Chapter 1411

Benito dodged Amadi's Star Banishing Punch, and before he could counterattack, Amadi swung his fist toward him again.

It was still the powerful Star Banishing Punch, and Benito could even vaguely see a huge fiery red planet on Amadi's fist.

The extreme high temperature made him feel as if his skin was burnt.

It was too late for him to dodge this blow, so he was forced to brace himself and block it.

'Tyrant Punch!'

Benito was not to be outdone.

The Tyrant Punch from the Tyrant Rex Clan flew toward Amadi with all his strength.

Amadi had a look of disdain on his face.

Although Benito's punch looked pretty powerful, compared with Star Banishing Punch, one of Star Mansion's skills, it was still far behind. They were not at the same level at all.

Moreover, Amadi was still carrying the Soulbound Weapon bestowed by his father: Blazing Sun.

This was a glove specially configured for Star Banishing Punch. When the two were superimposed together, their power would be even greater.

Although not as good as the Evil-Splitting Sword technique David cast using the Evil-Splitting Sword, it was still far better than any average move.

Even if Benito was one level higher than Amadi and was an Eternal Realm peak Ruler Ranker, the superposition of Star Banishing Punch and Soulbound Weapon Blazing Sun was enough to make up for this gap.

It might even surpass it.

Boom!

The huge waves generated by the impact of the two fists spread, shocking the surrounding strong Eternal Realm Ruler Rankers.

Benito was a peak Ruler Ranker.

Although Amadi was only a late Ruler Ranker, with Soulbound Weapon Blazing Sun and Star Mansion's skill Star Banishing Punch, he could definitely match or even surpass a peak Ruler Ranker.

The two's collision at full force represented the greatest combat power of Eternal Realm Ruler Rankers.

Amadi shook off the shock and stood firmly on the spot.

At the moment of the collision, Benito felt a huge force overwhelming him, accompanied by severe pain

in his fist.

His body was forced to stagger a few steps backward before stopping.

At the same time, he endured the pain of being burned by the extremely high temperature on his fist.

Such an unexpected scene stunned all the surrounding Eternals.

'This human is just a late Ruler Ranker, but he knocked back Benito, who's a peak Ruler Ranker?

'Moreover, Benito seems to be in severe pain.'

When they saw Benito's fist, they suddenly realized.

At this moment, they could see the burn on Benito's golden fist clearly.

Upon seeing Benito's reaction, Lucius was terrified for a while.

He had fought this human just now.

Fortunately, both parties just wanted to delay the time and did not try their best.

Otherwise, his fate would definitely be worse than Benito's.

After all, Benito was a peak Ruler Ranker, and he was only a late Ruler Ranker.

Even Benito was not this human's opponent, let alone himself.

Next, all of the giant golden beasts turned their eyes to Amadi's hands.

In it was another powerful Soulbound Weapon.

To these guys, that pair of gloves definitely played a part in Amadi, a late Ruler Ranker, beating Benito, a peak Ruler Ranker.

Unfortunately, they had been reserved by Benito, so they did not have the chance to get them.

Indeed, one could punch someone above their weight if they had a Soulbound Weapon.

I'm A Quadrillionaire chapter 1412

Chapter 1412

Whether it was David or the human being beside him, the reactions were the same.

David could cross two small realms and defeat Serpentine, a late Ruler Ranker.

This young human was not bad either. He could cross a small realm and defeat Benito, a peak Ruler Ranker.

The giant golden beasts around them were jealous.

They could not wait to kill David and take all his Soulbound Weapons.

In this way, they would also have the strength to fight someone more powerful than them.

"An Eternal Realm peak Ruler Ranker? You're just so-so. Hahaha!" Amadi knocked Benito away with a punch and said while laughing.

His laughter was piercing as it filled Benito's ears.

Being hurt by a human being one level lower than himself was definitely the greatest embarrassment in his life.

The Tyrant Rex Clan was the most powerful race in the Beast Galaxy, and no race dared to mess with them.

They had always been domineering and arrogant, so when did they ever suffer such humiliation? However, at this moment, Benito was quite shocked.

Although this human being was a little lower than him, his strength was terrifyingly powerful.

Even if it was because of the Soulbound Weapon, the punches he used were also very powerful.

Benito even felt it was much more powerful than the Tyrant Rex Clan's Tyrant Punch.

'Who is this man?

'David was just a human being from a low-level civilization who has just stepped into the Eternal Realm. Where did he find such a powerful helper?

'They are so friendly to each other, so it is clear that they are close.'

Benito was confused.

