should unite to cripple David and make him hand over all of his Soulbound Weapons. If we do that, each of our forces might get one, which will then avoid this life-and-death struggle. Not only will it preserve our strength, but we can also get a Soulbound Weapon each, so why not do this?"

Lucius said so much in one breath under such urgent circumstances.

Therefore, after he finished speaking, he gasped heavily.

He had no choice.

If he did not speak quickly, he would not have a chance once these guys made a move after they finished

their discussion.

At the same time, Lucius also observed the changes in their expressions.

He figured what he said could move these greedy guys.

One top-quality Soulbound Weapon could make so many of them fight to the death.

If there were more or even dozens of them, these guys would surely go mad.

Even if it were just a possibility, it was enough for them to risk their lives to verify it.

In addition, more than a dozen powerful Ruler Rankers were teaming up to attack David and his gang.

It would surely be a crushing defeat.

Lucius could not think of any way for David to resist the siege of so many powerhouses of the same level.

He could not think of any reason why these greedy guys would not take action against David.

Indeed, Lucius' words once again silenced the entire scene.

This was because what he said was possible.

Since David found the top-quality Soulbound Weapon in a ruin, why couldn't there be a second, third... or even a tenth?

Furthermore, David was willing to give up the sword in his hand, which only proved that he should still have more.

Otherwise, it would be impossible for him to hand over the top-quality Soulbound Weapon.

More than a dozen powerhouses around them showed expressions of joy at the same time.

If David had a few more Soulbound Weapons, their chances of success would be much higher.

If there were only one, then there would be only one winner in the end even after they fought to their deaths.

However, if David had more, everyone could get a share.

Just like Lucius said, not only would this avoid infighting and preserve their strength, but they could also obtain a Soulbound Weapon that all Eternals coveted after.

David did not expect Lucius to do this.

He originally wanted to take advantage of the desire of the other powerhouses in the Beast Galaxy for Soulbound Weapons to destroy Lucius and Serpentine.

Then, he would state Amadi's identity as a Universe Enforcer to see if they dared to still ask him for the Evil-Splitting Sword.

Chapter 1408

His plan to get other people to do his dirty work was perfect.

He could destroy the Nine-Headed Serpent Clan without wasting any effort.

In the end, Lucius saw through him easily.

David looked at the expressions of more than a dozen giant golden beasts around him.

He knew Lucius' words had moved these guys.

If one Soulbound Weapon could make them fight to the death, not to mention a few or even a dozen.

The point was that David had no way to explain this matter, so he could only suffer this disadvantage in silence.

He wanted to get others to do his dirty work, but he was tricked.

Now, he was the one trapped in a dead end.

David shook his head helplessly.

Lucius was able to step into Eternal Realm and become the head of the Nine-Headed Serpent Clan, so he was not an easy character to deal with.

Amadi watched all this with interest.

With his status, he naturally would not be worried about a mid-level civilization.

Although there were a lot of opponents, he might not fear these dozens of giant beasts if he fought seriously and used all his tricks.

A level 5 civilization could not fathom the means of a high-level civilization.

Amadi not only had two Soulbound Weapons, but he also had many tricks from Star Mansion.

At this time, a giant golden beast could not help but ask, "David, did you hear what Lucius said? Be honest, how many Soulbound Weapons have you found in the ruins?"

All the giant golden beasts looked at David, waiting for his answer.

"You have such an active imagination. This is a Soulbound Weapon, not a cabbage in a market. How can there be so many? I was lucky and found this one, and this is the only one I have. I don't care if you believe me or not," David shrugged and said helplessly.

"David, don't try to fool us. You need to be aware of your current situation. Since there was a Soulbound Weapon in those ruins, there must be a second one. Be sensible and hand over all the Soulbound Weapons. Don't force us to do it. If not, don't blame us for hurting you and not warning you," another giant golden beast threatened.

"Yeah, David, don't even think of leaving if you don't hand over all the Soulbound Weapons!"

Other giant golden beasts also spoke one after another.

This was related to everyone's common interests, so no one wanted to fall behind.

"I really only have one Soulbound Weapon. I brought it out from the ruins after a lot of hard work. I almost lost my life in the process. Now, you are asking me for more, but where am I supposed to get it?"

David did not know what to say anymore.

He knew that no matter what he said, these guys would not believe him.

"Do you think we will believe you? If you really only have one, would you really be willing to hand it over? Do you think we are fools?"

"I can't do anything if you don't believe me."

"David! It seems that you're will refuse until you are faced with the grim reality and are insisting we take action against you. When the time comes to fight, we might not be able to control the outcome. You'd better think carefully."

The surrounding giant golden beasts were already getting a little impatient.

It would be best to let David hand over the Soulbound Weapon without doing anything.

If David refused, they could only take action and kill David to take everything from him.

The temptation of a Soulbound Weapon was too great.

Moreover, there might be more than one.

Hence, they had to risk everything.

Chapter 1409

Facing more than a dozen giant golden beasts at Eternal Realm Ruler Rank around him that were getting restless, David did not feel the slightest fear, but instead, he said calmly, "I've thought about it. I also

hoped to give you more Soulbound Weapons, but there is *no* way! I just found this one, and I don't know magic, so it's not like I can conjure up what you want."

"Everyone, it seems that David is not going to hand over the Soulbound Weapons. What are you waiting for? Take action now! As long as David is killed, all of the Soulbound Weapons he has will be ours!" Lucius urged anxiously from the side.

He hoped to get rid of David as soon as possible.

He was worried that an accident might occur if he waited too long.

This was because Lucius found a problem, David never showed the slightest fear when he was facing so many powerhouses of the same level. He only showed indifference on his face.

On the other hand, the young man who came with him just now showed an expression of disdain.

