

## I'm A Quadrillionaire chapter 1421

Chapter 1421

David and Amadi did not speak.

Meanwhile, the galaxy beasts did not dare to speak out at will either.

All they could do was wait quietly for David to make a request.

The scene was quiet for ten seconds.

Benito could not stand the atmosphere.

He felt that he could not sit still and wait for his death, so he had to save himself.

He had just offended Amadi and even wanted to snatch his Soulbound Weapon.

Benito felt a little nervous when he saw the sneer on Amadi's face.

Instead of waiting for David and Amadi to make a request, it would be better to be proactive.

He exchanged glances with several other late and peak Ruler Ranked galaxy beasts.

He slightly nodded to convey his intention.

After getting a response, Benito made up his mind.

The body suddenly launched into action.

Several other galaxy beasts who had communicated with Benito also moved at the same time.

Their target was Lucius and Serpentine.

These two guys were the culprits in this incident.

If not for these two guys, why would they offend the Universe Enforcer and be in their current predicament?

Now, he could only sacrifice the Nine-Headed Serpent Clan in order to obtain David's forgiveness and save their own lives.

Seven or eight galaxy beasts attacked Lucius and Serpentine together.

The sudden attack caught Lucius and Serpentine off guard.

They kept focusing on David.

To them, David was the biggest threat.

However, they did not expect Benito, who was desperate to survive, to attack them to gain David's forgiveness before David even said anything.

Thankfully, they were tense this entire time, so they could also fight back when Benito attacked.

However, not only were they different in terms of strength, they were also lacking in numbers. Boom boom boom!

"Pfft... Ah... Benito! You b\*stard, *you* will die a horrible death!" Lucius spat blood from his mouth and cursed loudly.

"Hmph! Lucius, how dare the Nine-Headed Serpent Clan offend Master David and Master Amadi? You were so reckless. Now, we are going to get rid of you on the two masters' behalf. As for whether we'll die a horrible death, I'm sorry, you won't be able to see it even if it happens," Benito said righteously.

The first collision between the two sides ended with Lucius and Serpentine being badly injured.

However, things were far from over.

Benito took the lead, and nearly twenty other galaxy beasts also joined the battle after they came back to

their senses.

They could not let Benito and his gang take all the credit.

At this moment, who did not want to curry favor with David and Amadi, the two representatives of the Universe Enforcer?

Killing Lucius and Serpentine was undoubtedly the best way to do this.

Lucius and Serpentine managed to hold off the first round of siege. However, before they recovered and their bodies had time to repair, the second round of attacks commenced.

This time, nearly twenty galaxy beasts teamed up to attack them.

Although their strength was only slightly weaker than Benito and his gang, they were all beginner and mid- Ruler Rankers.

Also, there were close to twenty of them.

Hence, this round of attack was not much weaker than the previous round.

“Ah... You... You b\*stards will die horrible deaths...”

Before Lucius finished speaking, he was already buried under nearly twenty attacks.

His body, which was already on the verge of collapse, vanished in an instant, disappearing from between heaven and earth.

Nearly 30 Ruler Rankers completely wiped out two late Ruler Ranked galaxy beasts in two rounds.

They did not give them time to repair themselves.

The immortal body of an Eternal was a joke under this overwhelming attack. It was completely destroyed before it could repair itself.

### Chapter 1422

An Eternal's speed was no joke.

The first round of attack led by Benito and the second round of attack led by the remaining nearly twenty galaxy beasts was completed within a very short period.

“Masters, the Nine-Headed Serpent Clan is the scum of the Beast Galaxy. Now that the two leaders, Lucius and Serpentine, have been killed, we will carry out a cleanup of their clan. We won't give them a chance to make a comeback ever again. I wonder if you two are satisfied?” Benito said respectfully.

Amadi watched all this with cold eyes.

Of course, he knew Benito's intention.

However, as the younger head of Star Mansion, he had a very noble identity.

Benito dared to commit an offense against his superior and even wanted to take his Soulbound Weapon. How could Amadi forgive him so easily?

He would not give up until these guys paid enough.

One had to know that even in Amadi's hometown, a high-level civilization, he was like a devil and few people dared to provoke him.

However, he was not that horrible.

At the very least, he could distinguish between gratitude and grudges, unlike some children of powerful forces who were temperamental and brutal.

This time, Benito had violated Amadi's bottom line and offended his honorable status as the younger head of Star Mansion.

A level 5 civilization dared to offend the younger head of Star Mansion. If Amadi did not do anything and word about this spread out, how would people view Star Mansion?

This was not just about Amadi, rather, this was related to the entire Star Mansion.

Seeing Amadi's stern expression, David knew that he would not spare Benito so easily.

Although on the surface, they had an absolute advantage, and Benito and the galaxy beasts were doing this to gain their forgiveness, David knew the situation was not ideal.

Celeste needed to control herself and could not attack anymore. The reason she attacked just now was that she had no choice.

Meanwhile, Amadi and himself could not defeat all these galaxy beasts.

If a fight broke out and Celeste did not do anything, they would have ended up like Lucius and Serpentine. They would have suffered a crushing defeat.

David's heart sank when he saw Amadi opening his mouth to say something.

He could not let Amadi speak and force Benito and the rest into a dead end.

Therefore, he said quickly, "The Nine-Headed Serpent Clan tried to invade the Milky Way multiple times to raise human beings as their food. They have already gone against the Universe Convention by doing that. This time, we're here to punish them. Even though you guys made a mistake just now as well, you managed to change in time and helped us annihilate the Nine-Headed Serpent Clan, so you offset your demerits with your merits. We will no longer hold the Beast Galaxy accountable."

What David said brought joy to the galaxy beasts present.

Indeed, sacrificing Lucius and Serpentine was the best decision.

They finally got acknowledgment from Master David and they could also keep their lives.

“Thank you, Master David! Thank you, Master Amadi! Thank you for being magnanimous. The Beast Galaxy will always remember this and never forget your grace!” Benito yelled happily.

Amadi frowned.

As soon as he was about to speak, David cut him off.

Not many people dared to take away his right to speak.

If it were someone else, Amadi would have flown into a fit of rage.

However, he was still not ready to spare Benito, so he opened his mouth to speak again.

Despite this, David spoke again.

“Amadi, the matter is settled, let’s go! Ms. Celeste is still waiting for us!”

After he finished speaking, he patted Amadi on the shoulder, then turned and walked towards the luxurious building.

Amadi stood alone.

He did not know if he should stay or leave.

In the end, he could only shake his head helplessly.

Soon, he followed David and turned to leave.

He discovered that this low-level civilization had tamed his temper a lot.

“Farewell, Masters! Farewell, Universe Enforcer!”

All the galaxy beasts shouted excitedly together.

They thought that they had finally sent these harbingers of bad luck away.