However, now was not the time to think about these things. He wanted to destroy his opponent first, and get the Soulbound Weapons as well as that powerful punch technique.

"Human! You are the first person who dared to attack the Tyrant Rex Clan in the Beast Galaxy. You have successfully angered me. Next, I will show you that some things cannot be done with casually, otherwise, you will have to face serious consequences." Benito stared at Amadi and said through gritted teeth.

"You? You're just an animal with impure blood. Do you know what we call a guy like you?"

Amadi paused, then grinned. "A b&stard!"

"You're asking for it!" Benito spat out word by word, his eyes blood red.

Amadi was scolding the entire Tyrant Rex Clan when he said that.

The Tyrant Rex Clan was the most powerful among the many galaxy beast races in the Beast Galaxy.

For so many years, they had dominated the Beast Galaxy, and no one dared to mess with them.

How majestic and imposing were they?

Now, they were called animals by an outsider.

“I am asking for it, but I’m sorry, you can’t give me what I want. It is not just you, even if all you beasts work together, you also can’t satisfy me.”

Amadi glanced at all the giant golden beasts with a look of contempt.

Who was he?

The younger head of Star Mansion.

Not anyone could offend him even in his hometown, a high-level civilization, let alone a level 5 civilization.

Besides, Amadi was not easy to deal with. He had a distinguished status and extraordinary talent. Even in his hometown, he was an annoying guy with a good reputation.

The reason why he came to the Milky Way and acted so politely was that he wanted to recruit David into Star Mansion.

Of course, Amadi would not allow these animals with impure blood to flaunt their power in front of him.

They were only from a level 5 civilization.

If they really p*ssed him off, he would harness the power of Star Mansion and destroy them in a matter of minutes.

Chapter 1413

Amadi was taunting all the giant golden beasts present.

These noble galaxy beasts had never suffered such insults, and now, Amadi was calling them animals.

This was unacceptable.

Despite this, they did not act immediately.

Instead, they waited for Benito’s next move.

Benito was one of the three strong Eternal Realm peak Ruler Rankers of the Tyrant Rex Clan.

He would definitely not spare the other party for hurting him and calling him an animal.

“Great! Great! Very great!!”

Benito said three ‘greats’ in a row, and then shouted loudly “Brothers, you heard it too. This human called the Tyrant Rex Clan animals with impure blood. When have we ever suffered such insults? He also scolded all of you just now, so will you guys just take this?”

As soon as he finished speaking, he got a response.

“Let’s attack him together! Get it done as soon as possible. According to what my third brother said just now, the Tyrant Rex Clan will only take that pair of gloves as loot, and the rest will belong to you guys, how about it?”

The voice came from the void.

The one who spoke was the head of the Tyrant Rex Clane, Benito’s elder brother: Idi.

“Since you said that, Lord Idi, we will do as you say! Since they want to insult the Beast Galaxy so much, they shouldn’t blame us for being ruthless. What do you all think?”

“Agreed!”

“Agreed!”

“Agreed!”

Several voices agreed.

Afterward, more than ten giant golden beasts came rushing over from afar.

Soon, they all arrived at the battlefield.

The giant golden beasts who came this time were obviously stronger than the ones who had appeared earlier.

Except for Lucius, Serpentine, and Benito, most of the batch just now were beginner Ruler Rankers and mid–Ruler Rankers. Meanwhile, this batch consisted of all mid and late Ruler Rankers. Among them were even three peak Ruler Rankers.

Altogether, there were about thirty beasts from the two batches of giant golden beasts.

These were all Eternal Realm powerhouses.

Almost 80% of all Eternals in the Beast Galaxy had been assembled.

Amadi felt things were getting tricky after they assembled.

With the strength of David, a beginner Ruler Ranker, and his Soulbound Weapon, it would be good if he could block three to five of them at most.

After that, Amadi could handle the rest.

Even if Amadi tried his best to face more than 20 Ruler Ranks including several peak Ruler Rankers, he might not have the strength to do so even if he was willing.

‘Fine. I guess I still need Ms. Celeste’s help.’

As for the option to simply reveal his Universe Enforcer identity and intimidating these guys, Amadi could not do it because he felt that it would be too embarrassing.

As far as he knew, the Universe Enforcer were an invincible existence in the hearts of these mid and low- level civilizations.

Amadi did not want to lower the reputation of the Universe Enforcer and allow these guys think that the Universe Enforcer were just so-so.

If these guys lost their sense of awe, it would be hard to manage them later on.

Even if he wanted to reveal his identity as a Universe Enforcer, he still needed Ms. Celeste to take action and embarrass these guys first.