Although the expression disappeared after a moment, Lucius still saw it.

It was either those two were fools, or they still had not used their trump cards.

David could be the first to step into Eternal Realm in the Milky Way, a level 3 civilization, and become the Master of the Milky Way, so Lucius could basically rule out the first one.

In other words, David and the young man still had trump cards.

Moreover, it was a trump card that could allow them to not fear the assault of these powerhouses at the same level as them.

The conflict between the Nine-Headed Serpent Clan and David was already irreconcilable.

Now, Lucius wanted to involve the entire Beast Galaxy.

At that time, even if David had more tricks, he would be facing the entire Beast Galaxy.

If they were not enough to deal with David, Lucius would summon all the Eternal Realm powerhouses in the Beast Galaxy.

He wanted to see how David would resist this.

The Eternals here were only half of all the powerhouses in the entire Beast Galaxy.

“Benito, the Tyrant Rex Clan is the number one race in the Beast Galaxy. Why don’t you say a word?” Asked a giant golden beast.

Then, all the giant golden beasts looked at one of the giant golden beasts that looked like a Tyrannosaurus Rex that had existed on Earth a long time ago.

However, his hands were not the same as a T–Rex’s, instead, they were similar to a human’s. They looked thick and powerful.

“Since this human being doesn’t know how to appreciate favors, let’s take action! Get rid of him as soon as possible. I can’t wait to see my Soulbound Weapon,” Benito directly made a decision.

Lucius was secretly happy when he heard that.

The first–ranked in the Beast Galaxy, the Tyrant Rex Clan, had spoken, so there was nowhere for David to escape to.

He would face the siege of all races in the entire Beast Galaxy.

Lucius’ plan succeeded.

All the surrounding giant golden beasts started to move toward the center.

The center was where David, Amadi, and the enormous tortoise which Celia and others rode were located.

“David, what should we do next?” Amadi looked at David and asked.

“Are you scared, Amadi?” David asked back.

“Afraid? Hahaha! David, you look down on me too much. I, Amadi Star, haven’t known the word ‘afraid’ since I was born,” Amadi laughed loudly.

“Then, how about going crazy with me, Amadi?”

“As you wish!”

After Amadi finished speaking, he took out a pair of gloves from his pocket and put them on his hands calmly.

At the same time, a pair of gloves appeared on his Eternal Golden Body.

This scene immediately shocked the moving giant golden beasts.

‘Another Soulbound Weapon?’

In addition to being shocked, they also felt extremely excited.

‘Great!

‘David and the other guy really have more than one Soulbound Weapon.

‘Since there are already two pieces, there should be three or four more.’

Chapter 1410

The happiest of them all was Benito from the Tyrant Rex Clan.

He knew the move called Tyrant Punch, and he needed a pair of gloves to help him exert its maximum power.

Unexpectedly, the gloves appeared right when he needed them the most.

Benito wanted these Soulbound Gloves.

With this pair of gloves, the power of his Tyrant Punch could definitely increase by a few folds.

“Haha! I didn’t expect that. I didn’t expect that at all. How did you know that I needed a pair of Soulbound Gloves? Since you’re handing them to me right now, I will gladly accept them. None of you should fight over these gloves with me. I don’t want anything else,” Benito said with a guffaw.

“Okay, Benito! The gloves are yours, but you can’t fight for the other Soulbound Weapons anymore no matter how many David has.”

“Yes, Benito, I can give you the gloves. Even if David doesn’t have any more Soulbound Weapon in his hands, we won’t fight you, but you have to promise to only take the gloves.”

“Yes, I just need the gloves, and I’ll give you the rest,” Benito replied.

“It’s a deal!”

“It’s a deal!”

“It seems like you already have me in the bag, huh?” Amadi could not help asking while looking at the giant golden beasts who had already begun to split the spoils.

“Of course! Kid, do you think you still have a chance to escape? Give me the gloves and I won’t destroy your corpse. Otherwise, I will not only let you die without a corpse, but I will also kill your entire family in the future,” Benito looked at Amadi and said arrogantly.

“Aren’t you afraid that you’ll choke on your saliva from boasting too much? Do you know that everyone who dares to talk like this to me is dead? Your name is Benito, right? You got a good name, but I don’t know if you can keep it for long.”

Amadi was seething.

How dare a trash-like race in a level 5 civilization talked to him like this?

He really had a death wish.

Even in the high-level civilization where his hometown was located, no one dared to speak like that to the younger head of Star Mansion, let alone in a mid-level civilization.

Star Mansion was not the most powerful sect in Amadi’s hometown, but it had at least entered the top ranks.

“Hahaha! Boy, are you talking to me? Do you know where this is? This is Beast Galaxy, the territory of the Tyrant Rex Clan.”

Amadi did not want to talk nonsense with Benito anymore.

Talking to such a beast was a waste of breath.

He took a step forward and charged toward Benito.

As the first-ranked Tyrant Rex Clan in the Beast Galaxy, Benito was naturally not afraid.

As Amadi charged toward him, he also approached Amadi like he was a wild horse without reins.

Two huge golden figures, one man and one beast, approached quickly.

Amadi did not make any fancy extra moves. He punched Benito with his right hand which was equipped with the Soulbound Glove.

At the same time, he roared inside his heart, 'Star Banishing Punch!'

This was one of Star Mansion's unique skills.

Its power should not be underestimated after it was coupled with the support of a Soulbound Weapon.

It was as if there was a super huge planet on his fist.

Seeing such a powerful punch, Benito did not dare to block it just like that. Instead, he dodged sideways. However, the wind created by the Star Banishing Punch still scratched against Benito's skin painfully.

'What kind of technique is this?'

'It is actually more powerful than my Tyrant Punch.'

'I have to get it!'

'I must get this powerful set of techniques!'