In addition, Amadi figured that with the current situation, if Ms. Celeste did not do anything, these guys would not believe him even if he revealed his identity as a Universe Enforcer.

In the vast universe, the person with the most power would get the final say.

David looked at nearly thirty giant golden beasts at Eternal Realm that quickly surrounded him.

He was at a loss for words.

He originally wanted to use these guys to accumulate combat experience.

Now, he stood no chance after what Amadi did.

If he were attacked by thirty Eternals, it might result in serious injury or even death if he were not careful.

At that time, he would not even have a chance to abuse his immortality. That would be the real injustice.

The two looked at each other. Both of them could read each other's thoughts and they stepped back at the same time.

Chapter 1414

After approaching the enormous tortoise, they tacitly retracted their Eternal Golden Body and stood on the back of the enormous tortoise.

However, they did not return into the building.

The actions of the two also attracted the attention of the surrounding giant golden beasts.

"What's the matter? Weren't you very powerful just now? Not only did *you* call us animals, but you also said that we couldn't kill you even if we all worked together. What's the matter now? Are *you* scared? Don't retreat if you have the guts! Come here and let's fight!" Idi sneered

"Tch, is your head filled with nothing but sh*t? Which eye of yours saw that I was scared? If I were scared, why didn't I run away? I am standing here now. If you have the guts, come and kill me!" Amadi yelled.

Now he had fully revealed his true colors as the younger head of Star Mansion and also illustrated how he used his inherent strength to abuse others.

With Celeste, a strong Eternal Realm Sovereign Ranker, standing behind him, he would not be afraid of these sacks of trash.

Amadi did not pay much attention to the approaching giant golden beasts.

On the contrary, David on the side was a little worried.

Celeste told him 90% of her combat power had to be used to suppress the desire that was about to explode from her body.

This was the sequelae of triggering the alluring body.

Amadi certainly had no idea of this.

Now there were so many Ruler Rankers around, would the remaining 10% of Celeste's combat power be enough?

David was a little unsure.

He had no idea that as time passed, Celeste was not only using 90% of her combat power to suppress the desire, but 100%.

The reason she said she would not show her face and asked Amadi to handle this with David was that

she needed to control herself.

Inside the red room in the luxurious building on the enormous tortoise's back, Celeste looked out the window with an unpleasant look on her face. She scolded, "Damn those troublemakers!"

Normally, Celeste would not even bother about these Eternal Realm Ruler Rank trash.

However, this was different.

If she did not do anything, those troublemakers, David and Amadi, would not have the strength to handle so many opponents of the same rank.

'What should I do?'

Celeste was in a dilemma.

'If I don't do anything, David and Amadi will be in danger.'

'Of these two, one is my best friend's son whom I promised her to take good care of.'

'Meanwhile, the other one is a peerless lunatic who has a very high potential to go beyond Eternal Realm.'

'Therefore, I can't let anything happen to them.'

'If I do something, I won't be able to hold myself back.'

'The consequences will be serious if my alluring body is triggered as well.'

Celeste closed her eyes to try to see if she could spare some strength.

She did not need to spare much, as only half of it would be enough to defeat these Ruler Rankers.

After a while, Celeste opened her eyes.

Her face was pale.

'I can't!'

I'm A Quadrillionaire chapter 1415

Chapter 1415

These galaxy beasts from the Beast Galaxy did not kill David immediately but chose to approach slowly and surround him.

They would do this because David and Amadi were Ruler Rankers with Soulbound Weapon.

They were very dangerous.

If the two got nervous and joined forces to suddenly attack one of them, it was very likely to cause serious injuries or even death.

Hence, it was necessary to prevent David and Amadi's counterattack.

As long as David's retreat was blocked and they approached him slowly, even if David did a surprise attack, they would have time to react and avoid any serious consequences.

If nearly 30 Ruler Rankers were united and acted collectively regardless of the risk of getting injured, David and Amadi would have no room to resist at all.

After all, the difference in numbers between the two sides was too great.

Unfortunately, they did not do this.

These giant golden beasts possessed the highest combat power of their respective races. They not only represented themselves but also the galaxy beast race they belonged to.

If David selected them and they became the target of a sneak attack that led to serious injury or death, it would be a devastating blow to their race.

They needed to consider all these factors.

Therefore, everyone tacitly agreed not to attack rashly but to instead block David's way out. They tightened the encirclement, approached slowly, and concentrated on preventing any counterattacks.

No one wanted to be the lucky one that David targetted before he died.

The Soulbound Weapon was certainly important, but it is obviously paled in comparison to the survival of their entire race.

The atmosphere at the scene was extremely solemn.

The galaxy beasts like Benito were worried about David's counterattack, so they needed a high degree of concentration. Once they sensed that something was not right, they would act immediately.

Celia and the others held their breaths as they watched the giant figures approaching slowly.

From their tightly held hands, one could tell how nervous they were.

Meanwhile, David's heart sank slowly.

It stood to reason that when things got to this point, Celeste should have come out to say something as she was the only one who could take care of this now.

Despite this, Celeste had not made a move at all until now.

Thinking back to Celeste's recent performance and what she said, David felt that things might be getting a little tricky.

'Is Celeste not doing anything because she needs to suppress her desire with all her strength?

'If this is the case, we might have shot ourselves in the foot.'

David had a headache facing so many dominating galaxy beasts.

Even if he had the system, which was also his cheat code, at this moment, it would not help.

The system allowed him to spend money to quickly increase his strength, but it could not help him deal with powerful enemies.

He could only depend on himself now.

David felt powerless again.

'If I knew things would have turned out like this, I would just tell them Amadi's identity as a Universe Enforcer the moment we arrived.

'In that case, even if we revealed the Soulbound Weapon, no other galaxy beast races would have dared to interfere with our affairs with the Nine-headed Serpent Clan.

'Things have come to this point.

'Even if I tell them about Amadi being a Universe Enforcer, these crazy guys might not believe me. They will think that we want to take the opportunity to escape.

'What should we do?'

David racked his brain but could not find a solution.

He could only hope that Celeste could temporarily suppress her desire and spare some strength to frighten these guys.

He looked at Amadi next to him.

He saw that the other party did not have the slightest sense of urgency, and his face was calm and indifferent.

He was completely unaware of the crisis.

David sighed helplessly.

Amadi had no idea of the predicament Celeste was facing now, and that was why he showed this expression.

This was a secret between Celeste and David.

Celeste had warned him not to say anything, so naturally, he would not tell a third party.

I'm A Quadrillionaire chapter 1416

Chapter 1416

Now, Amadi might still be thinking about the scene where these galaxy beasts knelt and beg for mercy after Ms. Celeste took action!

However, the main culprit who caused this was still David.

If it were not for him, why would Celeste need to suppress herself with all her strength and not be able to act freely?

Even so, David was innocent.

Sleeping with Celeste was something completely out of his control.

Who made Celeste's alluring body so alluring?

It attracted his mind power so uncontrollably and forced him to that unbearable thing.

It was also the first time David found out that the mind power could do this.

It changed how he saw things.

As he was looking at nearly thirty giant golden beasts slowly approaching, Amadi felt a little indifferent.

In his opinion, who was standing behind him?

Celeste!

The first of the last seven high priestesses of the Iridescent Sect.

An Eternal Realm Sovereign Ranker.

Every once in a while, seven peerless high priestesses represented by seven colors, red, orange, yellow, green, blue, indigo, and violet, would appear in the Iridescent Sect.

Celeste was the head of the last seven high priestesses, and the color she represented was red.

Amadi's mother was also one of the last seven high priestesses of the Iridescent Sect, whose color was green.

Even in Amadi's hometown, Celeste was a well-known figure.

With such a strong person behind him, Amadi did not need to worry at all.

Ms. Celeste would solve all crises.

Amadi did not know that Celeste was looking at the giant golden beasts surrounding them with a gloomy expression.

If her alluring body had not been activated, she could easily solve the troubles in front of her at will. However, she was in dire condition now.

Once she made a move, she would not be able to suppress the desire in her body, and she would be in trouble.

It was impossible for Celeste to watch David and Amadi get killed.

Dozens of dominating galaxy beasts were already very close, surrounding the enormous tortoise.

If they took action at the same time now, David and Amadi would have no chance of escaping. Even if they fought back desperately, they would not do much.

Celeste knew she had to do something.

Once the two sides started to fight, there would be too many uncertainties.

She seemed to have made up her mind.

With a blushing face, she scolded, "David, you little b*stard, you caused all this yourself. If you dare to refuse whenever I ask for help, I will skin you alive."

David was now certain that Celeste was suppressing the desire in her body with all her strength.

He caused this.

'Sigh, I can only fight to the death.'

At this time, Amadi also began to have doubts in his heart.

'What happened to Ms. Celeste?

'Why is she not doing anything?

'Is she trying to train us?'

He glanced at the giant golden beasts who were already approaching.

'Train?

'Isn't she trying to send me to hell by asking me to fight against so many powerhouses of the same level? There are even a few peak Ruler Rankers among them!'
